GOVERNOR BRIAN P. KEMP
2024 SESSION OF THE GEORGIA GENERAL ASSEMBLY
VETO MESSAGES

VETO 1

House Bill 228 would expand Georgia Tuition Equalization Grant Program, HOPE Scholarship, and Dual Enrollment Program eligibility for certain private for-profit institutions. Despite each of these programs having finite resources, the General Assembly proposed many *ad hoc* pieces of legislation to expand institution eligibility without additional funding or fiscal analysis addressing the impact of such expansion on current appropriations. While I recognize the utility of tuition equalization grants for particular educational needs, the diversion of taxpayer funds to private institutions should only be sought on a measured and consistent basis.

For the foregoing reasons, **I VETO HOUSE BILL 228.**

VETO 2

House Bill 441 would create a statutory framework to regulate the practice of teledentistry in Georgia. The bill would also mandate that health insurers, including Georgia's State Health Benefit Plan and Medicaid care management organizations, provide coverage for teledentistry by January 1, 2024. Notwithstanding the date error, which mandates coverage for teledentistry before the bill would even take effect, the fiscal impact of this mandate was not analyzed or funded by the General Assembly. Adding teledentistry coverage without a full understanding of the fiscal impact risks financial harm to the State and affected employees. While I support expanding benefits to our state employees and access to dental services, I cannot do so without a clear understanding of the financial implications.

I appreciate that the growing practice of teledentistry in Georgia promotes expanded access to dental care, particularly for rural Georgians who may not have access to a local dentist. House Bill 441, however, may also inadvertently remove access to teledentistry services that are currently available, such as providing emergency advice to a patient. My hope is that we can continue to expand access to safe and affordable dental care through teledentistry, rather than limit its proven utility due to unintended legislative consequences. I look forward to working with the General Assembly next year to revisit this issue.
For the foregoing reasons, **I VETO HOUSE BILL 441**.

VETO 3

House Bill 866 would create the Pike County Public Facilities Authority.

At the request of the sponsor, **I VETO HOUSE BILL 866.**

VETO 4

House Bill 956 would allow the Superior Court judges of the Conasauga Judicial Circuit to vote annually to select their chief judge for a one-year term.

At the request of the sponsor, **I VETO HOUSE BILL 956.**

VETO 5

House Bill 1019, as originally introduced, would have raised the state-wide homestead tax exemption from $2,000 to $4,000 upon voter approval through a referendum. After the Senate Finance Committee changed the exemption amount, the Senate adopted a floor amendment late on the final day of the legislative session to return the bill to its original form. This amendment, however, did not change the language of the constitutionally required voter referendum, which references a $10,000 exemption. Voters would therefore be approving a different exemption which the legislature did not pass, while the statutory language would never receive the voter approval needed for it to take effect. This conflict between the statutory language and the referendum language precludes implementation of House Bill 1019.

For the foregoing reasons, **I VETO HOUSE BILL 1019.**

VETO 6

House Bill 1123 would establish an Adult Abuse, Neglect, and Exploitation Multidisciplinary ("AANEM") Coordinator Program within the Prosecuting Attorneys' Council ("PAC") to provide a network of regional coordinators. Upon such program being funded by the General Assembly, the district attorney of each judicial circuit would be required to establish an AANEM Team, which would be overseen and managed by one of multiple regional coordinators employed by PAC. This bill would also create an elder justice coalition for various purposes related to elder abuse response and prevention, including creating a law enforcement training for responding to instances of disabled adult and elder abuse to be implemented by the Georgia Public Safety and Training Center ("GPSTC"). The coalition would be operated by a PAC-employed state-wide coordinator.

Fiscal estimates show that the proposals in this bill would require annual funding of at least $1,658,025 to PAC and $520,354 to GPSTC. Despite these substantial costs, the General Assembly failed to fund both the AANEM Program and the elder justice coalition.

For the foregoing reasons, **I VETO HOUSE BILL 1123**.

VETO 7

House Bill 1192 would implement a two-year pause on the issuance of sales and use tax exemption certificates to high-technology data centers and data center customers. Only two years ago the legislature extended these tax exemptions for an additional three years, through 2031. The bill's language would prevent the issuance of exemption certificates

after an abrupt July 1, 2024 deadline for many customers of projects that are already in development—undermining the investments made by high-technology data center operators, customers, and other stakeholders in reliance on the recent extension, and inhibiting important infrastructure and job development.
For the foregoing reasons, **I VETO HOUSE BILL 1192**.

VETO 8

House Bill 1231 would expand Georgia Tuition Equalization Grant ("TEG") Program, HOPE Scholarship, and Dual Enrollment Program eligibility for certain private, nonprofit institutions, allow HOPE Scholarship recipients to utilize unused credit hours to pursue a first professional degree, and remove the initial and first-year achievement standards of the HOPE Scholarship for former foster youths. None of these three proposals were accompanied by additional funding or fiscal analysis.

As addressed in my veto statement for House Bill 228, expansion of TEG, HOPE Scholarship, and Dual Enrollment eligibility should only be sought on a measured and consistent basis with a full understanding of the expansion's financial impact on such programs.

Further, the Georgia Student Finance Commission estimates that there are approximately 108,000 unused HOPE credit hours and, if fully utilized by their recipients to pursue professional degrees, House Bill 1231 could impose a cost in excess of $25,000,000 on HOPE funding.

I was proud to restore the promise made long ago to Georgia's students by fully funding the HOPE Scholarship in 2023. To maintain that promise, and the financial support upon which it stands, we must only consider expansion with a full understanding of the effect it will have on available funds.

For the foregoing reasons, **I VETO HOUSE BILL 1231.**

VETO 9

House Bill 1479 would allow the Probate Court of Ware County to impose a technology fee of up to $5.00 on civil action filing fees and outstanding fines.

At the request of the sponsor, **I VETO HOUSE BILL 1479.**

VETO 10

Senate Bill 198 would require the Department of Community Health's State Health Benefit Plan ("SHBP") pharmacy benefits manager(s) ("PBMs") to reimburse independent pharmacies filling plan member prescriptions in an amount not less than the average reimbursement provided to chain retail pharmacies for the same drug. The bill would also require compliance certification, records production, and cooperation from PBM(s). While

I support independent pharmacies and the need for PBM transparency, fiscal estimates show the proposals in this bill would cost the Department between $11,000,000 and $45,000,000 per plan year and the General Assembly failed to fund this initiative.

Despite the lack of funding for this bill, the State's Fiscal Year 2025 Budget, House Bill 916, directs the Department to use existing funds for an actuarial study on SHBP independent pharmacy prescription drug reimbursements and PBM outpatient pharmacy benefit practices. House Bill 916 also provides SHBP one-time funding for a $3.00 per prescription dispensing fee for independent pharmacists and provides funds to increase the dispensing fee to $11.50 for independent low-volume pharmacies filling Medicaid prescriptions. These budget items provide an appropriate, fiscally sound approach to supporting independent pharmacists this year while obtaining necessary information to aid the Department in evaluating current and future management of the State's pharmacy plan and the General Assembly in examining PBM practices in future legislative sessions.

For the foregoing reasons, **I VETO SENATE BILL 198**.

VETO 11

Senate Bill 203 would require the Technical College System of Georgia to offer tuition-free commercial driver's license ("CDL") training programs to veterans, subject to appropriations by the General Assembly. This proposal was previously included in House Bill 249, which I vetoed on the grounds that the General Assembly failed to fund the initiative. The General Assembly also failed to fund Senate Bill 203 this year. I remain in steadfast support of our veterans and would encourage those wishing to pursue CDL training to seek out currently funded resources to cover tuition costs such as the Hope Career Grant.

For the foregoing reasons, **I VETO SENATE BILL 203.**

VETO 12

Senate Bill 368 would prohibit foreign nationals from making political contributions, which is already prohibited by federal law, and impose additional state-level registration requirements on agents of foreign principals, some of which were unintended by the bill's sponsor.

At the request of the sponsor, **I VETO SENATE BILL 368.**

HB 916 – FY 2025 APPROPRIATIONS BILL

INTENT LANGUAGE CONSIDERED NON-BINDING

Section 8, pertaining to the Prosecuting Attorneys, page 11, line 327:
The General Assembly seeks to appropriate $237,228 in state general funds to the Prosecuting Attorneys for the District Attorneys program to fund three assistant district attorneys for new judgeships in Douglas, Houston, and Tifton Judicial Circuits. Of these funds, $79,076 was added for SB 347 to provide for an additional judge in the Douglas Judicial Circuit. As SB 347 was not passed by the General Assembly during the 2024 Session, these funds are not needed in FY 2025, Therefore, the agency is instructed to disregard the language in Line 327 regarding the additional judgeship in the Douglas Judicial Circuit.

Section 8, pertaining to the Prosecuting Attorneys, page 11, line 328:
The General Assembly seeks to instruct the State Commission on Compensation to convene, research and provide recommendations on salary plans for the job titles of assistant district attorneys and assistant public defenders and report final recommendations by August 1, 2024, to include for consideration in the FY 2026 budget. The State Commission on Compensation is authorized under O.C.G.A. 45-7-90 to assist the General Assembly in setting the compensation of officers and other state positions whose compensation is set by Constitution, by law, or by Act of the General Assembly. As the salaries of assistant district attorneys and assistant public defenders are not set by state law, review of their salary plans is outside the scope provided for in O.C.G.A. 457-90, and therefore, associated recommendations from the Commission for these positions shall be considered unofficial recommendations.

Section 9, pertaining to Superior Courts, page 13, line 395:
The General Assembly seeks to appropriate $218,555 in state general funds to the Superior Courts for the Superior Court Judges program to fund one additional judgeship for the Douglas Judicial Circuit pursuant to SB 347. As SB 347 was not passed by the General Assembly during the 2024 Session, these funds are not needed in FY 2025. Therefore, the agency is instructed to disregard the language in Line 395 regarding the Douglas Judicial Circuit judgeship.

Section 17, pertaining to the Department of Community Health, page 38, line 1184:
The General Assembly seeks to appropriate $6,200,000 in state general funds to the Department of Community Health for the State Health Benefit Plan program to provide one-time funding for a $3 per prescription dispensing fee for independent pharmacists to be administered by a pharmacy benefits manager that has been in business for at least 10 years, agrees to act as a fiduciary for the State of Georgia, has experience administering pharmacy benefits for the State of Georgia or a Georgia municipality or county, and has no ownership directly or through a subsidiary or affiliate company in an insurer licensed under Title 33 or a retail, mail order, or specialty pharmacy licensed or holding a nonresident pharmacy permit under Title 26. The procurement process necessary to identify a provider able to meet the above requirements could result in a lengthy delay in administering the underlying $3 per prescription dispensing fee increase for independent pharmacists. Therefore, the agency is authorized to utilize existing resources to implement the interim dispensing fee increase for independent pharmacists.

Section 24, pertaining to the Department of Education, page 56, line 1799:
The General Assembly seeks to appropriate $6,111,300 in state general funds to the Department of Education in the Curriculum Development — Special Project program for Regional Education Service Agencies (RESAs) for regional literacy coaches, with at least one at each RESA ($4,000,000); supplements for 950 school literacy leads upon the completion of an accredited training model ($1,022,675); and training for local coaches, teachers, and supplemental training for ESOL teachers, prioritizing training to schools identified by the RESA as needing additional literacy intervention ($1,088,625). In administering the Special Project, the Department shall also ensure that RESAs literacy initiatives funded through this program are aligned with the recommendations of the Georgia Literacy Council to maintain consistency statewide in addressing student literacy needs.

Section 24, pertaining to the Department of Education, page 61, line 1955:
The General Assembly seeks to appropriate $108,905,000 in state general funds to the Department of Education in the School Security Grants program to establish school security grants for safety infrastructure and POST certified personnel. In order to ensure that school systems have flexibility to meet the needs of both their system and individual schools, the Department shall implement the grant program to provide flexibility for local education agencies to utilize funds for school security needs including, but not limited to, safety infrastructure and POST certified personnel as well as training, equipment, planning, or other school safety needs as identified by the local education agency.

Section 25, pertaining to the Employees' Retirement System, page 64, line 2045:
The General Assembly seeks to appropriate $6,000 in state general funds to the Employees' Retirement System of Georgia for the System Administration (ERS) program to implement HB 472. As HB 472 was not passed by the General Assembly during the 2024 Session,

these funds are not needed for FY 2025. Therefore, the agency is instructed to disregard the language in Line 2045 and withhold spending the associated appropriation.

