HB 51 Georgia Environmental Finance Authority; finance and perform certain duties for projects relating to natural gas facilities; authorize

Bill Summary: HB 51 authorizes the Georgia Environmental Finance Authority to finance and manage projects related to natural gas facilities, including outside any certified areas of a nonmunicipal gas company. This includes the storage, supply, and distribution of natural gas, pipelines, storage tanks, natural gas distribution systems, associated equipment, vehicles, properties, furnishings, and devices.

The bill also empowers the Georgia Environmental Finance Authority to create and enforce rules and regulations to fulfill its responsibilities. Additionally, it adds "natural gas systems" to the personal liability of the authority's members, officers, and employees.

HB 85 Superior Court Judicial Compensation Reform Act; enact

Bill Summary: HB 85 revises superior court judicial compensation to have the annual salary of each superior court judge set by the General Assembly, with that salary not exceeding 90 percent of the annual salary fixed for judges of the U.S. District Court for the Northern District of Georgia. The new structure also caps the locality pay for each superior court judge at no more than 10 percent of the state annual salary. In the event the annual salary exceeds \$201,060, the maximum locality pay will be capped at 10 percent and further reduced by a fixed percentage if the annual salary exceeds that dollar amount. The bill does not alter retirement benefits that were previously in existence.

Superior court judges in office on July 1, 2025 will opt into this compensation structure by filing written notification with the Council of Superior Court Judges of Georgia and the governing authority of each county comprising the judge's judicial circuit. A superior court judge who does not exercise this option maintains the existing compensation structure for that judge.

All local laws, ordinances, and resolutions in effect that tie a state, county, or local salary to that of any superior court judge's salary will be suspended until July 1, 2026, with that state, county, or local salary remaining the same during that period of suspension. That salary will remain unchanged until the suspension is terminated, local legislation sets the compensation, or local ordinance becomes effective.

HB 147 Georgia Technology Authority; annual inventory of artificial intelligence usage by state agencies; provide

Bill Summary: HB 147 defines the term "artificial intelligence" and revises the responsibilities of the Georgia Technology Authority. It requires the authority to conduct an inventory of all systems that utilize artificial intelligence and are in use by any agency. Inventory must include information such as the system's name, vendor details, general capabilities, independence in decision making, and whether impact assessments were conducted before implementation.

The authority is mandated to develop and establish procedures that govern the development, implementation, and assessment of artificial intelligence systems used by agencies to prevent unlawful discrimination against individuals or groups.

The authority is required to prepare an annual report regarding the inventory of artificial intelligence systems in use by agencies and to make this report available to the state offices specified in the bill.
