The most specific level of detail for authorizations for general obligation debt in Section 50 shall be the authorizing paragraphs.

Similarly, text in a group of lines that has a number less than 100 after the decimal (01 through 99) is not part of a statement of purpose but constitutes information as to how the appropriation was derived. Amounts in the columns other than the right-most column are for informational purposes only. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

SECTION 2.

The General Assembly finds that:

(1) Demands on peace officers include responding to emergencies involving individuals with a mental or emotional illness, developmental disability, or addictive disease, without the benefit of a behavioral health specialist being present;

(2) The presence of a behavioral health specialist exponentially decreases the risk of escalation;

(3) The absence of a behavioral health specialist may result in the arrest of individuals whose conduct would be more effectively treated and stabilized in a behavioral health setting rather than a jail or prison;

(4) Law enforcement agencies throughout Georgia frequently report that jails and prisons are becoming revolving door behavioral health hospitals of last resort;

(5) Several law enforcement agencies in Georgia have established co-responder programs and formed co-responder partnerships with local community service boards. Community service boards provide support during emergency responses and provide follow-up services to help stabilize the individual in crisis and prevent relapse;

(6) Combining the expertise of peace officers and behavioral health specialists to de-escalate behavioral health crises prevents unnecessary incarceration of individuals with a mental or emotional illness, developmental disability, or addictive disease and instead links those in crisis to services that promote stability and reduce the likelihood of recurrence, decreases the costs incurred by prisons and jails to incarcerate such individuals, and increases the ability of peace officers outside of the co-responder teams to focus on serious crimes; and

(7) It is in the best interest of the state to establish the framework for a state-wide co-responder model to include emergency response co-responder teams and post-emergency behavioral health services.

SECTION 3.

Title 37 of the Official Code of Georgia Annotated, relating to mental health, is amended by revising Code Section 37-3-4, relating to immunity of hospitals, physicians, peace officers, or other private or public hospital employees from liability for certain actions taken in good faith, as follows:

"37-3-4.

Any hospital or any physician, psychologist, peace officer, attorney, or health official, or any hospital official, agent, or other person employed by a private hospital or at a facility operated by the state, by a political subdivision of the state, or by a hospital authority created pursuant to Article 4 of Chapter 7 of Title 31, who acts in good faith in

compliance with the transport, admission, and discharge provisions of this chapter shall be immune from civil or criminal liability for his or her actions in connection with the transport of a patient to a physician or facility, the admission of a patient to a facility, or the discharge of a patient from a facility; provided, however, that nothing in this Code section shall be construed to relieve any hospital or any physician, psychologist, peace officer, attorney, or health official, or any hospital official, agent, or other person employed by a private hospital or at a facility operated by the state, by a political subdivision of the state, or by a hospital authority created pursuant to Article 4 of Chapter 7 of Title 31, from liability for failing to meet the applicable standard of care in the provision of treatment to a patient."

SECTION 4.

Said title is further amended by revising Code Section 37-7-5, relating to immunity from liability for actions taken in good faith compliance with admission and discharge provisions of chapter, as follows:

"37-7-5.

Any physician, psychologist, peace officer, attorney, or health official, or any hospital official, agent, or other person employed by a private hospital or at a facility operated by the state, by a political subdivision of the state, or by a hospital authority created pursuant to Article 4 of Chapter 7 of Title 31, who acts in good faith in compliance with the transport, admission, and discharge provisions of this chapter shall be immune from civil or criminal liability for his actions in connection with the transport of a patient to a physician or facility, the admission of a patient to a facility, or the discharge of a patient from a facility."

SECTION 5.

Said title is further amended by adding a new chapter to read as follows:

"CHAPTER 11

37-11-1.

As used in this chapter, the term:

(1) 'Behavioral health crisis' means any circumstance when symptoms of a person's behavioral health disorder put that person or others at risk for causing personal injury or property damage.

(2) 'Behavioral health disorder' means a mental or emotional illness, developmental disability, or addictive disease.

(3) 'Co-responder program' means a program established through a partnership between a community service board and a law enforcement agency to utilize the combined expertise of peace officers and behavioral health professionals on emergency calls involving behavioral health crises to de-escalate situations and help link individuals with behavioral health issues to appropriate services.

(4) 'Co-responder team' means a team established pursuant to a co-responder program,

composed of at least one officer team member and one community service board team member.

(5) 'Communications officer' means and includes any person employed by a public safety agency to receive, process, or transmit public safety information and dispatch law enforcement officers, firefighters, medical personnel, or emergency management personnel.

(6) 'Community service board team member' means a behavioral health professional working at the direction of a community service board who is licensed or certified in this state to provide counseling services or to provide other support services to individuals and their families regarding a behavioral health disorder, and who is part of a co-responder team.

(7) 'Law enforcement agency' means a governmental unit of one or more persons employed full time or part time by the state, a state agency or department, or a political subdivision of the state for the purpose of preventing and detecting crime and enforcing state laws or local ordinances, employees of which unit are authorized to make arrests for crimes while acting within the scope of their authority.

(8) 'Officer team member' means a peace officer who is part of a co-responder team.

(9) 'Public safety agency' means the state or local entity which receives emergency calls placed through an emergency 9-1-1 system and dispatches fire-fighting, law enforcement, emergency medical, or other emergency services.

37-11-2.

(a) Each community service board shall establish a co-responder program to offer assistance or consultation to peace officers responding to emergency calls involving individuals with behavioral health crises. Law enforcement agencies within a community service board's service area may elect to partner with the community service board to establish one or more co-responder teams.

(b) When a law enforcement agency that has entered into a co-responder partnership with a community service board responds to an emergency call involving an individual with a behavioral health crisis and a co-responder team is dispatched, a community service board team member shall be available to accompany the officer team member in person or via virtual means or shall be available for consultation via telephone or telehealth during such emergency call. The officer team member may consider input from the community service board team member in determining whether to refer an individual for behavioral health treatment or other community support or to transport the individual for emergency evaluation in accordance with Code Section 37-3-42 or 37-7-42, rather than making an arrest.

(c) In the event that the officer team member transports the individual for emergency evaluation in accordance with Code Section 37-3-42 or 37-7-42, the emergency receiving facility shall notify the community service board, prior to the release of the individual whether or not the individual is admitted for treatment, for purposes of identifying and facilitating any necessary follow-up services for such individual to prevent relapse.

(d) Following an individual's behavioral health crisis, the community service board shall

make available voluntary outpatient therapy to eligible individuals pursuant to Code Section 37-11-9.
(e) Transport conducted pursuant to this Code section shall occur in government-owned vehicles configured for safe transport based on the individual's condition; provided, however, that the officer team member may authorize alternative transportation by a medical transport company or otherwise if deemed safe to do so based on the individual's condition.

37-11-3.
Every county shall retain a written list available for public inspection that identifies all law enforcement agencies within such county whose routine responsibilities include responding to emergency calls. Such list shall be created no later than August 1, 2022, and shall be updated immediately when additional departments assume routine responsibility for emergency response and shall be maintained with current information.

37-11-4.
(a) Each community service board shall employ or contract with behavioral health professionals who are licensed in this state to provide counseling services, or to provide other support services to individuals and their families regarding a behavioral health disorder, and whose responsibilities include participation as a community service board team member on a co-responder team. The community service board shall designate a sufficient number of individuals to serve as community service board team members to partner with the law enforcement agencies located within the community service board's service area, with on-call availability at all times.
(b) The department shall maintain a current, written list of emergency receiving facilities within each community service board area where an individual experiencing a behavioral health crisis may be transported by or at the direction of an officer or team member. The written list shall be maintained by each community service board and provided to each law enforcement agency.

37-11-5.
(a) A law enforcement agency that has entered into a co-responder partnership with a community service board shall designate one or more peace officers to participate as officer team members in a co-responder team.
(b) A law enforcement agency that has not entered into a co-responder partnership with a community service board shall designate one peace officer to serve as the primary point of contact with the community service board.
(c) A law enforcement agency shall designate a peace officer who shall serve on the co-responder protocol committee.

37-11-6.
(a) Officer team members may elect to receive crisis intervention team training as approved by the Georgia Police Officer Standards and Training Council.

(b) All communications officers and other employees of public safety agencies who make dispatch decisions shall receive educational training about identifying emergency calls involving individuals in a behavioral health crisis and dispatching appropriate response units.
(c) Community service board team members shall receive training on the operations, policies, and procedures of the law enforcement agencies with which they partner.
(d) All training undertaken in accordance with this Code section shall be provided at the expense of the department and at no expense to any law enforcement agency, public safety agency, or community service board.

37-11-7.
When an emergency call involving an individual's behavioral health crisis is received by a communications officer or public safety agency, and a civilian-only response team is not appropriate or available, the communications officer shall notify the co-responder team in the jurisdiction where the emergency is located, if practicable, regardless of whether other peace officers are also dispatched. The co-responder team will work collaboratively to de-escalate the situation; provided, however, that all final decisions shall be made by the officer team member or his or her superiors.

37-11-8.
Each community service board shall establish a co-responder protocol committee for its service area which shall work to increase the availability, efficiency, and effectiveness of community response to behavioral health crises. The protocol committee shall address best practices for issues which arise during the operation of co-responder teams. Such issues include, but shall not be limited to, data collection, privacy protection, interagency coordination, intragovernmental coordination, available treatment modalities, data sharing and analysis, training, and community outreach. Implemented best practices should increase public safety in the service area, improve outcomes for individuals experiencing mental health crises, and enhance cooperation between law enforcement and behavioral health specialists.

37-11-9.
When a co-responder team responds to a behavioral health crisis, the community service board of the service area where the crisis occurred shall contact the individual within two business days following the crisis, regardless of whether that individual was incarcerated. If the individual resides in a different community service board area, the case shall be transferred to the appropriate community service board. The community service board handling the case shall work to identify the types of services needed to support the individual's stability and to locate affordable sources for those services, including housing and job placement. If the individual was incarcerated, the community service board may make recommendations for inclusion in a jail release plan. Following the behavioral health crisis, the community service board shall provide voluntary outpatient therapy as needed.

