21 (e) In the absence of an express, contrary indication by the donor or other person

24 anatomical gift of another part at a later time by the donor or another person.

25 (f) In the absence of an express, contrary indication by the donor or other person  
26 authorized to make an anatomical gift under Code Section 44-5-142, an anatomical gift of

1 (c) When a hospital refers an individual at or near death to a procurement organization, the  
2 organization may conduct any reasonable examination necessary to ensure the medical  
3 suitability of a part that is or could be the subject of an anatomical gift for transplantation,  
4 therapy, research, or education from a donor or a prospective donor. During the  
5 examination period, measures necessary to ensure the medical suitability of the part may  
6 not be withdrawn unless the hospital or procurement organization knows that the individual  
7 expressed a contrary intent.

8 (d) Unless prohibited by law other than this article, at any time after a donor's death, the  
9 person to which a part passes under Code Section 44-5-149 may conduct any reasonable  
10 examination necessary to ensure the medical suitability of the body or part for its intended  
11 purpose.

12 (e) Unless prohibited by law other than this article, an examination under subsection (c)  
13 or (d) of this Code section may include an examination of all medical and dental records  
14 of the donor or prospective donor.

15 (f) Unless a procurement organization knows the minor is emancipated, the procurement  
16 organization shall conduct a reasonable search for the parents of the minor and provide the  
17 parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal,  
18 if any.

19 (g) Upon referral by a hospital under subsection (a) of this Code section, a procurement  
20 organization shall make a reasonable search for any person listed in Code Section 44-5-147  
21 having priority to make an anatomical gift on behalf of a prospective donor. If a  
22 procurement organization receives information that an anatomical gift to any other person  
23 was made, amended, or revoked, it shall promptly advise the other person of all relevant  
24 information.

25 (h) Subject to subsection (i) of Code Section 44-5-149 and Code Section 44-5-151, the  
26 rights of the person to which a part passes under Code Section 44-5-149 are superior to the  
27 rights of all others with respect to the part. The person may accept or reject an anatomical  
28 gift in whole or in part. Subject to the terms of the document of gift and this article, a  
29 person that accepts an anatomical gift of an entire body may allow embalming, burial, or  
30 cremation and use of remains in a funeral service. If the gift is of a part, the person to  
31 which the part passes under Code Section 44-5-149, upon the death of the donor and before  
32 embalming, burial, or cremation, shall cause the part to be removed without unnecessary  
33 mutilation.

34 (i) Neither the physician who attends the decedent at death nor the physician who  
35 determines the time of the decedent's death may participate in the procedures for removing  
36 or transplanting a part from the decedent.

1 (j) A physician or technician may remove a donated part from the body of a donor that the  
2 physician or technician is qualified to remove.

3 44-5-153.

4 Each hospital in this state shall enter into agreements or affiliations with procurement  
5 organizations for coordination of procurement and use of anatomical gifts.

6 44-5-154.

7 (a) Except as otherwise provided in subsection (b) of this Code section, a person that for  
8 valuable consideration knowingly purchases or sells a part for transplantation or therapy  
9 if removal of a part from an individual is intended to occur after the individual's death  
10 commits a felony and upon conviction is subject to a fine not exceeding \$50,000.00 or  
11 imprisonment not exceeding five years, or both.

12 (b) A person may charge a reasonable amount for the removal, processing, preservation,  
13 quality control, storage, transportation, implantation, or disposal of a part.

14 44-5-155.

15 A person that, in order to obtain a financial gain, intentionally falsifies, forges, conceals,  
16 defaces, or obliterates a document of gift, an amendment or revocation of a document of  
17 gift, or a refusal commits a felony and upon conviction is subject to a fine not exceeding  
18 \$50,000.00 or imprisonment not exceeding five years, or both.

19 44-5-156.

20 (a) A person that acts in accordance with this article or with the applicable anatomical gift  
21 law of another state, or attempts in good faith to do so, is not liable for the act in a civil  
22 action, criminal prosecution, or administrative proceeding.

23 (b) Neither the person making an anatomical gift nor the donor's estate is liable for any  
24 injury or damage that results from the making or use of the gift.

