SECTION 2.

Chapter 2A of Title 20 of the Official Code of Georgia Annotated, relating to student scholarship organizations, is amended by restating the introductory language, revising paragraphs (1) and (5), and adding a new paragraph in Code Section 20-2A-2, relating to requirements for student scholarship organizations, as follows:

"Each student scholarship organization:

(1) With respect to the first \$1.5 million of its annual revenue received from donations for scholarships or tuition grants, must obligate at least ~~90~~ 92 percent of such revenue for scholarships or tuition grants; with respect to its annual revenue received from donations for scholarships or tuition grants in excess of \$1.5 million and up to and including \$10 million, must obligate at least ~~93~~ 94 percent of such revenue for scholarships and tuition grants; with respect to its annual revenue received from donations for scholarships or tuition grants in excess of \$10 million and up to and including \$20 million, must obligate at least ~~94~~ 95 percent of such revenue for scholarships and tuition grants; and, with respect to its annual revenue received from donations for scholarships or tuition grants in excess of \$20 million, must obligate at least ~~95~~ 96 percent of such revenue for scholarships and tuition grants. On or before the end of the calendar year following the calendar year in which a student scholarship organization receives revenues from donations and obligates them for the awarding of scholarships or tuition grants, the student scholarship organization shall designate the obligated revenues for specific student recipients. Once the student scholarship organization designates obligated revenues for specific student recipients, in the case of multiyear scholarships or tuition grants, the student scholarship organization may distribute the entire obligated and designated revenues to a qualified school or program to be held in accordance with Department of Revenue rules for distribution to the specified recipients during the years in which the recipients are projected in writing by the private school to be enrolled at the qualified school or program. In making a multiyear distribution to a qualified school or program, the student scholarship organization shall require that if the designated student becomes ineligible or for any other reason the qualified school or program elects not to continue disbursement of the multiyear scholarship or tuition grant to the designated student for all the projected years, then the qualified school or program shall immediately return the remaining funds to the student scholarship organization. Once the student scholarship organization designates obligated revenues for specific student recipients, in the case of multiyear scholarships or tuition grants for which the student scholarship organization distributes the obligated and designated revenues to a qualified school or program annually rather than the entire amount, if the designated student becomes ineligible or for any other reason the student scholarship organization elects not to

98 continue disbursement for all years, then the student scholarship organization shall
 99 designate any remaining previously obligated revenues for a new specific student
 100 recipient on or before the end of the following calendar year. The maximum scholarship
 101 amount given by the student scholarship organization in any given year shall not exceed
 102 the average state and local expenditures per student in fall enrollment in public
 103 elementary and secondary education for this state. The Department of Education shall
 104 determine and publish such amount annually, no later than January 1;"

105 "(5) Must conduct an audit of its accounts by an independent certified public accountant
 106 within 120 days after the completion of the student scholarship organization's fiscal year
 107 verifying that it has complied with all requirements of this Code section, including, but
 108 not limited to, financial requirements. Each student scholarship organization shall
 109 provide a copy of such audit to the Department of Revenue in accordance with Code
 110 Section 20-2A-3. Notwithstanding Code Sections 20-2A-7, 48-2-15, 48-7-60, and
 111 48-7-61, if the copy of the audit submitted fails to verify that the student scholarship
 112 organization obligated its annual revenue received from donations for scholarships or
 113 tuition grants as required under paragraph (1) of this Code section; that obligated
 114 revenues were designated for specific student recipients within the time frame required
 115 by paragraph (1) of this Code section; and that all obligated and designated revenue
 116 distributed to a qualified school or program for the funding of multiyear scholarships or
 117 tuition grants complied with all applicable Department of Revenue rules, then the
 118 Department of Revenue shall post on its website the details of such failure to verify.
 119 Until any such noncompliant student scholarship organization submits an amended audit,
 120 which, to the satisfaction of the Department of Revenue, contains the verifications
 121 required under this Code section, the Department of Revenue shall not preapprove any
 122 contributions to the noncompliant student scholarship organization; and

123 (5.1) In addition to the audit required by paragraph (5) of this Code section, in 2023, the
 124 state auditor shall issue an economic analysis report on the performance of this tax credit
 125 to the chairpersons of the House Committee on Ways and Means and the Senate Finance
 126 Committee. An economic analysis shall include, but not be limited to, a good faith
 127 estimate, on both a direct and indirect basis, as to the:

128 (A) Net change in state revenue;

129 (B) Net change in state expenditures, which shall include, but not be limited to, costs
 130 of administering the tax credit;

131 (C) Net change in economic activity; and

132 (D) Net change in public benefit; and"