37-11-10.
(a) Community service board team members may review publicly available arrest and incarceration records and may request access to evaluate currently incarcerated individuals for the purpose of identifying individuals who may be treated more effectively within the behavioral health system rather than the criminal justice system. If such individuals are identified, the community service board team member shall provide a written recommendation to the appropriate law enforcement agency and jail or prison operator for consideration. The law enforcement agency and jail or prison operator shall provide community service board team members with access to requested nonrestricted records and shall grant access to such records at mutually convenient times, for the purpose of facilitating the community service board team member's analysis.
(b) The department shall establish a referral system, by which any law enforcement agency may request behavioral health consultation for an individual who is currently incarcerated, or frequently incarcerated, who it believes may be treated more effectively within the behavioral health system rather than the criminal justice system. The department shall assign the case to the appropriate community service board for evaluation and any appropriate treatment to be provided or facilitated by the community service board.

37-11-11.
(a) Each community service board shall compile and maintain records of the services provided by co-responder teams and community service board team members, which shall include community follow-ups and actions taken on behalf of incarcerated individuals together with reasonably available outcome data. Community service boards shall report data to the department in a form developed cooperatively by the community service boards.
(b) No later than January 31, 2024, and annually thereafter, the department shall issue a written annual report regarding the co-responder program, which shall include statistics derived from all sources, including community service board documentation and reports. Data shall be presented per community service board, where available, and cumulatively. Such report shall be posted in a prominent location on the department's website.

37-11-12.
(a) The requirements contained in this chapter shall be contingent upon the appropriation of funds by the General Assembly or the availability of other funds.
(b) No later than July 15, 2023, and annually thereafter, the department shall submit to the board proposed budgets for co-responder programs for each community service board. The proposed budget for each community service board shall be based on each community service board's operational analysis and shall include the salaries of an adequate number of staff dedicated to the responsibilities of the co-responder program and shall delineate unique factors existing in the area served, such as the population and demographics.
(c) In the event that full funding or staffing is not obtained by a community service board,

such board may work collaboratively with other entities, including but not limited to the Georgia Association of Community Service Boards, to identify and apply for potential sources of additional funding, identify and pursue additional recruiting options, and identify the elements of the co-responder program that will be implemented given the resources available, until full resources are obtained.

(d) The department may pursue funding for purposes of implementing the co-responder program pursuant to this chapter, including without limitation from block grants, the Substance Abuse and Mental Health Services Administration; the Coronavirus Aid, Relief, and Economic Security Act of 2020, P.L. 116-136; the American Rescue Plan Act of 2021, P.L. 117-2; and other grants.

37-11-13.

Any peace officer, law enforcement agency, community service board, community service board team member, public safety agency, communications officer, or any employee or contractor thereof, who acts in good faith in compliance with the provisions of this chapter shall be immune from civil or criminal liability for his or her actions in connection with a decision to dispatch or not dispatch a co-responder team, to incarcerate an individual, to transport an individual to an emergency receiving facility, or not take an individual into custody.

37-11-14.

Nothing in this chapter shall be construed as creating an exclusive method for a law enforcement agency to establish emergency response teams combining peace officers and behavioral health specialists."

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
Title 46 of the Official Code of Georgia Annotated, relating to public utilities and public transportation, is amended by adding a new chapter to read as follows:

"CHAPTER 6A

46-6A-1.
This chapter shall be known and may be cited as the 'Common Carrier Non-Discrimination Act.'

46-6A-2.
The General Assembly finds and declares that:
(1) Each person in this state has a fundamental interest in the free exchange of ideas and information, including, but not limited to, the freedom of others to share and receive ideas and information, regardless of their religious, political, or social beliefs or affiliations;
(2) The state has a fundamental interest in protecting the free exchange of ideas and information in this state to ensure a vibrant and inclusive political discourse;
(3) As the Supreme Court of the United States has recognized, large social media platforms are the 'modern public squares';
(4) In offering their services to all and providing a basic service to our economic, political, and social lives, social media platforms function as common carriers, are affected with a public interest, and are central public forums for public debate. Such common carriers have enjoyed governmental support in the United States and, in at least some instances, have cooperated with government and party officials to censor opinions and information;
(5) Social media platforms with the largest number of users are common carriers by virtue of their market dominance;

(6) Given the pivotal role large social media platforms play in controlling the flow of information in political, social, economic, and cultural life in this state, large social media platforms must disclose their policies for removing citizens from their platforms, promoting and diminishing access to content, and moderating content; and

(7) The citizens of this state should have legal mechanisms to ensure the accuracy and timeliness of these disclosures as well as the truthfulness of social media platforms' representations and terms of services.

46-6A-3.

As used in this chapter, the term:

(1) 'Broadband services' means a service that provides the capability to transmit data to and receive data from all or substantially all internet endpoints, including any capabilities that are incidental to and enable the operation of the communication service.

(2) 'Censor' means any action taken:

(A) To edit, alter, block, ban, delete, remove, deplatform, demonetize, deboost, regulate, restrict, inhibit the publication or reproduction of, deny equal access or visibility to, suspend a right to post, remove, or otherwise discriminate against expression;

(B) To inhibit or restrict the ability of a user to be viewed by or interact with another user of the common carrier; or

(C) To block, ban, remove, suspend a right to post, demonetize, restrict, deplatform, or otherwise discriminate against a user.

(3) 'Common carrier' includes a social media platform.

(4) 'Expression' means any word, music, sound, still or moving image, number, or other perceivable communication.

(5) 'Internet service provider' means any person qualified to do business in this state that provides the ability to connect to the internet with broadband services.

(6) 'Receive' means to read, hear, look at, access, or gain access to an expression.

(7) 'Shadow banning' means blocking or partially blocking a user or a user's content from some areas of a platform or from the view of other users in a manner such that it may not be readily apparent to the user that such user or such user's content has been so blocked or banned.

(8) 'Social media platform' means an internet website or application that is open to the public, allows a user to create an account, and enables users to communicate with other users for the primary purpose of posting information, comments, messages, or images. Such term does not include an:

(A) Internet service provider or provider of broadband services; or

(B) Online service, application, or website:

(i) That consists primarily of news, sports, entertainment, cultural, or artistic features; community information; or other features, information, or content that is not generated but rather is preselected by the provider; and

(ii) For which any chat, comments, or interactive functionality is incidental to,

directly related to, or dependent on the provision of the content described in division (i) of this subparagraph.

(9) 'Unlawful expression' means an expression that is prohibited under the Constitution of the United States, the Constitution of Georgia, federal law, or the laws of this state, including, but not limited to, expression that constitutes a tort under the laws of this state or the laws of the United States.

(10) 'User' means a person who posts, uploads, transmits, shares, or otherwise publishes or receives expression through a common carrier.

46-6A-4.

(a) A common carrier shall not censor or discriminate against a user, a user's expression, or a user's ability to receive the expression of another person based on:

(1) The viewpoint of the user or another person;

(2) The viewpoint represented in the user's expression or another person's expression;

(3) A user's geographic location in this state or any part of this state; or

(4) The actual or perceived race, color, ethnicity, religion, religious beliefs, political beliefs, political affiliation, national origin, sex, gender, sexual orientation, or disability of a user or another person or of a class of users or a class of other persons.

(b) This Code section shall apply regardless of whether the viewpoint is an expression that is communicated on or through the common carrier or elsewhere.

46-6A-5.

(a) A contractual or other waiver or purported waiver of the protections provided by this chapter is void as unlawful and against public policy, and no court or arbitrator may enforce or give effect to such a waiver, including, but not limited to, in an action brought under this chapter, notwithstanding any contract or choice-of-law provision in a contract.

(b) The waiver prohibition described in subsection (a) of this Code section is a public-policy limitation on contractual and other waivers of the highest importance and interest to this state, and this state is exercising and enforcing this limitation to the full extent permitted by the Constitution of the United States and by the Constitution of Georgia.

(b) This chapter shall apply to the maximum extent permitted by the Constitution and

laws of the United States and of this state, but no further than such maximum extent.

46-6A-7.
This chapter shall not be construed to subject a common carrier to damages or other legal remedies to the extent the common carrier is protected from such remedies under federal law.

46-6A-8.
(a) Nothing in this chapter shall be construed to prohibit or restrict a common carrier from censoring:
(1) An expression that the common carrier is specifically authorized to censor by federal law;
(2) Any unlawful expression, including, but not limited to, an expression that unlawfully harasses individuals or unlawfully incites violence; or
(3) Any expression that is obscene, lewd, lascivious, filthy, excessively violent, or harassing.
(b) Nothing in this chapter shall be construed to limit or expand the intellectual property laws of this state.
(c) Any prohibition set forth in this chapter shall not apply to the extent that such prohibition would violate the doctrine on the dormant commerce clause enunciated by the United States Supreme Court.

46-6A-9.

46-6A-10.

(A) A user complaint;

(c) If a common carrier fails to promptly comply with a court order in a civil action brought under this Code section, the court shall hold the common carrier in contempt and shall use all lawful measures to secure immediate compliance with the order, including daily penalties sufficient to secure immediate compliance.

46-6A-12.
It shall constitute an unfair or deceptive act or practice and shall be a violation of Part 2 of Article 15 of Chapter 1 of Title 10, the 'Fair Business Practices Act of 1975,' for any common carrier to:

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

(a) The General Assembly finds that:

(1) The state's current system for sharing criminal case data is not adequate to provide to all appropriately interested parties, including, but not limited to, law enforcement agencies and officers, courts, crime victims and other impacted individuals, housing providers, and employers, complete criminal case data;

(2) One recent report indicates there may be as many as 7 million criminal charges without a final disposition indicated, and, of those, as many as 5.4 million criminal charges have languished for years;

(3) Georgia's citizens and businesses are harmed by incomplete criminal case data. For example, in thousands of cases, as a result of incomplete criminal case data, citizens' employability and housing opportunities have been negatively impacted; and

(4) A more uniform, modern system and framework for handling criminal case data will support the state in meeting its obligations to victims to keep them informed as their perpetrators make their way through the criminal justice system.

(b) It is the intent of the General Assembly that criminal case data be complete and accurately reported to the appropriate state data base and be accessible to state and local criminal justice agencies, employers, housing providers, victims, and all citizens.

