If for any reason any of the sums herein provided under any other provision of this Act are insufficient to make the required payments in full, then there shall be taken from other funds appropriated to the department, agency, or institution involved an amount sufficient to satisfy such deficiency in full, and the lease payment shall constitute a first charge on all such appropriations.

Section 56: Budgetary Control and Interpretation

The appropriations of State Funds in this Act consist of the amount stated in the right-most columns for each line item containing, constituting, amending, eliminating, or redirecting state funds, including, regardless of whether such line item has a number less than 1,000 after the decimal (01 through 999) (for even-numbered fiscal years) or contains text within a box (for odd-numbered fiscal years).

The appropriations of Federal Funds and of Other Funds in this Act shall consist of the amount stated at the broadest or summary level of detail associated with the statement of Program Name and Program Purpose, and the more specific levels of detail shall be for information only. In the preceding sentence, "Federal Funds" means any federal funding source, whether specifically identified or not specifically identified; "Other Funds" means all other fund sources except State Funds and Federal Funds, including in Other Funds without limitation all Intra-State Government Transfers. Regardless of placement on the page, both the broadest or summary level of detail and the more specific detail of appropriations of Intra-State Government Transfers shall be deemed more specific levels of detail of Other

Funds, and the broadest or summary amount shall be deemed added to the broadest or summary amount of the appropriation of Other Funds for the program.

For authorizations for general obligation debt in Section 51, the indented, bold-faced paragraphs following each Bond number are the lowest level of detail and constitute appropriations in accordance with Article VII, Section IV, Paragraph III(a)(1) of the Georgia Constitution. The caption above the Bond number, the light-faced text immediately following the Bond number before the bold-faced text, and the light-faced after the boldfaced text are information only.

The blocks of text and numerals immediately following the section header and beginning with the phrases, "Section Total - Continuation" and "Section Totals - Final" (for even-numbered fiscal years) and the shaded sections following the Section heading (for odd-numbered fiscal years) are for informational purposes only. Sections 52, 53, 54, and 55 contain, constitute, or amend appropriations.

Section 57: Flex

Notwithstanding any other statement of purpose, the purpose of each appropriation of federal funds or other funds shall be the stated purpose or any other lawful purpose consistent with the fund source and the general law powers of the budget unit.

In the preceding sentence, "Federal Funds" means any federal funding source, whether specifically identified or not specifically identified; "Other Funds" means all other fund sources except State Funds or Federal Funds, including without limitation Intra-State Government Transfers. This paragraph shall not permit an agency to include within its flex the appropriations for an agency attached to it for administrative purposes.

For purposes of the appropriations for the "Medicaid: Low-Income Medicaid," "Medicaid: Aged, Blind, and Disabled," and "PeachCare" programs of the Department of Community Health, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

For purposes of the appropriations for the "Capital Construction Projects," "Capital Maintenance Projects," and "Local Road Assistance Administration" programs of the Department of Transportation, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program

appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

For purposes of the appropriations for the "Airport Aid," "Ports and Waterways," and "Rail" programs of the Department of Transportation, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 20 percent (20%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

For purposes of the appropriations for the "HOPE Grant," "HOPE High School Equivalency Exam," "HOPE Scholarships – Private Schools," and "HOPE Scholarships – Public Schools" programs of the Georgia Student Finance Commission, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the four programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

The registrars taking such registration may consider the applicant's financial independence, business pursuits, employment, income sources, residence for income tax purposes, age, marital status, residence of parents, spouse, and children, if any, leaseholds, sites of personal and real property owned by the applicant, motor vehicle and other personal property registration, National Change of Address program information sponsored by the United States Postal Service, and other such factors that the registrars may reasonably deem necessary to determine the qualification of an applicant to vote in a primary or election. If the registrars find probable cause, the registrars shall notify the poll officers of the challenged elector's precinct or, if the challenged elector voted by absentee ballot, notify the poll officers at the absentee ballot precinct and, if practical, notify the challenged elector and afford such elector an opportunity to answer. Probable causes shall include, but not be limited to, an elector who is deceased; an elector voting or registering to vote in a different jurisdiction; an elector obtaining a homestead exemption in a different jurisdiction; or an elector being registered at a nonresidential address as confirmed or listed by or in a government office,

If a challenged elector's name appears on the National Change of Address data base, as maintained by the United States Postal Service, as having changed such elector's residence to a different jurisdiction, the presence of such elector's name on such data base shall be insufficient cause to sustain the challenge against the elector unless additional evidence would indicate that the elector has lost his or her residency as determined pursuant to Code Section 21-2-217; provided, however, that:

(1) Any challenge of an elector within 45 days of a primary, run-off primary, election, or run-off election shall be postponed until the certification of such primary, election, or runoff is completed; and

(2) Any challenge of an elector who is determined eligible pursuant to the residency determinations provided for in paragraph (8), (10), or (11) of subsection (a) of Code Section 21-2-217 shall be deemed insufficient to sustain such challenge."

"(k) Any challenge of an elector that occurs during a primary or general election shall continue through the run-off primary or run-off election of such primary or general election."

SECTION 6.

Said chapter is further amended in Code Section 21-2-300, relating to provision of new voting equipment by state, uniform system for all elections to be conducted with the use of scanning ballots marked by electronic ballot markers, pilot programs, county responsibilities, education, and county and municipal contracts for equipment, by adding a new subsection to read as follows:

(2) Such physical ballots may only be used to conduct:

(B) Special elections to present a question to the voters of a county.

Furthermore, such primary, special primary, election, or special election shall occur independently and apart from a presidential preference primary, state-wide general primary, state-wide special primary, state-wide general election, or state-wide special election."

SECTION 7.

Said chapter is further amended in Code Section 21-2-379.23, relating to requirements for ballot display, role of Secretary of State, and printed paper ballot controls during recount, by revising subsection (d) as follows:

"(d) The text portion of the paper ballot marked and printed by the electronic ballot marker indicating the elector's selection shall constitute the official ballot and shall ~~be used for, and govern the result in,~~ constitute the official vote for purposes of vote tabulation, any recount conducted pursuant to Code Section 21-2-495, and any audit conducted pursuant to Code Section 21-2-498. The official tabulation count of any ballot scanner shall be based upon the text portion or the machine mark, provided that such mark clearly denotes the elector's selection and does not use a QR code, bar code, or similar coding, of such ballots and not any machine coding that may be printed on such ballots."

SECTION 8.

Said chapter is further amended in Code Section 21-2-386, relating to safekeeping, certification, and validation of absentee ballots, rejection of ballot, delivery of ballots to location designated by superintendent, duties of superintendent and managers, precinct returns, report of returns of verified and accepted absentee ballots cast as soon as possible following closing of polls, notification of challenged elector, and unlawful disclosure of tabulation results, by revising paragraph (3) of subsection (a) as follows:

"(3) A county election superintendent may, in his or her discretion, after 7:00 A.M. on the day of the primary, election, or runoff begin tabulating the absentee ballots; provided, however, that all absentee ballots that have been verified and accepted pursuant to subparagraph (a)(1)(B) of this Code section by the Monday prior to the day of the primary, election, or runoff shall be tabulated and the results reported by no later than 8:00 P.M. on the day of such primary, election, or runoff or within one hour of the closing of all polls in such county, whichever occurs later. If the county election superintendent chooses to open the inner envelopes and begin tabulating such ballots prior to the close of the polls on the day of the primary, election, or runoff, the superintendent shall notify in writing, at least seven days prior to the primary, election, or runoff, the Secretary of State of the superintendent's intent to begin the absentee ballot tabulation prior to the close of the polls. The county executive committee or, if there is no organized county executive committee, the state executive committee of each political party and political body having candidates whose names appear on the ballot for such election in such county shall have the right to designate two persons and each independent and nonpartisan candidate whose name appears on the ballot for such election in such county shall have the right to designate one person to act as monitors for such process. In the event that the only issue to be voted upon in an election is a referendum question, the superintendent shall also notify in writing the chief judge of the superior court of the county who shall appoint two electors of the county to monitor such process."

SECTION 9.

Said chapter is further amended by revising Code Section 21-2-386, relating to safekeeping, certification, and validation of absentee ballots, rejection of ballot, delivery of ballots to location designated by superintendent, duties of superintendent and managers,

precinct returns, report of returns of verified and accepted absentee ballots cast as soon as possible following closing of polls, notification of challenged elector, and unlawful disclosure of tabulation results, as follows:

"21-2-386.

(a)(1)(A) The board of registrars or absentee ballot clerk shall keep safely, unopened, and stored in a manner that will prevent tampering and unauthorized access to and shall document authorized access to all official absentee ballots received from absentee electors prior to the closing of the polls on the day of the primary or election except as otherwise provided in this subsection.

(B) Upon receipt of each ballot, a registrar or clerk shall write the day and hour of the receipt of the ballot on its envelope. The registrar or clerk shall then compare the number of the elector's Georgia driver's license number or state identification card issued pursuant to Article 5 of Chapter 5 of Title 40 and date of birth entered on the absentee ballot envelope with the same information contained in the elector's voter registration records. If the elector has affirmed on the envelope that he or she does not have a Georgia driver's license or state identification card issued pursuant to Article 5 of Chapter 5 of Title 40, the registrar or clerk shall compare the last four digits of the elector's social security number and date of birth entered on the envelope with the same information contained in the elector's voter registration records. The registrar or clerk shall also confirm that the elector signed the oath and the person assisting the elector, if any, signed the required oath. If the elector has signed the elector's oath, the person assisting has signed the required oath, if applicable, and the identifying information entered on the absentee ballot envelope matches the same information contained in the elector's voter registration record, the registrar or clerk shall so certify by signing or initialing his or her name below the voter's oath. Each elector's name so certified shall be listed by the registrar or clerk on the numbered list of absentee voters prepared for his or her precinct. All accepted absentee ballots shall be securely stored in either a sealed container or appropriately secured in an access controlled room that will prevent tampering or unauthorized access prior to the scanning of such ballots.

(C) If the elector has failed to sign the oath, or if the identifying information entered on the absentee ballot envelope does not match the same information appearing in the elector's voter registration record, or if the elector has failed to furnish required information or information so furnished does not conform with that on file in the registrar's or clerk's office, or if the elector is otherwise found disqualified to vote, the registrar or clerk shall write across the face of the envelope 'Rejected,' giving the reason therefor. The board of registrars or absentee ballot clerk shall promptly notify the elector of such rejection, a copy of which notification shall be retained in the files of the board of registrars or absentee ballot clerk for at least two years. Such elector shall have until the end of the period for verifying provisional ballots contained in subsection (c) of Code Section 21-2-419 to cure the problem resulting in the rejection of the ballot. The elector may cure a failure to sign the oath, nonmatching identifying information, or missing information by submitting an affidavit to the board of

registrars or absentee ballot clerk along with a copy of one of the forms of identification enumerated in subsection (c) of Code Section 21-2-417 before the close of such period. The affidavit shall affirm that the ballot was submitted by the elector, is the elector's ballot, and that the elector is registered and qualified to vote in the primary, election, or runoff in question. If the board of registrars or absentee ballot clerk finds the affidavit and identification to be sufficient, the absentee ballot shall be counted.

(D) An elector who registered to vote by mail, but did not comply with subsection (c) of Code Section 21-2-220, and who votes for the first time in this state by absentee ballot shall include with his or her application for an absentee ballot or in the outer oath envelope of his or her absentee ballot either one of the forms of identification listed in subsection (a) of Code Section 21-2-417 or a copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of such elector. If such elector does not provide any of the forms of identification listed in this subparagraph with his or her application for an absentee ballot or with the absentee ballot, such absentee ballot shall be deemed to be a provisional ballot and such ballot shall only be counted if the registrars are able to verify current and valid identification of the elector as provided in this subparagraph within the time period for verifying provisional ballots pursuant to Code Section 21-2-419. The board of registrars or absentee ballot clerk shall promptly notify the elector that such ballot is deemed a provisional ballot and shall provide information on the types of identification needed and how and when such identification is to be submitted to the board of registrars or absentee ballot clerk to verify the ballot.

(E) Three copies of the numbered list of voters shall also be prepared for such rejected absentee electors, giving the name of the elector and the reason for the rejection in each case. Three copies of the numbered list of certified absentee voters and three copies of the numbered list of rejected absentee voters for each precinct shall be turned over to the poll manager in charge of counting the absentee ballots and shall be distributed as required by law for numbered lists of voters.

(F) All absentee ballots returned to the board or absentee ballot clerk after the closing of the polls on the day of the primary or election shall be safely kept unopened by the board or absentee ballot clerk and then transferred to the appropriate clerk <u>with the documentation provided for in subparagraph (a)(1)(A) of this Code section</u> for storage <u>in a manner that will prevent tampering</u> for the period of time required for the preservation of ballots used at the primary or election and shall then, without being opened, be destroyed in like manner as the used ballots of the primary or election. The board of registrars or absentee ballot clerk shall promptly notify the elector by first-class mail that the elector's ballot was returned too late to be counted and that the elector will not receive credit for voting in the primary or election. All such late absentee ballots shall be delivered to the appropriate clerk and stored as provided in Code Section 21-2-390.

(G) Notwithstanding any provision of this chapter to the contrary, until the United States Department of Defense notifies the Secretary of State that the Department of Defense has implemented a system of expedited absentee voting for those electors covered by this subparagraph, absentee ballots cast in a primary, election, or runoff by eligible absentee electors who reside outside the county or municipality in which the primary, election, or runoff is held and are members of the armed forces of the United States, members of the merchant marine of the United States, spouses or dependents of members of the armed forces or merchant marine residing with or accompanying such members, or overseas citizens that are postmarked by the date of such primary, election, or runoff and are received within the three-day period following such primary, election, or runoff, if proper in all other respects, shall be valid ballots and shall be counted and included in the certified election results.

(2)(A) Beginning at 8:00 A.M. on the third Monday prior to the day of the primary, election, or runoff, the election superintendent shall be authorized to open the outer oath envelope of absentee ballots that have been verified and accepted pursuant to subparagraph (a)(1)(B) of this Code section, remove the contents of such outer envelope, open the inner envelope marked 'Official Absentee Ballot,' and scan the absentee ballot using one or more ballot scanners. At least three persons who are registrars, deputy registrars, poll workers, or absentee ballot clerks ~~must~~ shall be present before commencing; and three persons who are registrars, deputy registrars, or absentee ballot clerks shall be present at all times while the sealed containers containing verified and accepted absentee ballots are unsealed and verified for integrity, while the absentee ballot envelopes are ~~being~~ opened, and while the absentee ballots are ~~being~~ scanned. However, no person shall tally, tabulate, estimate, or attempt to tally, tabulate, or estimate or cause the ballot scanner or any other equipment to produce any tally or tabulate, partial or otherwise, of the absentee ballots cast until the time for the closing of the polls on the day of the primary, election, or runoff except as provided in this Code section. Prior to beginning the process set forth in this paragraph, the superintendent shall provide written notice to the Secretary of State in writing at least seven days prior to processing and scanning absentee ballots. Such notice shall contain the dates, start and end times, and location or locations where absentee ballots will be processed and scanned. The superintendent shall also post such notice publicly in a prominent location in the superintendent's office and on the home page of the county election superintendent's website, if the county election superintendent maintains such a website. The Secretary of State shall publish on his or her website the information he or she receives from superintendents stating the dates, times, and locations where absentee ballots will be processed.

(B) The proceedings set forth in this paragraph shall be open to the view of the public, but no person except one employed and designated by the superintendent shall touch any ballot or ballot container. Any person involved in processing and scanning absentee ballots shall swear an oath, in the same form as the oath for poll officers provided in Code Section 21-2-95, prior to beginning the processing and scanning of absentee ballots. The county executive committee or, if there is no organized county

executive committee, the state executive committee of each political party and political body having candidates whose names appear on the ballot for such election shall have the right to designate two persons and each independent and nonpartisan candidate whose name appears on the ballot for such election shall have the right to designate one person to act as monitors for such process. In the event that the only issue to be voted upon in an election is a referendum question, the superintendent shall also notify in writing the chief judge of the superior court of the county who shall appoint two electors of the county to monitor such process. While viewing or monitoring the process set forth in this paragraph, monitors and observers shall be prohibited from:

(i) In any way interfering with the processing or scanning of absentee ballots or the conduct of the election;

(ii) Using or bringing into the room any photographic or other electronic monitoring or recording devices, cellular telephones, or computers;

(iii) Engaging in any form of campaigning or campaign activity;

(iv) Taking any action that endangers the secrecy and security of the ballots;

(v) Touching any ballot or ballot container;

(vi) Tallying, tabulating, estimating, or attempting to tally, tabulate, or estimate, whether partial or otherwise, any of the votes on the absentee ballots cast; and

(vii) Communicating any information that they see while monitoring the processing and scanning of the absentee ballots, whether intentionally or inadvertently, about any ballot, vote, or selection to anyone other than an election official who needs such information to lawfully carry out his or her official duties.

(C) The State Election Board shall promulgate rules requiring reconciliation procedures; prompt and undelayed scanning of ballots after absentee ballot envelopes are opened; secrecy of election results prior to the closing of the polls on the day of a primary, election, or runoff; and other protections to protect the integrity of the process set forth in this paragraph.

(D) At the conclusion of the scanning of ballots, such scanned ballots shall be stored in tamper-resistant containers sealed with numbered seals, the number of which shall be recorded on the chain of custody document specified by the Secretary of State, and such forms shall be signed by the person storing the ballots and the date and time of storage shall be entered on such forms.

(3) A county election superintendent may, in his or her discretion, after 7:00 A.M. on the day of the primary, election, or runoff begin tabulating the absentee ballots; provided, however, that all absentee ballots that have been verified and accepted pursuant to subparagraph (a)(1)(B) of this Code section by the Monday prior to the day of the primary, election, or runoff shall be tabulated and the results reported by no later than 8:00 P.M. on the day of such primary, election, or runoff or within one hour of the closing of all polls in such county, whichever occurs later. If the county election superintendent chooses to open the inner envelopes and begin tabulating such ballots prior to the close of the polls on the day of the primary, election, or runoff, the superintendent shall notify in writing, at least seven days prior to the primary, election,

or runoff, the Secretary of State of the superintendent's intent to begin the absentee ballot tabulation prior to the close of the polls. The county executive committee or, if there is no organized county executive committee, the state executive committee of each political party and political body having candidates whose names appear on the ballot for such election in such county shall have the right to designate two persons and each independent and nonpartisan candidate whose name appears on the ballot for such election in such county shall have the right to designate one person to act as monitors for such process. In the event that the only issue to be voted upon in an election is a referendum question, the superintendent shall also notify in writing the chief judge of the superior court of the county who shall appoint two electors of the county to monitor such process.

(4) The county election superintendent shall publish a written notice in the superintendent's office of the superintendent's intent to begin the absentee ballot tabulation prior to the close of the polls and publish such notice at least one week prior to the primary, election, or runoff in the legal organ of the county.

(5) The process for opening absentee ballot envelopes, scanning absentee ballots, and tabulating absentee ballots on the day of a primary, election, or runoff as provided in this subsection shall be conducted in a manner to maintain the secrecy of all ballots and to protect the disclosure of any balloting information before 7:00 P.M. on election day. No absentee ballots shall be tabulated before 7:00 A.M. on the day of a primary, election, or runoff.

(6) All persons conducting the tabulation of absentee ballots during the day of a primary, election, or runoff, including the vote review panel required by Code Section 21-2-483, and all monitors and observers shall be sequestered until the time for the closing of the polls. All such persons shall have no contact with the news media; shall have no contact with other persons not involved in monitoring, observing, or conducting the tabulation; shall not use any type of communication device including radios, telephones, and cellular telephones; shall not utilize computers for the purpose of email, instant messaging, or other forms of communication; and shall not communicate any information concerning the tabulation until the time for the closing of the polls; provided, however, that supervisory and technical assistance personnel shall be permitted to enter and leave the area in which the tabulation is being conducted but shall not communicate any information concerning the tabulation to anyone other than the county election superintendent; the staff of the superintendent; those persons conducting, observing, or monitoring the tabulation; and those persons whose technical assistance is needed for the tabulation process to operate.

(7) The absentee ballots shall be tabulated in accordance with the procedures of this chapter for the tabulation of absentee ballots. As such ballots are tabulated, they shall be placed into locked ballot boxes and may be transferred to locked ballot bags, if needed, for security. Such boxes or bags shall be sealed and witnessed and verified by each person taking custody of such items by each such person's signature and date and time of taking custody. The persons conducting the tabulation of the absentee ballots shall not cause the tabulating equipment to produce any count, partial or otherwise, of

the absentee votes cast until the time for the closing of the polls except as otherwise provided in this Code section.

(b) When requested by the superintendent, but not earlier than the third Monday prior to a primary, election, or runoff, a registrar or absentee ballot clerk shall deliver the official absentee ballot of each certified absentee elector, each rejected absentee ballot, applications for such ballots, and copies of the numbered lists of certified and rejected absentee electors to the location designated by the superintendent in secure, sealed containers with the chain of custody documents as specified by the Secretary of State and the signature and date and time of the person taking custody, and the superintendent or official receiving such absentee ballots shall issue his or her receipt therefor.

(c) The superintendent shall cause the verified and accepted absentee ballots to be opened and tabulated as provided in this Code section. A manager shall then open the outer envelope in such manner as not to destroy the oath printed thereon and shall deposit the inner envelope marked 'Official Absentee Ballot' in a ballot box reserved for absentee ballots with an accompanying chain of custody documentation. Such ballot box shall be securely sealed if it is not in the direct control of the poll officers or if it is transferred to a different room or facility for tabulation. In the event that an outer envelope is found to contain an absentee ballot that is not in an inner envelope, the ballot shall be sealed in an inner envelope, initialed and dated by the person sealing the inner envelope, and deposited in the ballot box and counted in the same manner as other absentee ballots, provided that such ballot is otherwise proper. Such manager with two assistant managers, appointed by the superintendent, with such clerks as the manager deems necessary shall count the absentee ballots following the procedures prescribed by this chapter for other ballots, insofar as practicable.

(d) All absentee ballots shall be counted and tabulated in such a manner that returns may be reported by precinct; and separate returns shall be made for each precinct in which absentee ballots were cast showing the results by each precinct in which the electors reside. The superintendent shall utilize the procedures set forth in this Code section to ensure that the returns of verified and accepted absentee ballots cast are reported to the public as soon as possible following the closing of the polls on the day of the primary, election, or runoff. Failure to utilize these procedures to ensure that the returns of verified and accepted absentee ballots are reported as soon as possible following the close of polls shall subject the superintendent to sanctions by the State Election Board. If a superintendent fails to report the returns of verified and accepted absentee ballots by the day following the election at 5:00 P.M., the State Election Board may convene an independent performance review board pursuant to Code Section 21-2-107.

(e) If an absentee elector's right to vote has been challenged for cause, a poll officer shall write 'Challenged,' the elector's name, and the alleged cause of challenge on the outer envelope and shall deposit the ballot in a secure, sealed ballot box for which there shall be a chain of custody document as specified by the Secretary of State on which is recorded and witnessed the name and signature of each person taking custody of such ballots; and it shall be counted as other challenged ballots are counted. Where direct recording electronic voting systems are used for absentee balloting and a challenge to an

elector's right to vote is made prior to the time that the elector votes, the elector shall vote on a paper or optical scanning ballot and such ballot shall be handled as provided in this subsection. The board of registrars or absentee ballot clerk shall promptly notify the elector of such challenge.

(f) It shall be unlawful at any time prior to the close of the polls for any person to disclose or for any person to receive any information regarding the results of the tabulation of absentee ballots except as expressly provided by law."

SECTION 10.

Said chapter is further amended in Code Section 21-2-493, relating to computation, canvassing, and tabulation of returns, investigation of discrepancies in vote counts, recount procedure, pilot program for posting of digital images of scanned paper ballots, certification of returns, and change in returns, by revising subsection (a) and adding a new subsection to read as follows:

"(a) The superintendent shall, after the close of the polls on the day of a primary or election, at his or her office or at some other convenient public place at the county seat or in the municipality, of which due notice shall have been given as provided by Code Section 21-2-492, publicly commence the computation and canvassing of the returns and continue until all absentee ballots received by the close of the polls, including those cast by advance voting~~,~~; provided, however, that such votes cast by advance voting shall be tabulated and the results reported by no later than 8:00 P.M. on such day or within one hour of the closing of all polls in such county, whichever occurs later, and all ballots cast on the day of the primary or election have been counted and tabulated and the results of such tabulation released to the public and, then, continuing with provisional ballots as provided in Code Sections 21-2-418 and 21-2-419 and those absentee ballots as provided in subparagraph (a)(1)(G) of Code Section 21-2-386 from day to day until completed. For this purpose, the superintendent may organize his or her assistants into sections, each of whom may simultaneously proceed with the computation and canvassing of the returns from various precincts of the county or municipality in the manner provided by this Code section. Upon the completion of such computation and canvassing, the superintendent shall tabulate the figures for the entire county or municipality and sign, announce, and attest the same, as required by this Code section."

"(j.2)(1) On or after January 1, 2025, in the event that a superintendent receives a request pursuant to Code Section 50-18-71 for scanned ballot images at a resolution higher than the ballot images available from the Secretary of State pursuant to subsection (j.1) of this Code section, and such request is received following the final certification of the results of the election in which such ballots were created, the superintendent shall, consistent with Code Section 50-18-71, produce digital scans of the requested ballots at a resolution of no less than 600 dots per inch and deliver such scans to the requestor. A person making a request pursuant to this subsection may observe the scanning and related handling process, but under no circumstances shall anyone other than an authorized election official touch or handle a physical ballot.

(2) Notwithstanding any seal provided for by Code Section 21-2-500, a superintendent shall have access to the ballots cast within its jurisdiction so as to comply with the provisions of this subsection. Upon receiving a request pursuant to this subsection, the superintendent shall notify the clerk of the superior court or, if designated by the clerk of the superior court, the county records manager or other office or official under the jurisdiction of a county governing authority which maintains or is responsible for maintaining such sealed ballots, and such official or office that maintains such requested ballot shall provide the superintendent access to such ballot without the need for obtaining a court order. All ballots provided to a superintendent pursuant to this paragraph shall be immediately returned by such superintendent to the official or office that maintains such ballots upon the scanning of such ballot."

SECTION 11.

Said chapter is further amended by adding a new Code section to read as follows:

"21-2-498.1.

The Secretary of State shall create a pilot program for the auditing of paper ballot images using optical character recognition technology or other related technology which shall verify the human-readable text portion of the ballot. Such auditing program shall not be based on or tabulate any QR code, bar code, or similar machine coding that may be printed on such ballots. Such audits shall include all ballot types, and the audit findings shall be reported prior to final certification of the election."

SECTION 12.

Said chapter is further amended in Code Section 21-2-540, relating to conduct of special primaries and special elections generally, by revising subsection (b) as follows:

"(b) At least 29 days shall intervene between the call of a special primary and the holding of same, and at least 29 days shall intervene between the call of a special election and the holding of same. The period during which candidates may qualify to run in a special primary or a special election shall remain open for a minimum of two and one-half days. Special ~~primaries and special~~ elections to present questions to the voters which are to be held in conjunction with the presidential preference primary, a state-wide general primary, or state-wide general election shall be called at least 90 days prior to the date of such presidential preference primary, state-wide general primary, or state-wide general election; provided, however, that this requirement shall not apply to ~~special primaries and~~ special elections to present questions to the voters held on the same date as such presidential preference primary, state-wide general primary, or state-wide general election but conducted completely separate and apart from such state-wide general primary or state-wide general election using different ballots or voting equipment, facilities, poll workers, and paperwork."

SECTION 13.

(a) This section and Sections 12 and 14 of this Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

(b) Sections 1, 2, 3, 3.1, 5, 8, 10, and 11 of this Act shall become effective on July 1, 2024.
(c) Sections 4, 6, and 9 of this Act shall become effective on January 1, 2025.

House of Representatives

Coverdell Legislative Office Building
Suite 411-D
Atlanta, GA 30334

April 1, 2024

I would never support SB 189, I would like to change my vote to a no. It is against all the principles that I have stood for my entire life and throughout my time as a legislator and activist. SB 189 is a grotesque assault on the voting rights of Georgians, and a slap in the face to our democracy. Any attempt to make voting harder will always be a **NO** for me. In no lifetime would I ever support SB 189. For the record, my vote on SB 189 is a **NO**.

Respectfully,

/s/ Eric Bell

A board may resolve a pending action by the issuance of a letter of concern. Such letter shall not be considered a disciplinary action or a contested case under Chapter 13 of Title 50 and shall not be disclosed to any person except the licensee or applicant."

SECTION 1-4.

Said title is further amended in Code Section 43-1-19, relating to a professional licensing board's authority to refuse, grant, revoke, and reinstate licenses, surrender of licenses, and probationary licenses, by revising subsection (q) as follows:

"(q)(1) Notwithstanding paragraphs (3) and (4) of subsection (a) of this Code section or any other provision of law, ~~and unless~~ the professional licensing board shall refuse to grant a license to an individual or shall revoke a license only if a felony or ~~crime involving moral turpitude~~ covered misdemeanor directly relates to the occupation for which the license is sought or held and granting the license would pose a direct and substantial risk to public safety because the individual has not been rehabilitated to safely perform the duties and responsibilities of such occupation, after considering the criteria in paragraph (2) of this subsection. Without finding a direct and substantial risk to public safety and a direct relationship between the conviction and the licensed occupation, no professional licensing board shall refuse to grant a license to an applicant therefor or shall revoke the license of an individual licensed by that board due solely or in part to such applicant's or licensee's:

(A) Conviction of any felony or any ~~crime involving moral turpitude~~ covered misdemeanor, whether it occurred in the courts of this state or any other state, territory, or country or in the courts of the United States;

(C) Sentence for such offense pursuant to Article 3 of Chapter 8 of Title 42 or another state's first offender laws;

(D) Sentence for such offense pursuant to subsection (a) or (c) of Code Section 16-13-2;

(E) Sentence for such offense as a result of a plea of nolo contendere;

(F) Adjudication of guilt or sentence was otherwise withheld or not entered; or

(G) Being under supervision by a community supervision officer, as such term is defined in Code Section 42-3-1, for a conviction of any felony or any ~~crime involving moral turpitude~~ covered misdemeanor, whether it occurred in the courts of this state or any other state, territory, or country or in the courts of the United States, so long as such individual was not convicted of a felony violation of Chapter 5 of Title 16 nor convicted of a crime requiring registration on the state sexual offender registry.

(2) In determining if a felony or ~~crime involving moral turpitude~~ covered misdemeanor directly relates to the occupation for which the license is sought or held, the professional licensing board shall consider:

(A) The nature and seriousness of such felony or ~~crime involving moral turpitude~~ covered misdemeanor and the direct relationship of ~~such felony or crime involving moral turpitude~~ the criminal conduct to the duties and responsibilities of the occupation for which the license is sought or held;

(B) The age of the individual at the time such felony or ~~crime involving moral turpitude~~ covered misdemeanor was committed;

(C) The length of time elapsed since such felony or ~~crime involving moral turpitude~~ covered misdemeanor was committed;

(D) All circumstances relative to such felony or ~~crime involving moral turpitude~~ covered misdemeanor, including, but not limited to, mitigating circumstances or social conditions surrounding the commission of such felony or ~~crime involving moral turpitude~~ covered misdemeanor; and

(E) Evidence of rehabilitation and present fitness to perform the duties of the occupation for which the license is sought or held~~.~~, including, but not limited to:

(i) The completion of the criminal sentence;

(ii) A program and treatment certificate issued by the Board of Corrections;

(iii) Completion of, or active participation in, a rehabilitative drug or alcohol treatment program;

(iv) Testimonials and recommendations, which may include a progress report from the individual's probation or parole officer;

(v) Education and training;

(vi) Employment history;

(vii) Employment aspirations;

(viii) The individual's current family or community responsibilities, or both;

(ix) Whether a bond is required to practice the occupation;

(x) Any affidavits or other written documents, including, but not limited to, character references; and

(xi) Any other information regarding rehabilitation the individual submits to the board.

(3) In determining whether to deny, diminish, limit, suspend, revoke, refuse to renew, or otherwise withhold a license, the professional licensing board shall not consider nor require an individual to disclose:

(A) A deferred adjudication, discharged first offender treatment, completed diversion program, completed conditional discharge, or an arrest not followed by a conviction;
(B) A conviction for which no sentence of incarceration can be imposed;
(C) A conviction that has been restricted, sealed, annulled, dismissed, vacated, or pardoned, provided that the board may consider a plea for which an individual is currently serving a sentence pursuant to Article 3 of Chapter 8 of Title 42, another state's first offender laws, or subsection (a) or (c) of Code Section 16-13-2;
(D) A juvenile adjudication;
(E) A misdemeanor conviction older than five years, unless the offense of conviction is listed in subparagraph (j)(4)(B) of Code Section 35-3-37; or
(F) A conviction older than five years for which the individual was not incarcerated, or a conviction for which the individual's incarceration ended more than five years before the date of the board's consideration, except for a felony conviction related to:
(i) A criminal sexual act;
(ii) Criminal fraud or embezzlement;
(iii) Aggravated assault;
(iv) Aggravated robbery;
(v) Aggravated abuse, neglect, or endangerment of a child;
(vi) Arson;
(vii) Carjacking;
(viii) Kidnapping; or
(ix) Manslaughter, homicide, or murder.

(4) Notwithstanding any other provision of law, no professional licensing board may apply a vague character standard to licensure decisions or predeterminations, including, but not limited to, 'good moral character,' 'moral turpitude,' or 'character and fitness.'

(5) Notwithstanding any other provision of law, a professional licensing board shall provide individualized consideration of an individual's criminal record and shall not automatically deny licensure on the basis of the individual's criminal record.

(6)(A) If an applicant's criminal record includes issues that will or may prevent the board from issuing a license to the applicant, the board shall notify the applicant, in writing, of the specific issues in sufficient time for the applicant to provide additional documentation supporting the application before the board's final decision to deny the application. After receiving notice of any potential issue with licensure due to his or her criminal convictions, an applicant shall have 30 days to respond by correcting any inaccuracy in the criminal record or by submitting additional evidence of mitigation or rehabilitation for the board's consideration, or both.

(B) For the professional licensing board to deny a license on the basis of the applicant's criminal convictions, the board shall first provide an opportunity for a hearing for such applicant in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The applicant shall have the opportunity at such hearing to present the written or oral testimony of character witnesses, including, but not limited to, family members, friends, prospective employers, probation or parole officers, and rehabilitation counselors. The professional licensing board shall issue a

decision within 60 days of the complete submission of the issues for consideration or the hearing, whichever is later.

(C) The professional licensing board shall have the burden of justifying that it is substantially more likely than not, after a hearing, that an applicant's criminal record supports any adverse licensing decision. If the board denies an applicant a license by reason of the applicant's criminal record, the board shall:

(i) Make written findings specifying any of the applicant's convictions and the factors provided for in subparagraph (A) of paragraph (2) of this subsection the board deemed directly relevant and explaining the basis and rationale for the denial. Such written findings shall be signed by the board's presiding officer and shall note the applicant's right to appeal and explain the applicant's ability to reapply. No applicant shall be restricted from reapplying for licensure for more than two years from the date of the most recent application;

(ii) Provide or serve a signed copy of the written findings to the applicant within 60 days of the denial; and

(iii) Retain a signed copy of the written findings for no less than five years.

(D) The denial of a license in part or in whole because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a license, the professional licensing board shall have the burden of proving that the applicant's criminal record directly relates to the occupation for which the license is sought.

(7)(A) Notwithstanding any other provision of law, an individual with a criminal record may petition a professional licensing board at any time, including while incarcerated and before starting or completing any required professional qualifications for licensure, for a predetermination as to whether such individual's criminal record will disqualify him or her from obtaining a license.

(B) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning individual need not disclose any offenses provided for in paragraph (3) of this subsection. Such petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.

(C) In considering predetermination petitions, the professional licensing board shall apply the direct relationship standard in paragraphs (1) and (2) of this subsection and shall not consider any offenses falling under paragraph (3) of this subsection. The board shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.

(D) A predetermination made under this subsection that a petitioner is eligible for a license shall be binding on the professional licensing board only if the petitioner applies for licensure, fulfills all other requirements for the occupational license, and the petitioner's submitted criminal record was correct and remains unchanged at the time of his or her application for a license.

(E) If a petitioner's criminal record includes matters that may disqualify the petitioner from licensure, the board shall notify the petitioner of the potentially disqualifying

convictions. The letter of concern shall advise the petitioner of their opportunity to submit additional evidence of rehabilitation and mitigation or for a hearing, or both.

(F) The professional licensing board may predetermine that the petitioner's criminal record is likely grounds for denial of a license only after the board has held a hearing on the petitioner's eligibility in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The hearing shall be held in person, by remote video, or by teleconference within 60 days of receipt of the predetermination petition. The individual shall have the opportunity to offer written or oral testimony of character witnesses at the hearing, including but not limited to family members, friends, past or prospective employers, probation or parole officers, and rehabilitation counselors. The professional licensing board shall not make an adverse inference by a petitioner's decision to forgo a hearing or character witnesses. The board shall issue a final decision within 60 days of complete submission of the issue for consideration or the hearing, whichever is later.

(G) If the professional licensing board decides that a predetermination petitioner is ineligible for a license, the board shall notify the petitioner of the following:

(i) The grounds and rationale for the predetermination, including any of the petitioner's specific convictions and the factors provided for in subparagraph (A) of paragraph (2) of this subsection the board deemed directly relevant;

(ii) An explanation of the process and right to appeal the board's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(iii) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(H) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a predetermination petition, the professional licensing board shall have the burden of proving that the applicant's criminal record directly relates to the licensed occupation.

(8) Each professional licensing board shall include in its application for licensure and on its public website all of the following information:

(A) Whether the board requires applicants to consent to a criminal record check;

(B) The direct relationship standard in paragraph (1) of this subsection and those factors in paragraph (2) of this subsection that the board shall consider when making a determination of licensure;

(C) The criminal record disclosure provided for in paragraph (3) of this subsection;

(D) The appeals process pursuant to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act,' if the board denies or revokes licensure in whole or in part because of a criminal conviction; and

(E) The predetermination petition process, standards, and application, as well as the process for appealing an adverse predetermination pursuant to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.'

(9) No later than March 31 each year, each occupational licensing board shall file with the Secretary of State an annual report containing information from the previous year as to:

(A) The number of applicants for a license and, of that number, the number of licenses granted;

(B) The number of applicants with a criminal record and, of that number, the number of licenses granted, denied a license for any reason, and denied due to a conviction or state supervision status;

(C) The number of predetermination petitioners and, of that number, the number deemed eligible for a license and the number deemed ineligible for a license;

(D) The racial and ethnic distribution of licensing applicants, including the racial and ethnic distribution of applicants with a criminal record; and

(E) The racial and ethnic distribution of licensing applicants with a criminal record granted a license, denied a license for any reason, and denied a license due to a conviction or state supervision status."

SECTION 1-5.

Said title is further amended by revising Code Section 43-1-27, relating to requirement that licensee notify licensing authority of felony conviction, as follows:

"43-1-27.

Any licensed individual who is convicted under the laws of this state, the United States, or any other state, territory, or country of a felony as defined in ~~paragraph (3) of subsection (a) of~~ Code Section ~~43-1-19~~ 43-1-1 shall be required to notify the appropriate licensing authority of the conviction within ten days of the conviction. The failure of a licensed individual to notify the appropriate licensing authority of a conviction shall be considered grounds for revocation of his or her license, permit, registration, certification, or other authorization to conduct a licensed profession."

SECTION 1-6.

Said title is further amended by revising Code Section 43-15-19, relating to revocation, suspension, or denial of certificates, certificates of registration, or licenses, and reprimands, as follows:

"43-15-19.

(5) Any violation of this chapter or any rule or regulation promulgated by the board pursuant to the powers conferred on it by this chapter.

(a) Notwithstanding paragraph (4) of subsection (a) of Code Section 43-15-19, the board shall refuse to grant a license to an individual or shall revoke a license only if a conviction directly relates to the occupation for which the license is sought or held and granting the license would pose a direct and substantial risk to public safety because the individual has not been rehabilitated to safely perform the duties and responsibilities of the occupation for which the license is sought or held. In determining if a conviction directly relates to the occupation for which the license is sought or held, the board shall consider:

(1) The nature and seriousness of the offense and the direct relationship of the criminal conduct to the duties and responsibilities of the occupation for which the license is sought or held;

(2) The age of the individual at the time the offense was committed;

(3) The length of time elapsed since the offense was committed;

completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(h) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In determining if a criminal record directly relates to the occupation for which the license is sought or held, the board of accountancy shall consider:

43-3-21.2.
(a) Notwithstanding any other provision of law, an individual with a criminal record may petition the accountancy board at any time, including while incarcerated and before starting or completing any required professional qualifications for licensure, for a predetermination as to whether the individual's criminal record will disqualify him or her from obtaining a license.
(b) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning individual need not disclose any offenses falling under subsection (b) of Code Section 43-3-21.1. The petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.
(c) In considering predetermination petitions, the board shall apply the direct relationship standard in subsection (a) of Code Section 43-3-21.1. The board shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.
(d) A predetermination made under this subsection that a petitioner is eligible for a license shall be binding on the board only if the petitioner applies for licensure, fulfills all other requirements for the licensure, and the petitioner's submitted criminal record was correct and remains unchanged at the time of his or her application for a license.
(e) If a petitioner's criminal record includes matters that may disqualify the petitioner from licensure, the board shall notify the petitioner of the potentially disqualifying convictions. The letter of concern shall advise the petitioner of their opportunity to submit additional evidence of rehabilitation and mitigation or for a hearing, or both.
(f) The board may predetermine that the petitioner's criminal record is likely grounds for denial of a license only after the board has held a hearing on the petitioner's eligibility in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The

hearing shall be held in person, by remote video, or by teleconference within 60 days of receipt of the predetermination petition. The individual shall have the opportunity to include character witnesses at the hearing, including but not limited to family members, friends, past or prospective employers, probation or parole officers, and rehabilitation counselors, who may offer their verbal or written support. The board shall not make an adverse inference by a petitioner's decision to forgo a hearing or character witnesses. The board shall issue a final decision within 60 days of complete submission of the issue for consideration or the hearing, whichever is later.

(g) If the board decides that a predetermination petitioner is ineligible for a license, the board shall notify the petitioner of the following:

(1) The grounds and rationale for the predetermination, including the specific convictions and the factors in subsection (a) of Code Section 43-3-21.1 the board deemed directly relevant;

(2) An explanation of the process and right to appeal the board's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(3) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(h) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a predetermination petition, the board shall have the burden of proving that the applicant's criminal record directly relates to the licensed occupation."

SECTION 2-3.