25 (c) In determining whether an anatomical gift has been made, amended, or revoked under  
26 this article, a person may rely upon representations of an individual listed in paragraph (2),  
27 (3), (4), (5), (6), or (7) of subsection (a) of Code Section 44-5-147 relating to the  
28 individual's relationship to the donor or prospective donor unless the person knows that the  
29 representation is untrue.

30 44-5-157.

31 (a) A document of gift is valid if executed in accordance with:

32 (1) This article;

- 1 (2) The laws of the state or country where it was executed; or  
2 (3) The laws of the state or country where the person making the anatomical gift was  
3 domiciled, has a place of residence, or was a national at the time the document of gift was  
4 executed.

5 (b) If a document of gift is valid under this Code section, the law of this state governs the  
6 interpretation of the document of gift.

7 (c) A person may presume that a document of gift or amendment of an anatomical gift is  
8 valid unless that person knows that it was not validly executed or was revoked.

9 44-5-158.

10 (a) The Department of Driver Services shall make available to procurement organizations  
11 or secure data centers maintained and managed at the direction of a procurement  
12 organization the name, license number, date of birth, gender, and most recent address of  
13 any person who obtains an organ donor's license. Information so obtained by such  
14 organizations shall be used for the purpose of establishing a state-wide organ donor registry  
15 accessible to organ tissue and eye banks authorized to function as such in this state and  
16 shall not be further disseminated.

17 (b) A donor registry shall:

18 (1) Allow a donor or other person authorized under Code Section 44-5-142 to include  
19 on the donor registry a statement or symbol that the donor has made, amended, or  
20 revoked an anatomical gift;

21 (2) Be accessible to a procurement organization to allow it to obtain relevant information  
22 on the donor registry to determine, at or near death of the donor or a prospective donor,  
23 whether the donor or prospective donor has made, amended, or revoked an anatomical  
24 gift; and

25 (3) Be accessible for purposes of paragraphs (1) and (2) of this subsection seven days a  
26 week on a 24 hour basis.

27 (c) Personally identifiable information on a donor registry about a donor or prospective  
28 donor may not be used or disclosed without the express consent of the donor, prospective  
29 donor, or person that made the anatomical gift for any purpose other than to determine, at  
30 or near death of the donor or prospective donor, whether the donor or prospective donor  
31 has made, amended, or revoked an anatomical gift; provided, however, this shall not  
32 preclude the use of aggregated demographic information for the purposes of annual  
33 reporting, research, or education.

34 (d) This Code section does not prohibit any person from creating or maintaining a donor  
35 registry that is not established by or under contract with this state. Any such registry shall  
36 comply with subsections (b) and (c) of this Code section.

1 44-5-159.

2 If a prospective donor has an advance directive for health care in accordance with Chapter  
3 32 of Title 31 or a declaration signed by a prospective donor, unless it expressly provides  
4 to the contrary, measures necessary to ensure the medical suitability of an organ for  
5 transplantation or therapy may not be withheld or withdrawn from the prospective donor.

6 44-5-159.1.

7 (a) A medical examiner and procurement organizations shall cooperate with each other to  
8 maximize the opportunity to recover anatomical gifts for the purpose of transplantation,  
9 therapy, research, or education.

10 (b) If a medical examiner receives notice from a procurement organization that an  
11 anatomical gift might be available or was made with respect to a decedent whose body is  
12 under the jurisdiction of the medical examiner and a postmortem examination is going to  
13 be performed, unless the medical examiner denies recovery in accordance with Code  
14 Section 44-5-159.2, the medical examiner or designee shall conduct, when practicable, a  
15 postmortem examination of the body or the part in a manner and within a period  
16 compatible with its preservation for the purposes of the gift. The date and location of such  
17 examinations shall occur as specified in the agreement as provided for in subsection (e) of  
18 Code Section 44-5-159.2.

19 (c) A part may not be removed from the body of a decedent under the jurisdiction of a  
20 medical examiner for transplantation, therapy, research, or education unless the part is the  
21 subject of an anatomical gift. The body of a decedent under the jurisdiction of the medical  
22 examiner may not be delivered to a person for research or education unless the body is the  
23 subject of an anatomical gift. This subsection shall not preclude a medical examiner from  
24 performing the medicolegal autopsy upon the body or parts of a decedent under the  
25 jurisdiction of the medical examiner or from using the body or parts of a decedent under  
26 the jurisdiction of the medical examiner for the purposes of education, training, and  
27 research required by the medical examiner.

