

The Senate Natural Resources and the Environment Committee offered the following substitute to HB 741:

A BILL TO BE ENTITLED
AN ACT

1 To amend Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to water
2 resources, so as to revise certain requirements related to issuance of sludge land application
3 permits; to require consistency with existing local zoning ordinances; to require that public
4 hearings be held within jurisdiction of the governing authority where the proposed land
5 application site is located; to provide for an effective date; to provide for related matters; to
6 repeal conflicting laws; and for other purposes.

7 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

8 **SECTION 1.**

9 Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to water resources,
10 is amended by revising Code Section 12-5-30.3, relating to sludge land application systems,
11 as follows:

12 "12-5-30.3.

13 (a) As used in this Code section, the term:

14 (1) 'Sludge' means the solid or semisolid residue generated at a waste-water treatment
15 or pretreatment plant. Such term specifically excludes treated effluent, septage, and
16 sludge that has been treated to further reduce pathogens by such processes as composting,
17 heat drying, or heat treating.

18 (2) 'Sludge land application' means the placement of sludge on or under the ground
19 surface for the purpose of sludge disposal, soil conditioning, or agricultural enhancement.
20 Such term specifically excludes the disposal of sludge in a permitted landfill.

21 (b)(1) No person shall operate a sludge land application system without first securing the
22 approval of the director. The director may include this approval and approval
23 requirements in a permit issued under Code Section 12-5-30.

24 (2) Prior to the issuance of any permit for a sludge land application system, the director
25 shall require written verification to be furnished by the applicant that the proposed facility
26 complies with applicable local zoning or land use ordinances, if any.

27 (c) The Board of Natural Resources shall adopt technical regulations governing sludge
 28 land application and procedural regulations for approval of sludge land application
 29 systems, including public notice and public hearing requirements. All public hearings shall
 30 be conducted by the division and the applicant for the permit within the jurisdiction of the
 31 local governing authority where the proposed sludge land application site is located.

32 (d) The local governing authority in which a sludge land application site is located may
 33 assess upon the generator of the sludge and the owner of the sludge land application site
 34 reasonable fees for environmental monitoring of the site and may hire persons to monitor
 35 the site. Payment of the assessed fee shall be made prior to the application of sludge.
 36 Failure to pay such fees, if assessed, shall be grounds for the local governing authority to
 37 seek an injunction to stop the land application of sludge. The provisions of this ~~subsection~~
 38 section shall not apply to the land application of sludge which is generated by the treatment
 39 of industrial process waste water only.

40 (e) Any person who violates this Code section, regulations adopted by the Board of
 41 Natural Resources pursuant to this Code section, or any permit or approval requirements
 42 of the director issued pursuant to this Code section shall be subject to the civil penalties and
 43 the criminal penalties contained in Code Sections 12-5-52 and 12-5-53."

44 **SECTION 2.**

45 This Act shall become effective upon its approval by the Governor or upon its becoming law
 46 without such approval.

47 **SECTION 3.**

48 All laws and parts of laws in conflict with this Act are repealed.
