2 pensions, so as to amend certain provisions to comply with federal law; to provide for
3 benefits for members of public retirement systems in qualified military service; to provide
4 for required minimum distributions; to define certain terms relative to conformity with

10 repeal conflicting laws; and for other purposes.

11 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

12 style="text-align:center">**SECTION 1.**

13 Title 47 of the Official Code of Georgia Annotated, relating to retirement and pensions, is
14 amended by revising subsection (b) of Code Section 47-1-62, relating to procedure for
15 establishment of creditable service, computations, employer contributions, and system or
16 fund unable to provide creditable service, as follows:

17 "(b)(1) At the time a qualified returning veteran applies for creditable service as provided
18 in Code Section 47-1-61, the board of trustees of the public retirement system or fund
19 shall compute the actuarial value of the creditable service to be granted.

20 (2) The board of trustees of a retirement system or fund which requires employer
21 contributions shall notify the employer of the returning veteran of the actuarial value, less
22 the amount of employee contribution. The employer shall pay such amount to the
23 retirement system over the same period of time allowed for the returning veteran to pay
24 the employee contributions; provided, however, that an employer shall not be required
25 to make any payment until the fiscal year following the year such notice is given.

26 (3) If the actuary employed by a retirement system or fund created by this title which
 27 does not require an employer contribution certifies that the system or fund cannot provide
 28 the creditable service requested by one or more returning veterans and retain its actuarial
 29 soundness, no discretionary benefit increases shall be granted, and the board of trustees
 30 of such system or fund shall notify the Governor and chairpersons of the Senate and
 31 House Committees on Retirement, providing a full explanation of the amount of funds
 32 necessary to return the system or fund to actuarial soundness.

33 (4) If a member of a public retirement system dies while performing qualified military
 34 service, as such term is defined in Section 414(U) of the federal Internal Revenue Code,
 35 the member's beneficiary shall be entitled to all additional benefits to which the
 36 beneficiary would have been entitled if the member had resumed employment with the
 37 employer, reentered the plan, and died immediately thereafter. Unless otherwise required
 38 by Code Section 38-2-279, additional benefits to beneficiaries shall not include benefit
 39 accruals for the period of qualified military service.

40 (5) If an employer pays differential wage payments, as such term is defined in Section
 41 3401(h) of the federal Internal Revenue Code, to a member of a public retirement system
 42 while such member is in qualified military service, such payments shall be taken into
 43 account as compensation by the public retirement system or fund."

44 SECTION 2.

45 Said title is further amended by adding two new subsections to Code Section 47-1-80.1,
 46 relating to provisions applicable to all public retirement or pension systems, maximum
 47 annuity paid, and limitation on death and disability benefits, to read as follows:

48 "(d) Except as otherwise provided in subsection (e) of this Code section, a member or
 49 beneficiary who would have been required to receive required minimum distributions for
 50 2009 but for the enactment of Section 401(a)(9)(H) of the federal Internal Revenue Code
 51 shall not receive those distributions for 2009 unless the member or beneficiary chooses to
 52 receive such distributions. Such members and beneficiaries shall be given the opportunity
 53 to elect to receive such distributions. In addition, notwithstanding the provisions of Code
 54 Section 47-1-81, and solely for purposes of applying the direct rollover provisions of the
 55 federal Internal Revenue Code, 2009 required minimum distributions shall be treated as
 56 eligible rollover distributions. This subsection shall also apply to required minimum
 57 distributions after 2009 if federal law is extended to include such later years.

58 (e) A public retirement or pension system to which subsection (d) of this Code section
 59 applies may choose a default option to pay 2009 required minimum distributions unless
 60 otherwise elected by the member, provided that the individual system adopt such a default
 61 rule for its members only in its plan documents."

