

WITHDRAWN

Representatives Powell of the 32nd and Coomer of the 14th offer the following amendment:

1 *Amend the House Committee on Judiciary Non-civil substitute to SB 1 (LC 29 7613S) by*
 2 *inserting after "Center;" on line 13 the following:*

3 to amend Title 40 of the Official Code of Georgia Annotated, relating to motor vehicles and
 4 traffic, so as to provide for automated traffic enforcement safety devices in school zones; to
 5 provide for definitions; to revise civil monetary penalties for a driver of a vehicle meeting
 6 or overtaking a school bus stopped on the highway where there are in operation on the school
 7 bus certain visual signs; to clarify exceptions; to provide for the operation of automated
 8 traffic enforcement safety devices by agents or registered or certified peace officers; to
 9 provide for automated traffic enforcement safety device testing exceptions and procedures;
 10 to provide for automated traffic enforcement safety device use warning signs; to provide for
 11 further exceptions for when case may be made and conviction had for exceeding posted
 12 speed limit by less than ten miles per hour; to provide for an exception for the ratio of
 13 speeding fines to an agency budget; to provide for civil enforcement of violations recorded
 14 by automated traffic enforcement safety devices; to provide for rules, regulations, and terms
 15 of use for automated traffic enforcement safety devices;

16 *By redesignating Part VI as Part VIII and Section 6-1 as Section 8-1 and inserting between*
 17 *lines 211 and 212 the following:*

18 **PART VI**
 19 **SECTION 6-1.**

20 Title 40 of the Official Code of Georgia Annotated, relating to motor vehicles and traffic, is
 21 amended by revising subparagraph (d)(3)(A) in Code Section 40-6-163, relating to duty of
 22 driver of vehicle meeting or overtaking school bus, reporting of violations, and enforcement,
 23 as follows:

24 "(A) The driver of a motor vehicle shall be liable for a civil monetary penalty if such
 25 vehicle is found, as evidenced by recorded images, to have been operated in disregard
 26 or disobedience of subsection (a) of this Code section and such disregard or
 27 disobedience was not otherwise authorized by law; provided, however, that the driver
 28 of a vehicle upon a highway with separate roadways need not stop upon meeting or
 29 passing a school bus which is on a different roadway, or upon a controlled-access
 30 highway when the school bus is stopped in a loading zone which is a part of or adjacent
 31 to such highway and where pedestrians are not permitted to cross the highway as

32 provided for in subsection (b) of this Code section. The amount of such fine shall be
 33 \$300.00 for a first offense, \$750.00 for a second offense, and \$1,000.00 for each
 34 subsequent offense in a five-year period;"

35 **PART VII**
 36 **SECTION 7-1.**

37 Said title is further amended in Article 2 of Chapter 14, relating to speed detection devices,
 38 by adding two new Code sections to read as follows:

39 "40-14-1.1.

40 As used in this article, the term:

41 (1) 'Agent' means a person or entity who is authorized by a law enforcement agency or
 42 governing body to administer the procedures contained herein and:

43 (A) Provides services to such law enforcement agency or governing body;

44 (B) Operates, maintains, leases, or licenses an automated traffic enforcement safety
 45 device; or

46 (C) Is authorized by such law enforcement agency or governing body to review and
 47 assemble the recorded images captured by the automated traffic enforcement safety
 48 device for review by a peace officer.

49 (2) 'Automated traffic enforcement safety device' means a speed detection device that:

50 (A) Is capable of producing photographically recorded still or video images, or both,
 51 of the rear of a motor vehicle or of the rear of a motor vehicle being towed by another
 52 vehicle, including an image of such vehicle's rear license plate;

53 (B) Is capable of monitoring the speed of a vehicle as photographically recorded
 54 pursuant to subparagraph (A) of this paragraph; and

55 (C) Indicates on each of the one or more photographically recorded still or video
 56 images produced the date, time, location, and speed of a photographically recorded
 57 vehicle traveling at a speed above the posted speed limit within a marked school zone.

58 (3) 'Owner' means the registrant of a motor vehicle, except that such term shall not
 59 include a motor vehicle rental company when a motor vehicle registered by such
 60 company is being operated by another person under a rental agreement with such
 61 company.

62 (4) 'Recorded images' means still or video images recorded by an automated traffic
 63 enforcement safety device.

64 (5) 'School zone' means any roadway within 1,000 feet of the perimeter of the property
 65 of any public or private elementary school or secondary school.

66 40-14-1.2.
 67 Nothing in this article shall be construed to mean that an agent is providing or participating
 68 in private investigative services or acting in such a manner as would render such agent
 69 subject to the provisions of Article 4 of Chapter 18 of Title 50."

70 **SECTION 7-2.**

71 Said title is further amended by revising subsection (c) of Code Section 40-14-2, relating to
 72 permit required for use of speed detection devices, use not authorized where officers paid on
 73 fee system, and operation by registered or certified peace officers, as follows:

74 "(c) A permit shall not be issued by the Department of Public Safety to an applicant under
 75 this Code section unless the applicant provides law enforcement services by certified peace
 76 officers 24 hours a day, seven days a week on call or on duty or allows only peace officers
 77 employed full time by the applicant to operate speed detection devices. Speed detection
 78 devices can only be operated by registered or certified peace officers of the county sheriff,
 79 county, municipality, college, or university to which the permit is applicable; provided,
 80 however, that an automated traffic enforcement safety device may be operated by an agent
 81 or registered or certified peace officers of the county sheriff, county, or municipality to
 82 which the permit is applicable. Persons operating the speed detection devices must be
 83 registered or certified by the Georgia Peace Officer Standards and Training Council as
 84 peace officers and certified by the Georgia Peace Officer Standards and Training Council
 85 as operators of speed detection devices; provided, however, that agents may operate
 86 automated traffic enforcement safety devices without such registrations or certifications."

87 **SECTION 7-3.**

88 Said title is further amended by revising Code Section 40-14-5, relating to testing and
 89 removal of inaccurate radar devices from service, as follows:

90 "40-14-5.

91 (a) Each state, county, municipal, or campus law enforcement officer using a radar device,
 92 except for an automated traffic enforcement safety device as provided for under Code
 93 Section 40-14-18, shall test the device for accuracy and record and maintain the results of
 94 the test at the beginning and end of each duty tour. Each such test shall be made in
 95 accordance with the manufacturer's recommended procedure. Any radar unit not meeting
 96 the manufacturer's minimum accuracy requirements shall be removed from service and
 97 thereafter shall not be used by the state, county, municipal, or campus law enforcement
 98 agency until it has been serviced, calibrated, and recertified by a technician with the
 99 qualifications specified in Code Section 40-14-4.

100 (b) Each county, municipal, or campus law enforcement officer using a radar device,
 101 except for an automated traffic enforcement safety device as provided for under Code
 102 Section 40-14-18, shall notify each person against whom the officer intends to make a case
 103 based on the use of the radar device that the person has a right to request the officer to test
 104 the radar device for accuracy. The notice shall be given prior to the time a citation and
 105 complaint or ticket is issued against the person and, if requested to make a test, the officer
 106 shall test the radar device for accuracy. In the event the radar device does not meet the
 107 minimum accuracy requirements, the citation and complaint or ticket shall not be issued
 108 against the person, and the radar device shall be removed from service and thereafter shall
 109 not be used by the county, municipal, or campus law enforcement agency until it has been
 110 serviced, calibrated, and recertified by a technician with the qualifications specified in
 111 Code Section 40-14-4.

112 (c)(1) The law enforcement agency, or agent on behalf of the law enforcement agency,
 113 operating an automated traffic enforcement safety device provided for under Code
 114 Section 40-14-18 shall maintain a log for the automated traffic enforcement safety device
 115 attesting to the performance of such device's self-test at least once every 30 days and the
 116 results of such self-test pertaining to the accuracy of the automated traffic enforcement
 117 safety device. Such log shall be admissible in any court proceeding for a violation issued
 118 pursuant to Code Section 40-14-18.

119 (2) The law enforcement agency, or agent on behalf of the law enforcement agency,
 120 operating an automated traffic enforcement safety device shall have performed an
 121 independent calibration test on the automated traffic enforcement safety device at least
 122 once every 12 months. The results of such calibration test shall be admissible in any
 123 court proceeding for a violation issued pursuant to Code Section 40-14-18."

124 **SECTION 7-4.**

125 Said title is further amended by adding a new subsection to Code Section 40-14-6, relating
 126 to the requirement for warning signs, to read as follows:

127 "(c) In addition to the signs required under subsections (a) and (b) of this Code section,
 128 each law enforcement agency using an automated traffic enforcement safety device as
 129 provided for in Code Section 40-14-18 shall erect signs warning of the use of a stationary
 130 speed detection device within the approaching school zone. Such signs shall be at least 24
 131 by 30 inches in area, shall be visible plainly from every lane of traffic, shall be viewable
 132 in all traffic conditions, and shall not be placed in such a manner that the view of such sign
 133 is subject to being obstructed by any other vehicle on such highway. Such signs shall be
 134 placed within 500 feet prior to the warning sign announcing the reduction of the speed limit
 135 for the school speed zone."

136

SECTION 7-5.

137

Said title is further amended by revising Code Section 40-14-7, relating to the visibility of a vehicle from which a speed detection device is operated, as follows:

138

139

"40-14-7.

140

~~No~~ Except as provided for in Code Section 40-14-18, no stationary speed detection device shall be employed by county, municipal, college, or university law enforcement officers where the vehicle from which the device is operated is obstructed from the view of approaching motorists or is otherwise not visible for a distance of at least 500 feet."

141

142

143

144

SECTION 7-6.

145

Said title is further amended by revising subsection (b) of Code Section 40-14-8, relating to when case may be made and conviction had, as follows:

146

147

"(b) The limitations contained in subsection (a) of this Code section shall not apply in properly marked school zones one hour before, during, and one hour after the normal hours of school operation or programs for care and supervision of students before school, after school, or during vacation periods as provided for under Code Section 20-2-65, in properly marked historic districts, and in properly marked residential zones. For purposes of this chapter, thoroughfares with speed limits of 35 miles per hour or more shall not be considered residential districts. For purposes of this Code section, the term 'historic district' means a historic district as defined in paragraph (5) of Code Section 44-10-22 and which is listed on the Georgia Register of Historic Places or as defined by ordinance adopted pursuant to a local constitutional amendment."

148

149

150

151

152

153

154

155

156

157

SECTION 7-7.

158

Said title is further amended by revising subsection (d) of Code Section 40-14-11, relating to investigations by the commissioner of public safety, issuance of order suspending or revoking a permit, and ratio of speeding fines to agency's budget, as follows:

159

160

161

"(d) There shall be a rebuttable presumption that a law enforcement agency is employing speed detection devices for purposes other than the promotion of the public health, welfare, and safety if the fines levied based on the use of speed detection devices for speeding offenses are equal to or greater than 35 percent of a municipal or county law enforcement agency's budget. For purposes of this Code section, fines collected for citations issued for violations of Code Section 40-6-180 shall be included when calculating total speeding fine revenue for the agency; provided, however, that fines for speeding violations exceeding 20 miles per hour over the established speed limit and fines for speeding violations issued pursuant to Code Section 40-14-18 shall not be considered when calculating total speeding fine revenue for the agency."

162

163

164

165

166

167

168

169

170

SECTION 7-8.

Said title is further amended by adding a new Code section to read as follows:

"40-14-18.

(a) The speed limit within any school zone as provided for in Code Section 40-14-8 and marked pursuant to Code Section 40-14-6 may be enforced by using recorded images for violations which occurred during the time periods relative to normal hours of school operation and programs of care and supervision of students as provided for in Code Section 40-14-8 when such violations are in excess of ten miles per hour over the speed limit.

(b) For the purpose of enforcement pursuant to this Code section:

(1) The driver of a motor vehicle shall be liable for a civil monetary penalty if such vehicle is found, as evidenced by recorded images, to have been operated in disregard or disobedience of the speed limit within any school zone and such disregard or disobedience was not otherwise authorized by law. The amount of such fine shall be \$125.00, in addition to fees associated with the electronic processing of such fine which shall not exceed \$25.00; provided, however, that for a period of 30 days after an automated traffic enforcement safety device is first introduced within a school system, other than an automated traffic enforcement safety device replacing a previously used automated traffic enforcement safety device, the driver of a motor vehicle shall not be liable for a civil monetary penalty but shall be issued a civil warning for disregard or disobedience of the speed limit within the school zone;

(2) A law enforcement agency authorized to enforce the speed limit of a school zone shall send by first class mail addressed to the owner of the motor vehicle postmarked within 30 days after obtaining the name and address of the owner of the motor vehicle but no later than 60 days after the date of the alleged violation:

(A) A citation for the alleged violation, which shall include the date and time of the violation, the location of the infraction, the maximum speed at which such motor vehicle was traveling in recorded images, the maximum speed applicable within such school zone, the civil warning or the amount of the civil monetary penalty imposed, and the date by which a civil monetary penalty shall be paid;

(B) An image taken from the recorded images showing the vehicle involved in the infraction;

(C) A website address where recorded images showing the vehicle involved in the infraction and a duplicate of the information provided for in this paragraph may be viewed;

(D) A copy of a certificate sworn to or affirmed by a certified peace officer employed by a law enforcement agency authorized to enforce the speed limit of the school zone and stating that, based upon inspection of recorded images, the owner's motor vehicle