If such inmate passes the applicable written and practical examinations, the board may issue the appropriate certificate of registration to such inmate after consideration of all requirements under Code Sections 43-10-9 and 43-1-19; provided, however, that the board shall not apply the provisions of ~~paragraph (4) of~~ subsection (a) of Code Section 43-1-19 to such inmate based solely upon such person's status as an inmate and shall apply such provisions in the same manner as would otherwise be applicable to an applicant who is not an inmate."

In determining if a conviction directly relates to the occupation for which the license is sought or held, the board of dentistry shall consider:

(a.2)(1) Notwithstanding any other provision of law, an individual with a criminal record may petition the board of dentistry at any time, including while incarcerated and before starting or completing any required professional qualifications for licensure, for a predetermination as to whether the individual's criminal record will disqualify him or her from obtaining a license.

(2) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning individual need not disclose any offenses falling under paragraph (6) subsection (a.1) of this Code section. The petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.

(3) In considering predetermination petitions, the board shall apply the direct relationship standard in subsection (a.1) of this Code section and shall not consider any offenses falling under paragraph (6) of subsection (a.1) of this Code section. The board shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.

(4) A predetermination made under this subsection that a petitioner is eligible for a license shall be binding on the board only if the petitioner applies for licensure, fulfills all other requirements for the occupational licensure, and the petitioner's submitted criminal record was correct and remains unchanged at the time of his or her application for a license.

(A) The grounds and rationale for the predetermination, including the specific convictions and the factors in subsection (a.1) of this Code section the board deemed directly relevant;

(B) An explanation of the process and right to appeal the board's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(C) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(8) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a predetermination petition, the board shall have the burden of proving that the applicant's criminal record directly relates to the licensed occupation."

(3) Engaged in any unprofessional, unethical, deceptive, or deleterious conduct or practice harmful to the public, which conduct or practice need not have resulted in actual injury to any person. As used in this paragraph, the term 'unprofessional conduct' includes the improper charting of medication and any departure from, or the failure to conform to, the minimal standards of acceptable and prevailing nursing practice;

(4) Violated or attempted to violate a law or any lawfully promulgated rule or regulation of this state, any other state, the board, the United States, or any other lawful authority, without regard to whether the violation is criminally punishable, which statute, law, or rule or regulation relates to or in part regulates the practice of nursing, when the licensee or applicant knows or should know that such action is violative of such law or rule;

The expense of such mental or physical examination shall be borne by the licensee or applicant. The results of such examination shall be admissible in any hearing before the board, notwithstanding any claim of privilege under contrary law or rule. Every person who is licensed to practice practical nursing as a licensed practical nurse in this state, or an applicant for examination, endorsement, or reinstatement, shall be deemed to have given such person's consent to submit to such mental or physical examination and to have waived all objections to the admissibility of the results in any hearing before the board upon the grounds that the same constitutes a privileged communication. If a licensee or applicant fails to submit to such an examination when properly directed to do so by the board, unless such failure was due to circumstances beyond that person's control, the board may enter a final order upon proper notice, hearing, and proof of such refusal. (b) Neither denial of an initial license, the issuance of a private reprimand, the denial of a license by endorsement under Code Section 43-26-38, nor the denial of a request for reinstatement of a license on the grounds that the applicant or licensee has failed to meet the minimum requirements shall be considered a contested case within the meaning of Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and notice and hearing within the meaning of Chapter 13 of Title 50 shall not be required, but the applicant or licensee shall be allowed to appear before the board if he or she so requests.

(c) Notwithstanding any other provision of this Code section, the denial of an initial license or the denial of a request for reinstatement of a license on the grounds that the applicant or licensee is disqualified due to a criminal record shall be in accordance with subsection (a) of Code Section 43-1-19."

SECTION 2-13.

Said title is further amended in Code Section 43-34-8, relating to the authority of the Composite Medical Board to refuse license, certificate, or permit medical professionals or to issue discipline, suspension, restoration, investigations, hearings on fitness, immunity, and publication of final disciplinary actions, by revising paragraph (3) of subsection (a) as follows:

SECTION 2-14.

Said title is further amended in Code Section 43-34-8, relating to the authority of the Composite Medical Board to refuse license, certificate, or permit medical professionals or to issue discipline, suspension, restoration, investigations, hearings on fitness, immunity, and publication of final disciplinary actions, by adding two new subsections to read as follows:

"(a.1) Notwithstanding paragraphs (3), (3.1), (4), and (11) of subsection (a) of this Code section, the medical board shall refuse to grant a license to an individual or shall revoke a license only if a conviction directly relates to the occupation for which the license is sought or held and granting the license would pose a direct and substantial risk to public safety because the individual has not been rehabilitated to safely perform the duties and responsibilities of the practice of medicine. In determining if a conviction directly relates to the occupation for which the license is sought or held, the medical board shall consider:

(1) The nature and seriousness of the offense and the direct relationship of the criminal conduct to the duties and responsibilities of the occupation for which the license is sought or held;

(2) The age of the individual at the time the offense was committed;

(3) The length of time elapsed since the offense was committed;

(4) All circumstances relative to the offense, including, but not limited to, mitigating circumstances or social conditions surrounding the commission of the offense; and

(5) Evidence of rehabilitation and present fitness to perform the duties of the occupation for which the license is sought or held, including, but not limited to:

(A) The completion of the criminal sentence;

(B) A program and treatment certificate issued by the Board of Corrections;

(C) Completion of, or active participation in, a rehabilitative drug or alcohol treatment program;

(D) Testimonials and recommendations, which may include a progress report from the individual's probation or parole officer;

(E) Education and training;

(F) Employment history;

(G) Employment aspirations;

(H) The individual's current family or community responsibilities, or both;

(I) Whether a bond is required to practice the occupation;

(J) Any affidavits or other written documents, including, but not limited to, character references; and

(K) Any other information regarding rehabilitation the individual submits to the board.

(6) In determining whether to terminate and revoke a license, the board shall not consider nor require an individual to disclose:

(A) A deferred adjudication, discharged first offender treatment, completed diversion program, completed conditional discharge, or an arrest not followed by a conviction;

(B) A conviction for which no sentence of incarceration can be imposed;

(C) A conviction that has been restricted, sealed, annulled, dismissed, vacated, or pardoned, provided that the board may consider a plea for which an individual is currently serving a sentence pursuant to Article 3 of Chapter 8 of Title 42, another state's first offender laws, or subsection (a) or (c) of Code Section 16-13-2;

(D) A juvenile adjudication;

(E) A misdemeanor conviction older than five years, unless the offense of conviction is listed in subparagraph (j)(4)(B) of Code Section 35-3-37; or

(F) A conviction older than five years for which the individual was not incarcerated, or a conviction for which the individual's incarceration ended more than five years before the date of the board's consideration, except for a felony conviction related to:

(i) A criminal sexual act;

(ii) Criminal fraud or embezzlement;

(iii) Aggravated assault;

(iv) Aggravated robbery;

(v) Aggravated abuse, neglect, or endangerment of a child;

(vi) Arson;

(vii) Carjacking;

(viii) Kidnapping; or

(ix) Manslaughter, homicide, or murder.

(a.2)(1) Notwithstanding any other provision of law, an individual with a criminal record may petition the board at any time, including while incarcerated and before

starting or completing any required professional qualifications for licensure, for a predetermination as to whether the individual's criminal record will disqualify him or her from obtaining a license.

(2) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning individual need not disclose any offenses falling under paragraph (a.1)(6) of this Code section. The petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.

(3) In considering predetermination petitions, the professional licensing board shall apply the direct relationship standard in subsection (a.1) of this subsection and shall not consider any offenses falling under paragraph (a.1)(6) of this Code section. The board shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.

(4) A predetermination made under this subsection that a petitioner is eligible for a license shall be binding on the board only if the petitioner applies for licensure, fulfills all other requirements for the occupational license, and the petitioner's submitted criminal record was correct and remains unchanged at the time of his or her application for a license.

(5) If a petitioner's criminal record includes matters that may disqualify the petitioner from licensure, the board shall notify the petitioner of the potentially disqualifying convictions. The letter of concern shall advise the petitioner of their opportunity to submit additional evidence of rehabilitation and mitigation or for a hearing, or both.

(6) The board may predetermine that the petitioner's criminal record is likely grounds for denial of a license only after the board has held a hearing on the petitioner's eligibility in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The hearing shall be held in person, by remote video, or by teleconference within 60 days of receipt of the predetermination petition. The individual shall have the opportunity to include character witnesses at the hearing, including but not limited to family members, friends, past or prospective employers, probation or parole officers, and rehabilitation counselors, who may offer their verbal or written support. The board shall not make an adverse inference by a petitioner's decision to forgo a hearing or character witnesses. The board shall issue a final decision within 60 days of complete submission of the issue for consideration or the hearing, whichever is later.

(7) If the board decides that a predetermination petitioner is ineligible for a license, the board shall notify the petitioner of the following:

(A) The grounds and rationale for the predetermination, including any of the petitioner's specific convictions and the factors provided for in subsection (a.2) of this Code section the board deemed directly relevant;

(B) An explanation of the process and right to appeal the board's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(C) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(8) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a predetermination petition, the board shall have the burden of proving that the applicant's criminal record directly relates to the licensed occupation."

(D) A juvenile adjudication;

(2) In determining if a felony or ~~crime involving moral turpitude~~ covered misdemeanor directly relates to the occupation for which the license is sought or held, the professional licensing board shall consider:

(B) A conviction for which no sentence of incarceration can be imposed;

(C) A conviction that has been restricted, sealed, annulled, dismissed, vacated, or pardoned, provided that the board may consider a plea for which an individual is currently serving a sentence pursuant to Article 3 of Chapter 8 of Title 42, another state's first offender laws, or subsection (a) or (c) of Code Section 16-13-2;

(D) A juvenile adjudication;

(5) Notwithstanding any other provision of law, a professional licensing board shall provide individualized consideration of an individual's criminal record and shall not automatically deny licensure on the basis of the individual's criminal record.

(6)(A) If an applicant's criminal record includes issues that will or may prevent the board from issuing a license to the applicant, the board shall notify the applicant, in writing, of the specific issues in sufficient time for the applicant to provide additional documentation supporting the application before the board's final decision to deny the application. After receiving notice of any potential issue with licensure due to his or her criminal convictions, an applicant shall have 30 days to respond by correcting any inaccuracy in the criminal record or by submitting additional evidence of mitigation or rehabilitation for the board's consideration, or both.

(B) For the professional licensing board to deny a license on the basis of the applicant's criminal convictions, the board shall first provide an opportunity for a hearing for such applicant in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The applicant shall have the opportunity at such hearing to present the written or oral testimony of character witnesses, including, but not limited to, family members, friends, prospective employers, probation or parole officers, and rehabilitation counselors. (D) The denial of a license in part or in whole because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a license, the

professional licensing board shall have the burden of proving that the applicant's criminal record directly relates to the occupation for which the license is sought.

(7)(A) Notwithstanding any other provision of law, an individual with a criminal record, who has been domiciled in the State of Georgia for five years or more, may petition a professional licensing board at any time, including while incarcerated and before starting or completing any required professional qualifications for licensure, for a predetermination as to whether such individual's criminal record will disqualify him or her from obtaining a license.

(B) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning individual need not disclose any offenses provided for in paragraph (3) of this subsection. Such petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.

(C) In considering predetermination petitions, the professional licensing board shall apply the direct relationship standard in paragraphs (1) and (2) of this subsection and shall not consider any offenses falling under paragraph (3) of this subsection. The board shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.

(D) A predetermination made under this subsection that a petitioner is eligible for a license shall be binding on the professional licensing board only if the petitioner applies for licensure, fulfills all other requirements for the occupational license, and the petitioner's submitted criminal record was correct and remains unchanged at the time of his or her application for a license.

(E) If a petitioner's criminal record includes matters that may disqualify the petitioner from licensure, the board shall notify the petitioner of the potentially disqualifying convictions. The letter of concern shall advise the petitioner of their opportunity to submit additional evidence of rehabilitation and mitigation or for a hearing, or both.

(F) The professional licensing board may predetermine that the petitioner's criminal record is likely grounds for denial of a license only after the board has held a hearing on the petitioner's eligibility in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The hearing shall be held in person, by remote video, or by teleconference within 60 days of receipt of the predetermination petition. The individual shall have the opportunity to offer written or oral testimony of character witnesses at the hearing, including but not limited to family members, friends, past or prospective employers, probation or parole officers, and rehabilitation counselors. The professional licensing board shall not make an adverse inference by a petitioner's decision to forgo a hearing or character witnesses. The board shall issue a final decision within 60 days of complete submission of the issue for consideration or the hearing, whichever is later.

(G) If the professional licensing board decides that a predetermination petitioner is ineligible for a license, the board shall notify the petitioner of the following:

(i) The grounds and rationale for the predetermination, including any of the petitioner's specific convictions and the factors provided for in subparagraph (A) of paragraph (2) of this subsection the board deemed directly relevant;

(ii) An explanation of the process and right to appeal the board's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(iii) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(H) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a predetermination petition, the professional licensing board shall have the burden of proving that the applicant's criminal record directly relates to the licensed occupation.

(8) Each professional licensing board shall include in its application for licensure and on its public website all of the following information:

(A) Whether the board requires applicants to consent to a criminal record check;

(B) The direct relationship standard in paragraph (1) of this subsection and those factors in paragraph (2) of this subsection that the board shall consider when making a determination of licensure;

(C) The criminal record disclosure provided for in paragraph (3) of this subsection;

(D) The appeals process pursuant to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act,' if the board denies or revokes licensure in whole or in part because of a criminal conviction; and

(E) The predetermination petition process, standards, and application, as well as the process for appealing an adverse predetermination pursuant to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.'

(9) No later than March 31 each year, each occupational licensing board shall file with the Secretary of State an annual report containing information from the previous year as to:

(A) The number of applicants for a license and, of that number, the number of licenses granted;

(B) The number of applicants with a criminal record and, of that number, the number of licenses granted, denied a license for any reason, and denied due to a conviction or state supervision status;

(C) The number of predetermination petitioners and, of that number, the number deemed eligible for a license and the number deemed ineligible for a license;

(D) The racial and ethnic distribution of licensing applicants, including the racial and ethnic distribution of applicants with a criminal record; and

(F) A conviction older than five years for which the individual was not incarcerated, or a conviction for which the individual's incarceration ended more than five years before the date of the board's consideration, except for a felony conviction related to:

(i) A criminal sexual act;

(ii) Criminal fraud or embezzlement;

(iii) Aggravated assault;

(iv) Aggravated robbery;

(v) Aggravated abuse, neglect, or endangerment of a child;

(vi) Arson;

(vii) Carjacking;

(viii) Kidnapping; or

(ix) Manslaughter, homicide, or murder.

