

## Senate Resolution 1019

By: Senators Ginn of the 47th, Kennedy of the 18th, Gooch of the 51st, Albers of the 56th, Miller of the 49th and others

## A RESOLUTION

1 Creating the Senate Advanced Communications Technologies and Use of State and Local  
2 Government Right of Way Policy Modernization Study Committee; and for other purposes.

3 WHEREAS, consumer demand in the State of Georgia, driven by innovation in  
4 communications networks and new technologies, is exploding; and

5 WHEREAS, the disruption of the marketplace for all services, including broadband, video,  
6 and voice technologies, will only fully benefit Georgia consumers if the policies of this state  
7 do not artificially create disparities among the technologies; and

8 WHEREAS, the variety of services available to Georgia consumers, offered by a wide  
9 variety of companies, has never been greater and long-held assumptions woven into state law  
10 concerning use of state and local rights of way are outdated and treat various technology  
11 types differently when the same end product is offered; and

12 WHEREAS, a truly modernized policy regime treats functionally equivalent services equally  
13 rather than creating winners and losers in the marketplace; and

14 WHEREAS, it is important to ensure that companies that have already invested in the State  
15 of Georgia and that already serve Georgians, as well as new entrants with new products and  
16 services, are afforded the same accommodations and obligations into the future in their use  
17 of the right of way; and

18 WHEREAS, to accomplish these goals, the State of Georgia should pursue a comprehensive  
19 examination of its laws, regulations, and policies to determine what changes are necessary  
20 to achieve modernization, fairness, and technology neutrality regarding access to the rights  
21 of way and the taxation of services.