SECTION 2.

This Act shall be known and may be cited as the "Criminal Records Responsibility Act."

SECTION 16.

Said part is further amended in Code Section 20-3-250.27, relating to Tuition Guaranty Trust Fund, by revising subsections (c), (d), and (g) and by adding a new subsection to read as follows:

"(c)(1) All postsecondary educational institutions operating in this state, except those which are exempt from the provisions of this Code section pursuant to Code Section 20-3-250.3, shall participate in the tuition guaranty fund. Those postsecondary educational institutions specified in paragraphs (10) and (14) of subsection (a) of Code Section 20-3-250.3 and in subsection (c) of Code Section 20-3-250.3 shall participate in the tuition guaranty fund.

(2) Postsecondary educational institutions which were authorized to operate in this state prior to July 1, 1990, and which have maintained continuous authorization in this state since July 1, 1990, and institutions which have been continuously licensed since July 1, 1990, pursuant to the provisions of Title 43 and were authorized by the commission prior to July 1, ~~1992~~ 2022, shall participate in the fund and shall not be required to provide surety bonds as provided in Code Section 20-3-250.10; provided, however, that any surety bond provided by an institution before July 1, ~~1992~~ 2021, shall remain in effect for one full year after the effective date of such surety bond.

(3) Postsecondary educational institutions which are currently authorized to operate in this state and which were first authorized to operate in this state on or after July 1, 1990, shall participate in the fund for ~~five~~ seven years of ~~continuous~~ authorized operation; provided, however, that no postsecondary educational institution first authorized to operate in this state on or after July 1, 1990, which fully participated in the fund for five years on or before January 1, 2022, shall be required to participate in the fund for seven years as otherwise provided in this paragraph ~~and shall provide the surety bonds required in Code Section 20-3-250.10; provided, however, that such surety bonds shall no longer be required of any such institutions which have maintained five full years of continuous authorized operation to the present. Any institution which fails to maintain continuous authorization in this state, and which subsequently applies for reinstatement of its certificate of authorization, must provide a surety bond for five full years following reinstatement of authorization~~.

(4) Following a change of ownership, as provided for in subsection (f) of Code Section 20-3-250.8, a postsecondary educational institution may be required to participate in the fund for a period of up to seven years as determined by the executive director in his or her sole discretion.

(d)(1) In addition to any other fees required by this part, the commission shall by regulation establish fees to be paid annually by postsecondary educational institutions for participation in the tuition guaranty fund. The fees shall be based on gross tuition collected during a year by each postsecondary educational institution. If an institution has not operated for a full year, its participation fee shall be based initially on its

projected gross tuition for the first full year of operation. At the conclusion of the first year, the fee for that year shall be adjusted to reflect actual gross tuition. The annual fee established by the commission shall be sufficient, when added to the earnings of the fund, to create a balance in the fund of at least ~~$500,000.00~~ $10 million by July 1, 1997. The board of trustees shall notify the commission when the fund balance exceeds ~~$500,000.00~~ $10 million, and, except as otherwise provided in paragraph (2) of this subsection, upon receiving such notification, the commission shall cease collection of participation fees from postsecondary educational institutions which have contributed to the fund for at least five years. The commission, upon notification from the board of trustees, shall reestablish collection of participation fees from such participating postsecondary educational institutions at any time the fund balance is less than ~~$475,000.00~~ $4 million. At such time, fees shall be collected from such participating institutions according to a schedule adopted by the commission based on gross tuition in amounts sufficient to raise the fund balance to ~~$500,000.00~~ $10 million.

(2) Each postsecondary educational institution which is first authorized to operate in this state after July 1, 1992, and is required to participate in the fund for ~~five~~ seven years of ~~continuous~~ authorized operation under the provisions of paragraph (3) of subsection (c) of this Code section shall be required to pay participation fees for such period of time notwithstanding the amount in the tuition guaranty fund. If the balance in the fund exceeds ~~$500,000.00~~ $10 million, participation fees shall be collected from each such institution according to the fee schedule adopted by the commission pursuant to paragraph (1) of this subsection. No postsecondary educational institution first authorized to operate in this state on or after July 1, 1992, which fully participated in the fund for five years on or before January 1, 2022, shall be required to participate in the fund for seven years as otherwise provided in this paragraph.

~~(3) If earnings from investments, participation fees required under paragraph (2) of this subsection, and claims experience ever cause the balance in the fund to exceed $7.75 million, the commission, upon being notified by the board of trustees, shall make refunds to postsecondary educational institutions which have participated in the fund for at least five years, so that the fund balance is reduced to $7.5 million. Any such refund shall be determined by the commission in proportion to the total participation fees paid by a postsecondary educational institution until the time of the refund; provided, however, that no reimbursement shall be made to any postsecondary educational institution whose students have been reimbursed from the fund or from bond forfeiture as provided in subsection (g) of this Code section. The commission shall establish by regulation the time and other procedures and requirements for making any such refund, but refunds shall be issued no more than once during a fiscal year.~~"

"(g)(1) ~~Except as otherwise provided in paragraph (2) of this subsection, in~~ In the event a postsecondary educational institution participating in the fund ~~goes into bankruptcy or~~ ceases operations without fulfilling its educational obligations to its students or without reimbursing its students, the board of trustees may reimburse from the fund valid and documented claims of students for tuition and fees paid to that institution as well as costs incurred as a result of such cessation of operations in accordance with

guidelines and procedures adopted by the commission. ~~regulations of the board. If a student who attended the defaulting postsecondary educational institution received financial aid under either a state or federal student loan program, the board shall direct payment to the financial institution or other entity who made the loan to the student, rather than directly to the student. If the fund reimburses a student or a financial institution or other entity which made a loan to a student, the fund, to the extent of the amount reimbursed and without the necessity of any further act by any party, shall have an independent claim for recovery against the defaulting postsecondary educational institution and any surety issuing a bond pursuant to Code Section 20-3-250.10; provided, however, that if the reimbursement from the fund is insufficient fully to cover the amount due the student or the entity making the loan to the student, then such student or entity shall retain the right of recovery against the defaulting institution and the surety for the unreimbursed amount.~~ Payments from the fund shall be made by warrant of the state treasurer on the order of the board of trustees.

~~(2) Until surety bonds are no longer required of a participating postsecondary educational institution under the provisions of paragraph (3) of subsection (c) of this Code section, the reimbursement of tuition to students or to financial institutions or other entities on behalf of students, in the event of the default of the postsecondary educational institution, shall be accomplished by bond forfeiture proceedings and not from the tuition guaranty fund unless the full amount of the bond is paid in reimbursements and such amount is insufficient to cover all reimbursements; provided, however, that if a student, financial institution, or other lending entity is entitled to reimbursement of tuition paid for a term which concluded before the expiration of the surety bond, the Tuition Guaranty Trust Fund may make reimbursements to the students or to the financial institutions or other entities on behalf of the students prior to initiating bond forfeiture proceedings.~~

~~(3) If the board of trustees pays a claim to or on behalf of a student of a defaulting postsecondary educational institution or if such a claim is paid as a result of a bond forfeiture, the authorization to operate of the defaulting postsecondary educational institution shall be automatically revoked as of the date of such payment, if the authorization to operate has not been previously revoked by the commission pursuant to other provisions of this part. If a defaulting postsecondary educational institution reimburses the fund for any claims paid on behalf of its students, the commission shall be authorized to issue a new authorization to operate to such postsecondary educational institution if the commission finds that the institution is then qualified to operate as a postsecondary educational institution. Such an institution shall provide the surety bond required in Code Section 20-3-250.10 for two years and shall pay participation fees to the tuition guaranty fund for five years as provided in paragraph (2) of subsection (d) of this Code section.~~

~~(4)~~(2) ~~If at any time the money available in the tuition guaranty fund is insufficient to satisfy tuition reimbursement claims then pending against the fund, the board of trustees may require each participating postsecondary educational institution to pay a special assessment to the fund. The special assessment shall be in addition to the participation~~

~~fee provided for in paragraph (1) of subsection (d) of this Code section but the total amount which may be collected in such special assessments in any one fiscal year shall not exceed either the total amount paid during the immediately preceding fiscal year in participation fees or $100,000.00, whichever is greater.~~ The maximum amount that may be paid from the fund in claims on behalf of the students of any single defaulting postsecondary educational institution ~~is $250,000.00,~~ shall be determined by the commission, but shall not exceed 10 percent of the total fund, regardless of the fact that total claims may exceed that amount, unless a higher percentage is authorized by a two-thirds' majority vote of the commission in the event of a significant precipitous closure.

~~(5)~~(3) As an alternative to paying claims to or on behalf of students of a defaulting postsecondary educational institution, the board of trustees may arrange for another postsecondary educational institution to complete the educational obligations to the students of the defaulting postsecondary educational institution, provided that the program offered by the other institution is substantially equivalent to the program for which the students had paid tuition; and provided, further, that attendance at the other institution does not cause unreasonable hardship or inconvenience to the students. The commission shall have the authority to adopt rules or regulations which shall govern the board of trustees in the administration of the provisions of this paragraph. As a part of any such program, the board of trustees may reimburse the other postsecondary educational institution from the fund for expenses incurred by the institution in providing educational services for the students of the defaulting postsecondary educational institution. The Tuition Guaranty Trust Fund shall have an independent claim for recovery against the defaulting postsecondary educational institution and any surety issuing a bond pursuant to Code Section 20-3-250.10 to the extent that the fund has reimbursed a postsecondary educational institution from the fund for expenses pursuant to this paragraph and without the necessity of any further act by any party.

~~(6)~~(4) It shall not be necessary to claim a loss or damage pursuant to the provisions of Code Section 20-3-250.14 in order for the board of trustees to pay claims to or on behalf of students pursuant to the provisions of this Code section. Procedures and requirements for filing claims under this Code section shall be as provided by rules or regulations adopted for that purpose by the commission.

~~(7)~~(5) Any person aggrieved by a decision of the board of trustees to pay or deny a claim pursuant to the provisions of this Code section may appeal to the commission. A decision of the board of trustees shall be in writing and shall be sent by certified mail or statutory overnight delivery to the claimant and to the owner of the defaulting postsecondary educational institution. If the whereabouts of the owner of the defaulting postsecondary educational institution is not known and cannot reasonably be ascertained by the board of trustees, a notice of the decision shall be published in the legal organ of the county where the student claimant attended the defaulting postsecondary educational institution or a facility of such institution. The appeal to the commission shall be commenced by filing a written notice of such appeal to the commission within 30 days after receiving the written decision of the board of trustees. Within 30 days after receiving a notice of appeal, the commission shall affirm the

decision of the board of trustees, modify and affirm the decision of the board of trustees, or overrule the decision of the board of trustees. Any person aggrieved by the action of the commission shall have the right to judicial review pursuant to the provisions of Code Section 20-3-250.16. The commission shall adopt rules or regulations providing procedures for the conduct of appeals from the board of trustees, but such rules or regulations shall be consistent with the provisions of this paragraph."

"(j) Authorization for a postsecondary educational institution to operate shall be suspended upon written notice by the executive director when such institution fails to participate in the fund as required under this Code section."

SUBJECT: State Auditor's Certification
Senate Bill (LC 43 1817)

Dear Senator Orrock:

This bill would provide for semiannual postretirement benefit adjustments for all beneficiaries of the Employees' Retirement System of Georgia. If this legislation is enacted, each beneficiary would receive a postretirement benefit adjustment of 1.5 percent every six months. Such adjustments would begin on July 1, 2022 and be granted to all beneficiaries, including beneficiaries subject to the GSEPS plan.

The provisions of this bill would allow the Governor to suspend, in whole or in part, the postretirement benefit adjustment if state revenues decline. As written, the Governor would be authorized to suspend these adjustments if year-end revenue collections decrease by three percent or more below the original revenue estimate or if the State experiences a decline in revenue collections for three consecutive months. The Governor may not issue such an executive order for more than two consecutive years or more than three times in any period of ten consecutive calendar years. This legislation also gives the General Assembly the authority to revoke, revise, or extend the executive order through the adoption of a joint resolution.

This is to certify that this bill is a fiscal retirement bill as defined in the Public Retirement Systems Standards Law.

Respectfully,

Senate Bill 167 (LC 43 1817)
Employees' Retirement System of Georgia

Dear Chairman Robertson:

This bill would provide for semiannual postretirement benefit adjustments for all beneficiaries of the Employees' Retirement System of Georgia. If this legislation is enacted, each beneficiary would receive a postretirement benefit adjustment of 1.5 percent every six months. Such adjustments would begin on July 1, 2022 and be granted to all beneficiaries, including beneficiaries subject to the GSEPS plan.

The provisions of this bill would allow the Governor to suspend, in whole or in part, the postretirement benefit adjustment if state revenues decline. As written, the Governor would be authorized to suspend these adjustments if year-end revenue collections decrease by three percent or more below the original revenue estimate or if the State experiences a decline in revenue collections for three consecutive months. The Governor may not issue such an executive order for more than two consecutive years or more than three times in any period of ten consecutive calendar years. This legislation also gives the General Assembly the authority to revoke, revise, or extend the executive order through the adoption of a joint resolution.

The first-year cost of this legislation would be $523,350,000 to meet the concurrent funding requirements of O.C.G.A. §47-20-50. This first year cost includes $482,820,000 each year for the next 20 years to amortize the unfunded actuarial accrued liability and $40,530,000 each year to fund the normal cost. This cost of this legislation would cause

the required employer contribution rate to increase by 20.75 percent for non-GSEPS members and by 19.80 percent for GSEPS members. This estimate is based on a total estimated payroll of $2,600,000,000 and assumes that the Governor does not elect to suspend the postretirement adjustments in the future. The cost estimate is also based on current member data, actuarial assumptions, and actuarial methods. Changes in any of these variables could affect the cost of this legislation. Any future costs would be paid through State appropriations.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the Senate Retirement Committee. The investigation was conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	$ 5,022,021,000
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	$ 482,820,000
(3)	The number of years that the unfunded actuarial accrued liability created by this bill will be amortized.	20
(4)	The amount of the annual normal cost which will result from this bill.	$ 40,530,000
(5)	The employer contribution rate currently in effect for Non-GSEPS Members.	24.67%*
(6)	The employer contribution rate recommended for Non-GSEPS Members (in conformity with minimum funding standards specified in Code Section §47-20-10).	45.42%
(7)	The employer contribution rate currently in effect for GSEPS Members.	21.59%*
(8)	The employer contribution rate recommended for GSEPS Members (in conformity with minimum funding standards specified in Code Section §47-20-10).	41.39%

(9)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	$ 523,350,000

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2022 to meet the minimum funding standards.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

The Senate Committee on Retirement offered the following substitute to SB 167:

A BILL TO BE ENTITLED
AN ACT

To amend Part 6 of Article 8 of Chapter 2 of Title 47 of the Official Code of Georgia Annotated, relating to judges of the Supreme Court, judges of the Court of Appeals, and their employees, so as to decrease the age of eligibility for retirement benefits for appellate court judges; to provide for related matters; to provide conditions for an effective date and automatic repeal; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Part 6 of Article 8 of Chapter 2 of Title 47 of the Official Code of Georgia Annotated, relating to judges of the Supreme Court, judges of the Court of Appeals, and their employees, is amended by revising Code Section 47-2-244, relating to optional benefits available to appellate court judges, notice of election of benefits, eligibility for benefits, disability benefits, and survivors benefits, as follows:

"47-2-244.

(a) The term 'appellate court judge,' as used in this Code section, shall mean any Judge, Presiding Judge, or Chief Judge of the Court of Appeals and any Associate Justice, Presiding Justice, or Chief Justice of the Supreme Court.

(b) Any other provision of law to the contrary notwithstanding, any appellate court judge shall be entitled to receive the benefits under this Code section in lieu of any retirement

allowances otherwise available under this retirement system and in lieu of the appointment to or the holding of any emeritus office.

(c) Any appellate court judge who seeks benefits under this Code section shall tender to the board of trustees before January 1, 1972, or within 60 days after the commencement of such judge's term of office, whichever shall occur later, a written notice stating that the judge has elected to accept such benefits in lieu of any retirement allowances otherwise available under this retirement system and in lieu of the appointment to and the holding of any emeritus office. The notice shall state that in consideration of the payment of benefits under this Code section, such appellate court judge shall resign from office as an appellate court judge on or before the day upon which he or she attains 75 years of age or on the last day of the term in which such appellate court judge is serving when he or she attains age 70, whichever is later. Any notice filed prior to July 1, 1986, by an appellate court judge in active service on such date which contained an agreement to resign on or before such judge's seventieth birthday shall be void and of no force and effect if such judge files a new notice containing an agreement to resign as provided in this subsection and such notice is filed on or before September 1, 1986.

(d) As a condition of eligibility for benefits under this Code section, there shall have been deducted from the earnable compensation of an appellate court judge and remitted to the board of trustees a contribution equivalent to 7 1/2 percent of such judge's earnable compensation for each pay period or part thereof after the date of such judge's written notice of election of benefits. Election of benefits under this Code section constitutes an authorization and direction by that appellate court judge to the clerical personnel of such judge's court to withhold such judge's contributions and remit them to the board of trustees in the manner provided by the board of trustees, together with a sum of money available to the court from annual or supplemental appropriations in an amount sufficient to carry out this Code section.

(e) Upon compliance with this Code section, an appellate court judge may retire and receive benefits under this Code section.

(f) After ten years of service as an appellate court judge, such judge shall be entitled to receive during life a retirement benefit payable monthly equivalent to 75 percent of the salary of an appellate court judge then serving in the office from which such judge retired.

(g) An appellate court judge who is incapacitated prior to the completion of ten years of service as an appellate court judge shall receive during life for each full year of service one-tenth of the benefit such judge would have received had such judge completed ten years of service as an appellate court judge. For the purposes of this subsection, the term 'incapacitated' or 'incapacity' means physical or mental disability for further performance of duties and shall not mean the attainment of any certain age.

(h) The surviving spouse of an appellate court judge, provided such surviving spouse is the designated beneficiary, shall be entitled to receive a benefit payable monthly for life equivalent to 50 percent of the benefits to which the spouse would have been entitled based upon his or her years of service as an appellate court judge and without regard to whether such judge had attained age ~~65~~ 60. However, if the designated beneficiary, or beneficiaries, is someone other than the surviving spouse of the deceased judge, then

such named beneficiary or beneficiaries shall be entitled to receive a benefit payable monthly for life based on an actuarial equivalent, provided the actuarial equivalent shall not be in excess of 50 percent of the amount that would have been payable to the judge. For the purpose of this provision, in the event the beneficiary, or beneficiaries, is not the member's spouse, the actuarial equivalent shall be computed based upon the assumption that the member had a spouse who was the same age as the member.

(i) Survivors benefits shall be available to appellate court judges at prevailing contribution rates and subject to provisions of law and regulations of the board of trustees; provided, however, that no person who becomes or again becomes subject to the provisions of this Code section on or after July 1, 2009, shall be entitled to such survivors benefits.

(j) If any appellate court judge dies without having received benefits under this Code section and is not survived by a designated beneficiary who is eligible to receive the benefits provided by this Code section, such judge's contributions shall be paid to his or her estate without interest. If any appellate court judge and such judge's designated beneficiary or beneficiaries die as the result of a common accident prior to the time at which the payment of benefits to the judge equals the total contributions made by such judge plus interest thereon, the difference shall be paid to the estate of the judge. If after retirement an appellate court judge and such judge's designated beneficiary or beneficiaries die, but not as the result of a common accident, prior to the time at which the total benefits paid to the judge and such judge's beneficiary or beneficiaries equal the total contributions made by such judge plus interest thereon, the difference shall be paid to the estate of the last decedent.

(k) An appellate court judge who has accrued creditable service under this retirement system may convert such service in order to fulfill the conditions of this Code section on the basis of two years of creditable service being equivalent to one year of service credit under this Code section, provided that creditable service based upon the holding of office as an appellate court judge shall be convertible to service credit under this Code section on an equal time basis. Applications for conversion of service credits under this Code section shall be made in writing to the board of trustees.

(l) Any appellate court judge who elects to receive the benefits provided for by this Code section and who fails to resign his office as appellate court judge on or before the day such judge attains age 75 or on the last day of the term in which such appellate court judge is serving when he or she attains age 70, whichever is later, or on or before June 30, 1972, in the event he or she attained age 70 on or prior to June 30, 1972, shall not be entitled to receive any benefits under this Code section and shall forfeit all contributions made under it.

(m) No benefit shall be payable to an appellate court judge under this Code section until such judge reaches ~~65~~ 60 years of age, except for incapacity."

SECTION 2.

This Act shall become effective on July 1, 2022, only if it is determined to have been concurrently funded as provided in Chapter 20 of Title 47 of the Official Code of Georgia

Annotated, the "Public Retirement Systems Standards Law"; otherwise, this Act shall not become effective and shall be automatically repealed in its entirety on July 1, 2022, as required by subsection (a) of Code Section 47-20-50.

SECTION 3.

All laws and parts of laws in conflict with this Act are repealed.

Substitute to Senate Bill 167
(LC 43 2258S)

Dear Chairman Robertson:

This substitute bill would amend provisions relating to retirement benefits payable to appellate court judges covered under the Employees' Retirement System of Georgia. If this legislation is enacted, an appellate court judge would be eligible to receive normal retirement benefits once he or she reaches the age of 60. Currently, such members are not eligible for normal retirement benefits until they reach age 65. Additionally, this legislation would amend provisions to specify that a surviving spouse would be eligible to receive a benefit without regard to whether such judge had attained age 60.

This is to certify that this substitute bill is a reduction in cost amendment as defined in the Public Retirement Systems Standards Law. A copy of the actuarial investigation and State Auditor Summary for Senate Bill 167 (LC 43 2258S) is attached.

Substitute to Senate Bill 167 (LC 43 2258S)
Employees' Retirement System of Georgia – Appellate Court Judges

Dear Chairman Robertson:

This substitute bill would amend provisions relating to retirement benefits payable to appellate court judges covered under the Employees' Retirement System of Georgia. If this legislation is enacted, an appellate court judge would be eligible to receive normal retirement benefits once he or she reaches age 60. Currently, such members are not eligible for normal retirement benefits until they reach age 65. Additionally, this legislation would amend provisions to specify that a surviving spouse would be eligible to receive a benefit without regard to whether such judge had attained age 60.

The first-year cost of this legislation would be $799,000 to meet the concurrent funding requirements of O.C.G.A. §47-20-50. This cost represents an increase of 18.75% in the employer contribution rate for 'appellate court judges' based on the current projected payroll of $4,300,000. The first-year cost includes $251,000 each year for the next 20 years to amortize the unfunded actuarial accrued liability and $548,000 each year to fund the normal cost. The administration for 'appellate court judges' is managed by the State's

Administrative Office of the Courts. Therefore, the cost associated with this legislation would be covered solely by additional employer contributions paid by the Administrative Office of the Courts. The cost estimate is based on current member data, actuarial assumptions, and actuarial methods. Changes in any of these variables could affect the cost of this legislation. Any future costs would be paid through State appropriations.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the Senate Retirement Committee. The investigation was conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	$ 2,516,000
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	$ 251,000
(3)	The number of years that the unfunded actuarial accrued liability created by this bill will be amortized.	20
(4)	The amount of the annual normal cost which will result from this bill.	$ 548,000
(5)	The employer contribution rate currently in effect for Non-GSEPS Members.	48.30%*
(6)	The employer contribution rate recommended for Non-GSEPS Members (in conformity with minimum funding standards specified in Code Section §47-20-10).	66.87%
(9)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	$ 799,000

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2022 to meet the minimum funding standards.*

the actuarial investigation and the findings included therein.

SECTION 1.

Article 13 of Chapter 1 of Title 7 of the Official Code of Georgia Annotated, relating to licensing of mortgage lenders and mortgage brokers, is amended by revising Code Section 7-1-1000, relating to definitions, by adding a new paragraph to read as follows:

"(5.1) 'Covered employee' means any employee of a mortgage lender or mortgage broker who is involved in residential mortgage loan related activities for property located in Georgia and includes, but is not limited to, a mortgage loan originator, processor, or underwriter, or other employee who has access to residential mortgage loan origination, processing, or underwriting information."

SECTION 2.

Said article is further amended by revising subsections (h) and (i) of Code Section 7-1-1004, relating to investigation of applicant and its officers, audit, education, experience, and other requirements relative to licensees and registrants, as follows:

"(h) The department shall not issue or may revoke a license or registration if it finds that the mortgage loan originator, mortgage broker, or mortgage lender applicant or licensee, or any person who is a director, officer, partner, ~~agent,~~ covered employee, or ultimate equitable owner of 10 percent or more of the mortgage broker or mortgage lender applicant, registrant, or licensee or any individual who directs the affairs or establishes policy for the mortgage broker or mortgage lender applicant, registrant, or licensee, has been convicted of a felony in any jurisdiction or of a crime which, if committed within this state, would constitute a felony under the laws of this state. Other than a mortgage loan originator, for the purposes of this article, a person shall be deemed to have been

convicted of a crime if such person shall have pleaded guilty or nolo contendere to a charge thereof before a court or federal magistrate or shall have been found guilty thereof by the decision or judgment of a court or federal magistrate or by the verdict of a jury, irrespective of the pronouncement of sentence or the suspension thereof, and regardless of whether first offender treatment without adjudication of guilt pursuant to the charge was entered, or an adjudication or sentence was otherwise withheld or not entered on the charge, unless and until such plea of guilty, or such decision, judgment, or verdict, shall have been set aside, reversed, or otherwise abrogated by lawful judicial process or until probation, sentence, or both probation and sentence of a first offender have been successfully completed and documented, or unless the person convicted of the crime shall have received a pardon therefor from the President of the United States or the ~~governor~~ Governor or other pardoning authority in the jurisdiction where the conviction occurred or shall have received an official certification or pardon granted by the state's pardoning body in the jurisdiction where the conviction occurred. For purposes of this article, a mortgage loan originator shall be deemed to have been convicted of a crime if he or she has pleaded guilty to, been found guilty of, or entered a first offender or nolo contendere plea to a felony in a domestic, foreign, or military court; provided, however, that any pardon of a conviction shall not be a conviction.

(i) The department shall be authorized to obtain conviction data with respect to any mortgage loan originator, mortgage broker, or mortgage lender applicant or any person who is a director, officer, partner, ~~agent,~~ covered employee, or ultimate equitable owner of 10 percent or more of the mortgage broker or mortgage lender applicant and any individual who directs the affairs of the company or establishes policy. The department may directly submit to the Georgia Crime Information Center two complete sets of fingerprints of such applicant or such person, together with the required records search fees and such other information as may be required. Fees for background checks that the department administers shall be sent to the department by applicants and licensees together with the fingerprints. Mortgage broker and mortgage lender applicants, licensees, and registrants shall have the primary responsibility for obtaining background checks of covered employees which are defined as employees who work in this state and also have the authority to enter, delete, or verify any information on any mortgage loan application form or document. The department shall, however, retain the right to obtain conviction data on covered employees."

SECTION 3.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 4.

All laws and parts of laws in conflict with this Act are repealed.

Senate Bill (LC 43 1915)

Dear Senator Rahman:

This bill would amend provisions relating to optional retirement allowances under the

Teachers Retirement System of Georgia. If this bill is enacted, members who elect optional retirement allowances would be authorized to change one or more of their named beneficiaries at any time. Currently, members are only authorized to make such changes in the event of death or divorce of the beneficiary.

Under the provisions of this bill, the retirement benefits payable to the member and beneficiaries would be recalculated to ensure the combined cost to the retirement system is actuarially equivalent to the allowance in effect prior to the change. Furthermore, members shall not be permitted to make such changes more than once every three years.

This is to certify that this bill is a fiscal retirement bill as defined in the Public Retirement System Standards Law.

SUBJECT: Actuarial Investigation
Senate Bill 267 (LC 43 1915)
Teachers Retirement System of Georgia

Dear Chairman Robertson:

This bill would amend provisions relating to optional retirement allowances under the Teachers Retirement System of Georgia. If this bill is enacted, members who elect optional retirement allowances would be authorized to change one or more of their named beneficiaries at any time. Currently, members are only authorized to make such changes in the event of death or divorce of the beneficiary. Under the provisions of this bill, the retirement benefits payable to the member and beneficiaries would be recalculated to ensure the combined cost to the retirement system is actuarially equivalent to the allowance in effect prior to the change. Furthermore, members shall not be permitted to make such changes more than once every three years.

The first-year cost of this legislation would be $56,000,000 to meet the concurrent funding requirements of O.C.G.A. §47-20-50 and is the cost required each year for the next 20 years to amortize the unfunded actuarial accrued liability. If this legislation is enacted, the employer contribution would increase by .4% based on an estimated payroll of $14,000,000,000. The cost estimate assumes that 25 percent of retirees would elect to change their beneficiary at some point after retirement and that such changes would add approximately 10 years to the life expectancy of the beneficiary. The cost estimate is also based on current member data, actuarial assumptions, and actuarial methods. It should be noted that changes in any of these variables could affect the cost estimate for this legislation. Any future costs would be paid through a combination of state appropriations, federal funds, and other funds. Approximately 52% of any future costs would be paid through state appropriations. The remaining 48% would be paid through federal and other funds.