Section 37, pertaining to the Georgia Public Defender Council, page 95, line 3089:
The General Assembly seeks to appropriate $211,169 in state general funds to the Georgia Public Defender Council for the Public Defenders program to fund three assistant public defender positions for new judgeships in Douglas, Houston, and Tifton Judicial Circuits. $61,188 was specifically added for SB 347 to provide for an additional judge in the Douglas Judicial Circuit. As SB 347 was not passed by the General Assembly during the 2024 Session, these funds are not needed in FY 2025. Therefore, the agency is instructed to disregard the language in Line 3089 regarding the Douglas Judicial Circuit judgeship.

Section 37, pertaining to the Georgia Public Defender Council, page 95, line 3091:
The General Assembly seeks to appropriate $431,795 in state general funds to the Georgia Public Defender Council for the Public Defenders program for seven attorney positions at the Atlanta Judicial Circuit. The funding as appropriated would not support seven additional positions on an annualized basis. Therefore, the agency is instructed to disregard the language in line 3091 specifying seven additional positions and instead shall hire only positions for which a full twelve months of expense is provided for in this appropriation.

Section 37, pertaining to the Georgia Public Defender Council, page 95, line 3095:
The General Assembly seeks to instruct the State Commission on Compensation to convene, research and provide recommendations on salary plans for the job titles of assistant district attorneys and assistant public defenders and report final recommendations by August 1, 2024, to include for consideration in the FY 2026 budget. The State Commission on Compensation is authorized under O. C.G.A. 45-7-90 to assist the General Assembly in setting the compensation of officers and other state positions whose compensation is set by Constitution, by law, or by Act of the General Assembly. As the salaries of assistant district attorneys and assistant public defenders are not set by state law, review of their salary plans is outside the scope provided for in O.C.G,A. 457-90, and therefore, associated recommendations from the Commission for these positions shall be considered unofficial recommendations.

Section 44, pertaining to the Georgia Student Finance Commission, page 123, line 4048:
The General Assembly seeks to appropriate $1,644,170 in state general funds to the Georgia Student Finance Commission for the Inclusive Postsecondary Education (IPSE) Grant program to meet projected needs. The IPSE Grant program is administered by the Georgia Student Finance Authority, In accordance with the powers and duties granted to the Authority pursuant to O.C.G.A. 20-3-316 and 20-3-494, the Authority shall promulgate rules and regulations pursuant to implementing the grant program, including but not limited to establishing maximum rates, eligible expenses, or per pupil maximum awards,

to ensure consistency and program access for the greatest possible number of qualifying participants.

Section 50, pertaining to the Georgia State Financing and Investment Commission, page 141, line 4603:
The General Assembly seeks to appropriate $8,750,000 in state general funds to the Georgia State Financing and Investment Commission for the Capital Projects Fund program to construct the Treatment Mall at East Central Regional Hospital, Augusta, Richmond County ($8,000,000) and renovate the Boland Building, Milledgeville, Baldwin County ($750,000) for hurricane evacuations for the Department of Behavioral Health and Developmental Disabilities (DBHDD). GSFIC's construction division has performed a comprehensive review of DBHDD's facilities statewide to develop a prioritized list of urgent and significant facility needs, The projects in this line item were not identified as prioritized needs in the GSFIC assessment. Therefore, the agency is instructed to disregard the language included in Line 4603 and instead work with GSFIC to incorporate these projects into the existing prioritized list based on statewide facility needs,

The Speaker announced the House in recess.

The Speaker called the House to order.

The hour of convening the Joint Session pursuant to HR 4 having arrived, the Senate appeared upon the floor of the House, and the Joint Session, convened for the purpose of hearing an address from the Governor, was called to order by the President of the Senate, Lieutenant Governor Burt Jones.

The Resolution calling for the Joint Session was read.

Accompanied by the Committee of Escort and other distinguished guests, His Excellency, Governor Brian P. Kemp, appeared upon the floor of the House and delivered the following address:

Lt. Governor Jones, Speaker Burns, President Pro Tem Kennedy, Speaker Pro Tem Jones, members of the General Assembly, my fellow Constitutional Officers, members of the Public Service Commission, Mayor Dickens, members of the judiciary, members of the consular corps, and my fellow Georgians:

As we begin a new year with some new colleagues under this Gold Dome, and as we reflect on the past successes and challenges of prior years. I am reminded again and again that no matter what, Georgians outlast the tough times and achieve new heights of success.

In just the six years since I've taken office, we have faced the trials of Covid-19; a major recession as a result of that unprecedented pandemic, the effects of 11 hurricanes; some of them causing historic, generational damage; over 200 tornadoes that caused direct injuries; a summer of unrest and various threats to public safety, some of them ongoing; and other challenges that required - and received - the very best of our people.

And through it all, time and time again, Georgians have risen to the occasion. As the saying goes, tough times don't last, tough people do.

And if there is anything that I've learned in the six years I've been honored to serve as your governor, it's that hardworking Georgians are not only tough, they're also generous, proud, and love our great state.

Because that's who we are.

And that's why the state of our state is not only strong, it is resilient!

Marty and I have been especially reminded of that following the devastating impacts of Hurricane Helene. With historic rainfall and mudslides in North Georgia, record flooding in Atlanta of over 11 inches in just two days, and a massive amount of damage across much of the Southeastern United States, hundreds of thousands of Georgians across the state were victims of that storm's fury in some way.

Georgia Power reported it was one of the worst storms they've ever seen, with over 11,800 power poles broken, over 5,800 transformers damaged, and over 20,000 people who worked around the clock to restore the power.

In total, 230 people across the country lost their lives, 34 of them right here in Georgia, including 4 children. Marty and I toured 16 of the hardest-hit counties in Helene's wake, and in every community, we saw utter devastation. But in the face of grief and unbearable loss, we also saw everyday heroes.

We saw neighbors helping neighbors, lending a hand or a chainsaw, even when their own homes and farms were in need of attention. We saw brand new church outreach programs feeding whole towns, and we saw first responders who put the lives of others above their own.

Will you please join me in applauding their bravery?

Courageous men and women like them had to cut people out of their homes and, sadly, had to recover the bodies of those killed by this storm. The heartbreaking loss of these lives is made even worse by the loss of livelihoods, especially for our farmers and timber growers who have endured over 5.5 billion dollars' worth of damage.

Our farmers needed relief, quickly and efficiently. That's why we repurposed 100 million dollars to the Georgia Development Authority last November to provide direct financial support for farmers and timber producers. It's also why – along with our congressional delegation, Lt. Governor Jones, Speaker Burns, Commissioner Harper,

and many others – I urged the U.S. congress and Biden administration to fast-track block grants to our state.

I want to extend my deepest gratitude to every member of Georgia's congressional delegation - both Republicans and Democrats - who voted to support that legislation, and I want to thank both President Biden and President-elect Trump for their support of the disaster relief package as well. Our people will receive the aid they desperately need and deserve - and for that, I am thankful.

But rest assured, the elected leaders under this Gold Dome will stand with them for as long as necessary to make sure Georgians recover and come back stronger than before!

And just as communities across our state need relief after Hurricane Helene, all Georgians need permanent relief from the historic storm of inflation. The past three years have drained family bank accounts, sapped the strength of our small businesses, and left too many Georgians struggling to make ends meet. From groceries and rent, to building supplies and everyday goods and services, the price of nearly everything Georgians purchase or consume has gone up - often faster than their take home pay. This happened because the federal government decided to spend your money like it was somebody else's, like a credit card with no limit that someone else would have to pay back, instead of reining in spending, cutting taxes, or even coming close to balancing a budget.

But in Georgia, we don't conduct the people's business with trillion-dollar deficits or endless continuing resolutions. Just because we take in more money, doesn't mean we need to create new big government programs to fund for eternity.

Instead, we budget conservatively, fund our priorities, keep government efficient, cut taxes, and then return your money back to you. Between multiple tax rebates, multiple suspensions of the state gas tax over the past two years, the homeowner tax relief grant you passed last year, and the largest state income tax cut in history that the members seated here helped us accelerate, we've committed to saving Georgia taxpayers over 7.6 billion dollars!

And because of our conservative approach to budgeting and this body's support in holding the line on state spending, along with the incredible economy we've bolstered, we're able to double down on that relief. The prior acceleration you passed last session brought down the Georgia income tax rate to 5.39 percent, down a full 36 basis points from where we started in 2022. Today, I'm proposing a further cut of 20 basis points, bringing us down to just 5.19 percent - saving Georgians another 7.5 billion dollars over the next 10 years!

Because, at the end of the day, that's your money - not the government's, and here in Georgia, we believe you should keep more of it!

Our conservative budgeting and balanced approach to taxes and spending are just some of the reasons we've been named the "top state for business" for 11 years in a row, which is absolutely unprecedented!

Like you, I'm proud of that distinction, because businesses – both large and small, and everything in between – are the lifeblood of our economy.

When your community can attract an automotive supplier that creates 30 new jobs, or help an existing tissue and paper manufacturer expand its operations by over 100 jobs, those are real lives and real families that are impacted. Those are hardworking Georgians who now have a chance to start a career, provide for their loved ones, and build a better future.

Georgia's success in attracting good-paying jobs and investment is widely known. Since I took office, together, we have attracted over 193,000 new, private sector jobs and over 90 billion dollars in investment! The majority of those jobs and investments are going to rural areas, and those numbers just cover projects where the state was involved, they don't include all the organic growth underway throughout the state.

Over the last twenty years, we have fought through economic headwinds, and a pandemic, while still remaining one of the best states for business and economic opportunity. Georgia prevailed because when a state welcomes job growth, innovation, and prosperity, everyone prospers – no matter their zip code. We're #1 for business because we listened to – and worked with – new and existing job creators. We didn't hand out government mandates or let partisan politics dictate state policy.

We let our people and our job creators lead the way. We trusted hardworking Georgians to use their God-given abilities to create and innovate - and our state is better off for it.

But Georgia's economic success is a lot like football. To quote Kirby Smart, "humility is only a week away," and there are storm clouds on the horizon.

As we look ahead, I believe one of the biggest threats to Georgia's future, is our state's legal environment.

Last year, my office worked with the General Assembly and Insurance Commissioner John King's office to pass House Bill 1114. This legislation allowed Commissioner King to gather data and information on Georgia's insurance industry, identify reforms that could be made to stabilize insurance costs, expand choices for consumers when

they need coverage, and prevent more insurance carriers from leaving Georgia altogether.

Additionally, over the last few months, my office hosted three roundtables throughout the state, listening to small businesses across a wide range of industries, healthcare providers from Albany to Toccoa, and some of our state's largest employers. Even though each person at those roundtables came from a different part of our state, represented a different industry or business, told a unique story or had a different perspective, the call for action was unanimous. It's abundantly clear that the status quo isn't working and a failure to act on meaningful tort reform will continue to put Georgians and their livelihoods in serious jeopardy.

For some that I met, the cost of insurance is threatening their ability to operate. Small business owners reported insurance premiums up anywhere from 30 percent to over 100 percent over the last few years, costing them hundreds of thousands or millions more just to get basic coverage. For too many of them, that meant holding back on hiring more employees, waiting to grow their business, or making difficult decisions about whether or not they could even keep the lights on. For others, the biggest problem was a complete lack of insurance options or the threat of paying thousands - or millions - to fend off excessive lawsuits.

And at the end of the day, the increased cost of doing business is simply passed on to the consumer, hardworking Georgians who are already struggling to make ends meet. As a small business owner for over 35 years, I know that if you can't get insurance, you can't run a business, and you can't pay your employees. And nobody can afford to spend years – and millions – in the courtroom battling to keep the doors open in their small business.

It's unsustainable, and widespread.

At our first roundtable, we spoke to leaders of a childcare company with multiple locations in metro Atlanta. They have experienced a 100 percent increase in insurance costs since just 2018. We heard from a South Georgia grocer, who lost coverage completely after frivolous lawsuits were filed. One business owner's statement stuck out to me. He said, "At this point, I don't feel like I'm able to run my business. I'm just trying not to lose it."

