FOREWORD

We are pleased to present to you the Summary of General Statutes Enacted at the 2017 Session of the General Assembly of Georgia. This represents one of the services which the Legislative Services Committee and the Office of Legislative Counsel perform for the legislative branch of government. Other services include bill drafting, research, statutory and Code revision, rendering of opinions, counseling, legislative reference, interim committee staffing, and preparation of reports.

This document contains a summary of the general statutes of state-wide application which were enacted at the 2017 regular session of the General Assembly of Georgia. No resolutions, local Acts, or uncodified "population Acts" have been included. The document also includes a table of Code sections amended and enacted at the 2017 session.

Minutely analyzing each statute would be impractical, because doing so would defeat the main purpose which we hope that this document accomplishes. It is intended to be used as a convenient reference for persons desiring to know which laws were enacted or to ascertain the main features of each Act without the necessity of reading the Act in its entirety.

For specific, detailed information on any particular law, the Act itself should be examined. Acts may be readily located in the Georgia Laws by Act number, since the Acts are published in the Georgia Laws in numerical order by Act number. In addition, the Georgia Laws contain a table for converting Act numbers to Georgia Laws page numbers.

This summary is not to be deemed in any manner as an opinion from the Office of Legislative Counsel, and the question of constitutionality has not been considered with respect to any Act.

We hope that this document will benefit all who have occasion to use it. Comments and suggestions for improvement are welcomed and should be directed to the Office of Legislative Counsel.
