11 style="text-align:center">**SECTION 1.**

12 Subpart 1 of Part 6 of Article 6 of Chapter 2 of Title 20 of the Official Code of Georgia
13 Annotated, relating to the employment of certificated professional personnel in elementary
14 and secondary education, is amended by revising subsections (a) and (b) of Code Section
15 20-2-200, relating to teacher certification, as follows:

16 "(a) The Professional Standards Commission shall provide, by regulation, for certifying
17 and classifying all certificated professional personnel employed in the public schools of
18 this state. No such personnel shall be employed in the public schools of this state unless
19 they hold certificates issued by the commission certifying their qualifications and
20 classification in accordance with such regulations. The commission shall establish such
21 number of classifications of other certificated professional personnel as it may find
22 reasonably necessary or desirable for the operation of the public schools; provided,
23 however, that such classifications shall be based only upon academic, technical, and
24 professional training, experience, and competency of such personnel. The commission is
25 authorized to provide for denying a certificate to an applicant, suspending or revoking a
26 certificate, or otherwise disciplining the holder of a certificate for good cause after an

1 investigation is held and notice and an opportunity for a hearing are provided the certificate
2 holder or applicant in accordance with subsection (d) of Code Section 20-2-984.5. The
3 commission shall designate and define the various classifications of professional personnel
4 employed in the public schools of this state that shall be required to be certificated under
5 this Code section, ~~or under Code Section 20-2-206,~~ or Code Section 20-2-207. Without
6 limiting the generality of the foregoing, the term 'certificated professional personnel' is
7 defined as all professional personnel certificated by the commission and county or regional
8 librarians.

9 (b)(1) The Professional Standards Commission shall establish rules and regulations for
10 appropriate requirements and procedures to ensure high-quality certification standards
11 for all Georgia educators while facilitating the interstate mobility of out-of-state certified
12 educators.

13 (2) Requirements established for initial certification applicants new to the profession, to
14 include out-of-state program completers with or without certificates and with no teaching
15 experience, may include, but are not limited to, demonstrated satisfactory proficiency in
16 the following: a test of broad general knowledge; a test of specific subject matter content
17 or other professional knowledge appropriate to the applicant's field of certification;
18 computer skill competency; standards of ethical conduct; and course work in the
19 identification and education of children who have special educational needs; provided,
20 however, that this paragraph shall not be construed to apply to alternative certification
21 requirements as provided in Code ~~Section~~ Sections 20-2-206 or 20-2-207.

22 (3) Requirements established for holders of valid, professional out-of-state certificates
23 applying for their first Georgia certificate may include, but are not limited to the
24 following: computer skill competency; course work in the identification and education
25 of children who have special educational needs; recency of study; and standards of ethical
26 conduct. These requirements may be completed during the validity period of the first
27 Georgia certificate. At the time of application for the first Georgia certificate,
28 satisfactory proficiency in subject matter content appropriate to the applicant's field of
29 certification may be determined based on Professional Standards Commission approved
30 tests or combinations of successful teaching experience and academic, technical, and
31 professional preparation as outlined in rules of the Professional Standards Commission.

32 (4) Requirements for certification renewal shall be established to foster ongoing
33 professional learning, enhance student achievement, and verify standards of ethical
34 conduct. Such requirements may include, but are not limited to, professional learning
35 related to school improvement plans or the applicant's field of certification and
36 background checks. Should the Professional Standards Commission include a

1 requirement to demonstrate computer skill competency, the rules and regulations shall
2 provide that a certificated educator may elect to meet the requirement by:

3 (A) Completing a course in computer skill competency, including but not limited to the
4 phase one InTech model training program; or

5 (B) Receiving satisfactory results on a test in basic computer skill competency. If a
6 certificated educator elects to take such test pursuant to this subparagraph, the local
7 school system by which such educator is employed shall make available the opportunity
8 to take the test on site at the school in which the educator is assigned. Each principal
9 shall identify an administrator on site at each school to serve as a proctor for individuals
10 taking the test pursuant to this subparagraph.

11 Individuals holding a valid Georgia life certificate or a valid National Board for
12 Professional Teaching Standards certificate shall be deemed to have met state renewal
13 requirements except those related to background checks.

14 (5) Requirements designating approved in-field assignment standards appropriate to the
15 applicant's field of certification shall be established to ensure that educators are assigned
16 to those areas for which they are properly prepared. These standards may be determined
17 based on reviews of state approved curriculum courses, state approved preparation
18 programs, and designated certificate fields."