That sentiment carried into our second roundtable with healthcare providers in Macon, where we heard firsthand the challenges our legal environment poses to critical services, our healthcare workforce, and the ability for hospitals and clinics to operate. One hospital system that serves much of rural Georgia had liability premiums go up 115 percent in just one year. Another hospital, in northeast Georgia, actually had their premiums decrease 13 percent from 2022 to 2024, but only because the facility

closed their labor and delivery unit in 2021. This was due to workforce challenges and soaring liability insurance costs.

We were told story after story of hospitals struggling to recruit and retain doctors - especially O-B-G-Y-Ns and other specialty disciplines because other states offer stronger protections for healthcare providers, lower insurance rates, and a more level playing field in their courtrooms. And we heard from multiple doctors who wondered how much longer they would practice, for fear of being targeted by baseless or excessive lawsuits.

These stories highlight a legal environment that leads to fewer options for Georgians seeking care, higher costs, and ultimately worse health outcomes for our people.

And at the third roundtable, some of Georgia's favorite brands - and biggest job creators - shared the challenges confronting their businesses and employees. The roundtable was hosted by Waffle House, and I think everyone here will agree that no matter your politics, there's nothing more Georgian than ordering hashbrowns smothered and covered at one of their 440 locations across our state.

Whether it's an emergency family trip on Thanksgiving because the turkey ended up burnt, a midnight meal during an all-night study session in college, or the celebration of a big win by your son or daughter's rec team, Waffle House - and great Georgia Grown brands like them - create unforgettable memories for all of us. They also create opportunity and a great career for their employees - over 10,000 of them in Georgia alone. Waffle House is open on July 4th, Thanksgiving, Christmas, New Years, Easter and everything in between, in case one of us needs a cup of coffee, an All Star Special, or a friendly smile.

In fact, they're only closed when disaster strikes, or, unfortunately when they can't afford to remain open because of a legal environment that forces them to limit hours, hold back on hiring, or change their business model. Georgia accounts for roughly 22 percent of all Waffle House locations in the country, but almost 37 percent of their litigation costs. Their liability insurance premiums have gone up 235 percent since 2018, and their average cost for a negligent security lawsuit in Georgia is 5 times higher than in Florida, 9 times higher than Texas, 21 times higher than South Carolina, and 27 times the average cost of similar lawsuits in Alabama.

When we talk about how to continue Georgia's success as the top state for business for the next 11 years, and how to keep our state's best and brightest days ahead, it starts here. Stories like Waffle House, stories like those small-town grocers and childcare facilities, the mom and pop restaurants that make our local communities special, the healthcare providers who are there for us when we need it the most; without them, our state is not the same, and Georgia will never realize its full potential.

The tort reform legislation my office will introduce in the coming days will be comprehensive - but fair. Because in Georgia, we believe those who do wrong should be held accountable. And if you have been wronged, you deserve justice!

I also believe the legislation we will be introducing can - and should - have bipartisan support. Making sure your neighborhood has a grocery store with fresh food available to a young single mom, or an elderly couple on a fixed income isn't a Republican or Democratic issue. Recruiting an OBGYN or a GI doctor to your hometown doesn't depend on what lever you pull in the voting booth. Stabilizing the cost of car insurance and ensuring families have access to affordable housing is not partisan - it's common sense. And giving working people and small business owners a chance at the American Dream is about who we are as a state - not what political party we support.

To my Democratic friends, there is no reason we can't tackle tort reform together. Passing anti-hate crimes legislation, repealing the citizens arrest statute, and supporting the victims of human trafficking, those are tough issues. But Republicans and Democrats accomplished them together because it was the right thing to do for all Georgians, not just the ones who voted for us. As a former legislator myself, I can promise you, that a vote to support the hardworking men and women of our state, a vote to put them first ahead of the status quo, that is never a bad vote.

But I know this issue is complicated and will not be easy to fix. There are many different stakeholders, with competing ideas about how to move forward. However, doing nothing is no longer an option.

We will do what is right by the people of our state. We will be fair to all involved in this important debate, and we will work together to pass legislation that strikes the right balance and puts hardworking Georgians first. But I also want to be very clear: there is always room for compromise, but there will be no room for excuses, half-measures, or failure.

Whether it's this legislative session, or a second one later this year, we will achieve meaningful, impactful tort reform.

Because if we take seriously our mission to keep Georgia the best place to live, work, and raise a family for the next generation, we have to get off the sidelines and get to work!

Keeping our state moving in the right direction also means proudly supporting our law enforcement and honoring those who bravely run into the face of danger to protect and defend us all.

Last year, when a deranged gunman attacked one of our schools, a place that should be safe for everyone, two on-site officers confronted and arrested him within two minutes, while numerous local and state law enforcement rushed to the scene, including Sheriff Jud Smith.

Those two School Resource Officers saved many lives at Apalachee High School on that horrific day and have more than earned our enduring gratitude. Sergeant Chase Boyd, Deputy Brandon King, and Sheriff Smith are here with us today. I would like to ask them to stand and let us thank them and their colleagues for their heroic efforts.

I also want to thank those members of the legislature who were here in 2019 and 2023, who supported two rounds of funding for direct campus security grants to every school in Georgia. And last year, with the support of Lt. Governor Jones, Speaker Burns, and the General Assembly, we made yearly funding to strengthen school safety a permanent part of our base budgets.

In total, we've allocated 294 million dollars for campus safety so far, and my budget proposal includes a further 159 million dollars for that purpose. And just as we're protecting Georgia's children in our classrooms, we're also going after those who target them outside of school, including gangs and human traffickers.

Thanks to the vital work by members of the GRACE Commission, law enforcement partners, including GBI's Human Exploitation and Trafficking Unit, and prosecutors on the state and local levels, all championed by the nation's best first lady, Marty Kemp, the state has now investigated over 330 human trafficking cases, convicted 49 human traffickers, and saved roughly 200 victims!

I want to thank Attorney General Chris Carr and the Human Trafficking Prosecution Unit – led by Hannah Palmquist – for all they have done to help make Georgia a safe place for victims and a hostile state for offenders! The Attorney General's Office has also investigated 140 gang related cases, secured 52 convictions, and charged more than 140 individuals. And that's just since that unit stood up less than two years ago! My budget includes just over 1.2 million dollars to expand the gang and human trafficking prosecution units in the Attorney General's Office to further this work,

Marty will spearhead passage of her tenth human trafficking bill that will reinforce the good work of the GRACE Commission. Their resilience in fighting this good fight is why Georgia is leading on this issue, and this latest measure will be yet another reminder that if you come after our children, we are coming after you!

Just as Marty has been instrumental in going after those who threaten our children and making Georgia a safe place for those seeking to rebuild their lives, she has also been a tireless champion for mental health services. For over a year now, as she has

promoted the 9-8-8 suicide and crisis hotline, she has carried this message forward: "It's ok, to not be ok." And as a result, more and more Georgians are finding the support they need to stay resilient in the face of difficulty.

Last year, you put more funding toward behavioral and mental health needs than ever before, over 1.6 billion dollars. I want to thank the First Lady, Commissioner Kevin Tanner, and the frontline caregivers who are helping Georgians process and overcome the challenges of mental distress.

Several of those caregivers have joined us today. They are true coaches of resiliency who help children and young adults deal with the unimaginable. Christina Lowe, Whitney Hardigre, Laura Ethridge, and Caron Hope were some of the first on the scene in the days following the tragedy at Apalachee High School. Their strength, knowledge, and skill have helped those who have witnessed evil to be able to move forward and continue on life's path, and for that, they have our deepest gratitude. Christina, Whitney, Laura and Caron, please stand and let us recognize and thank you for your service.

Mental health services like this are improving the quality of healthcare and access in our state, as is the newly launched State-Based Exchange, which is the latest milestone on the plan we laid out in the Patients First Act of 2019. These ongoing efforts are lowering the cost of premiums and increasing the number of those insured in Georgia.

In fact, since I took office, the combined work of Georgia Access and Georgia Pathways is covering over 1.5 million people across our state. And I'm going to keep repeating this until I'm blue in the face, even though many on the other side or in the media don't want to hear it: we're covering well over 200,000 more Georgians than traditional Medicaid expansion would cover. And those Georgians are on better plans, that deliver better coverage, and lead to better healthcare outcomes for them and their families.

In fact, since I took office, we've seen over 93 provider rate increases through traditional Medicaid, and costs to the state have grown by more than a 250 million dollars per year. So, when you hear someone say that fully expanding traditional Medicaid is "fiscally responsible," know that they are selling you a bill of goods – because the numbers simply don't match the rhetoric. In total, Georgia spends over 4.2 billion dollars for Medicaid in our state, and there are those who say the program only needs more money to succeed.

Well, I respectfully disagree!

With a new administration coming to Washington, I'm looking forward to furthering our innovative approach to healthcare access, which is making Georgia a leader in this

field. And as I announced yesterday alongside Lt. Governor Jones and Speaker Burns, we are making it even easier to sign up for the Georgia Pathways program that helps Georgians start a rewarding career, get their degree, attain real-world skills, and ultimately receive better healthcare coverage.

My high school football coach had a saying, "Winning is contagious."

He knew that when you have the momentum, when the entire team buys into the same mission, the same vision, and when they play for each other, good things happen. Much like winning in football, I believe Georgia's success can be contagious.

In spite of unprecedented challenges and many hard days, Georgia has enjoyed historic success. From jobs and investment, growth and opportunity, to freedom and prosperity, it is a great time to be a Georgian. We achieved more than many thought we would, we proved that big things can get done, we showed that the Georgia Way is indeed the better way.

So, let's keep playing hard for the people who sent us here. Let's keep putting hardworking Georgians and our state's success first. Let's avoid distractions and line up together to secure victory. I believe Georgia's success, its prosperity, and its promise of opportunity for all, are indeed contagious. And it's our job to keep it that way.

So, let's get to work!

May God Bless you all and May God continue to bless the great state of Georgia!

January 16, 2025

Dear Mr. Clerk,

I would like to request that I be marked as present on Tuesday, January 14th, 2025, the second day of the 2025 Legislative Session.

As I announced in the chamber on Monday, January 13th, Tuesday was the first of our two yearly blood drives at the Capitol.

At the time of rollcall, I was in the Life South Bloodmobile, parked on Mitchell Street between CLOB and the Capitol, donating blood. As soon as I was done in the Bloodmobile, I immediately went to the House chamber, but did not sign in on the clipboard.

I am requesting to be marked as present because I was physically at the Capitol and the reason that I was absent from roll call was documented in the chamber on Monday and on social media during and after the blood drive.

Thank you for your consideration. I am happy to answer any questions and address any concerns that you may have.

Sincerely,

/s/ Michelle Au

If for any reason any of the sums herein provided under any other provision of this Act are insufficient to make the required payments in full, then there shall be taken from other funds appropriated to the department, agency, or institution involved an amount sufficient to satisfy such deficiency in full, and the lease payment shall constitute a first charge on all such appropriations.

However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

At the nonpartisan judicial election to be held in 2028, there shall be elected a successor to such additional judge appointed as provided for in this section, and he or she shall take office on the first day of January, 2029, and serve for a term of office of four years and until a successor is duly elected and qualified. To the Honorable William Reilly, Clerk of the Georgia House of Representatives,

Please accept this letter as my request to have my vote changed from "NV" to "Yes" on HB 137 voted on February 12, 2025. I've been having some issues with the Green Button at my desk not responding when I press it (requiring multiple presses), and I didn't realize that it did not capture my press on this Bill until after the machines were locked.

Additionally, I immediately explained my plight to Mr. Scotty and he affirmed that someone would look at the green button, in particular, for me. He also suggested I write this letter requesting a change in my vote.

I will be more diligent to make sure my vote is cast from this point forward. I appreciate your favorable consideration.

My Best,

/s/ Angie O'Steen

HB 252. By Representatives Smith of the 70th and Bonner of the 73rd:

A BILL to be entitled an Act to provide a homestead exemption from City of Newnan ad valorem taxes for municipal purposes in an amount equal to the amount by which the current year assessed value of a homestead exceeds the base year assessed value of such homestead; to provide for definitions; to specify the terms and conditions of the exemption and the procedures relating

thereto; to provide for applicability; to provide for compliance with constitutional requirements; to provide for a referendum, effective dates, automatic repeal, mandatory execution of election, and judicial remedies regarding failure to comply; to provide for related matters; to repeal conflicting laws; and for other purposes.