(a.2)(1) Notwithstanding any other provision of law, an individual with a criminal record, who has been domiciled in the State of Georgia for five years or more, may petition the board of dentistry at any time, including while incarcerated and before starting or completing any required professional qualifications for licensure, for a predetermination as to whether the individual's criminal record will disqualify him or her from obtaining a license.

(2) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning individual need not disclose any offenses falling under paragraph (6) subsection (a.1) of this Code section. The petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.

(3) In considering predetermination petitions, the board shall apply the direct relationship standard in subsection (a.1) of this Code section and shall not consider any offenses falling under paragraph (6) of subsection (a.1) of this Code section. The board shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.

(4) A predetermination made under this subsection that a petitioner is eligible for a license shall be binding on the board only if the petitioner applies for licensure, fulfills all other requirements for the occupational licensure, and the petitioner's submitted criminal record was correct and remains unchanged at the time of his or her application for a license.

(5) If a petitioner's criminal record includes matters that may disqualify the petitioner from licensure, the board shall notify the petitioner of the potentially disqualifying convictions. The letter of concern shall advise the petitioner of their opportunity to submit additional evidence of rehabilitation and mitigation or for a hearing, or both.

(6) The board may predetermine that the petitioner's criminal record is likely grounds for denial of a license only after the board has held a hearing on the petitioner's eligibility in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The hearing shall be held in person, by remote video, or by teleconference within 60 days of receipt of the predetermination petition. The individual shall have the opportunity to include character witnesses at the hearing, including but not limited to family members, friends, past or prospective employers, probation or parole officers, and rehabilitation counselors, who may offer their verbal or written support. The professional licensing board shall not make an adverse inference by a petitioner's decision to forgo a hearing or character witnesses. The board shall issue a final decision within 60 days of complete submission of the issue for consideration or the hearing, whichever is later.

(7) If the professional licensing board decides that a predetermination petitioner is ineligible for a license, the board shall notify the petitioner of the following:

(A) The grounds and rationale for the predetermination, including the specific convictions and the factors in subsection (a.1) of this Code section the board deemed directly relevant;

(B) An explanation of the process and right to appeal the board's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(C) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(8) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a predetermination petition, the board shall have the burden of proving that the applicant's criminal record directly relates to the licensed occupation."

SECTION 2-8.

Said title is further amended in Code Section 43-11-71, relating to qualifications of applicants for license and criminal background check, by revising subsection (a) and by adding two new subsections to read as follows:

(b) Application for a license under Code Section 43-11-70 shall constitute consent for performance of a criminal background check. Each applicant who submits an application to the board for licensure agrees to provide the board with any and all information necessary to run a criminal background check, including but not limited to classifiable sets of fingerprints. The applicant shall be responsible for all fees associated with the performance of a background check.

(c) Notwithstanding subsections (a) and (b) of this Code section, the board of dentistry shall refuse to grant a license to an individual or shall revoke a license only if a conviction directly relates to the occupation for which the license is sought or held and granting the license would pose a direct and substantial risk to public safety because the individual has not been rehabilitated to safely perform the duties and responsibilities of the practice of a dental hygienist. In determining if a conviction directly relates to the occupation for which the license is sought or held, the board of dentistry shall consider:

(1) The nature and seriousness of the offense and the direct relationship of the criminal conduct to the duties and responsibilities of the occupation for which the license is sought or held;

(2) The age of the individual at the time the offense was committed;

(3) The length of time elapsed since the offense was committed;

(I) Whether a bond is required to practice the occupation;

(J) Any affidavits or other written documents, including, but not limited to, character references; and

(K) Any other information regarding rehabilitation the individual submits to the board.

(6) In determining whether to terminate and revoke a license, the board shall not consider nor require an individual to disclose:

(A) A deferred adjudication, discharged first offender treatment, completed diversion program, completed conditional discharge, or an arrest not followed by a conviction;

(B) A conviction for which no sentence of incarceration can be imposed;

(C) A conviction that has been restricted, sealed, annulled, dismissed, vacated, or pardoned, provided that the board may consider a plea for which an individual is currently serving a sentence pursuant to Article 3 of Chapter 8 of Title 42, another state's first offender laws, or subsection (a) or (c) of Code Section 16-13-2;

(D) A juvenile adjudication;

(E) A misdemeanor conviction older than five years, unless the offense of conviction is listed in subparagraph (j)(4)(B) of Code Section 35-3-37; or

(F) A conviction older than five years for which the individual was not incarcerated, or a conviction for which the individual's incarceration ended more than five years before the date of the board's consideration, except for a felony conviction related to:

(d)(1) Notwithstanding any other provision of law, an individual with a criminal record, who has been domiciled in the State of Georgia for five years or more, may petition the board of dentistry at any time, including while incarcerated and before starting or completing any required professional qualifications for licensure, for a predetermination as to whether the individual's criminal record will disqualify him or her from obtaining a license.

(2) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning individual need not disclose any offenses falling under subparagraph (c)(6)(F) of this Code section. The petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.

(3) In considering predetermination petitions, the professional licensing board shall apply the direct relationship standard in subsection (c) of this Code section and shall

not consider any offenses falling under subparagraph (c)(6)(F) of this Code section. The board shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.

(4) A predetermination made under this subsection that a petitioner is eligible for a license shall be binding on the professional licensing board only if the petitioner applies for licensure, fulfills all other requirements for the occupational licensure, and the petitioner's submitted criminal record was correct and remains unchanged at the time of his or her application for a license.

(5) If a petitioner's criminal record includes matters that may disqualify the petitioner from licensure, the board shall notify the petitioner of the potentially disqualifying convictions. The letter of concern shall advise the petitioner of their opportunity to submit additional evidence of rehabilitation and mitigation or for a hearing, or both.

(6) The board may predetermine that the petitioner's criminal record is likely grounds for denial of a license only after the board has held a hearing on the petitioner's eligibility in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The hearing shall be held in person, by remote video, or by teleconference within 60 days of receipt of the predetermination petition. The individual shall have the opportunity to include character witnesses at the hearing, including but not limited to family members, friends, past or prospective employers, probation or parole officers, and rehabilitation counselors, who may offer their verbal or written support. The professional licensing board shall not make an adverse inference by a petitioner's decision to forgo a hearing or character witnesses. The board shall issue a final decision within 60 days of complete submission of the issue for consideration or the hearing, whichever is later.

(7) If the board decides that a predetermination petitioner is ineligible for a license, the board shall notify the petitioner of the following:

(A) The grounds and rationale for the predetermination, including the specific convictions and the factors in subsection (c) of this Code section the board deemed directly relevant;

(B) An explanation of the process and right to appeal the board's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(C) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(8) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a predetermination petition, the board shall have the burden of proving that the applicant's criminal record directly relates to the licensed occupation."

"(a.1) Notwithstanding paragraphs (3), (3.1), (4), and (11) of subsection (a) of this Code section, the medical board shall refuse to grant a license to an individual or shall revoke a license only if a conviction directly relates to the occupation for which the license is sought or held and granting the license would pose a direct and substantial risk to public safety because the individual has not been rehabilitated to safely perform the duties and responsibilities of the practice of medicine. In determining if a conviction directly relates to the occupation for which the license is sought or held, the medical board shall consider:

(1) The nature and seriousness of the offense and the direct relationship of the criminal conduct to the duties and responsibilities of the occupation for which the license is sought or held;

(2) The age of the individual at the time the offense was committed;

(I) Whether a bond is required to practice the occupation;

(J) Any affidavits or other written documents, including, but not limited to, character references; and

(K) Any other information regarding rehabilitation the individual submits to the board.

(6) In determining whether to terminate and revoke a license, the board shall not consider nor require an individual to disclose:

(A) A deferred adjudication, discharged first offender treatment, completed diversion program, completed conditional discharge, or an arrest not followed by a conviction;

(B) A conviction for which no sentence of incarceration can be imposed;

(C) A conviction that has been restricted, sealed, annulled, dismissed, vacated, or pardoned, provided that the board may consider a plea for which an individual is currently serving a sentence pursuant to Article 3 of Chapter 8 of Title 42, another state's first offender laws, or subsection (a) or (c) of Code Section 16-13-2;

(D) A juvenile adjudication;

(E) A misdemeanor conviction older than five years, unless the offense of conviction is listed in subparagraph (j)(4)(B) of Code Section 35-3-37; or

(F) A conviction older than five years for which the individual was not incarcerated, or a conviction for which the individual's incarceration ended more than five years before the date of the board's consideration, except for a felony conviction related to:

(a.2)(1) Notwithstanding any other provision of law, an individual with a criminal record, who has been domiciled in the State of Georgia for five years or more, may petition the board at any time, including while incarcerated and before starting or completing any required professional qualifications for licensure, for a predetermination as to whether the individual's criminal record will disqualify him or her from obtaining a license.

(2) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning individual need not disclose any offenses falling under paragraph (a.1)(6) of this Code section. The petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.

(3) In considering predetermination petitions, the professional licensing board shall apply the direct relationship standard in subsection (a.1) of this subsection and shall not consider any offenses falling under paragraph (a.1)(6) of this Code section. The board shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.

(4) A predetermination made under this subsection that a petitioner is eligible for a license shall be binding on the board only if the petitioner applies for licensure, fulfills all other requirements for the occupational license, and the petitioner's submitted

criminal record was correct and remains unchanged at the time of his or her application for a license.

(5) If a petitioner's criminal record includes matters that may disqualify the petitioner from licensure, the board shall notify the petitioner of the potentially disqualifying convictions. The letter of concern shall advise the petitioner of their opportunity to submit additional evidence of rehabilitation and mitigation or for a hearing, or both.

(6) The board may predetermine that the petitioner's criminal record is likely grounds for denial of a license only after the board has held a hearing on the petitioner's eligibility in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The hearing shall be held in person, by remote video, or by teleconference within 60 days of receipt of the predetermination petition. The individual shall have the opportunity to include character witnesses at the hearing, including but not limited to family members, friends, past or prospective employers, probation or parole officers, and rehabilitation counselors, who may offer their verbal or written support. The board shall not make an adverse inference by a petitioner's decision to forgo a hearing or character witnesses. The board shall issue a final decision within 60 days of complete submission of the issue for consideration or the hearing, whichever is later.

(7) If the board decides that a predetermination petitioner is ineligible for a license, the board shall notify the petitioner of the following:

(A) The grounds and rationale for the predetermination, including any of the petitioner's specific convictions and the factors provided for in subsection (a.2) of this Code section the board deemed directly relevant;

(B) An explanation of the process and right to appeal the board's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(C) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new petition to the board not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(I) Manslaughter, homicide, or murder.

(d) Notwithstanding the requirements of this Code section, the staff of the commission shall be authorized, without notification to the commission, to immediately open an investigation submitted to the commission by a local school superintendent, with approval of the local board of education, of a complaint by a student against an educator alleging a sexual offense, as provided for in Code Sections 16-6-1 through 16-6-17 or Code Section 16-6-20, 16-6-22.2, or 16-12-100.

(2) The petition for predetermination shall include the individual's criminal record or authorize the board to obtain the individual's criminal record. The petitioning

individual need not disclose any offenses falling under subsection (c.1) of this Code section. The petition shall also include any information the petitioner chooses to submit concerning the circumstances of their record and their rehabilitation.

(3) In considering predetermination petitions, the commission shall apply the direct relationship standard in subsection (a.1) of Code Section 20-2-984.5 and shall not consider any offenses falling under subsection (c.1) of this Code section. The commission shall support any adverse predetermination by justifying that it is substantially more likely than not that a criminal record supports an adverse licensing decision.

(4) A predetermination made under this subsection that a petitioner is eligible for a certificate shall be binding on the commission only if the petitioner applies for certification, fulfills all other requirements for the certificate, and the petitioner's submitted criminal record was correct and remains unchanged at the time of his or her application for a certificate.

(5) If a petitioner's criminal record includes matters that may disqualify the petitioner from certification, the commission shall notify the petitioner of the potentially disqualifying convictions. The letter of concern shall advise the petitioner of their opportunity to submit additional evidence of rehabilitation and mitigation or for a hearing, or both.

(6) The commission may predetermine that the petitioner's criminal record is likely grounds for denial of a license only after the commission has held a hearing on the petitioner's eligibility in accordance with Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The hearing shall be held in person, by remote video, or by teleconference within 60 days of receipt of the predetermination petition. The individual shall have the opportunity to include character witnesses at the hearing, including but not limited to family members, friends, past or prospective employers, probation or parole officers, and rehabilitation counselors, who may offer their verbal or written support. The commission shall not make an adverse inference by a petitioner's decision to forgo a hearing or character witnesses. The commission shall issue a final decision within 60 days of complete submission of the issue for consideration or the hearing, whichever is later.

(7) If the commission decides that a predetermination petitioner is ineligible for a certificate, the board shall notify the petitioner of the following:

(A) The grounds and rationale for the predetermination, including any specific convictions and the factors in subsection (a.1) of Code Section 20-2-984.5 the commission deemed directly relevant;

(B) An explanation of the process and right to appeal the commission's predetermination decision under Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act'; and

(C) Any actions the petitioner may take to remedy the disqualification. An individual who receives a predetermination of ineligibility may submit a revised petition reflecting completion of the remedial actions. The individual may submit a new

petition to the commission not before one year following a final judgment on their initial petition or upon completing the remedial actions, whichever is earlier.

(8) The denial of a predetermination petition because of the applicant's criminal record shall constitute a contested case as defined in Code Section 50-13-2. In an administrative hearing or civil action reviewing the denial of a predetermination petition, the commission shall have the burden of proving that the applicant's criminal record directly relates to the licensed occupation."

SECTION 3-3.

