3. Section 24, pertaining to the Department of Education, page 94, line 142.9.
4. Section 24, pertaining to the Department of Education, page 97, line 147.5.

HB 68 - FY 2026 APPROPRIATIONS BILL

INTENT LANGUAGE CONSIDERED NON-BINDING

Section 17, pertaining to the Department of Community Health, page 57, line 91.9:
The General Assembly seeks to instruct the Department of Community Health to establish a grant program within the Department Administration (DCH) program for emergency generators pursuant to the passage of HB 262. HB 262 was not passed by the General Assembly during the 2025 Session and no funding was appropriated for this purpose. Therefore, the Department may disregard the language included in line 91.9.

Section 17, pertaining to the Department of Community Health, page 70, line 107.9:
The General Assembly seeks to instruct the Georgia Composite Medical Board to implement technology for the credentialing of licensed doctors and physician assistants pending passage of SB162. SB162 was not passed by the General Assembly during the 2025 Session and no funding was appropriated for this purpose. Therefore, the Department may disregard the language included in line 107.9.

Section 24, pertaining to the Department of Education, page 94, line 142.9:
The General Assembly seeks to appropriate $268,157 in state general funds to the Department of Education for camp-affiliated staff in the Agricultural Education program. These funds would be used for expenses related to existing administrative staff within the Future Farmers of America (FFA) Foundation. The additional state funding would be used to supplant existing foundation funds used to support these positions and would not result in expanded or enhanced services to students in agricultural education

programs across the state. As these funds would be used to supplant existing support for non-state employees rather than for expansion of student programming, the Department is directed to disregard the language included in line 142.9 and withhold spending the associated appropriation.

Section 24, pertaining to the Department of Education, page 97, line 147.5:
The General Assembly seeks to instruct the Department of Education to utilize existing funds within the Curriculum Development program to provide one Cambridge International program exam for students eligible for free or reduced-price lunch. The budget as passed does not include any additional funding necessary to implement this provision and could direct funds away from other currently authorized program activities. Therefore, the Depa1tment is directed to disregard the language included in line 147.5.

Section 27, pertaining to the Office of the Governor, page 119, line 186.2:
The General Assembly seeks to instruct the Georgia Emergency Management and Homeland Security Agency to establish the Georgia Resilience Office to plan and coordinate statewide resilience and disaster recovery. The agency already conducts planning and coordination of statewide resiliency and recovery efforts through the Hazard Mitigation Grant Program, Flood Mitigation Assistance Program, and Pre-Disaster Mitigation Program. Therefore, as establishing a separate Georgia Resilience Office would be duplicative of current state efforts, the Agency is directed to disregard the language included in line 186.2.

Section 28, pertaining to the Department Human Services, page 132, line 210.1:
The General Assembly seeks to appropriate $89,937 in state general funds to the Department of Human Services for the Council on Aging for personnel. These funds would be used in part to transition a current part-time administrative assistant position to a full-time position. The Council has not seen an administrative workload increase over the prior fiscal year that would necessitate establishing additional full-time staff, nor would such a staffing increase directly result in expanded or enhanced services to the aging community. Therefore, the Department is directed to disregard the language included in line 210.1 and withhold spending the associated appropriation of $56,379.

Section 30, pertaining to the Georgia Bureau of Investigation, page 144, line 228.6:
The General Assembly seeks to appropriate $33,558 in state general funds to the Georgia Bureau of Investigation for the Criminal Justice Coordinating Council to increase funds for operational expenses. These funds would be used to provide salary increases for specific staff outside of a statewide cost-of-living adjustment for state employees. Targeted sala1y increases for staff should be aligned with identified workload or retention needs, which the Council has not identified. Therefore, the Council is directed to disregard the language in line 228.6 and withhold spending the associated appropriation.