The following Committee substitute was read and adopted:

A BILL TO BE ENTITLED
AN ACT

To provide a homestead exemption from City of Newnan ad valorem taxes for municipal purposes in an amount equal to the amount by which the current year assessed value of a homestead exceeds the base year assessed value of such homestead; to provide for definitions; to specify the terms and conditions of the exemption and the procedures relating thereto; to provide for applicability; to provide for compliance with constitutional requirements; to provide for a referendum, effective dates, automatic repeal, mandatory execution of election, and judicial remedies regarding failure to comply; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

(a) As used in this Act, the term:

(1) "Ad valorem taxes for municipal purposes" means all ad valorem taxes for municipal purposes levied by, for, or on behalf of the City of Newnan, except for any ad valorem taxes to pay interest on and to retire municipal bonded indebtedness.

(2) "Base year" means the taxable year immediately preceding the taxable year in which the exemption under subsection (b) of this section is first granted to the most recent owner of such homestead.

(3) "Homestead" means homestead as defined and qualified in Code Section 48-5-40 of the O.C.G.A., as amended, with the additional qualification that it shall include not more than five contiguous acres of homestead property.

(b) Each resident of the City of Newnan is granted an exemption on such person's homestead from City of Newnan ad valorem taxes for municipal purposes in an amount equal to the amount by which the current year assessed value of such homestead exceeds the base year assessed value of such homestead. This exemption shall not apply to taxes assessed on improvements to such homestead or additional land that is added to such homestead after January 1 of the base year. If any real property is removed from such homestead, the base year assessed value shall be adjusted to reflect such removal, and the exemption shall be recalculated accordingly. The value of that property in excess of such exempted amount shall remain subject to taxation.

(c) A person shall not receive the homestead exemption granted by subsection (b) of this section unless such person or person's agent files an application with the governing authority of the City of Newnan, or the designee thereof, providing such information relative to receiving such exemption as will enable the governing authority of the City of Newnan, or the designee thereof, to make a determination regarding the initial and continuing eligibility of such person for such exemption. The governing authority of the City of Newnan, or the designee thereof, shall provide application forms for this purpose.

(d) The exemption shall be claimed and returned as provided in Code Section 48-5-50.1 of the O.C.G.A., as amended. The exemption shall be automatically renewed from year to year so long as the person granted the homestead exemption under subsection (b) of this section occupies the residence as a homestead. After such person has filed the proper application as provided in subsection (c) of this section, it shall not be necessary to make application thereafter for any year, and such exemption shall continue to be allowed to such person. It shall be the duty of any such person granted the homestead exemption under subsection (b) of this section to notify the governing authority of the City of Newnan, or the designee thereof, in the event that such person for any reason becomes ineligible for such exemption.

(e)(1) The exemption granted by subsection (b) of this section shall not apply to or affect any state ad valorem taxes, county ad valorem taxes for county purposes, or county or independent school district ad valorem taxes for educational purposes.

(2) Except as otherwise provided in paragraph (3) of this subsection, the homestead exemption granted by subsection (b) of this Code section shall be in addition to and not in lieu of any other homestead exemption applicable to ad valorem taxes.

(3) The homestead exemption granted by subsection (b) of this section shall not be applied in addition to any other base year value homestead exemption provided by law with respect to the given taxing jurisdiction to which the such law applies. In any such event, the tax receiver or tax commissioner of the taxpayer's respective local government or governments charged with the duty of receiving returns of property taxation shall apply only the base year value homestead exemption that is larger or more beneficial for the taxpayer with respect to the particular taxing jurisdictions to which more than one base year value homestead exemption applies.

(f) The exemption granted by subsection (b) of this section shall apply to all taxable years beginning on or after January 1, 2026.

SECTION 2.

In accordance with the requirements of Article VII, Section II of the Constitution of the State of Georgia, this Act shall not become law unless it receives the requisite two-thirds' majority vote in both the Senate and the House of Representatives.

SECTION 3.

The municipal election superintendent of the City of Newnan shall call and conduct an election as provided in this section for the purpose of submitting this Act to the electors of the City of Newnan for approval or rejection. The municipal election superintendent shall

conduct that election on the Tuesday after the first Monday in November of 2025 and shall issue the call and conduct that election as provided by general law. The municipal election superintendent shall cause the date and purpose of the election to be published once a week for two weeks immediately preceding the date thereof in the official organ of Coweta County. The ballot shall have written or printed thereon the words:

"( ) YES Shall the Act be approved which provides a homestead exemption from City of Newnan ad valorem taxes for municipal purposes in an amount
( ) NO equal to the amount by which the current year assessed value of a homestead exceeds the base year assessed value of such homestead?"

All persons desiring to vote for approval of the Act shall vote "Yes," and all persons desiring to vote for rejection of the Act shall vote "No." If more than one-half of the votes cast on such question are for approval of the Act, Section 1 of this Act shall become of full force and effect on January 1, 2026. If the Act is not so approved or if the election is not conducted as provided in this section, Section 1 of this Act shall not become effective, and this Act shall be automatically repealed on the 365th calendar day following the election date provided for in this section. The expense of such election shall be borne by the City of Newnan. It shall be the municipal election superintendent's duty to certify the result thereof to the Secretary of State. The provisions of this section shall be mandatory upon the municipal election superintendent and are not intended as directory. If the municipal election superintendent fails or refuses to comply with this section, any elector of the City of Newnan may apply for a writ of mandamus to compel the municipal election superintendent to perform his or her duties under this section. If the court finds that the municipal election superintendent has not complied with this section, the court shall fashion appropriate relief requiring the municipal election superintendent to call and conduct such election on the date required by this section or on the next date authorized for special elections provided for in Code Section 21-2-540 of the O.C.G.A.

SECTION 4.

Except as otherwise provided in Section 3 of this Act, this Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

SECTION 5.

All laws and parts of laws in conflict with this Act are repealed.

A BILL TO BE ENTITLED
AN ACT

To amend Title 48 of the Official Code of Georgia Annotated, relating to revenue and taxation, so as to exclude from the calculation of taxable net income certain disaster relief or assistance grant program payments and crop insurance proceeds for agricultural losses suffered due to Hurricane Helene; to provide for refundable income tax credits for certain timber producers based on certain casualty losses related to Hurricane Helene; to provide for transferability of such credits; to provide for an aggregate annual cap; to provide for terms and conditions; to provide for credit preapproval; to provide for legislative findings; to provide for definitions; to provide for a sales and use tax exemption for a limited period of time for building materials used to repair or replace greenhouses and real property structures or fixtures used exclusively for the production of animals; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Title 48 of the Official Code of Georgia Annotated, relating to revenue and taxation, is amended in Chapter 7, relating to income taxes, by adding new paragraphs to subsection

(a) of Code Section 48-7-27, relating to computation of taxable net income, to read as follows:

"(11.3) For taxable years beginning on or after January 1, 2024, and ending on or before December 31, 2029, income received as payments from a federal disaster relief or assistance grant program administered by this state or its instrumentalities or the United States Department of Agriculture, if such federal grant program was established specifically to address agricultural losses suffered due to Hurricane Helene which was a weather event declared to be a major disaster in this state by the President of the United States during the 2024 calendar year, to the extent such income is included in federal adjusted gross income or federal taxable income;

(11.4) For taxable years beginning on or after January 1, 2024, and ending on or before December 31, 2029, federal crop insurance proceeds received for the destruction or damage to crops due to Hurricane Helene which was a weather event declared to be a major disaster in this state by the President of the United States during the 2024 calendar year, to the extent such proceeds are included in federal adjusted gross income or federal taxable income;"

SECTION 2.

Said title is further amended by adding a new Code section to read as follows:

"48-7-40.37.

(a)(1) The General Assembly finds and determines that Hurricane Helene has had a catastrophic impact on the citizens and the economy of Georgia, has particularly devastated the timber industry on which the citizens of Georgia are heavily dependent for their livelihood, and has created both a public fire hazard and a danger of insect infestations due to the massive amounts of downed timber caused by the severity of this natural disaster.

(2) The General Assembly further finds and declares that it is appropriate and advisable to provide relief to the timber industry in the form of a tax credit targeted to those taxpayers that have suffered substantial economic losses and that will have to incur significant expenses for salvaging downed timber, site clearance, restoration, and reforestation over the coming years.

(b) As used in this Code section, the term:

(1) 'Disaster area' means the real property encompassed by the borders of the 66 counties included in the renewal of the State of Emergency pronounced in the Executive Order of the Governor dated October 29, 2024, and filed in the official records of the office of the Governor as Executive Order No. 10.29.24.01.

(2) 'Eligible timber property' means timber which on September 24, 2024, was being grown by a taxpayer in a disaster area as part of a trade or business or a transaction entered into for profit.

(3) 'Timber' means trees grown for the primary purpose of commercial production of food or wood or wood fiber products.

(4) 'Timber casualty loss' means the amount of the diminution of value included in the computation of the casualty loss deduction for such casualty losses claimed and allowed

pursuant to Section 165 of the Internal Revenue Code of 1986 as casualty losses incurred by a taxpayer between September 24, 2024, and December 31, 2024, as a result of damage to or destruction of eligible timber property caused by Hurricane Helene.

(c)(1) A taxpayer shall be allowed tax credits against the tax imposed by this article in an amount equal to 100 percent of such taxpayer's timber casualty loss; provided, however, that the credit amount shall not exceed the number of the taxpayer's affected acres of eligible timber property in such disaster areas multiplied by $400.00.

(2) To be allowed such tax credits, a taxpayer shall submit an application for preapproval of such credits based on timber casualty losses incurred by such taxpayer by December 31, 2025.

(d)(1) The commissioner shall require preapproval applications to contain such information as is necessary to substantiate a taxpayer's eligibility for tax credits allowed pursuant to this Code section.

(2) The commissioner is authorized to require electronic submission of preapproval applications in the manner specified by the commissioner.

(3) The commissioner shall review completed preapproval applications in the order in which such applications were submitted and shall provide notice to each taxpayer that submitted an application within 30 days of receipt stating whether such taxpayer's application is complete or incomplete.

(4) In no event shall the commissioner preapprove tax credits pursuant to this Code section in an amount that exceeds $200 million in aggregate.

(5) In the event that properly completed and timely submitted preapproval applications are submitted for an amount that exceeds the amount of funds available to fully fund the tax credits requested, the commissioner shall prorate the available funds between or among the applicants.

(6) The commissioner shall approve properly completed and timely submitted preapproval applications and issue a preapproval certificate to the taxpayer by January 31, 2026, certifying the amount of credits such taxpayer is eligible to claim if the taxpayer meets the conditions of this Code section.

(e) In no event shall the amount of the tax credits allowed pursuant to this Code section exceed $200 million in aggregate.

(f)(1)(A) Tax credits allowed pursuant to this Code section shall be eligible to be claimed only by the taxpayer to which the commissioner issued a preapproval certificate.

(B) Tax credits allowed pursuant to this Code section shall only be claimed in the taxable year in which the taxpayer first completes:

(i) The restoration of each acre for which timber casualty losses were incurred to a condition that has an adequately stocked stand that is expected to result in forest products or ecological services in the foreseeable future; or

(ii) The replanting of timber in a quantity projected to yield at maturity at least 90 percent of the value of the timber casualty loss claimed. Such timber shall be planted within the same county in which the eligible timber property was being

grown when the timber casualty loss was incurred. Timber market conditions as of September 25, 2024, shall be used for the purposes of establishing projected value.

(2) To claim tax credits allowed pursuant to this Code section, a taxpayer shall attach to such taxpayer's state tax return certification from the taxpayer that the requirements of this Code section have been met and any other information required by the commissioner, including information which demonstrates that it has completed the restoration or replanting of timber required pursuant to paragraph (1) of this subsection.

(3) Any tax credits allowed pursuant to this Code section shall be claimed on or before December 31, 2030.

(g)(1) The total amount of the tax credits allowed pursuant to this Code section for a taxable year may exceed the taxpayer's income tax liability. Such tax credits allowed in excess of a taxpayer's income tax liability shall be refundable to such taxpayer, provided that such taxpayer is the same taxpayer that incurred the timber casualty loss.

(2) Tax credits claimed pursuant to this Code section but not used in any taxable year may be carried forward for ten years from the close of the taxable year in which the credits are claimed.