62 **SECTION 3.**

63 Said title is further amended by revising subsections (a) and (b) of Code Section 47-1-82,

89 Code;

90 (B) For limitation years beginning after December 31, 2000, any elective amounts that
91 are not includable in the plan member's gross income by reason of Section 132(f) of the

98 regular working hours or compensation for services outside the plan member's regular

99 working hours, including without limitation overtime or shift differential,

102 continued in employment with the employer; or

103 (ii) The payment is for unused accrued bona fide sick leave, vacation leave, or the
104 leave that the member would have been able to use if employment had continued.

124 (7) 'Nonannuity benefit form' means a benefit, whether a normal form or an optional
125 form, which is not payable in a straight life annuity for the life of the plan member.

128 of a retirement or pension system subject to this title shall be limited to such extent as may
129 be necessary to conform to the requirements of subsections (b) and (c) of Section 415 of
130 the federal Internal Revenue Code for a qualified retirement plan.

133 designated beneficiary elects, the nonannuity benefit form shall be adjusted to an annual
134 benefit as described in subsections (d) and (e) of this Code section. No actuarial

 137 (2) The value of benefits that are not directly related to retirement benefits, such as a
 138 disability benefit, preretirement death benefits, and postretirement medical benefits; ~~or~~
 139 (3) ~~The value of postretirement cost-of-living increases provided that the amount payable~~
 140 ~~to the plan member under the nonannuity benefit form in any limitation year shall not be~~
 141 ~~greater than the Section 415(b) of the federal Internal Revenue Code limit applicable at~~
 142 ~~the annuity starting date as increased in subsequent years pursuant to Section 415(d) of~~
 143 ~~the federal Internal Revenue Code and Section 1.415(d)-1 of the Treasury Regulations.~~
 144 The determination of the annual benefit shall disregard benefits attributable to employee
 145 contributions or rollover contributions or the assets transferred from a qualified plan that
 146 was not maintained by an employer."

147 **SECTION 4.**

148 Said title is further amended by revising paragraphs (11) and (28) of Code Section 47-3-1,

 292 this Code section.

293 Such application and payment must be made in conjunction with and simultaneously with
 294 the member's application for retirement. If the application for retirement is withdrawn or

 310 contractor. Any return to employment or rendering of any paid service, including service
 311 as or for an independent contractor, for any employer during the calendar month of the
 312 effective date of retirement shall render the severance invalid and nullify the application
 313 for retirement.

314 (b) For purposes of this chapter, normal retirement age shall be 60 years of age if the
 315 member has at least ten years of creditable service or the age of the member on the date he

 335 undergo a medical examination, such examination to be made at his place of residence or
 336 other place mutually agreed upon, by a physician or physicians designated by the medical

 348 retirement system, such member's retirement benefit shall cease and the retired member
 349 shall reestablish active membership in this retirement system. The member shall have the
 350 same creditable service which the member possessed at the time of retirement and shall

351 accumulate additional creditable service so long as such active membership continues.
 352 Upon cessation of such service, or upon attainment of normal retirement age and cessation
 353 of contributions, the retired member, after proper notification to the board, shall receive a
 354 retirement benefit based on the member's total accrued service reduced by any amount
 355 already received prior to reemployment.

356 (b) If any retired member who has reached normal retirement age returns to service as a
 357 public school employee in any position that would normally require membership in this
 358 retirement system, such member shall have the option to:

 360 and the retired member shall reestablish active membership in this retirement system.
 361 The member shall have the same creditable service which the member possessed at the
 362 time of retirement and shall accumulate additional creditable service so long as such
 363 active membership continues. Upon cessation of such service, the retired member, after
 364 proper notification to the board, shall receive a retirement benefit based on the member's

 367 not cease, and no additional benefits will accrue.

368 (c) Any employer which employs a retired member shall within 30 days of the employee's
 369 accepting employment notify the board of trustees in writing stating the name of the
 370 member and, if the retired member is age 65 or older, shall provide in writing from the
 371 retired member his or her election either to discontinue benefits and resume contributions,
