SECTION 2.
Said chapter is further amended by adding a new article to read as follows:

"ARTICLE 10

This article shall be known and may be cited as the 'Georgia Pain Management Clinic Act.'

(a) This article is enacted for the purpose of safeguarding the public health, safety, and welfare by providing for state administrative control, supervision, and regulation of pain management clinics. It is the intention of the General Assembly that people be able to obtain appropriate and safe medical care to treat conditions in which the control of pain is an element. However, the illegal and improper distribution of controlled substances is a growing problem in this state. Licensure and regulation of pain management clinics will better protect the public from criminal activities associated with the illegal distribution of controlled substances as well as provide for a safer place for people to obtain appropriate medical treatment by requiring certain minimum training of practitioners and by the regulation of pain management clinics.

(b) Nothing in this article shall be construed to limit the authority and regulations of the board relating to pain management as such authority and regulations existed on June 30, 2013.

As used in this article, the term:

(1) 'Annual patient population' means persons seen by a clinic or practice in a 12 month calendar year but shall not include persons that are patients of a nursing home, home health agency, or hospice licensed pursuant to Chapter 7 of Title 31.
(2) 'Board' means the Georgia Composite Medical Board created by Code Section 43-34-2.

(3) 'Chronic pain' means physical pain treated for a period of 90 days or more in a year but shall not include perioperative pain, which shall mean pain immediately preceding and immediately following a surgical procedure, when such perioperative pain is being treated in connection with a surgical procedure by a licensed health care professional acting within the scope of his or her license.

(4) 'License' means a valid and current certificate of registration issued by the board pursuant to this article which shall give the person to whom it is issued authority to engage in the practice prescribed thereon.

(5) 'Licensee' means any person holding a license under this article.

(6) 'Nonterminal condition' means a medical condition which is reversible, where there is a reasonable hope of recovery, and where the patient's medical prognosis is a life expectancy of two years or more.

(7) 'Pain management clinic' means a medical practice advertising 'treatment of pain' or utilizing 'pain' in the name of the clinic or a medical practice or clinic with greater than 50 percent of its annual patient population being treated for chronic pain for nonterminal conditions by the use of Schedule II or III controlled substances. This term shall not include any clinic or practice owned, in whole or in part, or operated by a hospital licensed pursuant to Chapter 7 of Title 31 or by a health system or any ambulatory surgical center, skilled nursing facility, hospice, or home health agency licensed pursuant to Chapter 7 of Title 31.

(8) 'Person' means a natural person.

(9) 'Physician' means a person who possesses a current, unrestricted license to practice medicine in the State of Georgia pursuant to Article 2 of this chapter; who, during the course of his or her practice, has not been denied the privilege of prescribing, dispensing, administering, supplying, or selling any controlled substance; and who has not, during the course of his or her practice, had board action taken against his or her medical license as a result of dependency on drugs or alcohol.

43-34-283.

(a) On and after July 1, 2013, all pain management clinics shall be licensed by the board and shall biennially renew their license with the board. In the event that physicians in a pain management clinic practice at more than one location, each such location shall be licensed by the board, and such license shall be nontransferable.

(b)(1) All pain management clinics shall be owned by physicians licensed in this state.
(2) This subsection shall not apply to any pain management clinic in existence on June 30, 2013, which is jointly owned by one or more physician assistants or advanced practice registered nurses and one or more physicians; provided, however, that any physician assistant or advanced practice registered nurse with an ownership interest in such pain management clinic shall be subject to all requirements which owners of pain management clinics are subject to under this article.

(3) This subsection shall not apply to any pain management clinic in existence on June 30, 2013, which is not majority owned by physicians licensed in this state; provided, however, that the person or entity that owns such pain management clinic shall not operate more than one licensed pain management clinic within this state; and provided, further, that any such owner shall be subject to all requirements which owners of pain management clinics are subject to under this article.

(4) Notwithstanding paragraphs (2) and (3) of this subsection, no person who has been convicted of a felony as defined in paragraph (3) of subsection (a) of Code Section 43-34-8 shall own or have any ownership interest in a pain management clinic.

(c) The board may establish minimum standards of continuing medical education for all physicians owning a pain management clinic. All other licensed health care professionals practicing in a pain management clinic may be subject to minimum standards of continuing education established by the respective licensing board for the health care professional.

(d) Upon the filing of an application for a license, the board may cause a thorough investigation of the applicant to be made and such investigation may include a criminal background check; provided, however, that the board shall cause a thorough investigation of a new applicant to be made, and such investigation shall include a background check. If satisfied that the applicant possesses the necessary qualifications, the board shall issue a license. However, the board may issue licenses with varying restrictions to such persons where the board deems it necessary for the purpose of safeguarding the public health, safety, and welfare.

(e) Whenever an applicable rule requires or prohibits action by a pain management clinic, responsibility shall be that of the owner and the physicians practicing in the pain management clinic, whether the owner is a sole proprietor, partnership, association, corporation, or otherwise.

(f) The board shall deny or refuse to renew a pain management clinic license if it determines that the granting or renewing of such license would not be in the public interest.

(g) No pain management clinic shall provide medical treatment or services, as defined by the board, unless a physician, a physician assistant authorized to prescribe controlled substances under an approved job description, or an advanced practice registered nurse...
authorized to prescribe controlled substances pursuant to a physician protocol is on-site at
the pain management clinic.

(h) The board may enter into agreements with other states or with third parties for the
purpose of exchanging information concerning licensure of any pain management clinic.

43-34-284.
In addition to the authority granted in Code Section 43-34-8, a license obtained pursuant
to this article may be denied, suspended, or revoked by the board upon finding that the
licensee or a physician practicing at a licensed pain management clinic has:
(1) Furnished false or fraudulent material information in any application filed under this
chapter;
(2) Been convicted of a crime under any state or federal law relating to any controlled
substance;

43-34-286.
All pain management clinics that dispense controlled substances or dangerous drugs shall
be registered with the Georgia State Board of Pharmacy as required by Chapter 4 of
Title 26.
43-34-287.

(a) All licenses shall expire biennially unless renewed. All applications for renewal of a license shall be filed with the board prior to the expiration date, accompanied by the biennial renewal fee prescribed by the board. A license which has expired for failure of the holder to renew may be late renewed after application and payment of the prescribed late renewal fee within the time period established by the board and provided the applicant meets such requirements as the board may establish by rule. Any license which has not been renewed by the end of the late renewal period shall be considered revoked and subject to reinstatement at the discretion of the board after meeting such requirements as the board may establish.

(b) As a condition of license renewal, the board shall require the owners of the pain management clinic and any physicians practicing in the pain management clinic to meet such continuing education and training requirements as may be required by rule.

43-34-288.

Any person who operates a pain management clinic in the State of Georgia without a license in violation of this article shall be guilty of a felony.