(h) Tax credits claimed pursuant to this Code section but neither used by the taxpayer against its income tax liability nor refunded may be transferred or sold one time to one single other Georgia taxpayer, subject to the following conditions:

(1) Only the taxpayer that claimed the tax credits allowed pursuant to this Code section shall make the transfer or sale of such tax credits;

(2) The taxpayer that claimed the tax credits allowed pursuant to this Code section shall submit to the commissioner written notification of any transfer or sale of such tax credits within 30 days after the transfer or sale of the tax credits. Such written notification shall include:

(A) Such taxpayer's credit balance prior to transfer;

(B) The credit certificate number;

(C) The remaining balance of credits after transfer;

(D) The tax identification number of the transferee;

(E) The date of transfer;

(F) The amount of credits transferred; and

(G) Other information as may be required by the department;

(3) Failure to comply with any provision of this subsection shall result in the disallowance of the tax credits allowed pursuant to this Code section until the taxpayer that claimed the credits is in full compliance;

(4) The transfer or sale of the tax credits shall not extend the time during which such tax credits may be used. The carry-forward period for tax credits that are transferred or sold shall begin on the date on which such tax credits were originally claimed;

(5) A transferee shall have only such rights to claim and use the tax credits that were available to the transferor at the time of the transfer; provided, however, that a transferee shall not be eligible to transfer or receive a refund of such tax credits. To the extent that the transferor did not have rights to claim or use the tax credits at the time of the transfer, the commissioner shall disallow the tax credits claimed by the transferee or

recapture the tax credits from the transferee or transferor. The transferee's recourse shall not be against the commissioner; and

(6) The transferee shall acquire the tax credits allowed pursuant to this Code section for a minimum of 60 percent of the amount of the tax credits so transferred.

(i)(1) A taxpayer claiming, transferring, or selling tax credits allowed pursuant to this Code section shall be required to reimburse the department for any department initiated audits relating to the tax credits, provided that such amount shall not exceed the value of the credits claimed by the taxpayer. This paragraph shall not apply to routine tax audits of such taxpayer that may include the review of the tax credits provided in this Code section.

(2) The commissioner shall have access to timber property for the purpose of determining eligibility for both the preapproval and claiming of tax credits allowed and conducting audits pursuant to this Code section, provided that prior notice is given to any taxpayer that submitted a preapproval application or transferred or claimed tax credits pursuant to this Code section and the owner of the underlying real property.

(3) The commissioner may pursue all remedies available by law as necessary to recapture tax credits wrongfully preapproved, allowed, or claimed by a taxpayer or a taxpayer's transferee.

(4) The commissioner shall be authorized to consult with the Georgia Forestry Commission as necessary to administer and enforce the provisions of this Code section.

(j) The commissioner shall be authorized to promulgate any rules and regulations necessary to implement and administer the provisions of this Code section."

SECTION 3.

Said title is further amended in Chapter 8, relating to sales and use taxes, by revising paragraph (3) of subsection (a) of Code Section 48-8-3.3, relating to exemptions for agricultural operations and establishment of Georgia Agricultural Trust Fund, as follows:

"(3)(A) 'Agricultural production inputs' means seed; seedlings; plants grown from seed, cuttings, or liners; fertilizers; insecticides; livestock and poultry feeds, drugs, and instruments used for the administration of such drugs; fencing products and materials used to produce agricultural products regardless of whether the fencing products or materials become incorporated into real property; fungicides; rodenticides; herbicides; defoliants; soil fumigants; plant growth regulating chemicals; desiccants, including, but not limited to, shavings and sawdust from wood, peanut hulls, fuller's earth, straw, and hay; feed for animals, including, but not limited to, livestock, fish, equine, hogs, or poultry; sugar used as food for honeybees kept for the commercial production of honey, beeswax, and honeybees; cattle, hogs, sheep, equine, poultry, or bees when sold for breeding purposes; ice or other refrigerants, including, but not limited to, nitrogen, carbon dioxide, ammonia, and propylene glycol used in the processing for market or the chilling of agricultural products in storage facilities, rooms, compartments, or delivery trucks; materials, containers, crates, boxes, labels, sacks, bags, or bottles used for packaging agricultural products when the product is either sold in the containers, sacks, bags, or bottles directly to the

consumer or when such use is incidental to the sale of the product for resale; and containers, plastic, canvas, and other fabrics used in the care and raising of agricultural products or canvas used in covering feed bins, silos, greenhouses, and other similar storage structures.

(B)(i) For the period beginning on the effective date of this Act and ending on December 31, 2025, such term also means building materials used to repair or replace:

(I) Greenhouses; and

(II) Real property structures or fixtures used exclusively for the production of animals, including, but not limited to, poultry sheds and livestock barns.

(ii) Notwithstanding subsection (c) of Code Section 48-8-63, contractors shall not incur any use tax on any building materials that a qualified agricultural producer purchases tax-exempt under division (i) of this subparagraph for use in an agricultural operation and furnishes to such contractor for installation into real property."

SECTION 4.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

This Act shall be known and may be cited as the "Superior Court Judicial Compensation Reform Act."

SECTION 2.

Article 1 of Chapter 6 of Title 15 of the Official Code of Georgia Annotated, relating to general provisions concerning superior courts, is amended by revising Code Section 15-6-29, relating to salary of judges, as follows:

"15-6-29.

(a) Except as provided for in subsection (b) of this Code section, the ~~The~~ annual salary of the judges of the superior courts shall be as provided in Code Section 45-7-4 and may be as provided in Code Section 15-6-29.1. The annual salary provided by Code Section 45-7-4 shall be paid by The Council of Superior Court Judges of Georgia in 12 equal monthly installments.

(b)(1) Each superior court judge in office on July 1, 2025, shall have the option to receive the annual salary provided by Code Section 45-7-4 and any locality pay provided for by Code Section 15-6-29.2, in lieu of his or her compensation which is otherwise provided by laws in effect on June 30, 2025. The option provided by this paragraph shall be exercised by such judge's filing a written notification thereof with The Council of Superior Court Judges of Georgia and the governing authority of each county comprising such judge's judicial circuit. A superior court judge in office on July 1, 2025, shall not be required or obligated to exercise the option provided by this paragraph, but if and when any such judge voluntarily and expressly exercises such option, such judge's exercise of such option shall be final and irrevocable. The failure to exercise the option shall be an election to continue to receive compensation as previously calculated by law in effect on June 30, 2025, and as outlined in paragraph (2) of this subsection, and until such option is exercised. The option exercised pursuant to this paragraph shall go into effect the next pay period beginning five business days following the exercise of such option.

(2) To ensure that no superior court judge in office on July 1, 2025, has his or her salary, allowance, or county salary supplements decreased during his or her term of office, any superior court judge in office on July 1, 2025, who does not exercise the irrevocable option provided by paragraph (1) of this subsection shall continue to be

compensated in precisely the same manner as he or she was compensated as of June 30, 2025, including, but not limited to, county supplements, in accordance with Article VI, Section VII, Paragraph V of the Constitution.

(c) The annual salary shall be the total compensation to be paid by the state to the superior court judges and shall be in lieu of any and all other amounts to be paid from The Council of Superior Court Judges of Georgia, except as provided in Code Sections 15-6-29.1, 15-6-29.2, 15-6-30, and 15-6-32.

~~(c) When a new superior court judgeship is created by law for any judicial circuit, the new superior court judge shall upon taking office become entitled to and shall receive from the county or counties comprising the circuit the same county salary supplement, if any, then in effect for the other judge or judges of the judicial circuit. Such salary supplement for such new judge shall be authorized by this subsection and no other legislation or local legislation shall be required in order to authorize such salary supplement, but nothing in this Code section shall be construed to prohibit the enactment of local legislation relating to such salary supplements. A publication of notice of intention to introduce local legislation as provided for in Code Section 28-1-14 shall be required for any local legislation granting, changing the amount of, or removing a salary supplement; but no publication of notice of intention shall be required for a bill creating one or more new superior court judgeships.~~"

SECTION 3.

Said article is further amended in Code Section 15-6-29.1, relating to accountability court supplement and limitation, by repealing subsection (c) in its entirety.

SECTION 4.

Said article is further amended by adding a new Code section to read as follows:

"15-6-29.2.

(a) Except as provided for in subsection (b) of this Code section, on or after July 1, 2025, the county or counties comprising a judicial circuit may provide each judge of such circuit who either was not in office as a superior court judge as of July 1, 2025, or made an irrevocable election authorized by paragraph (1) of subsection (b) of Code Section 15-6-29, with locality pay as authorized by this Code section, and such judges shall not be eligible for county salary supplements provided by local Act. In no event shall locality pay exceed 10 percent of the state annual salary provided by Code Section 45-7-4 to such judge. All such locality pay shall be in lieu of and not in addition to any county salary supplements previously provided by the county or counties. All judges within a judicial circuit who are in office as of July 1, 2025, and exercise the option provided by paragraph (1) of subsection (b) of Code Section 15-6-29, or who take office after July 1, 2025, shall receive equal locality pay from any given county within such circuit that has opted to provide such pay.

(b) In no event shall the annual locality pay provided to a judge by the county or counties comprising a judicial circuit in aggregate exceed the lesser of:

(1) 10 percent of the state annual salary paid to a superior court judge pursuant to Code Section 45-7-4; or

(2) $20,106.00;

provided, however, that if the state annual salary paid to superior court judges exceeds $201,060.00, then the maximum allowable amount of annual locality pay provided to a judge by the county or counties comprising a judicial circuit shall instead be equal to the difference between $20,106.00 and half of the amount by which such state annual salary exceeds $201,060.00. The intent of this paragraph is to provide for a gradual decrease in the maximum amount of allowable locality pay as the state annual salary provided by Code Section 45-7-4 to superior court judges exceeds $201,060.00 and continues to increase.

(c) When a new superior court judgeship is created by law for any judicial circuit, the new superior court judge shall upon taking office become entitled to and shall receive from the county or counties comprising such circuit the same locality pay, if any, then in effect for the other judge or judges of such circuit. Such locality pay for such new judge shall be authorized by this subsection and no other legislation or local legislation shall be required to authorize such locality pay.

(d) Except as provided for in subsection (b) of Code Section 15-6-29 and subsection (e) of this Code section and notwithstanding any other provision of law to the contrary, on and after July 1, 2025, no county or counties comprising a judicial circuit shall provide county salary supplements to a superior court judge.

(e)(1) Nothing in subsection (d) of this Code section shall operate to prevent a county or counties comprising a judicial circuit from continuing to provide a local salary supplement to the chief judge of such circuit that was otherwise authorized by law on June 30, 2025. On or after July 1, 2025, no local supplement for a chief judge shall be enacted or increased.

(2) For all judges who elect to exercise the option provided by paragraph (1) of subsection (b) of Code Section 15-6-29, to the extent the aggregate salary provided for by subsection (a) of Code Section 15-6-29 and locality pay provided for by subsection (a) of this Code section to a particular judge do not equal or exceed such judge's aggregate salary and local supplement in effect at the time of such judge's exercise of such option, then the county or counties of the circuit shall pay an additional supplement in an amount equal to the difference between the aggregate salary and supplement in effect at the time of such judge's exercise of such option and the aggregate salary provided for by subsection (a) of Code Section 15-6-29 and locality pay provided for by subsection (a) of this Code section. When an additional supplement is required by this paragraph in a circuit consisting of more than one county, then each county shall pay such additional supplement in proportion to each county's contribution to the local supplement in effect at the time of such judge's exercise of the option to participate. In no event shall the additional supplement required by this paragraph result in a judge's aggregate salary that exceeds the aggregate salary and supplement existing at the time of a judge's exercise of such option.

(f) Nothing in subsection (d) of this Code section shall operate to prevent a county or counties comprising a judicial circuit from continuing to provide fringe benefits to any judge of such circuit in the same manner that such benefits were provided on June 30, 2025.

(g) Nothing in this Code section or subsection (b) of Code Section 15-6-29 shall operate to alter, amend, contract, expand, extend, limit, modify, or terminate retirement benefits or rights thereto in existence prior to July 1, 2025. All judges who exercise the option provided by paragraph (1) of subsection (b) of Code Section 15-6-29 shall have no right to any benefit existing at the time such option is exercised reduced. To the extent otherwise permitted by law, each county within a judicial circuit is authorized, but not required, to provide retirement benefits based upon the locality pay it provides pursuant to subsection (a) of this Code section."

SECTION 5.

Code Section 45-7-4 of the Official Code of Georgia Annotated, related to annual salaries of certain state officials and cost-of-living adjustments, is amended by repealing and reserving paragraph (20) of subsection (a) and adding a new subsection to read as follows:

"(d)(1) For the purposes of this subsection, the term 'base salary' means the annual salary fixed for the judges of the United States District Court for the Northern District of Georgia on July 1 of the second preceding state fiscal year.

(2) Except as provided for in subsection (b) of Code Section 15-6-29, the annual salary of each superior court judge shall be set by the General Assembly in the General Appropriations Act, provided that such salary shall not exceed 90 percent of the base salary provided for in paragraph (1) of this subsection."

SECTION 6.

Chapter 3 of Title 1 of the Official Code of Georgia Annotated, relating to laws and statutes, is amended by adding a new Code section to read as follows:

"1-3-12.

(a)(1) Notwithstanding any provision of law to the contrary, as of July 1, 2025, all local laws and local ordinances or resolutions in effect as of such date that provide for a salary, supplement, or other compensation to be paid to a state, county, or local officer, official, or employee based on a percentage of, total compensation for, or similar mathematical relationship to any superior court judge's salary, supplement, or other compensation shall be suspended as a matter of law with respect to any increase in the salary, supplement, or other compensation paid to a superior court judge during the term of such suspension; provided, however, that such suspension shall not be applicable to any local law or local ordinance or resolution adopted after July 1, 2025.

(2) During the period of the suspension provided for in paragraph (1) of this subsection:

(A) No change in the salary of a superior court judge shall result in a change in the calculation of any compensation to be paid to a state, county, or local officer, official, or employee by any county, municipality, consolidated government, or other political subdivision; and

(B) The compensation paid to any state, county, or local officer, official, or employee whose compensation is expressly based on a percentage of, total compensation for, or similar mathematical relationship to a superior court judge's salary, supplement, or other compensation shall remain at the same amount as provided at the beginning of such period of suspension, unless and until such suspension terminates with respect to such individual pursuant to paragraph (1) of subsection (b) of this Code section or the compensation paid to any such state, county, or local officer, official, or employee is modified pursuant to subsection (c) of this Code section.

(3) The provisions of this subsection shall not repeal or amend any local law or local ordinance or resolution, but the provisions of local laws or local ordinances or resolutions related to calculating compensation based on a superior court judge's salary, supplement, or other compensation shall be merely suspended and shall remain suspended with respect to any change in such compensation until such suspension is lifted or such compensation is modified pursuant to subsection (b) or (c) of this Code section with respect to a given public officer, official, or employee.

(b)(1) As of July 1, 2026, the suspension provided for in subsection (a) of this Code section shall be terminated with respect to all judges. Any salary or compensation change for a judge that otherwise would have gone into effect between July 1, 2025, and June 30, 2026, by operation of a local law or local ordinance or resolution if such suspension had not been in effect shall become effective for calculations of such judge's prospective salary or other compensation that may be earned on or after July 1, 2026, unless the local law or local ordinance or resolution that provides for a salary, supplement, or other compensation to be paid to such judge is repealed prior to July 1, 2026, or is amended, prior to July 1, 2026, to expressly modify the terms of such judge's compensation.

(2) The suspension provided for in subsection (a) of this Code section shall remain in place for all officers, officials, and employees described in paragraph (1) of subsection (a) of this Code section other than judges, unless and until the compensation payable to any such other officer, official, or employee is modified pursuant to subsection (c) of this Code section.

(3) The termination of a suspension provided for in subsection (a) of this Code section shall not entitle any person to retroactive compensation that he or she otherwise may have earned except for such suspension, and no such retroactive payments shall be made.

(c)(1) Nothing in this Code section shall operate to prevent the General Assembly from at any time repealing or amending, in whole or in part, any local law that is suspended pursuant to subsection (a) of this Code section, and any such repeal or amendment shall become effective in the time and manner stated in the law implementing such repeal or amendment, without regard to the suspension provided for in this Code section.

(2) Nothing in this Code section shall operate to prevent a county, municipality, consolidated government, or other political subdivision from, at any time, enacting any salary, supplement, or other compensation changes for any state, county, or local officer, official, or employee if otherwise authorized by general or local law, and any

such change shall become effective in the time and manner stated in such lawful enactment, without regard to the suspension provided for in this Code section.

(3) In no event shall any action described in paragraph (1) or (2) of this subsection:

(A) Authorize the payment of or entitle any superior court judge to any salary supplement or any locality pay in excess of the limits set forth in Code Section 15-6-29.2; or

(B) Authorize the payment of or entitle any person to retroactive compensation that he or she otherwise may have earned except for any period of suspension.

(d) The General Assembly finds that increases to superior court judges' compensation that become effective on or after July 1, 2025, may automatically trigger increases to other public officers, officials, and employees for whom existing legislation automatically ties their compensation to that of superior court judges and that these automatic increases in compensation would generally result in sudden financial hardship for local governments. Accordingly, it is the intent of this Code section that:

(1) The salary of any state, county, or local officer, official, or employee whose salary, supplement, or other compensation is based on a percentage of, total compensation for, or similar mathematical relationship to a superior court judge's salary or supplement shall, during the period of any such suspension imposed by this Code section, remain the same as such salary, supplement, or other compensation was at the beginning of such period;

(2) Such state, county, or local officer, official, or employee shall continue to receive such salary, supplement, or other compensation during the period of such suspension at the same rate or amount as at the beginning of such period; and

(3) The amount of such salary, supplement, or other compensation shall remain unchanged until the occurrence of an event described in subsections (a) through (c) of this Code section, which includes:

(A) Such suspension being terminated pursuant to this Code section;

(B) With respect to a salary, supplement, or other compensation set by local law, the General Assembly takes some affirmative action to set the salary, supplement, or other compensation by repealing or amending, in whole or in part, any local law that is suspended pursuant to subsection (a) of this Code section and such repeal or amendment becomes effective; or

(C) With respect to a salary, supplement, or other compensation set by local ordinance or resolution, the county, municipality, consolidated, or other local government takes some affirmative action to set the salary, supplement, or other compensation and such action becomes effective."

SECTION 7.

This Act shall become effective on July 1, 2025.

SECTION 8.

All laws and parts of laws in conflict with this Act are repealed.

The report of the Committee, which was favorable to the passage of the Bill, by substitute, was agreed to.

SECTION 2.

Said article is further amended by revising Code Section 36-36-115, relating to meetings of arbitration panel, duties, findings and recommendations, and compensation, as follows:

"36-36-115.

(a)(1)(A) The arbitration panel appointed pursuant to Code Section 36-36-114 shall meet as soon after appointment as practicable and shall receive evidence and argument from the municipal corporation, the county, and the applicant or property owner and shall by majority vote render a decision which shall be binding on all parties to the dispute as provided for in this article not later than 60 days following such appointment, provided that the chairperson of the arbitration panel shall be authorized to extend such deadline one time for a period of up to ten business days~~.~~; provided, however, that ~~Notwithstanding anything in this subparagraph to the contrary,~~ the municipal corporation and county may by mutual agreement, postpone the arbitration procession for a period of up to 180 days to negotiate a potential settlement, and such postponement shall stay the 60 day deadline provided herein.

(B) Meetings of the panel may occur in person, virtually, or via teleconference. The meetings of the panel in which evidence is submitted or arguments of the parties are made, whether such meeting is in person, virtual, or via teleconference, shall be open to the public pursuant to Chapter 14 of Title 50.

(C) The panel shall first determine the validity of the grounds for objection as specified in the objection. If an objection involves the financial impact on the county as a result of a change in zoning or land use or the provision of maintenance of infrastructure, the panel shall quantify such impact in terms of cost. As to any objection which the panel has determined to be valid, the panel, in its findings, may establish reasonable zoning, land use, or density conditions applicable to the

annexation and propose any reasonable mitigating measures as to an objection pertaining to infrastructure demands.

(2) In arriving at its determination, the panel shall consider:

(A) The existing comprehensive land use plans of both the county and city;

(B) The existing land use patterns in the area of the subject property;

(C) The existing zoning patterns in the area of the subject property;

(D) Each jurisdiction's provision of infrastructure to the area of the subject property and to the areas in the vicinity of the subject property;

(E) Whether the county has approved similar changes in intensity or allowable uses on similar developments in other unincorporated areas of the county;

(F) Whether the county has approved similar developments in other unincorporated areas of the county which have a similar impact on infrastructure as complained of by the county in its objection; and

(G) Whether the infrastructure or capital outlay project which is claimed adversely impacted by the county in its objection was funded by a county-wide tax.

(3) The county shall provide supporting evidence that its objection is consistent with its land use plan and the pattern of existing land uses and zonings in the area of the subject property, which may include, but not be limited to, adopted planning documents and capital or infrastructure plans.

(4) The cost of the arbitration shall be equally divided between the city and the county; provided, however, that if the panel determines that any party has advanced a position that is not valid, the costs shall be borne by the party or parties that have advanced such position.

(5) The reasonable costs of participation in the arbitration process of the property owner or owners whose property is at issue shall be borne by the county and the city in the same proportion as costs are apportioned under paragraph (4) of this subsection.

(6) The panel shall deliver its written findings and recommendations to the parties and the department by verifiable delivery. The written findings and recommendations shall include a signed statement for each panel member as to whether or not he or she voted in support of or against such findings and recommendations. The department shall maintain a data base and record of arbitration panel results and at least annually publish a report on such decisions and make such report freely available on the department's website.

(b) If the decision of the panel contains zoning, land use, or density conditions, the findings and recommendations of the panel shall be recorded in the deed records of the county with a caption describing the name of the current owner of the property, recording reference of the current owner's acquisition deed and a general description of the property, and plainly showing the expiration date of any restrictions or conditions.

(c) The arbitration panel shall be dissolved on the tenth day after it renders its findings and recommendations but may be reconvened as provided in Code Section 36-36-116.

(d) Notwithstanding the provisions of subsection (b) of Code Section 45-7-21, the members of the arbitration panel shall receive the same per diem, expenses, and

allowances for their service on the panel as authorized by law for members of the General Assembly plus $100.00 in total for all days of service for serving on an arbitration panel.
(e) If the panel so agrees, any one or more additional annexation disputes which may arise between the parties prior to the panel's initial meeting may be consolidated for the purpose of judicial economy if there are similar issues of location or similar objections raised to such other annexations or the property to be annexed in such other annexations is within 2,500 feet of the subject property."

SECTION 3.

This Act shall become effective on January 1, 2026.

SECTION 4.

All laws and parts of laws in conflict with this Act are repealed.

Speaker Jon Burns,

Subject: Apology and Request for Vote Correction

I hope this message finds you well. I am writing to express my sincere apologies for a misunderstanding that occurred during the proceedings on Friday, February 23, 2025. I was at my desk, preparing to conduct a parliamentary inquiry in support of HB 196, which I believe will serve as a vital resource for my local generational pharmacy in Augusta.

Unfortunately, in the midst of my preparations, I inadvertently failed to formally register my vote. I kindly ask that you record a "yes" vote on HB 196 on my behalf.

Thank you for your understanding, and I appreciate your assistance with this matter.

Respectfully
Karlton L. Howard

If the unattended vessel has been reported as stolen, the law enforcement officer shall notify the Department of Natural Resources and the law enforcement agency that filed such report, providing the location of the vessel. A BILL TO BE ENTITLED
AN ACT

To amend Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to water resources, so as to revise provisions regarding water-measuring devices for farm use of surface and ground water; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 5 of Title 12 of the Official Code of Georgia Annotated, relating to water resources, is amended by revising paragraph (3) of subsection (b) and subsection (m.1) of Code Section 12-5-31, relating to regulated riparian rights to surface waters for general or farm use, permits for withdrawal, diversion, or impoundment, coordination with water plans, metering of farm use, interbasin transfers, and appeal procedures, as follows:

"(3)(A) Notwithstanding any other provision of this Code section to the contrary, a permit for the withdrawal or diversion of surface waters for farm uses shall be issued by the director to any person when the applicant submits an application which provides reasonable proof that the applicant's farm use of surface waters occurred prior to July 1, 1988, and when any such application is submitted prior to July 1, 1991. If submitted prior to July 1, 1991, an application for a permit to be issued based upon farm uses of surface waters occurring prior to July 1, 1988, shall be granted for the withdrawal or diversion of surface waters at a rate of withdrawal or diversion equal to the greater of the operating capacity in place for withdrawal or diversion on July 1, 1988, or, when measured in gallons per day on a monthly average for a calendar year, the greatest withdrawal or diversion capacity during the five-year period immediately preceding July 1, 1988. If submitted after July 1, 1991, or, regardless of when submitted, if it is based upon a withdrawal or diversion of surface waters for farm uses occurring or proposed to occur on or after July 1, 1988, an application shall be subject to evaluation and classification pursuant to subsections (e), (f), and (g) of this Code section, but a permit based upon such evaluation and classification shall be issued to ensure the applicant's right to a reasonable use of such surface waters. Any permit issued pursuant to this paragraph shall be conditioned upon the requirement that the permittee shall provide, on forms prescribed by the director, information relating to a general description of the lands and number of acres subject to irrigation and the permit; a description of the general type of irrigation system used; the source of withdrawal water such as river, stream, or impoundment; and pump information, including rated capacity, pump location, and power information.