208 was operated in disregard or disobedience of the speed limit in the marked school zone
209 and that such disregard or disobedience was not otherwise authorized by law;
210 (E) A statement of the inference provided by paragraph (4) of this subsection and of
211 the means specified therein by which such inference may be rebutted;
212 (F) Information advising the owner of the motor vehicle of the manner and time in
213 which liability as alleged in the citation may be contested through an administrative
214 hearing; and
215 (G) A warning that failure to pay the civil monetary penalty or to contest liability in
216 a timely manner as provided for in subsection (d) of this Code section shall waive any
217 right to contest liability;

218 (3) Proof that a motor vehicle was operated in disregard or disobedience of the speed
219 limit of the marked school zone shall be evidenced by recorded images. A copy of a
220 certificate sworn to or affirmed by a certified peace officer employed by a law
221 enforcement agency and stating that, based upon inspection of recorded images, a motor
222 vehicle was operated in disregard or disobedience of the speed limit in the marked school
223 zone and that such disregard or disobedience was not otherwise authorized by law shall
224 be prima-facie evidence of the facts contained therein; and

225 (4) Liability under this Code section shall be determined based upon a preponderance of
226 the evidence. Prima-facie evidence that the vehicle described in the citation issued
227 pursuant to this Code section was operated in violation of the speed limit of the school
228 zone, together with proof that the defendant was, at the time of such violation, the
229 registered owner of the vehicle, shall permit the trier of fact in its discretion to infer that
230 such owner of the vehicle was the driver of the vehicle at the time of the alleged
231 violation. Such an inference may be rebutted if the owner of the vehicle:

232 (A) Testifies under oath in open court or submits to the court a sworn notarized
233 statement that he or she was not the operator of the vehicle at the time of the alleged
234 violation and identifies the name of the operator of the vehicle at the time of the alleged
235 violation; or

236 (B) Presents to the court a certified copy of a police report showing that the vehicle had
237 been reported to the police as stolen prior to the time of the alleged violation.

238 (c) A violation for which a civil warning or a civil penalty is imposed pursuant to this
239 Code section shall not be considered a moving traffic violation for the purpose of points
240 assessment under Code Section 40-5-57. Such violation shall be deemed noncriminal, and
241 imposition of a civil warning or civil penalty pursuant to this Code section shall not be
242 deemed a conviction and shall not be made a part of the operating record of the person
243 upon whom such liability is imposed, nor shall it be used for any insurance purposes in the
244 provision of motor vehicle insurance coverage.

245 (d) If a person issued and mailed a citation pursuant to subsection (b) of this Code section
246 fails to pay the penalty for the violation or has not filed a police report or notarized
247 statement pursuant to paragraph (4) of subsection (b) of this Code section in no less than 30
248 nor more than 60 days after such mailing as determined and noticed by the law
249 enforcement agency, the agent or law enforcement agency shall send to such person by first
250 class mail a second notice of any unpaid civil penalty, except in cases where there is an
251 adjudication that no violation occurred or there is otherwise a lawful determination that no
252 civil penalty shall be imposed. The second notice shall include all information required in
253 paragraph (2) of subsection (b) of this Code section and shall include a new date of return
254 which shall be no less than 30 days after such mailing as determined and noticed by the law
255 enforcement agency. If such person notified by second notice again fails to pay the penalty
256 or file a police report or notarized statement pursuant to paragraph (4) of subsection (b) of
257 this Code section by the new date of return, such person shall have waived the right to
258 contest the violation and shall be liable for the civil monetary penalty provided for under
259 this Code section, except in cases where there is an adjudication that no violation occurred
260 or there is otherwise a lawful determination that no civil penalty shall be imposed.

261 (e) Notices mailed by first class mail pursuant to this Code section shall be adequate
262 notification of the fees and penalties imposed by this Code section. No other notice shall
263 be required for the purposes of this Code section.

264 (f) Any court having jurisdiction over violations of the speed limit in the school zone shall
265 have jurisdiction over cases arising under this Code section and shall be authorized to
266 impose the civil monetary penalty. The provisions of law governing jurisdiction,
267 procedure, defenses, adjudication, appeal, and payment and distribution of penalties
268 otherwise applicable to violations of the speed limit in the school zone shall apply to
269 enforcement under this Code section, except as otherwise provided in this Code section;
270 provided, however, that any appeal from superior or state court shall be by application in
271 the same manner as that provided by Code Section 5-6-35.

272 (g) Recorded images made for purposes of this Code section shall not be a public record
273 for purposes of Article 4 of Chapter 18 of Title 50.

274 (h) A civil warning or penalty under this Code section on the owner of a motor vehicle
275 shall not be imposed if the operator of the vehicle was arrested or issued a citation and
276 notice to appear by a peace officer for the same violation."