It should be noted that the actuary was not aware of any other public retirement system in the country that allows for a periodic change to optional retirement benefits. The actuary predicts that this practice would most likely reduce actuarial gains because periodic changes could affect a plan's ability to maintain the actuarial equivalency of the benefit. Such gains are necessary to offset plan losses that occur. As a result, it would become necessary to increase the required employer contributions.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the Senate Retirement Committee. The investigation was conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	$ 726,915,000
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	$ 56,000,000

(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	20
(4)	The amount of the annual normal cost which will result from the bill.	$ 0
(5)	The employer contribution rate currently in effect.	19.98%*
(6)	The employer contribution rate recommended (in conformity with minimum funding standards specified in Code Section §47-20-10).	20.38%
(7)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	$ 56,000,000

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2022 to meet the minimum funding standards.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

The Senate Committee on Retirement offered the following substitute to SB 267:

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 23 of Title 47 of the Official Code of Georgia Annotated, relating to the Georgia Judicial Retirement System, so as to provide for creditable service in the Georgia Judicial Retirement System on a one-for-two basis for transfers of creditable service from the appellate court judge's plan of the Employees' Retirement System of Georgia; to provide for fund transfers; to provide for rules and regulations; to provide for related matters; to provide conditions for an effective date and automatic repeal; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 23 of Title 47 of the Official Code of Georgia Annotated, relating to the Georgia Judicial Retirement System, is amended by adding a new Code section to read as follows:

"47-23-66.

(a) Any individual who is an active member of the Georgia Judicial Retirement System and who earned creditable service as an appellate court judge pursuant to Code Section 47-2-244 shall be entitled to transfer two or more years of creditable service, as such term is defined in Code Section 47-2-1, from the appellate court judge's plan of the Employees' Retirement System of Georgia to this retirement system.

(b) To obtain the service credit allowed by this Code section, an individual shall apply to the Board of Trustees of the Georgia Judicial Retirement System, stating the number of years of creditable service which the individual seeks to transfer and such additional information as the board deems necessary.

(c) Following its receipt of the application described in subsection (b) of this Code section, the board shall notify the Board of Trustees of the Employees' Retirement System of Georgia, which shall transfer to this retirement system an amount equal to the employer and employee contributions paid by or on behalf of such individual, together with regular interest thereon, for the years of creditable service.

(d) Upon receipt of the funds provided for in subsection (c) of this Code section, the board of this retirement system shall credit the member with one year of creditable service in this retirement system for every two years of creditable service which were transferred from the appellate court judge's plan of the Employees' Retirement System of Georgia to this retirement system.

(e) The board shall be authorized to adopt such rules and regulations as are necessary and reasonable to effectuate this Code section."

SECTION 2.

This Act shall become effective on July 1, 2022, only if it is determined to have been concurrently funded as provided in Chapter 20 of Title 47 of the Official Code of Georgia Annotated, the "Public Retirement Systems Standards Law"; otherwise, this Act shall not become effective and shall be automatically repealed in its entirety on July 1, 2022, as required by subsection (a) of Code Section 47-20-50.

SECTION 3.

All laws and parts of laws in conflict with this Act are repealed.

SUBJECT: State Auditor's Certification
Substitute to Senate Bill 267
(LC 43 2333S)

Dear Chairman Robertson:

This substitute bill would amend provisions relating to creditable service under the Georgia Judicial Retirement System. Specifically, this bill would authorize members of the Judicial Retirement System to obtain creditable service for certain prior service received under the appellate court judges' plan within the Employees' Retirement System of Georgia. Any member wishing to obtain such creditable service would make an application with the Board of Trustees for the Judicial Retirement System. Upon approval, and provided the member has a minimum of two years creditable service under the appellate court judges' plan, the Employees' Retirement System would transfer the employee and employer contributions paid by or on behalf of the member, together with regular interest for the years of service. The member would receive one year of creditable service in the Judicial Retirement System for every two years of creditable service transferred.

This is to certify that this substitute bill is a reduction in cost amendment as defined in the Public Retirement System Standards Law. A revised actuarial investigation and State Auditor's Certification are attached for Senate Bill 267 (LC 43 2333S).

SUBJECT: Actuarial Investigation
Substitute to Senate Bill 267 (LC 43 2333S)
Employees' Retirement System of Georgia
Georgia Judicial Retirement System

Dear Chairman Robertson:

This substitute bill would amend provisions relating to creditable service under the Georgia Judicial Retirement System. Specifically, this bill would authorize members of the Judicial Retirement System to obtain creditable service for prior service received under the appellate court judges' plan within the Employees' Retirement System of Georgia. Any member wishing to obtain creditable service would make an application with the Board of Trustees for the Judicial Retirement System. Upon approval, the Employees' Retirement System would be required to transfer the employee and employer contributions paid by or on behalf of the member, together with regular interest for the years of service. The member would receive one year of creditable service in the Judicial Retirement System for every two years of creditable service transferred.

The first-year cost of this legislation for the Employees' Retirement System of Georgia is estimated to be $105,000 to meet the concurrent funding requirements of O.C.G.A. §47-20-50 and is the cost required each year for the next 20 years to amortize the unfunded actuarial accrued liability. This cost estimate assumes there will be one

person eligible for such creditable service. If this legislation is enacted, the employer contribution rate specific to appellate court judges would increase by 2.44% based on an estimated payroll of $4,300,000. The fiscal impact occurs because Employees' Retirement System would be required to transfer the employer contributions made on behalf of the member to the Judicial Retirement System. Such funds would no longer be available to pay liabilities for members who retire through the System. The cost estimate is also based on current member data, actuarial assumptions, and actuarial methods. It should be noted that changes in any of these variables could affect the cost estimate for this legislation. Any future costs would be paid through State appropriations.

This legislation would not result in any additional cost to the Judicial Retirement System since the funds transferred by the Employees' Retirement System are intended to cover the full actuarial cost of the creditable service granted. There would be no increase in the unfunded actuarial accrued liability or the employer contribution rate. The cost estimate is based on current member data, actuarial assumptions and actuarial methods and changes in any of these variables could affect the cost of this legislation. Any future costs would be paid through State appropriations.

The following is a summary of the relevant findings of the actuarial analyses for this bill. The analyses were conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	20

(4)	The amount of the annual normal cost which will result from the bill.	$ 0

(6)	The employer contribution rate recommended for Non-GSEPS Members (in conformity with minimum funding standards specified in Code Section §47-20-10).	50.74%
(7)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	$ 105,000

**This rate represents the employer contribution rate recommended by the actuary beginning July 1, 2022 to meet the minimum funding standards. The employer contribution rate applied for appellate court judges differs from the overall employer contribution rate for the Employees' Retirement System since they have a different benefits structure.*

To amend Article 2 of Chapter 5 of Title 40 of the Official Code of Georgia Annotated, relating to issuance, expiration, and renewal of drivers' licenses, so as to provide for the issuance of a driver's license to current and retired peace officers at no charge; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 2 of Chapter 5 of Title 40 of the Official Code of Georgia Annotated, relating to issuance, expiration, and renewal of drivers' licenses, is amended by revising Code Section 40-5-36, relating to veterans' licenses, honorary licenses, and other distinctive licenses, as follows:

"40-5-36.

(a) Except as specifically provided in this chapter, no part of this chapter shall be interpreted as affecting the rights and privileges of a person holding a veteran's, honorary, ~~or~~ distinctive, or peace officer license, and nothing in this chapter shall be construed so as to authorize the department to impose any charge or fee of any type whatsoever for the issuance or renewal of a veteran's, honorary, ~~or~~ distinctive, or peace officer license; provided, however, that the commissioner may issue regulations on types and classes of vehicles which may be operated by the holder of such license.

(b) The commissioner shall establish by rules and regulations the proof required to be produced by an applicant for a veteran's, honorary, ~~or~~ distinctive, or peace officer license. The contents of such license shall be the same as for any other license. The forms upon which such licenses are issued shall be such that the licenses are of a permanent nature, provided that nothing in this subsection shall authorize the department to require any person holding a veteran's or honorary license before January 1, 1976, to surrender such license. Veterans', honorary, ~~and~~ distinctive, and peace officer licenses shall not be subject to any fees.

(c) Veterans' licenses may be issued to:

(2) ~~All members or former members of the National Guard or reserve forces who~~

~~served on active duty or who have 20 or more years' creditable service therein; and~~

~~(3)~~ Veterans who are United States citizens and residents of this state at the time of application for the license and who served on active duty in the armed forces of an ally of the United States during wartime or any conflict when personnel were committed by the President of the United States, whether or not such veteran was assigned to a unit or division which directly participated in such war or conflict and who were discharged or separated under honorable conditions.

(d) Honorary licenses may be issued to:

(e) A distinctive license may be issued to any member of the Georgia National Guard in good standing who has completed at least one year of satisfactory service. The department shall have the authority to cancel the distinctive license of any person upon receipt of written notice from the adjutant general who shall notify the department that the person is no longer a member of the Georgia National Guard in good standing.

SECTION 1.

Article 1 of Chapter 10 of Title 17 of the Official Code of Georgia Annotated, relating to procedure for sentencing and imposition of punishment, is amended by revising Code Section 17-10-21, relating to vacating of sentence for trafficking victim defendants, as follows:

"17-10-21.

(a)(1) A defendant convicted of an offense and sentenced as a direct result of the defendant being the victim of an offense of trafficking under Code Section 16-5-46 may petition the court imposing the sentence to vacate such conviction. Such court shall maintain the jurisdiction, power, and authority to vacate such conviction and sentence.

(2) The defendant shall serve the petition provided for under paragraph (1) of this subsection upon the prosecuting attorney, and such petition:

(A) Shall be submitted on a form promulgated by the Attorney General;

(B) Shall be submitted ~~no earlier than six months~~ at any time following conviction and sentencing for a misdemeanor or felony offense ~~or no earlier than one year following completion of the sentence for a felony offense~~;

(C) Shall be submitted with a copy of his or her criminal history background check report conducted by the Georgia Crime Information Center that has been completed no more than three business days prior to the filing of the petition; provided, however, that the defendant shall not be charged a fee by the Georgia Crime Information Center for a report produced for purposes of this Code section; and

(D) May include documentation of a defendant's status as a victim of an offense of trafficking under Code Section 16-5-46 at the time of the offense; provided, however,

that official documentation shall not be required to obtain relief under this Code section. Such documentation shall create a rebuttable presumption that the defendant was a victim of trafficking under Code Section 16-5-46. As used in this subparagraph, the term 'official documentation' includes, but is not limited to, the following:

(i) A copy of an official record, certification, or eligibility letter from a federal, state, tribal, or local proceeding showing that the defendant was a victim of trafficking under Code Section 16-5-46;

(iii) Any other evidence that the court determines is of sufficient credibility or probative value.