(B) Permits applied for under this paragraph on or after April 20, 2006, for farm use in the Flint River basin shall have a term of 25 years and shall be automatically renewed at the original permitted capacity unless an evaluation by the division

indicates that renewal at the original capacity would have unreasonable adverse effects upon other water uses. The division may renew the original permit at a lower capacity, but such capacity shall be based on the reasonable use of the permittee and evaluation of the resource.

(C) A permittee may apply to have a permit issued under this paragraph modified, amended, transferred, or assigned to subsequent owners of the lands which are the subject of such permit; provided, however, that:

(i) The division shall receive written notice of any such transfer or assignment;

(ii) Any modification in or amendment to the use or capacity conditions contained in the permit or in the lands which are the subject of such permit shall require the permittee to submit an application for review and approval by the director consistent with this Code section; and

(iii) The permittee may commence withdrawing water under the modified, amended, transferred, or assigned permit on the effective date stated on the revised permit for farm use~~; and~~

~~(iv) For all permits for which such modification, amendment, transfer, or assignment is effective on or after April 20, 2018, and for which no water-measuring device is installed, the permittee shall have one year from the updated effective date stated on the revised permit for farm use to have an acceptable type of water-measuring device installed, to have such device in operation at each point of permitted withdrawal, and to notify the division in writing once the installation has occurred. The division shall approve or disapprove the installation within 60 days of the date of notification. The permittee shall be responsible for all associated costs~~.

(D) Nothing in this paragraph shall be construed as a repeal or modification of Code Section 12-5-46."

"(m.1)(1) The division shall have the duty of implementing a program of measuring farm uses of water in order to obtain clear and accurate information on the patterns and amounts of such use, which information is essential to proper management of water resources by the state and useful to farmers for improving the efficiency and effectiveness of their use of water, meeting the requirements of subsections (b) and (m) of this Code section, and improving water conservation.

(2) The division:

(A) May conduct its duties with division staff and may contract with other persons to conduct any of its duties;

(B) May receive and use state appropriations, gifts, grants, or other sources of funding to carry out its duties;

(C) Shall develop a priority system for the installation of devices for measurement of farm uses of water at the points of those withdrawals for which a permit was issued as of July 1, 2003. The division may refine the priority system from time to time based on the amount of funding received by the division, considerations regarding cost effectiveness, new technical information, changes in resource use or conditions, or other factors as deemed relevant by the director;

(D) Shall, on behalf of the state, contract for the purchase and installation of that subset of water-measuring devices according to the priority system required by this Code section, and no charge shall be made to the permittee for such costs. ~~However, when the division assesses the site or attempts to install such water-measuring devices and finds that the site lacks withdrawal or irrigation infrastructure, the division shall document such withdrawal or irrigation infrastructure conditions and notify the permittee in writing that a state funded water-measuring device or devices could not be installed and that a device or devices are still required. After the expiration of five years, such permittee shall be responsible for having an acceptable type of water-measuring device installed and placed into operation and all associated costs. The permittee shall notify the division in writing once the installation has occurred. The division shall approve or disapprove the installation within 60 days of the date of notification~~ If no contractor is available, the division may use trained and certified staff to perform installations, and no charge shall be made to the permittee for such costs;

(E) Shall, at monthly intervals, read an appropriate proportion of water-measuring devices installed for measuring farm use of surface water and compile the collected data for use in meeting the purposes in paragraph (1) of this subsection, and the division shall communicate in advance with private property owners to establish reasonable times for such readings. In the event that a permittee's water-measuring devices are selected for monthly readings, the permittee may choose to perform those readings and transmit that information to the division; and

(F) Shall issue an annual progress report on the status of water-measuring device installation.

(3) Any person whose permit for agricultural water use was issued before July 1, 2003, and who desires to install a water-measuring device at no cost to the state may do so, provided that the permittee shall have an acceptable type of water-measuring device installed and placed in operation at each point of permitted withdrawal and the permittee shall notify the division in writing once the installation has occurred. The division shall approve or disapprove the installation within 60 days of the date of notification.

(4) Any person who desires to commence a farm use of water for which a permit is issued after July 1, 2003, shall not commence such use prior to receiving approval from the division that such person has installed an acceptable type of water-measuring device installed ~~by the commission~~ at each point of permitted withdrawal. The permittee shall be responsible for all such costs.

(5) Employees, contractors, or agents of the division are authorized to enter upon private property at reasonable times and upon reasonable notice to conduct the duties of the division under this subsection.

(6) Regarding all permits for which a water-measuring device is installed, regardless of when the permit was issued, the division shall contract for the annual reading of such water-measuring devices. The division shall require each contractor conducting such

annual readings to transmit complete and accurate data required by the division to the division annually.

(7) The division shall audit a subset of reported water-measuring device readings submitted by permittees for the purpose of understanding and improving the accuracy of such readings.

(8) The division shall contract for any maintenance, repair, or replacement of water-measuring devices installed pursuant to this Code section where maintenance, repair, or replacement is required to ensure that such water-measuring devices accurately reflect the amount of water used, and no charge shall be made to the permittee for such costs. The division shall also have the authority to undertake repairs or replacements of water-measuring devices when such repairs or replacements are necessary to maintain compliance with water use regulations, and no charge shall be made to the permittee for such costs.

(9) If the division determines that the permittee or the permittee's employees, tenants, licensees, or agents have willfully dismantled, sold, relocated, or removed any water-measuring device installed pursuant to this Code section, the permittee may be subject to enforcement action by the division, including but not limited to imposition of civil penalties.

(10) Any reports of amounts of use for recreational purposes under this Code section shall be compiled separately from amounts reported for all other farm uses."

SECTION 2.

Said chapter is further amended by revising subsections (b) and (b.1) of Code Section 12-5-105, relating to regulated reasonable use of ground water for farm use, permits to withdraw, obtain, or utilize, metering, and related procedures, as follows:

"(b) Notwithstanding any provisions of Code Section 12-5-95, 12-5-96, or 12-5-97 to the contrary, permits to withdraw, obtain, or utilize ground waters for farm uses, as that term is defined in paragraph (5.1) of Code Section 12-5-92, whether for new withdrawals or under subsection (a) of this Code section, shall be governed as follows:

(1) Permits applied for under this Code section on or after April 20, 2006, for farm use within the Flint River basin shall have a term of 25 years and shall be automatically renewed at the original permitted capacity unless an evaluation by the division indicates that renewal at the original capacity would have unreasonable adverse effects upon other water uses. The division may renew the original permit at a lower capacity, but such capacity shall be based on the reasonable use of the permittee and evaluation of the resource;

(2) A permittee may apply to have a permit issued under this Code section modified, amended, transferred, or assigned to subsequent owners of the lands which are the subject of such permit; provided, however, that:

(A) The division shall receive written notice of any such transfer or assignment;

(B) Any modification in or amendment to the use or capacity conditions contained in the permit or in the lands which are the subject of such permit shall require the

permittee to submit an application for review and approval by the director consistent with the requirements of this part; and

(C) The permittee may commence withdrawing water under the modified, amended, transferred, or assigned permit on the effective date stated on the revised permit for farm use; ~~and~~

~~(D) For all permits for which such modification, amendment, transfer, or assignment is effective on or after April 20, 2018, and for which no water-measuring device is installed, the permittee shall have one year from the updated effective date stated on the revised permit for farm use to have an acceptable type of water-measuring device installed, to have such device in operation at each point of permitted withdrawal, and to notify the division in writing once the installation has occurred. The division shall approve or disapprove the installation within 60 days of the date of notification. The permittee shall be responsible for all associated costs;~~

(3) Permits for farm use, after initial use has commenced, shall not be revoked, in whole or in part, for nonuse; except that the director may permanently revoke any permit under this Code section for farm use within the Flint River Basin applied for on or after April 20, 2006, if initial use for the purpose indicated on the permit application, as measured by a flow meter approved by the division has not commenced within two years of the date of issuance of the permit unless the permittee can reasonably demonstrate that his or her nonuse was due to financial hardship or circumstances beyond his or her control;

(4) The director may suspend or modify a permit for farm use if he or she should determine through inspection, investigations, or otherwise that the quantity of water allowed would prevent other applicants from reasonable use of ground water beneath their property for farm use;

(5) During emergency periods of water shortage, the director shall give first priority to providing water for human consumption and second priority to farm use; and

(6) The importance and necessity of water for industrial purposes are in no way modified or diminished by this Code section.

(b.1)(1) The division shall have the duty of implementing a program of measuring farm uses of water in order to obtain clear and accurate information on the patterns and amounts of such use, which information is essential to proper management of water resources by the state and useful to farmers for improving the efficiency and effectiveness of their use of water, meeting the requirements of subsections (b) and (b.1) of this Code section, and improving water conservation.

(2) The division:

(A) May conduct its duties with division staff and may contract with other persons to conduct any of its duties;

(B) May receive and use state appropriations, gifts, grants, or other sources of funding to carry out its duties;

(C) Shall develop a priority system for the installation of devices for measurement of farm uses of water at the points of those withdrawals for which a permit was issued as of July 1, 2003. The division may refine the priority system from time to time

based on the amount of funding received by the division, considerations regarding cost effectiveness, new technical information, changes in resource use or conditions, or other factors as deemed relevant by the director;

(D) Shall, on behalf of the state, contract for the purchase and installation of that subset of water-measuring devices according to the priority system required by this Code section, and no charge shall be made to the permittee for such costs. ~~However, when the division assesses the site or attempts to install such water-measuring devices and finds that the site lacks the withdrawal or irrigation infrastructure, the division shall document such withdrawal or irrigation infrastructure conditions and notify the permittee in writing that a state funded water-measuring device or devices could not be installed and that a device or devices are still required. After the expiration of five years, such permittee shall be responsible for having an acceptable type of water-measuring device installed and placed into operation and all associated costs. The permittee shall notify the division in writing once the installation has occurred. The division shall approve or disapprove the installation within 60 days of the date of notification~~ If no contractor is available, the division may use trained and certified staff to perform installations, and no charge shall be made to the permittee for such costs;

(E) Shall, at monthly intervals, read an appropriate proportion of water-measuring devices installed for measuring farm use of ground water and compile the collected data for use in meeting the purposes in paragraph (1) of this Code section, and the division shall communicate in advance with private property owners to establish reasonable times for such readings. (5) Regarding all permits for which a water-measuring device is installed, regardless of when the permit was issued, the division shall contract for the annual reading of such water-measuring devices. The division shall require each contractor conducting such

annual readings to transmit complete and accurate data required by the division to the division annually.

(7) Employees, contractors, or agents of the division are authorized to enter upon private property at reasonable times and upon reasonable notice to conduct the duties of the division under this subsection.

(8) The division shall contract for any maintenance, repair, or replacement of water-measuring devices installed pursuant to this Code section where maintenance, repair, or replacement is required to ensure that such water-measuring devices accurately reflect the amount of water used, and no charge shall be made to the permittee for such costs. The division shall also have the authority to undertake repairs or replacements of water-measuring devices when such repairs or replacements are necessary to maintain compliance with water use regulations, and no charge shall be made to the permittee for such costs.

(10) Any reports of amounts of use for recreational purposes under this part shall be compiled separately from amounts reported for all other farm uses.

