SUBJECT: State Auditor's Certification
Senate Bill (LC 43 0537)

Dear Senator Black:

This bill would amend provisions relating to creditable service under the Employees' Retirement System of Georgia. Specifically, this bill would allow members to obtain up to 60 months of creditable service for active military service in the armed forces of the United States performed on or after January 1, 1990. Members who have at least two years of membership service would be eligible to make an application to the Board of Trustees. Such members would be required to provide proof of qualifying active military service and would be required to pay an amount equal to the full actuarial cost of such creditable service.

Under the provisions of this bill, members who wish to obtain such creditable service would be authorized to make a one-time payment or have equal payments deducted from his or her earnable compensation over a specified period of time. Once elected, members would not be permitted to change their payment plan. In the event a member does not pay the full actuarial cost as amortized, the amount of creditable service granted would be determined by the amount of funds paid to the Board of Trustees. This bill would also authorize members to make a one-time payment towards the purchase of this creditable service upon application for retirement or within 30 days of a termination for a reason other than death or retirement. It should be noted that no member shall receive creditable service:
