

House Resolution 1487

By: Representative Marin of the 96th

A RESOLUTION

- 1 Recognizing the growing incidence of chronic obstructive pulmonary disease in this state and
2 encouraging the Georgia Department of Community Health to pass regulations requiring the
3 collection of data relating to incidents of this disease in this state; and for other purposes.
- 4 WHEREAS, it is estimated that 16 million people in the United States are diagnosed with
5 chronic obstructive pulmonary disease (COPD), equal to one in 19 Americans; and
- 6 WHEREAS, COPD is a progressive disease that includes emphysema and chronic bronchitis,
7 alone or in combination; and
- 8 WHEREAS, the prevalence of COPD has almost doubled over the last 25 years, and it stands
9 as the only major disease with an increasing death rate; and
- 10 WHEREAS, COPD accounted for 1.5 million emergency room visits in 2000 and is the
11 fourth leading cause of death in the United States, accounting for 127,000 deaths in 2004;
12 and
- 13 WHEREAS, COPD can be controlled and its progression slowed with proper treatment; and
- 14 WHEREAS, the Georgia Department of Community Health currently collects public health
15 data relating to the incidence of other diseases but does not currently collect public health
16 data relating to the prevalence of COPD in the State of Georgia; and
- 17 WHEREAS, this state's public health organization bears a responsibility in identifying the
18 burden that COPD places on its citizens and on the health care system and in insuring that
19 appropriate and effective treatments are available; and
- 20 WHEREAS, accurate data on incidents of COPD in Georgia should be used to monitor the
21 frequency, incidence, cause, effect, and severity of COPD; and

22 WHEREAS, COPD data should be used to assist the department in research and the
23 evaluation of disease management practices in order to assess the current standard of care for
24 COPD patients; and

25 WHEREAS, annual data on COPD should be reported to the Governor by the Department
26 of Community Health, along with recommendations for improving treatment options for
27 citizens with COPD.

28 NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES that
29 the members of this body encourage the Georgia Department of Community Health to pass
30 regulations requiring the collection of data relating to chronic obstructive pulmonary disease,
31 along with the collection of data on other diseases and conditions in this state.

32 BE IT FURTHER RESOLVED that the Clerk of the House of Representatives is authorized
33 and directed to transmit an appropriate copy of this resolution to members of the public and
34 the press.