Section 41, pertaining to the Board of Regents of the University System of Georgia, page 181, line 284.5:
The General Assembly seeks to appropriate $450,000 in state general funds to the Agricultural Experiment Station program for five new positions dedicated to applied research for specifically listed commodity groups. As the University of Georgia already works closely with agricultural commodity groups in established indust1y research efforts, the University should have the flexibility to determine specific job titles and assignments for the additional positions based on the greatest needs and opportunities of the state's agricultural industry. Therefore, the agency is directed to disregard the language included in line 284.5 and hire and assign positions to ensure maximum statewide benefit.

Section 43, pertaining to the Secretary of State, page 204, line 327.2:
The General Assembly seeks to appropriate $600,047 in state general funds to the Secreta1y of State for the State Elections Board program for operations. As the General Assembly specifically directs that the additional appropriated funds should be to address increased operational expenses, the Board should not utilize funds for new positions. Additional personnel should not be hired by the Board until the impact of positions added in the FY 2025 budget has been assessed and new funds are appropriated specifically for such purpose. Therefore, the Board is directed to utilize the funds included in line 327.2 for technology to support the Board's existing staff and operations.

GOVERNOR BRIAN P. KEMP
2025 SESSION OF THE GEORGIA GENERAL ASSEMBLY VETO MESSAGES AND SIGNING STATEMENT

VETO 1

House Bill 308 would, among other things, empower trial courts to order the installation of an "intelligent speed assistance device" when the registered owner of a vehicle used that vehicle to commit the offense of reckless stunt driving. While this provision is well-intentioned, as such devices could be a valuable tool for preventing street racers from becoming repeat offenders, the bill does not provide the necessary infrastructure to ensure this punishment would be consistently and effectively applied.

For the foregoing reasons, **I VETO HOUSE BILL 308.**

VETO 2

House Bill 380 would dissolve the Lower Chattahoochee Regional Airport Authority.

At the request of the sponsor, **I VETO HOUSE BILL 380.**

VETO 3

House Bill 433 would allow the Department of Human Services ("DHS") to access the full criminal history file maintained by the Georgia Criminal Information Center ("GCIC")—including cases resulting in acquittals, sealed files, dismissed charges, and arrests that never resulted in charges—of any prospective or existing employee or contractor of DHS, any prospective or existing foster parent, or any adult in the home of such foster parent. Separate statutes limit the information on which DHS can base any adverse employment or application decision to criminal convictions, nolo contendere pleas, and pending charges. *See, e.g.*, Code Section 49-2-14.1. These limitations protect such individuals from being adversely treated based on charges that were dropped or never brought. There may be some circumstances in which DHS's interest in protecting the vulnerable populations it cares for outweighs the privacy interest of the individuals on whom DHS conducts records checks. Because DHS could not take any action based

on this restricted information, however, this bill would only create unnecessary invasions of privacy and risks of litigation.

For the foregoing reasons, **I VETO HOUSE BILL 433.**

VETO 4

House Bill 532 would allow counties with 20,000 acres or more of unimproved land owned by the Department of Natural Resources, with such land constituting ten percent or more of the taxable real property in the county, to draw on multiple grant programs concurrently. Current law allows counties to access only one grant program, as each program independently compensates the affected counties for lost property tax revenue. The state's budget for fiscal year 2026 provides appropriations for the full value of lost property tax revenue for eligible counties without requiring any eligible county to draw on both programs. There is no reason, therefore, to allow duplicative grant payments to counties under both programs.

For the foregoing reasons, **I VETO HOUSE BILL 532.**

VETO 5

House Bill 846 would create a homestead exemption from Cherokee County ad valorem taxes in an amount dependent on revenue collected from a retail homestead option sales and use tax, contingent on the passage of legislation authorizing such a tax. Such legislation did not pass the General Assembly.