A BILL TO BE ENTITLED
AN ACT

To amend Article 8 of Chapter 36 of Title 36 of the Official Code of Georgia Annotated, relating to municipal deannexation, so as to provide for municipal deannexation of property by application of 100 percent of property owners in certain circumstances; to provide for procedures, conditions, and limitations; to provide for automatic repeal; to amend Chapter 66 of Title 36 of the Official Code of Georgia Annotated, relating to zoning procedures as pertaining to counties and municipal corporations, so as to repeal provisions authorizing administrative officers to exercise zoning powers; to repeal provisions authorizing quasi-judicial boards and agencies to hear and render decisions on applications for special administrative permits; to revise definitions; to provide for related matters; to provide for an effective date and applicability; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 8 of Chapter 36 of Title 36 of the Official Code of Georgia Annotated, relating to municipal deannexation, is amended by adding a new Code section to read as follows:

"36-36-135.

(a) Authority is granted to the governing authority of any municipality initially chartered on or after January 1, 2016, and before July 1, 2017, to deannex an area of the existing corporate limits thereof, in accordance with the procedures provided in this Code section and in Article 1 of this chapter, upon the written and signed applications of the owners of all of the land, except the owners of any public street, road, highway, or right of way, proposed to be deannexed, containing a complete description of the lands to be deannexed; provided, however, that no more than one parcel of property may be deannexed in one action. If the proposed deannexation conforms with the requirements of this Code section, the governing authority of the municipality shall approve such deannexation within 90 days of the submission of the application unless it finds by a preponderance of the evidence that the deannexation would be detrimental to the health and safety of the area remaining within the municipality. In addition, the governing authority of the municipality may deny such deannexation within 90 days of the submission of the application upon a finding that the deannexation would be detrimental to any outstanding bonds issued by the municipality or that the municipality could by law issue.

(b) To be eligible for deannexation under the provisions of this Code section, the application provided for by subsection (a) of this Code section shall show that the following conditions have been met:

(1) The parcel does not exceed ten acres in area;

(2) The boundaries of such parcel abut the boundaries of an adjacent municipality, and if the parcel exceeds two acres in size, more than 50 percent of the boundaries of such parcel abut the boundaries of an adjacent municipality. A parcel shall be deemed to abut the municipal boundary if it is otherwise separated from the municipal boundary by the definite width of:

(A) Any street or right of way;

(B) Any creek or river; or

(C) Any right of way of a railroad or other public service corporation;

(3) The parcel is proposed or utilized for commercial development as a portion of a commercial development of which not less than 75 percent of the area is located or proposed to be located within the adjacent municipality and which adjoins such parcel;

(4) The parcel does not provide access from the area proposed or utilized for commercial development to a public street or road; and

(5) The governing authority of the adjacent municipality has adopted an ordinance or resolution annexing such parcel conditioned upon and effective immediately upon the deannexation of such parcel by the municipality in which it is located.

(c) Deannexation under the provisions of this Code section shall be permitted for one year following the adoption of the conditional ordinance or resolution provided for in paragraph (5) of subsection (b) of this Code section. If such deannexation is not completed within one year of such adoption, such conditional ordinance or resolution shall be null and void and such deannexation under the provisions of this Code section shall require adoption of another such ordinance or resolution by the adjacent municipality.

(d) This Code section shall stand repealed on December 31, 2027."

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 70 of Title 36 of the Official Code of Georgia Annotated, relating to coordinated and comprehensive planning and service delivery by counties and

municipalities, so as to revise provisions for establishing, negotiating, reviewing, revising, and filing local government service delivery strategies; to revise provisions related to funds derived from certain special districts; to revise the dispute resolution process; to provide for judicial resolution of certain disputes; to revise provisions related to sanctions; to require and limit the promulgation of certain rules and regulations; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 70 of Title 36 of the Official Code of Georgia Annotated, relating to coordinated and comprehensive planning and service delivery by counties and municipalities, is amended by revising Article 2, relating to service delivery, as follows:

"ARTICLE 2

36-70-20.

The intent of this article is to provide a flexible framework within which local governments in each county can develop a service delivery system that is both efficient and responsive to citizens in their county. The General Assembly recognizes that the unique characteristics of each county throughout the state preclude a mandated legislative outcome for the delivery of services in every county. The process provided by this article is intended to minimize inefficiencies resulting from duplication of services and competition between local governments and to provide a mechanism to resolve disputes over local government service delivery, funding equity, and land use. The local government service delivery process should result in the minimization of ~~noncompatible~~ incompatible municipal and county land use plans and in a simple, concise agreement describing which local governments will provide which service in specified areas within a county and how provision of such services will be funded.

36-70-21.

(a) Each county and municipality shall execute an agreement for the implementation of a local government service delivery strategy as set forth in this article ~~by July 1, 1999~~:

(1) By December 31st of each year following the year in which the county's ten-year comprehensive plan update is due in accordance with the rules promulgated by the department pursuant to this chapter or Article 1 of Chapter 8 of Title 50; and

(2) Within 180 days of the occurrence of an event requiring review and revision pursuant to subsection (b) of Code Section 36-70-28.

(b) For municipalities located within multiple counties, the review and deadline for an agreement for the implementation of a local government service delivery strategy shall be applicable for the portion of the municipality that lies within a given county in conjunction with such county's review and deadline.

(c) The provisions of this article shall not apply to any consolidated government in which no other municipal corporation exists within the county.

36-70-22.

(a)(1) Each county shall initiate the process for developing a local government service delivery strategy ~~after July 1, 1997, but no later than January 1, 1998~~ required by paragraph (1) of subsection (a) of Code Section 36-70-21 no earlier than April 1st and no later than July 1st of the year following any year in which the county's ten-year comprehensive plan update is due.

(2) Each county shall initiate the process for developing a local government service delivery strategy required by a triggering event under paragraph (2) of subsection (a) of Code Section 36-70-21 no later than 30 days following the occurrence of the event. If the county does not initiate such process within the 30 day period, any municipality in the county may initiate the process.

(3) Any municipality affected by a change in service delivery or revenue distribution arrangements as described in subsection (b.1) of Code Section 36-70-28 may initiate the process of amending a local government service delivery strategy pursuant to subsection (b.1) of Code Section 36-70-28.

(b) Initiation of the strategy shall be accomplished by the provision of a written notice from the county to the governing bodies of all municipalities located wholly or partially within the county or providing services within the county and to other counties providing services within the county. Such notice shall:

(1) State ~~state~~ the date, time, and place for a joint meeting at which designated representatives of all local governing bodies shall assemble for the purpose of commencing deliberations on the service delivery strategy~~. The notice shall be~~;

(2) Be sent not more than 45 and not less than 15 days prior to the meeting date; and

(3) Identify all local governments to which the notice will be delivered.

(c) In the event the county governing authority fails to initiate the process by ~~January 1, 1998~~ July 1 of the year following any year in which the county's ten-year comprehensive plan update is due, any municipality within the county may do so by sending a written notice, containing the required information, to the county and all other municipalities.

36-70-22.1.

(a) Within 60 days of the initiation of the process for developing a local government service delivery strategy, all local governments that received the written notice provided for in Code Section 36-70-22 shall provide all other local governments identified in such written notice with a written proposal of a local government service delivery strategy containing the components required by Code Section 36-70-23, and in compliance with the criteria required by Code Section 36-70-24 together with all such factual information, data, and evidence supporting such proposal.

(b) Such written proposal for each local government may be modified periodically with written notice provided to all local governments that received the written notice provided for in Code Section 36-70-22; provided, however, that written proposals shall be finalized

by each local government prior to an agreement to enter into nonbinding arbitration under Code Section 36-70-25.2 and the judicial process provided for in Code Section 36-70-25.3. Modifications to written proposals pursuant to this subsection may include written responses to any written proposal of another local government in the same county.
(c) All such written proposals and supporting documentation shall be considered public records and subject to disclosure pursuant to Code Section 50-18-71.

36-70-23.
Each local government service delivery strategy shall include the following components:
(1) An identification of all local government services presently provided or primarily funded by each general purpose local government and each authority within the county, or providing services within the county, and a description of the geographic area in which the identified services are provided by each jurisdiction;
(2) An assignment of which local government or authority, pursuant to the requirements of this article, will provide each service, the geographic areas of the county in which such services are to be provided, and a description of any services to be provided by any local government to any geographic area outside its geographical boundaries. In the event two or more local governments within the county are assigned responsibility for providing identical services within the same geographic area, the strategy shall include an explanation of such arrangement;
(3) A description of the source of the funding for each service identified pursuant to paragraph (2) of this Code section; and
(4) An identification of the mechanisms to be utilized to facilitate the implementation of the services and funding responsibilities identified pursuant to paragraphs (2) and (3) of this Code section.

36-70-23.1.
The department shall develop state-wide mapping standards in consultation with the Georgia Geospatial Advisory Council created under Article 13 of Chapter 8 of Title 50, which shall be used for any service delivery strategy for which the parties elect to describe geographic areas for local government services within each county by using maps. Such state-wide mapping standards shall include standards for describing geographical areas to include by jurisdiction level, census tract, and parcel number. The department shall promulgate such mapping standards by rule or regulation on or before March 1, 2026.

When a municipality provides a service at a higher level than the base

level of service provided throughout the geographic area of the county by the county, such service shall not be considered a duplication of the county service;

(2)(A) The strategy shall provide that water or sewer fees charged to customers located outside the geographic boundaries of a service provider shall not be arbitrarily higher than the fees charged to customers receiving such service which are located within the geographic boundaries of the service provider.

(B) If a governing authority disputes the reasonableness of water and sewer rate differentials imposed within its jurisdiction by another governing authority, that disputing governing authority may hold a public hearing for the purpose of reviewing the rate differential. Following the preparation of a rate study by a qualified engineer, the governing authority may challenge the arbitrary rate differentials on behalf of its residents in a court of competent jurisdiction. Prior to such challenge, the dispute shall be submitted to some form of alternative dispute resolution;

(3)(A) The strategy shall ensure that the cost of any service which a county provides primarily for the benefit of the unincorporated area of the county shall be borne by the unincorporated area residents, individuals, and property owners who receive the service. Further, when the county and one or more municipalities jointly fund a county-wide service, the county share of such funding shall be borne by the unincorporated residents, individuals, and property owners that receive the service.

(B) Such funding shall be derived from:

(i) Special ~~special~~ service districts created by the county in which ad valorem property taxes, ~~insurance premium taxes,~~ assessments, or user fees are levied or imposed;

(ii) Grants;

(iii) Cable franchise fees, alcohol excise taxes, financial institution taxes, hotel-motel, occupation taxes, railroad equipment taxes, insurance premium taxes, rental car excise taxes, impact fees, stormwater fees or title ad valorem taxes, excluding any amounts of such taxes or fees to the extent such amount is derived from incorporated areas of the county;

(iv) Revenues apportioned to the county as part of an intergovernmental agreement from the county and one or more municipalities; or

(v) Through ~~through~~ such other mechanism agreed upon by the ~~affected~~ parties approving the strategy which complies with the intent of subparagraph (A) of this paragraph; and

Prior to exercising any of said powers outside the limits of Spalding

County, said authority shall be required to obtain the approval of the governing authorities of both the City of Griffin and Spalding County.

SECTION 8.

Revenue bonds.

The authority, or any authority or body which has or which may in the future succeed to the powers, duties, and liabilities vested in the authority created hereby, shall have power and is authorized at one time, or from time to time, to provide by resolution for the issuance of negotiable revenue bonds, for the purpose of paying all or any part of the cost as herein defined of any one or more projects. The principal and interest of such revenue bonds shall be payable solely from the special fund herein provided for such payment. The bonds of each issue shall be dated, shall bear interest at such rate or rates as may be authorized by the authority from time to time, shall be payable as provided by resolution of the authority, shall mature at such time or times not exceeding 30 years from their date or dates, shall be payable in such medium of payment as to both principal and interest as may be determined by the authority, and may be made redeemable before maturity at the option of the authority, at such price or prices and under such terms and conditions as may be fixed by the authority in the resolution providing for the issuance of the bonds. Such revenue bonds or obligations shall be issued pursuant to and in conformity with Article 3 of Chapter 82 of Title 36 of the O.C.G.A., the "Revenue Bond Law," and all procedures pertaining to such issuance and the conditions thereof shall be the same as those contained in said "Revenue Bond Law" and any amendments thereof.

SECTION 9.

Form, denominations, registration, place of payment.

The authority shall determine the form of the bonds, shall fix the denomination or denominations of the bonds, and the place or places of payment of principal and interest thereof, which may be at any bank or trust company within or outside the state. The bonds may be issued in coupon or registered form, or both, as the authority may determine, and provision may be made for the registration of any coupon bond as to principal alone and also as to both the principal and interest.

SECTION 10.

Signatures, seal.

In case any officer whose signature shall appear on any bonds or whose facsimile signature shall appear on any coupon shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes the same as if he or she had remained in office until such delivery. All such bonds shall be signed by the chairperson of the authority and attested by the secretary-treasurer of the authority, and the official seal of the authority shall be affixed thereto, and any coupons attached thereto shall

bear the facsimile signatures of the chairperson and secretary-treasurer of the authority. Any bond may be signed, sealed, and attested on behalf of the authority by such persons as at the actual time of the execution of such bonds shall be duly authorized or hold the proper office, although at the date of delivery and payment of such bonds such persons may not have been so authorized or shall not have held such office.

SECTION 11.
Negotiability, exemption from taxation.

All revenue bonds issued under the provisions of this Act shall have and are declared to have all the qualities and incidents of negotiable instruments under the negotiable instrument law of the state. Such bonds are declared to be issued for an essential public and governmental purpose and the said bonds, their transfer, and the income thereof shall be exempt from all taxation within the state.

SECTION 12.
Sale, price.

The authority may sell such bonds in such manner and for such price as it may determine to be in the best interest of the authority.

SECTION 13.
Proceeds of bonds.

The proceeds of such bonds shall be used solely for the payment of the cost of the project or projects, and unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture, additional bonds may in like manner be issued to provide the amount of any deficit for the cost of the project or projects which, unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purposes. If the proceeds of the bonds of any issue shall exceed the amount required for the purpose for which such bonds are issued, the surplus shall be paid into a sinking fund or used for additional construction as may be provided in the resolution authorizing the issuance of the bonds or in the trust indenture.

SECTION 14.
Interim receipts and certificates or temporary bonds.

Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts, interim certificates, or temporary bonds, with or without coupons exchangeable for definitive bonds upon the issuance of the latter.

SECTION 15.
Replacement of lost or mutilated bonds.

The authority may also provide for the replacement of any bond which shall become mutilated or be destroyed or lost.

SECTION 16.
Conditions precedent to issuance, object of issuance.