(3) No defendant with an outstanding warrant issued by a jurisdiction in this state or any other state or by the United States shall file a petition provided for under paragraph (1) of this subsection.

(4) If the prosecuting attorney, to the court, consents in writing to the vacatur of such conviction or fails to respond to such petition within 30 days of service, the court imposing the conviction and sentence shall, without notice or hearing, issue an order vacating the conviction and sentence and shall also issue an order restricting access to criminal history record information for such offense.

(5)(A) If the prosecuting attorney, to the court, objects in writing to the petition, the court shall hold a hearing within 90 days of the filing of the petition. The court shall hear evidence and determine, by a preponderance of the evidence, whether the defendant committed such offense as a direct result of being the victim of an offense of trafficking under Code Section 16-5-46. If the court finds, by a preponderance of the evidence, that the defendant committed such offense as a direct result of being the victim of an offense of trafficking under Code Section 16-5-46, the court may issue an order vacating the conviction and sentence.

(B) If such order to vacate is issued, the court shall also issue an order restricting access to criminal history record information for such offense and no fee shall be charged by the Georgia Crime Information Center or any other entity for restricting access to criminal history record information under this paragraph.

(C) As used in this paragraph, the term 'restrict' shall have the same meaning as set forth in Code Section 35-3-37.

(b) When ~~the~~ a petition provided for under subsection (a) of this Code section is filed, it shall be filed under seal.

(c)(1) For any sentence vacated pursuant to this Code section, the court vacating such sentence shall include in the order to vacate an order for the return of any fines and fees paid by the defendant under such sentence ~~shall be returned to the defendant~~ in the amount paid by the defendant.

(2)(A) The entity to which the defendant paid such fines and fees shall return the fines and fees to the defendant within 45 days of the entity's receipt of a request made

by or on behalf of a defendant for the return of such fines and fees. Any such request shall be submitted in person or by registered or certified mail or statutory overnight delivery and shall include a copy of the order to vacate and a statement of the amount of fines and fees the defendant paid to the entity.

(B) The entity shall return the fines and fees received from the defendant regardless of whether the entity currently holds these funds. If the entity has forwarded any portion of the fines and fees to one or more secondary entities, each such secondary entity shall return the amount forwarded by the forwarding entity to such secondary entity within 15 days of a valid request by the forwarding entity. A valid request from the forwarding entity shall include a copy of the order to vacate, an accounting of the fines and fees paid by the defendant to the forwarding entity, and a statement of the amount forwarded by the forwarding entity to the secondary entity.

(d) For purposes of considering ~~such~~ a petition provided for under subsection (a) of this Code section, testimony from the defendant, petitioner, expert witness, or any other party may be taken by the court by remote electronic means."

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

The General Assembly does not affirmatively require any elementary or secondary school or school system in the state to be accredited. Nevertheless, the General Assembly finds that accreditation, or the lack thereof, can have significant impacts on the operation of public and private schools in this state as well as on the students and families served by

such schools. For example, a lack of accreditation can impact a student's eligibility to qualify for HOPE awards or to be considered for acceptance to postsecondary educational institutions in this state and elsewhere, and the loss or potential loss of accreditation can result in the removal of local board of education members from their offices. The General Assembly finds that even though accreditation is not legislatively required in elementary and secondary schools in this state, high school accreditation is considered a practical necessity by many families, schools, and school systems. The General Assembly also finds that accreditation agencies, when properly focused, can aid schools and school systems in promoting improved quality of learning by students and financial efficiency. It is the intent of the General Assembly that the state government, including all offices, agencies, departments, boards, bureaus, commissions, institutions, or other entities thereof, recognize only those accrediting agencies which are primarily focused on the evaluation of quality of learning by students and financial efficiency of schools and which are committed to fairness, consistency, and transparency.

SECTION 2.

Article 1 of Chapter 14 of Title 20 of the Official Code of Georgia Annotated, relating to general provisions relative to education accountability, is amended by designating the existing provisions as Part 1 and adding a new part to read as follows:

(6) Such agency consistently adheres to procedures throughout the accreditation process, including evaluation and withdrawal procedures, that comply with due process, including:

(A) Adequate specification of requirements and deficiencies at the secondary school or school system being evaluated; provided, however, that all requirements or deficiencies specified by such agency are directly related to measures of quality of learning by students or financial efficiency or both; provided, further, that any findings, comments, or notes included in an evaluation that are not directly related to quality of learning by students or financial efficiency shall not provide the basis for any adverse action against a secondary school or school system by such agency, including, but not limited to, denial, withdrawal suspension, or termination of accreditation or placement of a secondary school or school system on any probationary status;

(9) Such agency makes available to the public and the State School Superintendent, upon request:

(A) A summary of any evaluation resulting in a final decision involving the approval, denial, termination, suspension, or probation of a public secondary school or school system's accreditation, together with the comments of such secondary school or school system; and

(B) A copy of any complaint or report upon which such agency initiates, or provides notice to a public secondary school or school system of the intent to initiate, any intervention, investigation, or evaluation of such secondary school or school system's accreditation status; provided, however, that personally identifiable information of the person, persons, or entity that submitted the complaint or report may be redacted to the extent necessary to comply with the confidentiality protections provided under Code Section 45-1-4 or other applicable law relating to the confidentiality of complaints against organizations that receive public funds.

(c) This Code section shall apply to any initial or renewal agreement by and between any secondary school or school system in this state and any accrediting agency entered into on or after July 1, 2022.

(d) Nothing in this Code section shall be construed to:

(1) Require any public school or school system in this state to be accredited; or

(2) Prohibit or restrict an accrediting agency from adopting evaluation criteria and procedures not provided for in this Code section; provided, however, that to the extent an accrediting agency adopts evaluation criteria or procedures which are inconsistent with the provisions of this Code section, such accrediting agency may not be deemed a recognized accrediting agency.

(2) The property or interest to be taken;

(3) The order described in paragraph (1) of this subsection shall give directions for providing notice of the hearing and the service of such notices.

Honorable Shaw Blackmon
Chairman, House Ways and Means
133 State Capitol
Atlanta, GA 30334

SUBJECT: Fiscal Note
House Bill 1302 (LC 43 2289-ECS)

Dear Chairman Blackmon:

The bill would provide a personal income tax rebate of a portion of tax year (TY) 2020 income taxes paid for those who also file a 2021 income tax return. The rebate will be $250 for a single or married filing separate filer, $375 for head of household, and $500

for a couple filing jointly, though it cannot exceed the filer's 2020 income taxes paid. For part-year and nonresident filers, the rebate would be prorated using the ratio of income subject to Georgia taxation to total.

To qualify for the rebate, a taxpayer must have timely filed a Georgia income tax return for TYs 2020 and 2021 and cannot have been claimed as a dependent on another taxpayer's federal or state tax return for TY 2020. Estates and trusts are also excluded.

Impact on State Revenue
Georgia State University's Fiscal Research Center (FRC) estimated that the bill would cost approximately $1.144 billion. While some rebate costs may be incurred in FY 2022, it is assumed that most will be incurred during FY 2023. For filers receiving extensions, rebate payments could be delayed to later years.

FRC's estimation was done using TY 2019 administrative tax return data from the Department of Revenue (DOR) to simulate tax liability under 2020 law, as well as the rebate for which the filer would be eligible. FRC assumed a 2.5 percent growth in filers from TY 2019 to 2020. This was the average growth in returns filed from 2015 to 2019, according to the DOR Annual Statistical Report for FY 2020.

Impact on State Expenditures
DOR would be able to implement the provisions of the bill with existing funds.

Respectfully,

/s/ Greg S. Griffin

NOW, THEREFORE, BE IT RESOLVED AND ENACTED BY
THE GENERAL ASSEMBLY OF GEORGIA:

ARTICLE I
SECTION 1.

That the State of Georgia is the owner of the hereinafter described real property lying and being in Bartow County, Georgia, and is commonly known as Toyo Tire Facility; and the property is in the custody of the Department of Economic Development which, by official action dated August 20, 2021, does not object to the granting of an easement; and, in all matters relating to the easement, the State of Georgia is acting by and through its State Properties Commission.

SECTION 2.

That the State of Georgia, acting by and through its State Properties Commission, may grant to Georgia Power Company, or its successors and assigns, a nonexclusive easement to construct, install, operate, and maintain underground distribution line and associated equipment to serve two separate electric vehicle charging stations. Said easement area is located in Bartow County, and is more particularly described as follows:

That approximately 0.15 of an acre, lying and being in Land Lots 181 and 216, 22nd District, 3rd Section, Bartow County, Georgia, and that portion only as shown on an engineer drawing furnished by Georgia Power Company, and being on file in the offices of the State Properties Commission and may be more particularly described by a plat of survey prepared by a Georgia registered land surveyor and presented to the State Properties Commission for approval.

SECTION 3.

That the above-described easement area shall be used solely for the purpose of constructing, installing, operating, and maintaining an underground distribution line and associated equipment.

SECTION 4.

That Georgia Power Company shall have the right to remove or cause to be removed from said easement area only such trees and bushes as may be reasonably necessary for the proper construction, installation, operation, and maintenance of the underground distribution line and associated equipment.

SECTION 5.

That, after Georgia Power Company has put into use the underground distribution line and associated equipment for which this easement is granted, a subsequent abandonment of the use thereof shall cause a reversion to the State of Georgia, or its successors and assigns, of all the rights, title, privileges, powers, and easement granted herein. Upon abandonment, Georgia Power Company, or its successors and assigns, shall have the option of removing their facilities from the easement area or leaving the same in place, in which event the underground distribution line and associated equipment shall become the property of the State of Georgia, or its successors and assigns.

SECTION 6.

That no title shall be conveyed to Georgia Power Company and, except as herein specifically granted to Georgia Power Company, all rights, title, and interest in and to said easement area are reserved in the State of Georgia, which may make any use of said easement area not inconsistent with or detrimental to the rights, privileges, and interest granted to Georgia Power Company.

SECTION 7.