At the request of the sponsor, **I VETO HOUSE BILL 846.**

VETO 6

Senate Bill 46 would, among other things, require every state "department, agency, division, board, bureau, commission, authority, entity, or instrumentality" outside the University System of Georgia to designate a "lead agency service delivery official" who would report to a new "State of Georgia Government Service Delivery Lead" within the Georgia Technology Authority. The bill would also create annual reporting requirements. Such positions and requirements, even if fulfilled by existing employees, would undoubtedly create additional costs that the General Assembly failed to fund.

For the foregoing reasons, **I VETO SENATE BILL 46.**

VETO 7

Senate Bill 238 changes the composition of the Rockdale County Board of Commissioners from a county-wide elected chairperson and two commissioners to five commissioners elected on an at-large basis with the chairperson selected among the commission members. Rockdale County voters elected a new chairperson to serve their county commission for a four- year term on November 5, 2024. Senate Bill 238 would circumvent the will of the voters by cutting the chairperson's four-year term short and reassigning the chair to a newly created commission seat. Such a significant overhaul of the county's government structure deserves more thorough consideration by the Rockdale County government and the local delegation than is possible before this year's general election.

For the foregoing reasons, **I VETO SENATE BILL 238.**

SIGNING STATEMENT 1

Senate Bill 255 codifies the procedure by which committees of either chamber of the General Assembly issue subpoenas in furtherance of the General Assembly's inherent oversight function. Senate Bill 255 was vigorously debated throughout the legislative session. After careful analysis, I signed Senate Bill 255.

Senate Bill 255 neither creates nor limits the power of the General Assembly to issue subpoenas; it merely provides a procedure for the issuance and enforcement of such subpoenas. Other statutes already affirm the General Assembly's power to conduct investigations and compel testimony, and "[n]o law enacted by the General Assembly shall be construed to limit its powers." GA. CONST. ART. III, § 6, ¶ III. Even if Senate Bill 255 was not signed into law, the General Assembly's authority would remain unchanged. Senate Bill 255 provides needed clarity on the procedural elements of legislative subpoenas.

I caution the General Assembly, however, that the procedures set forth in Senate Bill 255 should be used judiciously and sparingly. The General Assembly has a well-earned reputation for putting the business of legislating—and the people of Georgia—first. Americans of all political leanings have lamented the ineffectiveness of the United States Congress, in no small part due to the abundance of politically motivated "investigations" which only generate sound bites and distract from important legislation. I sincerely hope that in the future, Georgians do not similarly lament the General Assembly.

Dear Governor Kemp,

Following consultation with the Secretary of State's office, I have decided to amend my retirement date from the Georgia House of Representatives to **September 5, 2025**, instead of the previously announced date of **August 4, 2025**. This adjustment is intended to align the resulting special election with the regularly scheduled Public Service Commission elections in November 2025, thereby reducing costs associated with holding a standalone election.

Thank you for your leadership and for the privilege of serving as part of Georgia's legislative body. I remain committed to supporting the continued progress of our state and those who will carry forward the vital work of building a better Georgia.

With sincere gratitude and respect,

The Honorable Brian P. Kemp

State Capitol
Atlanta, Georgia 30334

Dear Governor Kemp,

Please accept this letter as formal notice of my resignation from the Georgia House of Representatives as the elected Representative for House District 130, effective **January 5, 2026**.

This decision follows careful consideration of my constitutional residency obligations under **Article III, Section II, Paragraph II of the Georgia Constitution**, after my primary residence sustained severe structural damage as a result of Hurricane Helene. As recovery efforts have continued, the rebuilding process has reached an impasse, creating uncertainty that makes it difficult to confidently maintain constitutional residency while continuing legislative service.

I am deeply grateful for your leadership during a period of significant challenge for Georgia, particularly in guiding the state through disaster recovery, economic resilience, and support for military families and veterans. It has been an honor to serve during your administration and to contribute, in my role, to advancing policies that strengthen our communities.

While my service in elected office concludes, my commitment to the people of Georgia remains steadfast. I will continue to support our state and its citizens in every appropriate capacity.

