

## House Resolution 1166

By: Representatives Cooper of the 43<sup>rd</sup>, Hawkins of the 27<sup>th</sup>, Schofield of the 60<sup>th</sup>, Dempsey of the 13<sup>th</sup>, Henson of the 86<sup>th</sup>, and others

## A RESOLUTION

1 Supporting the creation of the State of Georgia Council on Respiratory Health Promotion;  
2 and for other purposes.

3 WHEREAS, disparities in health outcomes are increasingly costly to the state, financially  
4 and socially, but are in large part preventable; and

5 WHEREAS, people with chronic respiratory conditions require seamless health care from  
6 provider to treatment; and

7 WHEREAS, patients with asthma, severe asthma, COPD, and other respiratory diseases, and  
8 their families, caregivers, employers, and the health system have a disproportionately high  
9 economic, clinical, and social burden; and

10 WHEREAS, the current asthma state plan expires in 2018; identifying barriers to effective  
11 prevention, screening, medication adherence, and treatment for patients with asthma, severe  
12 asthma, and COPD would be in the state's interest; and

13 WHEREAS, it would be beneficial to create via rules and regulations a State Council on  
14 Respiratory Health Promotion.

15 NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES that  
16 this body supports:

17 (1) The creation of a State Council on Respiratory Health Promotion ("the Council") by  
18 the Department of Public Health through rules and regulations;

19 (2) That the Council be composed of seven citizen members appointed from the public and  
20 one from the Department of Public Health;

21 (3) That the Council address issues affecting health promotion services in the state,  
22 including professional and patient education; successful respiratory disease education

23 strategies; personnel preparation and continuing education; state expenditures for treatment  
24 of chronic diseases; screening services; and public awareness;

25 (4) That the Council advise the legislature on legislation that is needed to develop further  
26 and maintain a state-wide system of services for persons with respiratory disease;

27 (5) That the Council assist the Department of Public Health to establish a surveillance and  
28 intervention program for patients with respiratory disease; and

29 (6) That the Council develop and implement a state plan for respiratory disease treatment,  
30 education, and training.

31 BE IT FURTHER RESOLVED that the Clerk of the House of Representatives is authorized  
32 and directed to make appropriate copies of this resolution available for distribution to the  
33 Department of Public Health.
