By: Senators Seabaugh of the 28th, Balfour of the 9th, Stoner of the 6th, Chance of the 16th, Hill of the 32nd and others

AS PASSED SENATE

A BILL TO BE ENTITLED

AN ACT

To enact the "Competitive Emerging Communications Technologies Act of 2006"; to provide legislative findings; to amend Chapter 5 of Title 46 of the Official Code of Georgia Annotated, relating to telephone and telegraph service, so as to provide definitions; to provide that the Georgia Public Service Commission shall not impose any requirement relating to rates or terms and conditions for the offering of broadband service, voice over Internet protocol, or wireless service; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

The General Assembly finds:

- (1) That it is in the public interest to encourage deployment of the emerging communications technologies of broadband service, voice over Internet protocol, and wireless service by expressly removing any power the Georgia Public Service Commission may have to set the rates and the terms and conditions for the offering of such services within Georgia;
- (2) That market based competition is the best mechanism for the selection and setting of such rates, terms, and conditions for such emerging communications technologies and to encourage the adoption and use of such services by Georgia consumers; and
- (3) That Georgia's consumers need timely and accurate information as to the actual cost and levels of delivered service in order to make informed market based choices among competing offerings of such emerging communications technologies.

SECTION 2.