Thank you for the opportunity to serve.

Respectfully,

Lynn Heffner
State Representative, House District 130

The hour of convening the Joint Session pursuant to HR 997 having arrived, the Senate appeared upon the floor of the House, and the Joint Session, convened for the purpose of hearing an address from the Governor, was called to order by the Speaker of the House, Jon Burns.

The Resolution calling for the Joint Session was read.

Accompanied by the Committee of Escort and other distinguished guests, His Excellency, Governor Brian P. Kemp, appeared upon the floor of the House and delivered the following address:

Lt. Governor Jones, Speaker Burns, President Pro Tem Walker, Speaker Pro Tem Jones, members of the General Assembly, my fellow Constitutional Officers, Mayor Dickens, members of the judiciary, members of the consular corps, and my fellow Georgians:

As we begin a new year, there are many reasons to be optimistic about the future of our state and its people. State taxes on hardworking Georgians are low and going lower, our rainy day fund is at a record high, our schools are fully funded, our infrastructure is receiving historic investments, and our state law enforcement and educators are paid more today than they were seven years ago.

Our communities are safer; unemployment is low; more new, private sector jobs are being created every day; and businesses around the country and the world know Georgia is the place to be.

Our ports are busy and growing, our kids have some of the finest technical colleges and universities in the country to choose from, and our economy is diverse and built to last.

Innovation, opportunity, hard work, and a fair shot at the American Dream have a home in the great State of Georgia.

There is no question the state of our state is stronger, more prosperous, and safer today than it was in January of 2019. But I want to be clear. This success -- this "good news" -- isn't guaranteed. It doesn't happen by default or accident. There's more work to be done and more wood to chop to make sure Georgia continues to be the best place to live, work, and raise a family for generations to come.

I believe that starts with continuing to address hardworking Georgians' concerns over the persistently high cost of living and everyday necessities. Since 2021, working together with this General Assembly, we have provided one-time tax relief to the tune of over 3.2 billion dollars, property tax relief of nearly 1 billion, over 2.2 billion in motor fuel tax suspensions, and permanent income tax savings of nearly 3.4 billion.

That's almost 9.7 billion dollars that have helped hardworking Georgians fight through the record high inflation forced upon all of us by the previous administration in D.C. and a Congress that couldn't put down the nation's credit card.

These are historic investments in families, recent college graduates looking to start a career, seniors on fixed incomes, and single parents just trying to make ends meet. But these investments were possible because we rejected the idea that just because government takes in more money it should turn right around and spend more of your money to grow more government.

California may think that way, New York may think that way, but in Georgia we do things differently. We keep your tax burden low, we budget conservatively and responsibly and ensure state government is efficient with the dollars you trust us with. And at the end of the day, if we have more than we need, we give it back to the people who actually earned it.

As Marty, the girls, and I travel all across our state we hear from Georgians from all walks of life, hardworking people trying to put food on the table for themselves and their families. And the reality is that too many of our citizens are still struggling to make ends meet and everyday costs are still too high.

Groceries, rent, insurance, clothes for the kids -- it all adds up to more than it used to. That's why my budget proposal will include a fourth, one-time, 1-billion-dollar tax rebate this year that will return or save the average filer 250 dollars and a married

couple up to 500 dollars. With this rebate, my administration and this General Assembly will have returned over 7.5 billion dollars in surplus revenue to the taxpayers of our state over the last four years!

But we also know that one-time relief is a short-term solution that recognizes the state has collected more of your tax dollars than it needs to fund our priorities and save for whatever the future may bring. We must continue doing everything in our power to allow the hardworking men and women of our state to keep more of their hard-earned money in their pocket in the years to come. Because as I've said before: that's your money -- not the government's.

