

ADOPTED

Senators Martin of the 9th and Williams of the 39th offered the following amendment:

Amend the committee substitute to SB 386 (LC 49 0205S) by:

inserting after line 179

(4) the department shall collect and report information on the scholarship student retention rate for each participating private school and for the program, in total and disaggregated by race and gender; the average number of years students receive a scholarship; the percent of scholarship students who return to public schools annually and at what grade levels, and the assessments used by private schools to measure student academic progress.
