404 (3) Without limiting other grounds for the disqualification of bids or proposals on the
405 basis of nonresponsibility, a contracting agency may disqualify the bid or proposal of a

407 in the utilization plan within a period of time specified in regulations promulgated by the
408 director after receiving notification of such deficiencies from the contracting agency.
409 When failure to remedy any notified deficiency in the utilization plan is a ground for
410 disqualification, such failure and all other grounds for disqualification shall be stated in
411 writing by the contracting agency. When the contracting agency states that a failure to
412 remedy any notified deficiency in the utilization plan is a ground for disqualification, the
413 contractor shall be entitled to an administrative hearing, on record, involving all grounds
414 stated by the contracting agency. Such hearing shall be conducted by the appropriate
415 authority of the contracting agency to review the determination of disqualification.

416 (i) When it appears that a contractor cannot, after a good faith effort, comply with the
417 requirements of participation by minority and women owned business enterprises set forth
418 in a particular state contract, a contractor may file a written application with the contracting
419 agency requesting a partial or total waiver of such participation requirements, setting forth

420 the reasons for such contractor's inability to meet any or all of such participation
421 requirements together with an explanation of the efforts undertaken by the contractor to
422 obtain the required participation by minority and women owned business enterprises. In
423 implementing the provisions of this Code section, the contracting agency shall consider the
424 number and types of minority and women owned business enterprises located in the region
425 in which the state contract is to be performed, the total dollar value of the state contract,
426 the scope of work to be performed, and the project size and term. If, based on such
427 considerations, the contracting agency determines there is not a reasonable availability of
428 contractors in the directory of certified businesses to furnish services for the project, it shall
429 issue a waiver of compliance to the contractor. In making such determination, the
430 contracting agency shall first consider the availability of other business enterprises located
431 in the region and shall thereafter consider the financial ability of minority and women
432 owned business enterprises located outside the region in which the contract is to be
433 performed to perform the state contract.

434 (j) For purposes of determining a contractor's good faith effort to comply with the
435 requirements of this Code section or to be entitled to a waiver therefrom, the contracting
436 agency shall consider whether:

437 (1) The contractor has advertised in general circulation media, trade association
438 publications, and minority focused and women focused media and, in such event, whether
439 or not certified businesses which have been solicited by the contractor:

440 (A) Exhibited interest in submitting proposals for a particular project by attending a
441 pre-bid conference; and

442 (B) Have responded in a timely fashion to the contractor's solicitations for timely
443 competitive bid quotations prior to the contracting agency's bid date;

444 (2) There has been written notification to appropriate certified businesses that appear in
445 the directory of certified businesses prepared pursuant to paragraph (6) of subsection (c)
446 of Code Section 50-5-151; and

447 (3) The contractor can reasonably structure the amount of work to be performed under
448 subcontracts in order to increase the likelihood of participation by certified businesses.

449 (k) In the event that a contracting agency fails or refuses to issue a waiver to a contractor
450 as requested within 20 days after having made application therefor pursuant to subsection
451 (i) of this Code section or if the contracting agency denies such application, in whole or in
452 part, the contractor may file a complaint with the director setting forth the facts and
453 circumstances giving rise to the contractor's complaint together with a demand for relief.
454 The contractor shall serve a copy of such complaint upon the contracting agency by
455 personal service or by certified mail, return receipt requested. The contracting agency shall
456 be afforded an opportunity to respond to such complaint in writing.

457 (l) If, after the review of a utilization plan or periodic compliance report and after such
458 contractor has been afforded an opportunity to respond to a notice of deficiency issued by
459 the contracting agency in connection therewith, it appears that a contractor is failing or
460 refusing to comply with the requirements of participation by minority and women owned
461 business enterprises as set forth in the state contract, and no waiver from such participation
462 requirements has been granted, the contracting agency may file a written complaint with
463 the director pursuant to Code Section 50-5-159 setting forth the facts and circumstances
464 giving rise to the contracting agency's complaint together with a demand for relief. The
465 contracting agency shall serve a copy of such complaint upon the contractor by personal
466 service or by certified mail, return receipt requested. The contractor shall be afforded an
467 opportunity to respond to such complaint in writing.

468 50-5-156.

469 The director shall promulgate rules and regulations setting forth measures and procedures
470 to require all contracting agencies, where practicable, feasible, and appropriate, to assess
471 the diversity practices of contractors submitting bids or proposals in connection with the
472 award of a state contract. Such rules and regulations shall take into account the nature of
473 the labor, services, supplies, equipment, or materials being procured by the state agency;
474 the method of procurement required to be used by a state agency to award the contract and
475 utilization plans required to be submitted pursuant to Code Section 50-5-155; and such
476 other factors as the director deems appropriate or necessary to promote the award of state
477 contracts to contractors having sound diversity practices. Such assessment shall not in any
478 way permit the automatic rejection of a bid or procurement contract proposal based on lack
479 of adherence to diversity practices. Each bid or proposal shall be analyzed on an individual
480 per-bid or per-proposal basis with the contractor's diversity practices considered as only
481 a part of a wider consideration of several factors when deciding to award or decline to
482 award a bid or proposal.

