

## Senate Bill 56

By: Senators Butler of the 55th, Seay of the 34th, Adelman of the 42nd, Brown of the 26th,  
Reed of the 35th and others

**AS PASSED SENATE**

A BILL TO BE ENTITLED  
AN ACT

1 To amend Chapter 3 of Title 35 of the Official Code of Georgia Annotated, relating to the  
2 Georgia Bureau of Investigation, so as to establish the Georgia StopMeth Log for  
3 electronically recording the identity of those individuals purchasing certain medications used  
4 for the production of methamphetamine, including pseudoephedrine; to provide a statement  
5 of purpose; to provide for definitions; to provide for a misdemeanor penalty for  
6 noncompliance; to provide for related matters; to repeal conflicting laws; and for other  
7 purposes.

8 **BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:**

9 **SECTION 1.**

10 The purpose of this Act is to reduce and prevent the operation of clandestine  
11 methamphetamine laboratories and the contamination of private property by such  
12 laboratories in Georgia. At this time, the state does not have a centralized real-time  
13 electronic logbook able to record purchases of products containing ephedrine,  
14 pseudoephedrine, and phenylpropanolamine. The failure to have such a centralized  
15 electronic data base permits and encourages criminals to illegally purchase large quantities  
16 of such products for the production of methamphetamine by going from store to store, and,  
17 sometimes, from state to state. Georgia law enforcement officials need this critical tool to  
18 combat methamphetamine production. Other states have adopted similar measures, thereby  
19 encouraging methamphetamine producers to relocate to states, such as Georgia, that are  
20 unable to track their unlawful activities. Immediate action is needed by the General  
21 Assembly to protect Georgia's citizens, especially Georgia's children, from the increasing  
22 harm caused by methamphetamine producers.

23 **SECTION 2.**

24 Chapter 3 of Title 35 of the Official Code of Georgia Annotated, relating to the Georgia  
25 Bureau of Investigation, is amended by adding a new article to read as follows:

26

"ARTICLE 2A27 35-3-50.28 As used in this article, the term:

29 (1) 'Pharmacy or retailer' shall mean any place or business authorized to make retail sales  
30 of products containing ephedrine, pseudoephedrine, or phenylpropanolamine to  
31 consumers.

32 (2) 'StopMeth Log' shall mean Georgia's real-time electronic logbook system maintained  
33 either by the Georgia Bureau of Investigation or by a program, approved by the bureau,  
34 that works in conjunction with other federal or state law enforcement agencies so that  
35 such system is maintained under the joint program such as the Atlanta High Intensity  
36 Drug Trafficking Area program, for the purpose of recording information relating to the  
37 purchase of products containing ephedrine, pseudoephedrine, or phenylpropanolamine  
38 and for monitoring such information for the prevention of illegal purchases of such  
39 products.

40 35-3-51.

41 (a) To the extent funds are available, the Georgia Bureau of Investigation is authorized to  
42 establish the StopMeth Log and may utilize any federal, state, or other grant funds  
43 available or donations of funds or property for purposes relating to the initiation,  
44 implementation, and operation of the electronic log.

45 (b) Where the Georgia Bureau of Investigation has provided access to the StopMeth Log  
46 by making the system available through the Internet, a pharmacy or retailer shall be  
47 required to enter into the StopMeth Log information pertaining to each transaction  
48 involving the sale of a product containing ephedrine, pseudoephedrine, or  
49 phenylpropanolamine as required by this article. Such entry shall be made at the time of  
50 the sale. Information to be entered on the StopMeth Log shall include the full name,  
51 address, and date of birth of the purchaser, the date of purchase, the quantity purchased or  
52 attempted to be purchased, and such other information as required by the Georgia Bureau  
53 of Investigation.

54 (c) A person purchasing, receiving, or otherwise acquiring or attempting to acquire a  
55 product containing ephedrine, pseudoephedrine, or phenylpropanolamine shall be 18 years  
56 of age or older and shall be required to produce current, valid photographic identification  
57 of such purchaser and sign a written or electronic log or receipt that documents the date of  
58 the transaction, the full name, address, and date of birth of the person, and the quantity of  
59 ephedrine, pseudoephedrine, or phenylpropanolamine purchased, received, or otherwise  
60 acquired or attempted to be acquired. No person shall purchase or attempt to purchase an

61 amount of ephedrine, pseudoephedrine, or phenylpropanolamine in violation of state or  
62 federal law.

63 (d) A person who violates any provision of this Code section shall upon conviction be  
64 guilty of a misdemeanor. Each separate purchase or attempted purchase made in violation  
65 of this statute shall constitute a separate offense. Each transaction where records are not  
66 generated or maintained shall constitute a separate offense. An offense created by this  
67 Code section shall not merge with any other charge or offense.

68 35-3-52.

69 (a) To the extent funds are available, the Georgia Bureau of Investigation shall make the  
70 StopMeth Log available through the Internet to pharmacies and retailers in this state. The  
71 Georgia Bureau of Investigation may conduct pilot projects or designate areas of operation  
72 which include less than all areas of this state.

73 (b) The StopMeth Log shall have the capability to calculate both state and federal  
74 ephedrine, pseudoephedrine, or phenylpropanolamine purchase limitations and to match  
75 similar identification information. Except as authorized by this article, the Georgia Bureau  
76 of Investigation and other law enforcement entities or approved users and operators shall  
77 not disclose any information entered, collected, recorded, transmitted, or maintained on the  
78 StopMeth Log.

79 (c) The Georgia Bureau of Investigation shall provide Internet access to information  
80 maintained in the StopMeth Log to the following:

81 (1) Any local, state, or federal law enforcement official; and

82 (2) The Georgia Drugs and Narcotics Agency for the purpose of investigating  
83 misconduct or a suspicious transaction committed by a pharmacy, an employee of a  
84 pharmacy, or pharmacist.

85 (d) The Georgia Bureau of Investigation shall promulgate rules necessary to implement  
86 the provisions of this article. The Georgia Bureau of Investigation shall prescribe the  
87 manner in which a pharmacy or retailer shall enter the information required by the bureau  
88 under this article. Records maintained within the StopMeth Log may be destroyed at such  
89 time as the Georgia Bureau of Investigation determines is appropriate but not sooner than  
90 two years from the date of the entry of such record."

91 **SECTION 3.**

92 All laws and parts of laws in conflict with this Act are repealed.
