

The Senate Regulated Industries and Utilities Committee offered the following substitute to SB 120:

A BILL TO BE ENTITLED
AN ACT

1 To enact the "Competitive Emerging Communications Technologies Act of 2006"; to provide
2 legislative findings; to amend Chapter 5 of Title 46 of the Official Code of Georgia
3 Annotated, relating to telephone and telegraph service, so as to provide definitions; to
4 provide that the Georgia Public Service Commission shall not impose any requirement
5 relating to rates or terms and conditions for the offering of broadband service, voice over
6 Internet protocol, or wireless service; to provide an effective date; to repeal conflicting laws;
7 and for other purposes.

8 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

9 The General Assembly finds:

- 10 (1) That it is in the public interest to encourage deployment of the emerging
11 communications technologies of broadband service, voice over Internet protocol, and
12 wireless service by expressly removing any power the Georgia Public Service
13 Commission may have to set the rates and the terms and conditions for the offering of
14 such services within Georgia;
15
16 (2) That market based competition is the best mechanism for the selection and setting of
17 such rates, terms, and conditions for such emerging communications technologies and to
18 encourage the adoption and use of such services by Georgia consumers; and
19
20 (3) That Georgia's consumers need timely and accurate information as to the actual cost
21 and levels of delivered service in order to make informed market based choices among
competing offerings of such emerging communications technologies.