483 50-5-157.

484 (a) The director shall promulgate rules and regulations providing for the establishment of
485 a state-wide certification program, including rules and regulations governing the approval,
486 denial, or revocation of any such certification.

487 (b) For the purposes of this article, the office of the state-wide advocate shall be
488 responsible for verifying businesses as being owned, operated, and controlled by minority
489 group members or women and for certifying such verified businesses.

490 (c)(1) The director shall work with all municipal corporations that have a municipal
491 program for minority and women owned business enterprises to develop standards to

492 accept state certification to meet the municipal corporation's certification standards for
493 minority and women owned business enterprises.

494 (2) The director shall establish a procedure enabling the division to accept federal
495 certification verification for applicants of minority and women owned business
496 enterprises, provided that such standards comport with those required by the state
497 program for minority and women owned business enterprises, in lieu of requiring the
498 applicant to complete the state certification process. The director shall promulgate rules
499 and regulations to set forth criteria for the acceptance of federal certification.

500 (d) Following application for certification pursuant to this Code section, the director shall
501 provide the applicant with written notice of the status of the application, including notice
502 of any outstanding deficiencies, within 30 days. Within 60 days of submission of a final
503 completed application, the director shall provide the applicant with written notice of a
504 determination by the office approving or denying such certification and, in the event of a
505 denial, a statement setting forth the reasons for such denial. Upon a determination denying
506 or revoking certification, the business enterprise for which certification has been so denied
507 or revoked shall, upon written request made within 30 days from receipt of notice of such
508 determination, be entitled to a hearing before an independent hearing officer designated for
509 such purpose by the director. In the event that a request for a hearing is not made within
510 such 30 day period, such determination shall be deemed to be final. The independent
511 hearing officer shall conduct a hearing and, upon the conclusion of such hearing, issue a
512 written recommendation to the director to affirm, reverse, or modify such determination
513 of the director. Such written recommendation shall be issued to the parties. Within 30
514 days, the director, by order, must accept, reject, or modify such recommendation of the
515 hearing officer and set forth in writing the reasons therefor. The director shall serve a copy
516 of such order and reasons therefor upon the business enterprise by personal service or by
517 certified mail, return receipt requested.

518 (e) All certifications shall be valid for a period of three years.

519 50-5-158.

520 (a) Each contracting agency shall be responsible for monitoring state contracts under its
521 jurisdiction and recommending matters to the office of the state-wide advocate regarding
522 noncompliance with the provisions of this article so that such office may take such action
523 as is appropriate to ensure compliance with the provisions of this article, the rules and
524 regulations of the director issued pursuant to this article, and the contractual provisions
525 required pursuant to this article. All contracting agencies shall comply with the rules and
526 regulations of the office of the state-wide advocate and are directed to cooperate with such

527 office and to furnish to such office such information and assistance as may be required in
 528 the performance of its functions under this article.

529 (b) Each contracting agency shall provide to prospective bidders a current copy of the
 530 directory of certified businesses and a copy of the regulations.

531 (c) Each contracting agency shall report to the director the activities undertaken to promote
 532 employment of minority group members and women and promote and increase
 533 participation by certified businesses with respect to state contracts and subcontracts. Such
 534 reports shall be submitted periodically, but not less frequently than annually, as required
 535 by the director, and shall include such information as is necessary for the director to
 536 determine whether the contracting agency and contractor have complied with the purposes
 537 of this article, including, without limitation, a summary of all waivers of the requirements
 538 of subsections (i) and (j) of Code Section 50-5-155 allowed by the contracting agency
 539 during the period covered by the report, including a description of the basis of the waiver
 540 request and the rationale for granting any such waiver. Each contracting agency shall also
 541 include in such annual report whether or not it has been required to prepare a remedial
 542 action plan and, if so, such plan and the extent to which the contracting agency has
 543 complied with each element of such plan.

544 (d) The division shall issue an annual report which:

545 (1) Summarizes the report submitted by each contracting agency pursuant to subsection
 546 (c) of this Code section;

547 (2) Contains such comparative or other information as the director deems appropriate,
 548 including but not limited to goals compared to actual participation of minority and
 549 women owned business enterprises in state contracting, to evaluate the effectiveness of
 550 the activities undertaken by each such contracting agency to promote increased
 551 participation by certified businesses with respect to state contracts and subcontracts;

552 (3) Contains a summary of all waivers of the requirements of subsections (i) and (j) of
 553 Code Section 50-5-155 allowed by each contracting agency during the period covered by
 554 the report, including a description of the basis of the waiver request and the rationale for
 555 granting any such waiver;

556 (4) Describes any efforts to create a data base or other information storage and retrieval
 557 system containing information relevant to contracting with minority and women owned
 558 business enterprises; and

559 (5) Contains a summary of:

560 (A) All determinations of violations of this article by a contractor or a contracting
 561 agency made during the period covered by the annual report pursuant to Code Section
 562 50-5-151; and

563 (B) The penalties or sanctions, if any, assessed in connection with such determinations
 564 and the rationale for such penalties or sanctions. Copies of the annual report shall be
 565 provided to the commissioner of administrative services, the Governor, the President
 566 of the Senate, the Speaker of the House of Representatives, the minority leader of the
 567 Senate, and the minority leader of the House of Representatives and shall also be made
 568 available to the public.