That's why my administration will also be proposing a further 20-basis point reduction in our state's personal and corporate income tax rate, bringing it to just 4.99 percent! This will be a fulfillment of my promise to the people of Georgia during my re-election campaign to lower our state income tax rate under five percent, and with the General Assembly's passage and my signature it will come a full three years ahead of schedule! This tax cut doesn't promise to pay for itself years down the road or create future budget holes with today's one-time money. Our plan fulfills my promise to the voters of this state in a responsible way. And most importantly, this plan puts ALL the hardworking people of our state first.

The reason we've been able to do this -- and three years ahead of schedule -- is because of our fiscal discipline. It's also worth noting a few other important accomplishments from the last few years that may not make headlines or please those who constantly advocate for bigger government.

Even with the rebate and tax cuts that my office will be proposing this legislative session, our state's rainy-day fund and strategic reserves will stand at over 10 billion dollars. Those reserves are four times higher than any administration will leave behind in our history -- and enough to run state government for three months.

But I also want to provide a word of caution for the future: it is not a question of if hard times will hit our state again. It is simply a question of when.

When Governors Perdue and Deal were fighting alongside members of the General Assembly to pull our state through the Great Recession, billions more in state reserves would have been a critical lifeline as Georgia families, our state, and our country were experiencing incredible economic hardship.

But as good leaders do, both governors made tough choices in tough times to make sure our state weathered the storm. And they both -- along with members of this legislature who served with them -- deserve our thanks and gratitude for their leadership.

Fast forward to today and Georgia stands in a historic position to confidently face whatever the future may bring. Showing fiscal restraint in continuing to build on these reserves instead of spending it all in the future may not be popular or easy. But the Georgia of today that has been built over the last twenty-five years does not stand on sticks made of "easy," or "politically convenient."

The Georgia of today stands on a firm foundation – a foundation built on the character of our people, the resolve of leaders both past and present, and by the Grace of our Creator. So, when the storms of tomorrow come, it is my hope that we will share in a commitment to keeping the state we all love on that firm foundation.

Our state reserves are just one area that we have made historic strides in to set Georgia up for future success and prosperity. From the 2024 budget through the proposed Amended 2026 budget, 4.1 billion dollars in capital projects have been funded through cash instead of debt. This strategic investment will save Georgia taxpayers -- and future state appropriators - 3.3 billion dollars in interest payments over the next 20 years.

The cash-funding of capital projects we began in fiscal year 2024 has allowed us to reduce outstanding debt by over 20 percent in just three years and the ratio of our state's debt service to revenues is just 3 percent, the lowest since the state began issuing debt bonds in the 1970s.

These savings were all made while implementing historic tax cuts, returning billions to taxpayers, and investing over 6 billion dollars in water, sewer, and transportation projects across the state.

Refusing to grow government, budgeting conservatively, and paying off debt aren't flashy. They don't get you on cable news, make you famous on social media, or fit on a bumper sticker, and that might be why Washington is so allergic to them.

But I learned a long time ago building houses that it's better to be a work horse than a show horse. Because work horses deliver results ahead of schedule, under budget, and do right by the customer, and that's exactly what we've done together for the people of our state.

Another key investment this General Assembly and my administration has made is in our state workforce. During my administration, we have reduced our state employee turnover rate by over 25 percent, all while keeping the size of our full-time state workforce at 2019 levels. We've invested in a vital workforce, saved taxpayer dollars in training and equipping new employees, and utilized innovation and technology to better deliver state services.

Our state employees have done incredible work in unprecedented times and are one of the driving forces behind Georgia's success. That's why today, I'm proposing a one-time 2,000-dollar pay supplement for all state employees -- including our educators and state public safety officers.

This is just another reminder -- on top of the pay raises and supplements we have provided in years past -- that their hard work does not go unnoticed and that we are truly thankful.

Let's all give them a hand!

These important investments, tax cuts, rebates, and record state reserves would not be possible without the drive and hard work of millions of Georgians who get up every day and do the best they can to provide for themselves and their families. They go to work chasing the American Dream, hoping to earn an honest living, and leave their kids and grandkids better off than they had it.

