

The House Committee on Regulated Industries offers the following substitute to HB 498:

A BILL TO BE ENTITLED
AN ACT

1 To amend Title 43 of the Official Code of Georgia Annotated, relating to professions and
2 businesses, so as to clarify that persons licensed as professional counselors, social workers,
3 and marriage and family therapists are not authorized to conduct psychological testing; to
4 provide for legislative findings and intent; to clarify that psychological testing is part of the
5 practice of psychology; to provide that certain licensed persons are able to perform certain
6 tests other than psychological testing; to revise definitions; to amend Code Section 37-1-1
7 of the Official Code of Georgia Annotated, relating to definitions relative to the general
8 provisions governing and regulating mental health, so as to conform a cross-reference; to
9 provide an effective date; to repeal conflicting laws; and for other purposes.

10 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

11 style="text-align:center">**SECTION 1.**

12 The General Assembly finds that the mental health and wellness needs of Georgia's citizens
13 require the availability of trained mental health professionals who can accurately diagnose,
14 treat, prescribe, and appropriately assess the mental and emotional illnesses, disorders, and
15 conditions from which they suffer and the vocational, educational, interpersonal, and
16 intrapersonal needs essential to living and learning how to live productive and useful lives.
17 It is the intent of the General Assembly to assure geographical and financial access for all of
18 Georgia's citizens to excellent mental health services to the extent that Georgia's resources
19 and regulations permit. To these ends, Georgia regulates its licensed psychiatrists,
20 psychologists, professional counselors, marriage and family therapists, and clinical social
21 workers who provide graduate level professional services to Georgia's private and public
22 mental health services and to its public mental health, educational, and vocational support
23 systems. The General Assembly seeks in such regulatory process to protect the public and
24 assure it receives high quality and appropriate services and to define the scopes of practice
25 and diagnostic authority for each of these professional groups consistent with the graduate
26 level training and supervision, or its equivalent, that the members of each profession have

27 sought and successfully completed. The General Assembly has empowered and authorized
 28 the Georgia Composite Medical Board, the State Board of Examiners of Psychologists, and
 29 the Georgia Composite Board of Professional Counselors, Social Workers, and Marriage and
 30 Family Therapists to fulfill these responsibilities and expects them to work together to assure
 31 a continuum of professional services that ensure appropriate diagnostic and assessment
 32 functions for each profession and the psychotherapeutic and counseling treatment services
 33 appropriate to each profession. The General Assembly recognizes that advances in medicine,
 34 science, education, training, and service delivery occur constantly in our modern history and
 35 therefore also expects the regulatory boards for each profession to assure that its licensees
 36 seek and successfully complete appropriate continuing education and training for the
 37 functions and services authorized to each profession.