That if the State of Georgia, acting by and through its State Properties Commission, determines that any or all of the facilities placed on the easement area should be removed or relocated to an alternate site on state-owned land in order to avoid interference with the state use or intended use of the easement area, it may grant a substantially equivalent nonexclusive easement to allow placement of the removed or relocated facilities across the alternate site under such terms and conditions as the State Properties Commission shall in its discretion determine to be in the best interests of the State of Georgia, and Georgia Power Company shall remove or relocate its facilities to the alternate easement area at its sole cost and expense without reimbursement by the State of Georgia unless, in advance of any construction being commenced, Georgia Power Company provides a written estimate for the cost of such removal and relocation and the State Properties Commission determines, in its sole discretion, that the removal and relocation is for the sole benefit of the State of Georgia. Upon written request from Georgia Power Company or any third party, the State Properties Commission, in its sole discretion, may grant a substantially

equivalent nonexclusive easement within the property for the relocation of the facilities without cost, expense, or reimbursement from the State of Georgia.

SECTION 8.

That the easement granted to Georgia Power Company shall contain such other reasonable terms, conditions, and covenants as the State Properties Commission shall deem in the best interest of the State of Georgia and that the State Properties Commission is authorized to use a more accurate description of the easement area, so long as the description utilized by the State Properties Commission describes the same easement area herein granted.

SECTION 9.

That this resolution does not affect and is not intended to affect any rights, powers, interest, or liability of the Georgia Department of Transportation with respect to the state highway system, or of a county with respect to the county road system or of a municipality with respect to the city street system. Georgia Power Company shall obtain any and all other required permits from the appropriate governmental agencies as are necessary for its lawful use of the easement area or public highway right of way and comply with all applicable state and federal environmental statutes in its use of the easement area.

SECTION 10.

That, given the public purpose of the project, the consideration for such easement shall be for fair market value not less than $650.00 and such further consideration and provisions as the State Properties Commission may determine to be in the best interest of the State of Georgia.

SECTION 11.

That this grant of easement shall be recorded by Georgia Power Company in the Superior Court of Bartow County and a recorded copy shall be promptly forwarded to the State Properties Commission.

SECTION 12.

That the authorization to grant the above-described easement to Georgia Power Company shall expire three years after the date that this resolution becomes effective.

State Representative

SUBJECT: State Auditor's Certification
House Bill (LC 43 1819-EC)

Dear Representative Blackmon:

This bill would amend provisions relating to the employment of beneficiaries under the Teachers Retirement System of Georgia. Specifically, this bill would allow certain retired members to return to work full-time and continue receiving their retirement allowance and any postretirement benefit adjustments they are eligible to receive. This bill would only apply to beneficiaries who are certified teachers of pre-kindergarten through grade 12. Furthermore, such members must have the primary responsibility of academic instruction of students in a classroom in an area of highest need as determined for the RESA in which such school system is assigned. The 'areas of highest need' would be determined for each RESA by the Department of Education after consultation with the Professional Standards Commission. Under the provisions of this bill, the designated areas of highest need must be reported annually to the Teachers Retirement System beginning July 1, 2022 and ending July 1, 2025.

Under the provisions of this bill, beneficiaries must be retired for at least one year before they are eligible to return to work full-time and continue receiving their retirement allowance. It should be noted that this provision would only apply to beneficiaries who return to work full-time from July 1, 2022 through June 30, 2026. Beneficiaries who are rehired under the provisions of this bill would not earn any additional creditable service.

This bill would also require an employer to notify the board of trustees of any retired member who is hired to work full-time under the provisions of this bill. Such notification must be made within 30 days of employment. Employers would then be subject to pay the required employee and employer contributions attributable to the salaries of retired members who return to work full-time and elect to continue receiving their retirement allowances. In the event the employer does not make the required contributions, any unpaid amounts shall be deducted from any funds payable to such employer by the state and shall be paid to the retirement system.

If this legislation is enacted, the State Auditor would be required to conduct and publish a performance audit addressing the provisions outlined in this bill. Specifically, the performance audit would include a determination of the value and necessity of the full-

time employment of beneficiaries as outlined in this bill and the effects of such employment on the local school systems, the Teachers Retirement System of Georgia, and the teacher work force for this State. The performance audit must be published prior to July 1, 2025.

This is to certify that this bill is a fiscal retirement bill as defined in the Public Retirement System Standards Law.

SUBJECT: Actuarial Investigation
House Bill 385 (LC 43 1819-EC)
Teachers Retirement System of Georgia

Dear Chairman Carson:

This bill would amend provisions relating to the employment of beneficiaries under the Teachers Retirement System of Georgia. Specifically, this bill would allow certain retired members to return to work full-time and continue receiving their retirement allowance and any postretirement benefit adjustments they are eligible to receive. This bill would only apply to beneficiaries who are certified teachers of pre-kindergarten through grade 12. Furthermore, such members must have the primary responsibility of academic instruction of students in a classroom in an area of highest need as determined for the

Regional Education Service Agency (RESA) in which such school system is assigned. The 'areas of highest need' would be determined for each RESA by the Department of Education after consultation with the Professional Standards Commission. Under the provisions of this bill, the designated areas of highest need must be reported annually to the Teachers Retirement System beginning July 1, 2022 and ending July 1, 2025.

Under the provisions of this bill, beneficiaries must be retired for at least one year before they are eligible to return to work full-time and continue receiving their retirement allowance. It should be noted that this provision would only apply to beneficiaries who return to work full-time from July 1, 2022 through June 30, 2026. Beneficiaries who are rehired under the provisions of this bill would not earn any additional creditable service.

This bill would also require an employer to notify the board of trustees of any retired member who is hired to work full-time under the provisions of this bill. Such notification must be made within 30 days of employment. Employers would then be subject to pay the required employee and employer contributions attributable to the salaries of retired members who return to work full-time and elect to continue receiving their retirement allowances. In the event the employer does not make the required contributions, any unpaid amounts shall be deducted from any funds payable to such employer by the state and shall be paid to the retirement system.

If this legislation is enacted, the State Auditor would be required to conduct and publish a performance audit prior to July 1, 2025 addressing the provisions outlined in this bill. Specifically, the performance audit would include a determination of the value and necessity of the full-time employment of beneficiaries as outlined in this bill and the effects of such employment on the local school systems, the Teachers Retirement System of Georgia, and the teacher work force for this State.

This legislation would not result in any additional cost to the Teachers Retirement System of Georgia. There would be no increase in the unfunded actuarial accrued liability or the required employer contribution rate as a result of this legislation. As written, the number of beneficiaries who may be eligible to return to work in a full-time capacity and continue to receive benefits is limited because retirees may only be rehired in a full-time capacity to fill the "areas of highest need" as determined for each RESA. Additionally, since, this legislation will automatically expire on June 30, 2026, the short duration in which this legislation is in effect would not impact retirement decisions of active teachers. This cost estimate is based on current member data, actuarial assumptions, and actuarial methods. Any changes in any of these variables could affect the cost of this legislation. Any future costs would be paid through a combination of state appropriations, federal funds, and other funds. Approximately 52% of any future costs would be paid through State appropriations. The remaining 48% would be paid through federal and other funds.

The following is a summary of the relevant findings of the actuarial investigation for this bill pursuant to a request by the House Retirement Committee. The investigation was conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation. The figures are based on employee data and the most recent actuarial assumptions and methods.

(1)	The amount of the unfunded actuarial accrued liability which will result from the bill.	$ 0
(2)	The amount of the annual amortization of the unfunded actuarial accrued liability which will result from the bill.	$ 0
(3)	The number of years that the unfunded actuarial accrued liability created by this bill would be amortized.	N/A
(4)	The amount of the annual normal cost which will result from the bill.	$ 0
(5)	The employer contribution rate currently in effect.	19.98%*
(6)	The employer contribution rate recommended (in conformity with minimum funding standards specified in Code Section §47-20-10).	19.98%
(7)	The total dollar amount of the increase in the annual employer contribution which is necessary to maintain the retirement system in an actuarially sound condition.	$ 0

**This rate represents the employer contribution rate that has been recommended by the actuary beginning July 1, 2022 to meet the minimum funding standards.*

It should be noted that any subsequent changes in the retirement bill will invalidate the actuarial investigation and the findings included therein.

Respectfully,

Substitute to House Bill 385
(LC 43 2127-ECS)

Dear Chairman Carson:

This substitute bill would amend provisions relating to the employment of beneficiaries under the Teachers Retirement System of Georgia. Specifically, this bill would allow certain retired members to return to work full-time and continue receiving their retirement allowance and any postretirement benefit adjustments they are eligible to receive. This bill would only apply to beneficiaries who have obtained 30 years of creditable service in the Teachers Retirement System who are certified teachers of pre-kindergarten through grade 12. Furthermore, such members must have the primary responsibility of academic instruction of students in a classroom in an area of highest need as determined for the RESA in which such school system is assigned. The 'areas of highest need' would be determined for each RESA by the Department of Education after consultation with the Professional Standards Commission. Under the provisions of this bill, the designated areas of highest need must be reported annually to the Teachers Retirement System beginning July 1, 2022 and ending July 1, 2025.

Under the provisions of this substitute bill, beneficiaries must be retired for at least one year before they are eligible to return to work full-time and continue receiving their retirement allowance. It should be noted that this provision would only apply to beneficiaries who return to work full-time from July 1, 2022 through June 30, 2026. Beneficiaries who are rehired under the provisions of this bill would not earn any additional creditable service.

This substitute bill would also require an employer to notify the board of trustees of any retired member who is hired to work full-time under the provisions of this bill. Such notification must be made within 30 days of employment. Employers would then be subject to pay the required employee and employer contributions attributable to the salaries of retired members who return to work full-time and elect to continue receiving their retirement allowances. In the event the employer does not make the required contributions, any unpaid amounts shall be deducted from any funds payable to such employer by the state and shall be paid to the retirement system.

The performance audit must be published prior to July 1, 2025.

This is to certify that the changes made in this substitute bill are nonfiscal amendments as defined in the Public Retirement System Standards Law. Therefore, the actuarial investigation prepared for House Bill 385 (LC 43 1819-EC) would apply to LC 43 2127-ECS. A copy of the actuarial investigation and State Auditor's Certification are attached.