28 44-5-159.2.

29 (a) Upon specific request of a procurement organization, and in accordance with the  
30 procedures set forth under the agreement established pursuant to subsection (e) of this Code  
31 section, a medical examiner shall release to the procurement organization the name, contact  
32 information, and available medical and social history of a decedent whose body is under  
33 the jurisdiction of the medical examiner. If the decedent's body or part is medically  
34 suitable for transplantation, therapy, research, or education, and the gift or procurement  
35 does occur, the medical examiner shall release postmortem examination results to the

1 procurement organization. The procurement organization may make a subsequent  
2 disclosure of the postmortem examination results or other information received from the  
3 medical examiner only if relevant to transplantation, therapy, research, or education.

4 (b) The medical examiner may conduct a medicolegal investigation by reviewing all  
5 medical records, laboratory test results, x-rays, other diagnostic results, and other  
6 information that any person possesses about a donor or prospective donor whose body is  
7 under the jurisdiction of the medical examiner that the medical examiner determines may  
8 be relevant to the investigation.

9 (c) A person that has any information requested by a medical examiner pursuant to  
10 subsection (b) of this Code section shall provide that information as expeditiously as  
11 possible to allow the medical examiner to conduct the medicolegal investigation within a  
12 period compatible with the preservation of parts for the purpose of transplantation, therapy,  
13 research, or education.

14 (d) If an anatomical gift has been or might be made of a part of a decedent whose body is  
15 under the jurisdiction of the medical examiner and a postmortem examination is not  
16 required, or the medical examiner determines that a postmortem examination is required  
17 but that the recovery of the part that is the subject of an anatomical gift will not interfere  
18 with the examination, the medical examiner and procurement organization shall cooperate  
19 in the timely removal of the part from the decedent for the purpose of transplantation,  
20 therapy, research, or education.

21 (e) The medical examiner and procurement organizations shall enter into an agreement  
22 signed by both parties setting forth protocols and procedures to govern relations between  
23 the parties when an anatomical gift of a part from a decedent under the jurisdiction of the  
24 medical examiner has been or might be made, but the medical examiner believes that the  
25 recovery of the part could interfere with the postmortem investigation into the decedent's  
26 cause or manner of death. Decisions regarding the recovery of organs, tissue, and eyes  
27 from such a decedent, and decisions about approaches to tissue donation cases compared  
28 with organ donation cases, shall be made in accordance with the agreement. In the event  
29 that the medical examiner denies recovery of an anatomical gift, the procurement  
30 organization may request the regional medical examiner serving the county having  
31 jurisdiction over the death or the chief medical examiner appointed pursuant to Code  
32 Section 35-3-153 to reconsider the denial and to permit the recovery to proceed. The  
33 parties shall evaluate the effectiveness of the protocols and procedures at regular intervals  
34 but no less frequently than every two years. A medical examiner may limit its involvement  
35 and agreements with procurement organizations to one procurement organization, but may  
36 work with more than one procurement organization in the discretion of the medical  
37 examiner.

1 (f) If the medical examiner or designee allows recovery of a part under subsection (d) or  
 2 (e) of this Code section, the procurement organization, upon request, shall cause the  
 3 physician or technician who removes the part to provide the medical examiner with a  
 4 record describing the condition of the part, a biopsy, a photograph, and any other  
 5 information and observations that would assist in the postmortem examination.

6 (g) If a medical examiner or designee is required to be present at a removal procedure  
 7 pursuant to an agreement entered into under subsection (e) of this Code section, upon  
 8 request the procurement organization requesting the recovery of the part shall reimburse  
 9 the medical examiner or designee for the additional costs incurred in complying with  
 10 subsection (e) of this Code section.

11 44-5-159.3.

12 This article applies to an anatomical gift or amendment to, revocation of, or refusal to make  
 13 an anatomical gift, whenever made.

14 44-5-159.4.

15 This article modifies, limits, and supersedes the Electronic Signatures in Global and  
 16 National Commerce Act, 15 U.S.C. Section 7001 et seq., but does not modify, limit or  
 17 supersede Section 101(a) of that act, 15 U.S.C. Section 7001, or authorize electronic  
 18 delivery of any of the notices described in Section 103(b) of that act, 15 U.S.C. Section  
 19 7003(b).