Such revenue bonds may be issued without any other proceedings or the happening of any other conditions or things than those proceedings, conditions, and things which are specified or required by this Act. In the discretion of the authority, revenue bonds of a single issue may be issued for the purpose of any particular project. Any resolution providing for the issuance of revenue bonds under the provisions of this Act shall become effective immediately upon its passage and need not be published or posted, and any such resolution may be passed at any regular or special or adjourned meeting of the authority by a majority of the quorum as in this Act provided.

SECTION 17.
Credit not pledged.

Revenue bonds issued under the provisions of this Act shall not be deemed to constitute a debt of either the City of Griffin or Spalding County, or any municipality therein, but such bonds shall be payable solely from the fund hereinafter provided for and the issuance of such revenue bonds shall not directly, indirectly, or contingently obligate the said city or county, or any municipality therein, to levy or to pledge any form of taxation whatever therefor or to make any appropriation for such payment, and all such bonds shall contain recitals on their face covering substantially the foregoing provisions of this section.

SECTION 18.
Trust indenture as security.

In the discretion of the authority, any issue of such revenue bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the state. Such trust indenture may pledge or assign fees, tolls, revenues, and earnings to be received by the authority, including the proceeds derived from the sale from time to time of any surplus property of the authority, both real and personal. Either the resolution providing for the issuance of revenue bonds or such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the acquisition of property, the construction of the project, the maintenance, operation, repair, and insuring of the property, and the custody, safeguarding,

and application of all moneys, including the proceeds derived from the sale or lease of property of the authority, both real and personal, and may also provide that any project shall be constructed and paid for under the supervision and approval of consulting engineers or architects employed or designated by the authority, and satisfactory to the original purchasers of the bonds issued therefor and may also require that the security given by contractors and by any depository of the proceeds of the bonds or revenues or other moneys be satisfactory to such purchasers, and may also contain provisions concerning the conditions, if any, upon which additional revenue bonds may be issued. It shall be lawful for any bank or trust company incorporated under the laws of this state to act as such depository and to furnish such indemnifying bonds or pledge such securities as may be required by the authority. Such indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action of bondholders as is customary in trust indentures securing bonds and debentures of corporations. In addition to the foregoing, such trust indenture may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation, and repair of the project affected by such indenture.

SECTION 19.

To whom proceeds of bonds shall be paid.

The authority shall, in the resolution providing for the issuance of revenue bonds or in the trust indenture, provide for the payment of the proceeds of the sale of the bonds to any officer or person who, or any agency, bank, or trust company which, shall act as trustee of such funds to hold and apply the same to the purposes thereof, subject to such regulations as this Act and such resolutions or trust indentures may provide.

SECTION 20.

Sinking fund.

The revenues, fees, tolls, and earnings derived from any particular project or projects, regardless of whether or not such fees, earnings, and revenues were produced by a particular project for which bonds have been issued and any moneys derived from the sale or lease of any properties, both real and personal, of the authority, unless otherwise pledged and allocated, may be pledged and allocated by the authority to the payment of the principal and interest on such revenue bonds of the authority as the resolution authorizing the issuance of the bonds or the trust instrument may provide, and such funds so pledged from whatever source received, which said pledge may include funds received from one or more or all sources, shall be set aside at regular intervals as may be provided in the resolution or trust indenture into a sinking fund, which said sinking fund shall be pledged to, and charged with, the payment of:

(1) The interest upon such revenue bonds as such interest shall fall due;

(2) The principal of the bonds as the same shall fall due;

(3) The necessary charges of a paying agent or agents for paying interest and principal;
(4) Any premium upon bonds retired by call or purchase as hereinabove provided; and
(5) Any other reasonable or necessary costs or expenses relating to such bond issue.

The use and disposition of such sinking fund shall be subject to such regulations as may be provided in the resolution authorizing the issuance of the revenue bonds or in the trust indenture, however, except as may otherwise be provided in such resolution or trust indenture, such sinking fund shall be a fund for the benefit of all revenue bonds without distinction or priority of one over another. Subject to the provisions of the resolution authorizing the issuance of the bonds or in the trust indenture, surplus moneys in the sinking fund may be applied to the purchase or redemption of bonds and any such bonds so purchased or redeemed shall forthwith be canceled and shall not again be issued.

SECTION 21.
Remedies of bondholders.

Any holder of revenue bonds issued under the provisions of this Act or any of the coupons appertaining thereto, and the trustee under the trust indenture, if any, except to the extent the rights herein given may be restricted by resolution passed before the issuance of the bonds or by the trust indenture, may, either at law or in equity, by suit, action, mandamus, or other proceedings protect and enforce any and all rights under the laws of the State of Georgia or granted hereunder or under such resolution or trust indenture, and may enforce and compel performance of all duties required by this Act or by such resolution or trust indenture, to be performed by the authority, or any officer thereof, including the fixing, charging, and collecting of revenues, fees, tolls, and other charges for the use of the facilities and services furnished.

SECTION 22.
Refunding bonds.

The authority is authorized to provide by resolution for the issuance of revenue refunding bonds of the authority for the purpose of refunding any revenue bonds issued under the provisions of this Act and then outstanding, together with accrued interest thereon. The issuance of such revenue refunding bonds, the maturities, and all other details thereof, the rights of the holders thereof, and the duties of the authority in respect to the same shall be governed by the foregoing provisions of this Act insofar as the same may be applicable.

SECTION 23.
Validation.

Bonds of the authority shall be confirmed and validated in accordance with said "Revenue Bond Law." The petition for validation shall also make party defendant to such action any municipality, county, authority, subdivision, or instrumentality of the State of Georgia or the United States government or any department or agency of the United States

SECTION 1.

Chapter 36 of Title 33 of the Official Code of Georgia Annotated, relating to the Georgia Insurers Insolvency Pool, is amended in paragraph (4) of Code Section 33-36-3, relating to definitions, by adding new subparagraphs to read as follows:

"(O) Notwithstanding any other provision of this chapter, an insurance policy issued by a member insurer and later allocated, transferred, or assumed by, or otherwise made the sole responsibility of another insurer, pursuant to any provision of law of this state providing for the division of an insurance company or the statutory assumption or transfer of designated policies and under which there is no remaining obligation to the transferring entity, shall be considered to have been issued by a member insurer which is an insolvent insurer for the purposes of this chapter in the event that the insurer to which the policy has been allocated, transferred, assumed by, or otherwise made the sole responsibility of is placed in liquidation.

(P) An insurance policy that was issued by a nonmember insurer and later allocated, transferred, assumed by, or otherwise made the sole responsibility of a member insurer under any provision of law of this state described in subparagraph (O) of this paragraph shall not be considered to have been issued by a member insurer for the purposes of this chapter."

SECTION 2.

Chapter 52 of Title 33 of the Official Code of Georgia Annotated, relating to assumption reinsurance agreements, is amended by designating Code Sections 33-52-1 through 33-52-6 as Article 1.

SECTION 3.

Said chapter is further amended by replacing "chapter" with "article" wherever the former term occurs in:

(1) Code Section 33-52-1, relating to applicability of chapter;

(2) Code Section 33-52-2, relating to definitions; and

(3) Code Section 33-52-4, relating to rejection of transaction by policyholders, receipt of notice, and transfers involving companies deemed to be in hazardous condition.

SECTION 4.

Said chapter is further amended by enacting a new article to read as follows:

"ARTICLE 2

33-52-10.

This Act shall be known and may be cited as the 'Insurance Business Transfer Act.'

33-52-11.

This article is adopted to provide options to address the limitations in the current methods available to insurers to transfer or assume blocks of insurance business in an efficient and cost-effective manner that: provides needed legal finality for such transfers in order to provide for improved operational and capital efficiency for insurance companies; stimulates the economy by attracting segments of the insurance industry to this state; makes this state an attractive home jurisdiction for insurance companies; encourages economic growth and increased investment in the financial services sector; and increases the availability of quality insurance industry jobs in this state. These purposes are accomplished by providing a basis and procedures for the transfer and novation of policies from a transferring insurer to an assuming insurer by way of an insurance business transfer plan without the affirmative consent of policyholders or reinsureds. The novation is effected by court order. This article establishes the requirements for notice and disclosure and standards and procedures for the approval of the transfer and novation by the Commissioner and the Superior Court of Fulton County pursuant to an insurance

business transfer plan. This article shall not limit or restrict other means of effecting a transfer or novation.

33-52-12.

As used in this article, the term:

(1) 'Affiliate' means a person that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with the person specified.

(2) 'Applicant' means an assuming insurer, transferring insurer, or reinsurer applying to the Commissioner for the approval of an insurance business transfer plan as provided for in Code Section 33-52-15.

(3) 'Approval order' means an order issued by the court approving an insurance business transfer plan as provided for in Code Section 33-52-15.

(4) 'Assuming insurer' means an insurer domiciled in this state that assumes or seeks to assume policies from a transferring insurer pursuant to this article. An assuming insurer may be a company established pursuant to Chapter 41 of this title.

(5) 'Court' means the Superior Court of Fulton County.

(6) 'Implementation order' means an order issued by the court implementing an insurance business transfer plan as provided for in Code Section 33-52-15.

(7) 'Independent expert' means an impartial individual who assists the Commissioner and the court in connection with their review of a proposed transfer and novation of insurance business. The Commissioner shall select such expert from a list of at least two nominees submitted jointly by the transferring insurer and the assuming insurer; provided, however, that, if the Commissioner, in his or her sole discretion, rejects such nominees, the Commissioner may appoint another person to serve as an independent expert. An independent expert or nominee shall:

(A) Hold no financial interest in either the assuming insurer or transferring insurer or any of their respective affiliates;

(B) Not have been employed by or acted as an officer, director, consultant, or other independent contractor for either the assuming insurer or transferring insurer within the previous twelve months;

(C) Not be simultaneously appointed by the Commissioner to assist in any capacity in any insurer rehabilitation or delinquency proceeding;

(D) Not receive or be promised compensation in connection with the insurance business transfer for which he or she is selected to serve as an independent expert; provided, however, that a fee may be approved by the Commissioner that is not contingent upon the approval, implementation, or consummation of an insurance business transfer plan; and

(E) Provide proof of insurance covering the services provided as an independent expert as determined by the Commissioner.

(8) 'Insurance business transfer' means a transfer and novation in accordance with this article. An approved insurance business transfer transfers insurance obligations, risks, rights, or any combination thereof, of existing or in-force contracts of insurance or

reinsurance from a transferring insurer to an assuming insurer. An approval order and an implementation order of an insurance business transfer plan will effect a transfer and novation of the transferred contracts of insurance or reinsurance with the result that the assuming insurer becomes directly liable to the policyholders of the transferring insurer and the transferring insurer's insurance obligations, risks, rights, or any combination thereof, under the contracts are extinguished.

(9) 'Insurance business transfer plan' or 'plan' means the plan submitted to the department to accomplish the transfer and novation pursuant to an insurance business transfer, including any associated transfer of assets and rights from or on behalf of the transferring insurer to the assuming insurer.

(10) 'Insurer' means an insurance or surety company, including a reinsurance company, and includes a corporation, company, partnership, association, society, order, individual, or aggregation of individuals engaging in or proposing or attempting to engage in any kind of insurance or surety business, including the exchanging of reciprocal or interinsurance contracts between individuals, partnerships, and corporations.

(11) 'Notice' means written notice, telephone notice, electronic notice, or substitute notice, as consented to in an agreement included in or related to the subject business, or as provided by rules and regulations promulgated by the Commissioner.

(12) 'Petitioner' means an assuming insurer, transferring insurer, or reinsurer petitioning a court for an approval order and an implementation order of a plan pursuant to this article.

(13) 'Policy' means a policy, contract or certificate of insurance or a contract of reinsurance pursuant to which an insurer agrees to assume an insurance obligation or risk, or both, of a policyholder or to make payments on behalf of, or to, such policyholder or its beneficiaries, and shall include property, casualty, life, health, and any other line of insurance the Commissioner deems appropriate for an insurance business transfer.

(14) 'Policyholder' means an insured or a reinsured under a policy that is part of the subject business.

(15) 'State insurance guaranty association' means the Georgia Insurers Insolvency Pool, created by Chapter 36 of this title, the Georgia Life and Health Insurance Guaranty Association, created by Chapter 38 of this title, or any similar organization in another state.

(16) 'Subject business' means the policy or policies designated for transfer and novation pursuant to a corresponding insurance business transfer plan.

(17) 'Transfer and novation' means the transfer of insurance obligations, risks, rights, or any combination thereof, of existing or in-force policies from a transferring insurer to an assuming insurer, with the result that the assuming insurer becomes directly liable to the policyholders of the transferring insurer on the transferred policies and the transferring insurer's insurance obligations, risks, rights, or any combination thereof, under the transferred policies are extinguished.

(18) 'Transferring insurer' means an insurer or reinsurer that seeks to or has accomplished a transfer and novation of insurance obligations, risks, rights, or any combination thereof, under one or more policies to an assuming insurer pursuant to an insurance business transfer plan and the provisions of this article.

33-52-13.

Notwithstanding any other provision of law, the court may issue any order, process, or judgment it deems necessary or appropriate to carry out the provisions of this article. No provision of this article shall be construed to preclude the court from, on its own motion, taking any action or making any determination necessary or appropriate to enforce or implement court orders or rules, or to prevent an abuse of power.

33-52-14.

(a) When notice is required under this article and except as otherwise permitted or directed by the court or the Commissioner, such notice shall be transmitted within 45 days of the event triggering such requirement:

(1) To the chief insurance regulatory official in each jurisdiction in which the transferring insurer:

(A) Holds or has ever held a certificate of authority; and

(4) To all policyholders holding policies that are part of the subject business at their last known address as indicated by the records of the transferring insurer or to the address to which premium notices or other policy documents are sent. Notice shall also be sent to the transferring insurer's agents or brokers of record on the subject business; and

(5) By publication in a newspaper or other publication of general circulation in the state in which the transferring insurer has its principal place of business and in such other publications that the Commissioner requires.

(b) When notice is given in accordance with this Code section, any information or orders under this article shall be conclusive with respect to all intended recipients of the notice, whether or not the intended recipients receive actual notice.

(c) When notice is required by an applicant or petitioner but a receiver of the insurer has been appointed pursuant to the laws of the insurer's home jurisdiction, the receiver shall provide the required notice.