569 (e) Each contracting agency that substantially fails to meet the goals supported by the
 570 disparity study, as defined by regulation of the director, shall be required to submit to the
 571 director a remedial action plan to remedy such failure.

572 (f) If it is determined by the director that any contracting agency has failed to act in good
 573 faith to implement the remedial action plan pursuant to subsection (e) of this Code section
 574 within one year, the director shall provide written notice of such a finding, which shall be
 575 publicly available, and direct implementation of remedial actions to:

576 (1) Assure that sufficient and effective solicitation efforts to minority and women owned
 577 business enterprises are being made by such contracting agency;

578 (2) Divide contract requirements, when economically feasible, into quantities that will
 579 expand the participation of minority and women owned business enterprises;

580 (3) Eliminate extended experience or capitalization requirements, when
 581 programmatically and economically feasible, that will expand participation by minority
 582 and women owned business enterprises;

583 (4) Identify specific proposed contracts as particularly attractive or appropriate for
 584 participation by minority and women owned business enterprises with such identification
 585 to result from and be coupled with the efforts of paragraphs (1), (2), and (3) of this
 586 subsection; and

587 (5) Upon a finding by the director that an agency has failed to take affirmative measures
 588 to implement the remedial action plan and to follow any of the remedial actions set forth
 589 by the director, and in the absence of any objective progress toward the contracting
 590 agency's goals, require some or all of the contracting agency's procurement, for a
 591 specified period of time, to be placed under the direction and control of another agency
 592 or agencies.

593 50-5-159.

594 Upon receipt by the director of a complaint by a contracting agency that a contractor has
 595 violated the provisions of a state contract which have been included to comply with the
 596 provisions of this article or by a contractor that a contracting agency has violated such
 597 provisions or has failed or refused to issue a waiver where one has been applied for
 598 pursuant to subsection (i) of Code Section 50-5-155 or has denied such application, the

599 director shall attempt to resolve the matter giving rise to such complaint. If efforts to
600 resolve such matter to the satisfaction of all parties are unsuccessful, the director shall refer
601 the matter, within 30 days of the receipt of the complaint, to the division's hearing officers.
602 Upon conclusion of the administrative hearing, the hearing officer shall submit to the
603 director his or her decision regarding the alleged violation of the contract and
604 recommendations regarding the imposition of sanctions, fines, or penalties. The director,
605 within ten days of receipt of the decision, shall file a determination of such matter and shall
606 cause a copy of such determination along with a copy of this article to be served upon the
607 contractor by personal service or by certified mail, return receipt requested. The penalties
608 imposed for any violation which is premised upon either a fraudulent or intentional
609 misrepresentation by the contractor or the contractor's willful and intentional disregard of
610 the requirements of participation by minority and women owned business enterprises
611 included in the contract may include a determination that the contractor shall be ineligible
612 to submit a bid to any contracting agency or be awarded any such contract for a period not
613 to exceed one year following the final determination; provided, however, that if a
614 contractor has previously been determined to be ineligible to submit a bid pursuant to this
615 article, the penalties imposed for any subsequent violation, if such violation occurs within
616 five years of the first violation, may include a determination that the contractor shall be
617 ineligible to submit a bid to any contracting agency or be awarded any such contract for a
618 period not to exceed five years following the final determination. The division shall
619 maintain a website listing all contractors that have been deemed ineligible to submit a bid
620 pursuant to this Code section and the date after which each contractor shall once again
621 become eligible to submit bids.

622 50-5-160.

623 Every contracting agency shall include a provision in its state contracts expressly providing
624 that any contractor that willfully and intentionally fails to comply with the requirements
625 of participation by minority and women owned business enterprises as set forth in such
626 state contract shall be liable to the contracting agency for liquidated or other appropriate
627 damages and shall provide for other appropriate remedies on account of such breach. A
628 contracting agency that elects to proceed against a contractor for breach of contract as
629 provided in this Code section shall be precluded from seeking enforcement pursuant to
630 Code Section 50-5-159; provided, however, that the contracting agency shall include a
631 summary of all enforcement actions undertaken pursuant to this Code section in its annual
632 report submitted pursuant to subsection (c) of Code Section 50-5-158."

633

SECTION 2.
