#### 13 SECTION 14.

14 Said title is further amended by striking Code Section 50-16-41, relating to rental agreements

 16 Section 50-16-41, to read as follows:

17 "50-16-41.

18 (a) Notwithstanding any provisions and requirements of law to the contrary and  
 19 particularly notwithstanding the requirements of Code Section 50-16-39, the commission  
 20 is authorized to negotiate, prepare, and enter into in its own name rental agreements  
 21 whereby a part of the property is rented, without public competitive bidding, to a person  
 22 for a length of time not to exceed one year and for adequate monetary consideration (in no  
 23 instance to be less than a rate of \$250.00 per year), which shall be determined by the  
 24 commission, and pursuant to such terms and conditions as the commission shall determine  
 25 to be in the best interest of the state. The same property or any part thereof shall not be the  
 26 subject matter of more than one such rental agreement to the same person unless the  
 27 commission shall determine that there are extenuating circumstances present which would  
 28 make additional one-year rental agreements beneficial to the state; provided, however, the  
 29 same property or any part thereof shall not after April 24, 1975, be the subject matter of  
 30 more than a total of three such one-year rental agreements to the same person.

31 (b) The commission is given the authority and charged with the duty of managing the  
 32 utilization of administrative space by all state entities, except that the Board of Regents of  
 33 the University System of Georgia and the Georgia Department of Labor may manage their  
 34 own space but only for leases that are within the State of Georgia and required for their  
 35 core mission. The commission shall manage in a manner that is the most cost efficient and  
 36 operationally effective and which provides decentralization of state government. Such

1 management shall include the authority to assign and reassign administrative space to state  
2 entities based on the needs of the entities as determined by standards for administrative  
3 space utilization promulgated by the commission pursuant to subsection (g) of this Code  
4 section and shall include the obligation to advise the Office of Planning and Budget and  
5 state entities of cost-effective, decentralized alternatives.

6 (c) The management of the utilization of administrative space by the commission shall  
7 include entering into any necessary agreements to rent or lease administrative space,  
8 whether existing or to be constructed, and shall include administrative space rented or  
9 leased by a state entity from the Georgia Building Authority or from any other public or  
10 private person, firm, or corporation. When it becomes necessary to rent or lease  
11 administrative space, the space shall be rented or leased by the commission and assigned  
12 to the state entity or entities requiring the space.

13 (d) If the commission reassigns all or any portion of any administrative space which is  
14 leased or rented by one state entity to another state entity, the state entity to which the  
15 administrative space is reassigned shall pay to the commission rental charges, as  
16 determined by the commission, for the utilization of the space; and the commission shall,  
17 in turn, use the rental charges so paid for the purpose of paying or partially paying, as the  
18 case may be, the rent or lease payments due the lessor of the administrative space in  
19 accordance with the terms of the lease or rent contract existing at the time of the  
20 reassignment of the administrative space. Any such payments to a lessor by the  
21 commission shall be on behalf of the state entity which is the lessee of the administrative  
22 space reassigned as provided in this Code section.

23 (e) The management of the utilization of administrative space given to the commission by  
24 this Code section shall not be construed to impair the obligation of any contract executed  
25 before July 1, 1976, between any state entity and the Georgia Building Authority or  
26 between any state entity and any other public or private person, firm, or corporation; and  
27 the powers given to the commission by this Code section shall not be implemented or  
28 carried out in such a manner as to impair the obligation of any such contract.

29 (f) The commission is authorized and directed to develop and promulgate standards  
30 governing the utilization of administrative space by all state entities which require  
31 emphasis on cost effectiveness and decentralization. The standards shall be uniformly  
32 applied to all state entities except as otherwise provided by subsection (g) of this Code  
33 section, but the standards shall recognize and provide for different types of administrative  
34 space required by the various state entities and the different types of administrative space  
35 that may be required by a single state entity.

36 (g) The commission shall be authorized to reassign administrative space to the various  
37 state entities in order to bring the utilization of administrative space into conformity with

1 the standards promulgated under subsection (f) of this Code section. Any additional  
 2 administrative space required by a state entity shall be approved by and obtained through  
 3 the commission. The commission shall be authorized to grant exceptions to the standards  
 4 governing the utilization of administrative space when the reassignment of such space  
 5 would involve unnecessary expenses or the disruption of services being provided by a state  
 6 entity. The commission shall adopt and promulgate rules and regulations governing the  
 7 granting of such exceptions, and the rules and regulations shall be uniformly applied by the  
 8 commission to all state entities requesting an exception to the standards.

9 (h) For purposes of cost effectiveness and decentralization, the following factors, among  
 10 other factors, shall be considered:

11 (1) Dual location of programs within a city should be considered in order to take  
 12 advantage of possible economies of scale and as a matter of convenience to the general  
 13 public; or

14 (2) When all factors are reasonably equivalent, preferences will be given to location of  
 15 state government programs and facilities in those counties which are determined by the  
 16 Department of Community Affairs to be the most economically depressed, meaning those  
 17 71 tier 1 counties of the state designated as least developed under paragraph (2) of Code  
 18 Section 48-7-40.

19 (i) The commission is authorized and directed to promulgate rules and regulations  
 20 governing budgetary requirements for administrative space utilized by state entities in  
 21 cooperation with the Office of Planning and Budget whereby the entities shall be  
 22 accountable in the budgetary process for administrative space assigned to and utilized by  
 23 them. The budgetary requirements may provide for the payment of rent to the commission  
 24 by state entities or may otherwise provide procedures for the assessment of rent charges for  
 25 administrative space utilized by state entities or any combination of the foregoing.

26 (j) In addition to the standards and rules and regulations specifically provided for by this  
 27 Code section, the commission is authorized to adopt such other rules and regulations as  
 28 may be required to carry out this Code section efficiently and effectively."