(I) Transferring policyholders, reinsurers, and claimants;

(II) Policyholders, reinsurers, and claimants of the transferring insurer whose policies will not be transferred; and

(b) In the Commissioner's discretion, in connection with the department's participation in the proceedings undertaken pursuant to this article, an applicant shall reimburse the department for any compensation and benefits paid to the personnel of the department for time spent engaged in the proceedings, including, but not limited to, examiners, actuaries, attorneys, managers, and paraprofessionals.

(c) The Commissioner may retain independent authorized consultants, including attorneys, appraisers, actuaries, certified public accountants, or other professionals and specialists to assist department personnel in connection with the review required by this article, the cost of which shall be borne by the applicant.

(d) The applicant shall pay the expenses of the department and its authorized consultants incurred in fulfilling their obligations under this article, including the actual expenses of the department or the expenses and compensation of any consultants retained by the department.

(e) The transferring insurer and the assuming insurer shall jointly be obligated to pay any compensation, costs, and expenses of the independent expert and any consultants retained by the independent expert and approved by the department incurred in fulfilling the obligations of the independent expert under this article. Nothing in this article shall

be construed to create any duty for the independent expert to any party other than the department or the court.

(f) Failure to pay any of the requisite fees or reimbursements within 30 days of demand shall be grounds for the Commissioner to request that the court dismiss the petition for approval of the insurance business transfer plan prior to the filing of an implementation order by the court, or, if after the filing of an implementation order, the Commissioner may suspend or revoke the assuming insurer's certificate of authority to transact insurance business in this state."

G. Prior to adoption of a proposed Rule by the Commission, and at least thirty (30) days in advance of the meeting at which the Commission will hold a public hearing on the proposed Rule, the Commission shall provide a Notice of Proposed Rulemaking:

1. On the website of the Commission or other publicly accessible platform;

2. To persons who have requested notice of the Commission's notices of proposed rulemaking, and

3. In such other way(s) as the Commission may by Rule specify.

H. The Notice of Proposed Rulemaking shall include:

1. The time, date, and location of the public hearing at which the Commission will hear public comments on the proposed Rule and, if different, the time, date, and location of the meeting where the Commission will consider and vote on the proposed Rule;

2. If the hearing is held via telecommunication, video conference, or other electronic means, the Commission shall include the mechanism for access to the hearing in the Notice of Proposed Rulemaking;

3. The text of the proposed Rule and the reason therefor;

4. A request for comments on the proposed Rule from any interested person; and

5. The manner in which interested persons may submit written comments.

I. All hearings will be recorded. A copy of the recording and all written comments and documents received by the Commission in response to the proposed Rule shall be available to the public.

J. Nothing in this section shall be construed as requiring a separate hearing on each Rule. Rules may be grouped for the convenience of the Commission at hearings required by this section.

K. The Commission shall, by majority vote of all members, take final action on the proposed Rule based on the Rulemaking record and the full text of the Rule.

1. The Commission may adopt changes to the proposed Rule provided the changes do not enlarge the original purpose of the proposed Rule.

2. The Commission shall provide an explanation of the reasons for substantive changes made to the proposed Rule as well as reasons for substantive changes not made that were recommended by commenters.

3. The Commission shall determine a reasonable effective date for the Rule. Except for an emergency as provided in Section 12.L, the effective date of the rule shall be no sooner than 30 days after issuing the notice that it adopted or amended the Rule.

L. Upon determination that an emergency exists, the Commission may consider and adopt an emergency Rule with 48 hours' notice, with opportunity to comment, provided that the usual Rulemaking procedures provided in the Compact and in this section shall be retroactively applied to the Rule as soon as reasonably possible, in no event later than

ninety (90) days after the effective date of the Rule. For the purposes of this provision, an emergency Rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety, or welfare;

2. Prevent a loss of Commission or Member State funds;

3. Meet a deadline for the promulgation of a Rule that is established by federal law or rule; or

4. Protect public health and safety.

M. The Commission or an authorized committee of the Commission may direct revisions to a previously adopted Rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a Rule. A challenge shall be made in writing and delivered to the Commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

N. No Member State's rulemaking requirements shall apply under this compact.

SECTION 13: OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

A. Oversight

1. The executive and judicial branches of State government in each Member State shall enforce this Compact and take all actions necessary and appropriate to implement the Compact.

2. Except as otherwise provided in this Compact, venue is proper and judicial proceedings by or against the Commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a Licensee for professional malpractice, misconduct or any such similar matter.

3. The Commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the Compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the Commission service of process shall render a judgment or order void as to the Commission, this Compact, or promulgated Rules.

B. Default, Technical Assistance, and Termination

1. If the Commission determines that a Member State has defaulted in the performance of its obligations or responsibilities under this Compact or the promulgated Rules, the Commission shall provide written notice to the defaulting State. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the Commission may take, and shall offer training and specific technical assistance regarding the default.

2. The Commission shall provide a copy of the notice of default to the other Member States.

C. If a State in default fails to cure the default, the defaulting State may be terminated from the Compact upon an affirmative vote of a majority of the delegates of the Member States, and all rights, privileges and benefits conferred on that State by this Compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending State of obligations or liabilities incurred during the period of default.

D. Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting State's legislature, the defaulting State's State Licensing Authority and each of the Member States' State Licensing Authority.

E. A State that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

F. Upon the termination of a State's membership from this Compact, that State shall immediately provide notice to all Licensees within that State of such termination. The terminated State shall continue to recognize all licenses granted pursuant to this Compact for a minimum of six (6) months after the date of said notice of termination.

G. The Commission shall not bear any costs related to a State that is found to be in default or that has been terminated from the Compact, unless agreed upon in writing between the Commission and the defaulting State.

H. The defaulting State may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney's fees.

I. Dispute Resolution

1. Upon request by a Member State, the Commission shall attempt to resolve disputes related to the Compact that arise among Member States and between Member and non-Member States.

2. The Commission shall promulgate a Rule providing for both mediation and binding dispute resolution for disputes as appropriate.

J. Enforcement

1. By majority vote as provided by Rule, the Commission may initiate legal action against a Member State in default in the United States District Court for the District of Columbia or the federal district where the Commission has its principal offices to enforce compliance with the provisions of the Compact and its promulgated Rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney's fees. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or the defaulting Member State's law.

2. A Member State may initiate legal action against the Commission in the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices to enforce compliance with the provisions of the Compact and its promulgated Rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney's fees.

3. No person other than a Member State shall enforce this compact against the Commission.

SECTION 14: EFFECTIVE DATE, WITHDRAWAL, AND AMENDMENT

A. The Compact shall come into effect on the date on which the Compact statute is enacted into law in the seventh Member State.

1. On or after the effective date of the Compact, the Commission shall convene and review the enactment of each of the first seven Member States ('Charter Member States') to determine if the statute enacted by each such Charter Member State is materially different than the model Compact statute.

a. A Charter Member State whose enactment is found to be materially different from the model Compact statute shall be entitled to the default process set forth in Section 13.

b. If any Member State is later found to be in default, or is terminated or withdraws from the Compact, the Commission shall remain in existence and the Compact shall remain in effect even if the number of Member States should be less than seven.

2. Member States enacting the Compact subsequent to the seven initial Charter Member States shall be subject to the process set forth in Section 10(C)(21) to determine if their enactments are materially different from the model Compact statute and whether they qualify for participation in the Compact.

3. All actions taken for the benefit of the Commission or in furtherance of the purposes of the administration of the Compact prior to the effective date of the Compact or the Commission coming into existence shall be considered to be actions of the Commission unless specifically repudiated by the Commission.

4. Any State that joins the Compact subsequent to the Commission's initial adoption of the Rules and bylaws shall be subject to the Rules and bylaws as they exist on the date on which the Compact becomes law in that State. Any Rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the Compact becomes law in that State.

B. Any Member State may withdraw from this Compact by enacting a statute repealing the same.

1. A Member State's withdrawal shall not take effect until 180 days after enactment of the repealing statute.

2. Withdrawal shall not affect the continuing requirement of the withdrawing State's Licensing Authority to comply with the investigative and Adverse Action reporting requirements of this Compact prior to the effective date of withdrawal.

3. Upon the enactment of a statute withdrawing from this compact, a State shall immediately provide notice of such withdrawal to all Licensees within that State. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing State shall continue to recognize all licenses granted pursuant to this compact for a minimum of six (6) months after the date of such notice of withdrawal.

C. Nothing contained in this Compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a Member State and a non-Member State that does not conflict with the provisions of this Compact.

D. This Compact may be amended by the Member States. No amendment to this Compact shall become effective and binding upon any Member State until it is enacted into the laws of all Member States.

SECTION 15: CONSTRUCTION AND SEVERABILITY

A. This Compact and the Commission's rulemaking authority shall be liberally construed so as to effectuate the purposes, and the implementation and administration of the Compact. Provisions of the Compact expressly authorizing or requiring the promulgation of Rules shall not be construed to limit the Commission's rulemaking authority solely for those purposes.

B. The provisions of this Compact shall be severable and if any phrase, clause, sentence or provision of this Compact is held by a court of competent jurisdiction to be contrary to the constitution of any Member State, a State seeking participation in the Compact, or of the United States, or the applicability thereof to any government, agency, person or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this Compact and the applicability thereof to any other government, agency, person or circumstance shall not be affected thereby.

C. Notwithstanding subsection B of this section, the Commission may deny a State's participation in the Compact or, in accordance with the requirements of Section 13.B, terminate a Member State's participation in the Compact, if it determines that a constitutional requirement of a Member State is a material departure from the Compact. Otherwise, if this Compact shall be held to be contrary to the constitution of any Member State, the Compact shall remain in full force and effect as to the remaining Member States and in full force and effect as to the Member State affected as to all severable matters.

SECTION 16: CONSISTENT EFFECT AND CONFLICT WITH OTHER STATE LAWS

A. A Licensee providing services in a Remote State under a Multistate Authorization to Practice shall adhere to the laws and regulations, including laws, regulations, and applicable standards, of the Remote State where the client is located at the time care is rendered.

B. Nothing herein shall prevent or inhibit the enforcement of any other law of a Member State that is not inconsistent with the Compact.

C. Any laws, statutes, regulations, or other legal requirements in a Member State in conflict with the Compact are superseded to the extent of the conflict.

D. All permissible agreements between the Commission and the Member States are binding in accordance with their terms."'

SECTION 3.

Said title is further amended by revising subsection (c) of Code Section 43-1-35, relating to expedited license by endorsement for spouses of active or transitioning members of the armed forces and license by endorsement for certain professions, as follows:

"(c) Notwithstanding any other provisions of law, a professional licensing board or other board shall issue a license by endorsement to any individual seeking licensure for a profession other than that of a firefighter, healthcare provider, or a law enforcement officer, provided that such individual has:

(1) ~~Moved from another state and established residency in this state;~~

The following Senate substitute was read:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 32 of Title 33 of the Official Code of Georgia Annotated, relating to property insurance, so as to provide for an insurance premium discount or rate reduction for property owners who build a new residential or commercial property or who retrofit an existing residential or commercial property located in this state that better resists tornado, hurricane, or other catastrophic windstorm events; to provide for applicability; to provide for definitions; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 32 of Title 33 of the Official Code of Georgia Annotated, relating to property insurance, is amended by designating Code Sections 33-32-1 through 33-32-6 as Article 1.

SECTION 2.

Said chapter is further amended by adding a new article to read as follows:

"ARTICLE 2

33-32-10.

(a) This article shall apply to all insurers offering or providing insurance coverage in this state on single-family residential property, commercial property, or modular homes, as provided for in Code Section 33-32-11.

(b) As used in this article, the term:

(1) 'Insurable property' means a single-family residential property, commercial property, or modular home located in this state that satisfies the codes, standards, or techniques provided for in Code Section 33-32-11. Such term shall not include a manufactured home or mobile home located in this state, except where expressly provided for in subsection (c) of Code Section 33-32-11.

(2) 'Insurer' means any property and casualty insurance company offering or providing insurance coverage on one or more types of insurable property.

33-32-11.

(a) Not later than March 1, 2025, insurers shall provide a premium discount or insurance rate reduction for new or retrofitted residential insurable property in an amount and manner as established in subsection (e) of this Code section and in accordance with Code Section 33-32-10. In addition, insurers may offer additional adjustments in deductible or other credit rate differentials or a combination thereof. Such adjustments shall be available under the terms specified in this Code section to any owner who builds or locates a new residential insurable property or who retrofits an existing residential insurable property to resist loss due to tornado, hurricane, or other catastrophic windstorm events.

(b) Not later than March 1, 2025, insurers shall provide a premium discount or insurance rate reduction for new or retrofitted commercial insurable property in an amount and manner as established in subsection (e) of this Code section and in accordance with Code Section 33-32-10. In addition, insurers may offer additional adjustments in deductible or other credit rate differentials or a combination thereof. Such adjustments shall be available under the terms specified in this Code section to any owner who builds or locates a new commercial insurable property or who retrofits an existing commercial insurable property to resist loss due to tornado, hurricane, or other catastrophic windstorm events.

(c) To be considered for any adjustment provided for in subsection (a) or (b) of this Code section, an insurable property shall be certified as constructed in accordance with the applicable Fortified Programs standards adopted by the Insurance Institute for Business and Home Safety as of January 1, 2023, or any other mitigation program standards approved by the Commissioner. An insurable property shall be certified as conforming to the applicable Fortified Programs standards by an Insurance Institute for Business and Home Safety certified evaluator. Zone 3 HUD code manufactured homes installed to

specifications and regulations promulgated by the Commissioner shall also be considered for approval.

(d) An owner of insurable property claiming any adjustment under this Code section shall maintain sufficient certification records and construction records, including, but not limited to, a valid certification from the Insurance Institute for Business and Home Safety for compliance with the applicable Fortified Programs standards or other such records as the Commissioner shall determine by rule.

(e) Insurers required to submit rates and rating plans to the Commissioner shall submit an actuarially justified rating plan for any person who builds, locates, or retrofits an insurable property to comply with the requirements of subsection (c) of this Code section. An insurer is not required to provide the same amount of adjustment for a building code insurable property as such insurer would to an insurable property compliant with the applicable Fortified Programs standards or other standards provided for by rule. An adjustment shall only apply to policies that provide wind coverage and may apply to that portion of the premium for wind coverage or to the total premium if the insurer does not separate out its premium for wind coverage in its rate filing. The adjustment shall apply exclusively to the premium designated for the new or retrofitted insurable property. In addition to the requirements of this Code section, an insurer may voluntarily offer any other mitigation adjustment that the insurer deems appropriate."