(5) Laws, rules, and regulations that distinguish between the sexes are subject to intermediate constitutional scrutiny. Intermediate constitutional scrutiny forbids unfair discrimination against similarly situated male and female individuals but allows the law to distinguish between the sexes where such distinctions are substantially related to important governmental objections; and
(6) Notwithstanding any provision of state law to the contrary, distinctions between the sexes with respect to athletics, living facilities, locker rooms, domestic violence shelters, rape crisis centers, restrooms, and other areas where biology, safety, or privacy are implicated that result in separate accommodations are substantially related to the important governmental objections of protecting the health, safety, and privacy of individuals in such circumstances.

(b) Any local school system, public school, or any state agency, department, or political subdivision that collects vital statistics for the purpose of complying with antidiscrimination laws or for the purpose of gathering accurate public health, crime, economic, or other data shall identify each individual who is part of the collected data set as either male or female at birth."

(6) **Sex.** Masculine words shall include the feminine and neuter."

"(11.1) 'Mother' means a parent of the female sex."
"(22.1) 'Woman' means a human female."

PART V

"(b) The rules adopted pursuant to subsection (a) of this Code section shall provide that the forms so adopted may be altered locally in a particular petition or proceeding in such items as grammar, ~~gender usage~~ sex terminology, the use of singular and plural nouns and pronouns, the omission of optional or alternate language, the inclusion of variable information such as names and addresses, and other nonmaterial ways."

SECTION 5-2.

Title 17 of the Official Code of Georgia Annotated, relating to criminal procedure, is amended in Code Section 17-4-20.2, relating to bias crime report, requirements, use of reports, and publication, by revising subsection (a) as follows:

"(a) Whenever a law enforcement officer investigates an incident of a crime in which ~~it appears~~ there is reasonable suspicion to believe that the defendant intentionally selected any victim or group of victims or any property as the object of the offense because of such victim's or group of victims' actual or perceived race, color, religion, national origin, sex, sexual orientation, ~~gender,~~ mental disability, or physical disability, whether or not an arrest is made, the officer shall prepare and submit to the law enforcement officer's supervisor or other designated person a written report of the incident entitled 'Bias Crime Report.' Forms for such reports shall be designed and provided by the Georgia Bureau of Investigation. The report shall include:

(1) Names of the parties;
(2) Relationship of the parties;
(3) Sex ~~and gender~~ of the parties;
(4) Race of the parties;
(5) Religion of the parties;
(6) Dates of birth of the parties;

(8) Whether there is evidence to indicate that the incident occurred because of a person's actual or perceived attributes as specified by subsection (a) of this Code section;

(9) Type and extent of the alleged violation;

Said title is further amended in Code Section 17-10-17, relating to sentencing of defendants guilty of crimes involving bias or prejudice and identification of increased sentence, by revising subsection (b) as follows:

"(b) Subject to the notice requirement provided in Code Section 17-10-18 and in enhancement of the penalty imposed, if the trier of fact determines beyond a reasonable doubt that the defendant intentionally selected any victim or group of victims or any property as the object of the offense because of such victim's or group of victims' actual or perceived race, color, religion, national origin, sex, sexual orientation, ~~gender,~~ mental disability, or physical disability, the judge imposing sentence shall:

(1) If the offense for which the defendant was convicted is a designated misdemeanor, impose a sentence of imprisonment for a period of not less than six nor more than 12 months, and a fine not to exceed $5,000.00; or

(2) If the offense for which the defendant was convicted is a felony, impose a sentence of imprisonment for a period of not less than two years, and a fine not to exceed $5,000.00."

SECTION 5-4.

Title 20 of the Official Code of Georgia Annotated, relating to education, is amended in Code Section 20-2-315, relating to gender discrimination prohibited, authorized separate gender teams, equal athletic opportunity, physical education classes, employee designated to monitor compliance, grievance procedures, and reporting requirements, by revising subsections (a), (b), (c), (d), (e), and (j) as follows:

"(a) No student shall, on the basis of ~~gender~~ sex, be excluded from participation in, be denied the benefits of, be treated differently from another student, or otherwise be discriminated against in any interscholastic or intramural athletics offered by a local school system, and no local school system shall provide any such athletics separately on such basis.

(b) Notwithstanding the requirements of subsection (a) of this Code section, a local school system may operate or sponsor separate teams for members of each ~~gender~~ sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport. However, where a local school system operates or sponsors a team in a particular sport for members of one ~~gender~~ sex but operates or sponsors no such team for members of the other ~~gender~~ sex, and athletic opportunities for members of that ~~gender~~

sex in that particular sport have previously been limited, members of the excluded ~~gender~~ sex must be allowed to try out for the team offered unless the sport involved is a contact sport. Nothing in this subsection shall be construed to limit the authority of a local school system to operate or sponsor a single team for a contact sport that includes members of both ~~genders~~ sexes. As used in this subsection, the term 'contact sport' includes boxing, wrestling, rugby, ice hockey, football, basketball, and any other sport the purpose or major activity of which involves bodily contact.

(c) A local school system which operates or sponsors interscholastic or intramural athletics shall undertake all reasonable efforts to provide equal athletic opportunity for members of both ~~genders~~ sexes. In determining whether equal opportunities are available the following factors shall be considered:

(1) Whether the selection of sports and levels of competition effectively accommodate the interests and abilities of members of both ~~genders~~ sexes;
(2) The provision of equipment and supplies;
(3) Scheduling of games and practice time;
(4) Travel allowance;
(5) Opportunity to receive coaching and academic tutoring;
(6) Assignment and compensation of coaches and tutors;
(7) Provision of locker rooms and practice and competitive facilities;
(8) Provision of medical and training facilities and services; and
(9) Publicity.

Unequal aggregate expenditures for members of each ~~gender~~ sex or unequal expenditures for male and female teams if a local school system operates or sponsors separate teams will not constitute noncompliance with this subsection, but the failure to provide essential funds for the basic operations of teams for one ~~gender~~ sex may be considered in assessing equality of opportunity for members of each ~~gender~~ sex. Nothing in Code Section 20-2-411 shall be construed to limit the authority of a local school system to expend school tax funds as authorized by Article VIII, Section VI, Paragraph I(b) of the Constitution in order to comply with the requirements of this Code section.

(d) A local school system may provide separate toilet, locker room, and shower facilities on the basis of ~~gender~~ sex, but such facilities shall be comparable to such facilities provided for students of the other ~~gender~~ sex.

SECTION 5-2.

Title 17 of the Official Code of Georgia Annotated, relating to criminal procedure, is amended in Code Section 17-4-20.2, relating to bias crime report, requirements, use of reports, and publication, by revising the introductory paragraph of subsection (a) through "Investigation," as follows:

"(a) Whenever a law enforcement officer investigates an incident of a crime in which ~~it appears~~ there is reasonable suspicion to believe that the defendant intentionally selected any victim or group of victims or any property as the object of the offense because of such victim's or group of victims' actual or perceived race, color, religion, national origin, sex, sexual orientation, gender, mental disability, or physical disability, whether or not an arrest is made, the officer shall prepare and submit to the law enforcement officer's supervisor or other designated person a written report of the incident entitled 'Bias Crime Report.' Forms for such reports shall be designed and provided by the Georgia Bureau of Investigation."

SECTION 5-3.

Title 20 of the Official Code of Georgia Annotated, relating to education, is amended in Code Section 20-2-315, relating to gender discrimination prohibited, authorized separate gender teams, equal athletic opportunity, physical education classes, employee designated to monitor compliance, grievance procedures, and reporting requirements, by revising subsections (a), (b), (c), (d), (e), and (j) as follows:

"(a) No student shall, on the basis of ~~gender~~ sex, be excluded from participation in, be denied the benefits of, be treated differently from another student, or otherwise be discriminated against in any interscholastic or intramural athletics offered by a local school system, and no local school system shall provide any such athletics separately on such basis.

(b) Notwithstanding the requirements of subsection (a) of this Code section, a local school system may operate or sponsor separate teams for members of each ~~gender~~ sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport. However, where a local school system operates or sponsors a team in a particular sport for members of one ~~gender~~ sex but operates or sponsors no such team for members of the other ~~gender~~ sex, and athletic opportunities for members of that ~~gender~~ sex in that particular sport have previously been limited, members of the excluded ~~gender~~ sex must be allowed to try out for the team offered unless the sport involved is a contact sport. Nothing in this subsection shall be construed to limit the authority of a local school system to operate or sponsor a single team for a contact sport that includes members of both ~~genders~~ sexes. As used in this subsection, the term 'contact sport' includes boxing, wrestling, rugby, ice hockey, football, basketball, and any other sport the purpose or major activity of which involves bodily contact.

(c) A local school system which operates or sponsors interscholastic or intramural athletics shall undertake all reasonable efforts to provide equal athletic opportunity for members of both ~~genders~~ sexes. In determining whether equal opportunities are available the following factors shall be considered:

(1) Whether the selection of sports and levels of competition effectively accommodate the interests and abilities of members of both ~~genders~~ sexes;
(2) The provision of equipment and supplies;
(3) Scheduling of games and practice time;
(4) Travel allowance;
(5) Opportunity to receive coaching and academic tutoring;
(6) Assignment and compensation of coaches and tutors;
(7) Provision of locker rooms and practice and competitive facilities;
(8) Provision of medical and training facilities and services; and
(9) Publicity.

Unequal aggregate expenditures for members of each ~~gender~~ sex or unequal expenditures for male and female teams if a local school system operates or sponsors separate teams will not constitute noncompliance with this subsection, but the failure to provide essential funds for the basic operations of teams for one ~~gender~~ sex may be considered in assessing equality of opportunity for members of each ~~gender~~ sex. Nothing in Code Section 20-2-411 shall be construed to limit the authority of a local school system to expend school tax funds as authorized by Article VIII, Section VI, Paragraph I(b) of the Constitution in order to comply with the requirements of this Code section.

(d) A local school system may provide separate toilet, locker room, and shower facilities on the basis of ~~gender~~ sex, but such facilities shall be comparable to such facilities provided for students of the other ~~gender~~ sex.

(e) This Code section does not prohibit the grouping of students in physical education classes by ~~gender~~ sex."

"(j) The Department of Education may publish an annual report of local school systems to include information regarding expenditures and participation rates for each ~~gender~~ sex and such other information as the state board and department deem relevant."

SECTION 5-4.

or center has sufficient funds to cover the associated costs of providing such information. Information so obtained by such organizations and centers shall be used for a state-wide organ donor registry accessible to organ tissue and eye banks authorized to function as such in this state and shall not be further disseminated."

SECTION 5-5.

Said title is further amended in Code Section 40-5-100, relating to personal identification cards, contents, possession of more than one card prohibited, and optional contributions to and participation in voluntary programs, by revising paragraph (2) of subsection (e) as follows:

"(2) The department shall make available to procurement organizations or secure data centers maintained and managed at the direction of a procurement organization information provided for in Article 6 of Chapter 5 of Title 44, the 'Georgia Revised Uniform Anatomical Gift Act,' including the name, identification card number, date of birth, ~~gender~~ sex, and most recent address of any person who obtains an organ donor identification card; provided, however, that the ~~gender~~ information with respect to one's sex shall be made available only to a procurement organization or secure data center if such organization or center has sufficient funds to cover the associated costs of providing such information. Information so obtained by such organizations shall be used for the purpose of establishing a state-wide organ donor registry accessible to organ tissue and eye banks authorized to function as such in this state and shall not be further disseminated."

SECTION 5-7.

"49-5-22.

(a) The General Assembly finds that just as ~~gender separated~~ toileting separated by one's sex among nonrelatives is the norm among adults, children should be allowed the same opportunity to practice modesty when independent toileting behavior is well established among the majority of their age group. Standardized adherence to this policy would provide privacy, injury control, and sanitation.

(b) Each public or private voluntary pre-kindergarten program in this state which receives state funding shall provide toilet facilities for the four-year-old pre-kindergarten age children which it serves which are suitably screened for privacy. Nothing contained in this Code section shall be construed to require a pre-kindergarten program to provide separately constructed toilet facilities.

(c) The provisions of subsection (b) of this Code section shall not apply to any voluntary pre-kindergarten program which provides separate and ~~gender specific~~ male and female toilet facilities for the children which it serves."

"13-1-15.

(a) As used in this Code section, the term:

Such convenience fee shall be in an amount that represents the actual cost to a lender or merchant; provided, however, that in lieu of the actual cost, a lender or merchant is authorized to collect a convenience fee which does not exceed the average of the actual cost incurred for a specific type of payment made by electronic means for which such lender or merchant imposes a convenience fee, or a fee of up to $5.00, whichever is greater.