That's the American Spirit and the spirit of what it means to be a Georgian.

When I launched my campaign for governor, it was about promising those hardworking Georgians that I would fight for them every day, whether they voted for me or not, regardless of their neighborhood or zip code.

Republican or Democrat or something in between, my goal was to make a positive difference in their lives.

As a small business owner and a construction guy, I believe so much good can come out of an honest day's work at a job that pays a good wage. And I believe in what that job can do for not only that employee, but also their family and their community.

That's why my administration, from day one, has prioritized economic development, job creation, and bringing investment to all four corners of our state. Over the last seven years, Georgia has seen over 219,700 new jobs and more than 118 billion dollars in investment from projects worked by the state economic development team. 64 percent of those jobs and 75 percent of those investment dollars are going to communities outside the metro-Atlanta region.

Since 2019, we've welcomed the three largest economic development projects in state history and continued Georgia's streak as the number one state for business for an unprecedented 12 years in a row. But here in the best state for business, we don't just welcome big companies, we also champion small businesses that have a big impact on communities.

A great example is La Regina -- an Italian food production company with a facility in Alma, Georgia, that employs 110 hardworking men and women. That facility also happens to be a former bakery that went out of business years ago.

To that community of less than 4,000 people, the loss of an employer like that can be devastating. But because we prioritized economic development in rural Georgia, La Regina came in and revitalized that facility and created 110 jobs that are making a real and lasting difference, with more on the way.

The impact of this small business extends far beyond Alma's borders. In addition to moving plenty of goods through the Port of Savannah, La Regina also purchases local produce from over 100 Georgia farmers, including more than 40,000 pounds of onions per week!

With touchpoints throughout that region of our state that one small employer produced a record 25 million jars of pasta sauce last year, alone.

When Marty and I went to southern Italy in 2024, we visited the headquarters of this family-owned and operated business. We talked to the men and women who have preserved their family's recipes for over 100 years, and we saw how similar their values were to the very family-owned farms and businesses here in Georgia that La Regina supports.

That company -- a full ocean away from our state -- has the same values that we do: family, community, and a strong belief in a hard day's work.

Today we're joined by two La Regina company leaders who represent how small-town Georgia and international markets truly connect, all to the benefit of our workers. In the gallery is Emidio Rinaldi, Chief Operating Officer of La Regina who moved his entire family to Georgia. He is joined by Jerry Lady, the plant manager and employee number one for La Regina's Georgia facility. He was also the former bakery manager for the company that closed down.

Will both of you stand and let us recognize you?

Whether the size of the Hyundai Metaplant or the La Regina food processing center, each project, facility, job, or investment represents a generational opportunity for a Georgia family and their community. And one of the biggest reasons these job creators of all sizes choose Georgia is our highly-skilled and reliable workforce.

Over these last seven years, we've put more money toward education and workforce training programs than ever before in our state's history. In fact, as of this current fiscal

year, we have not only fully funded QBE seven times but added an additional 368 million dollars to programs and initiatives that directly prepare workers for good jobs. We've also set new precedents when it comes to school safety, starting with the first year of my administration. We began with three campus security grants totaling over 184.5 million dollars and then added 109 million dollars into the base budget so every school system can plan for how best to keep our classrooms -- and the children in them -- safe.

We will again fulfill that commitment in this year's budget, bringing the total amount we have allocated to school safety during my time in office to over 511 million dollars! I want to take a moment to also congratulate and thank the members of this body -- both past and present -- who joined my administration in achieving something that not many people thought possible when I was sworn in as governor 7 years ago. In fact, when I pledged in 2018 to raise teacher pay by 5,000 dollars, I remember a former opponent of mine that claimed I was making "false promises" to educators across our state.

Well, in a way, the media and the doubters were right. We didn't raise teacher pay by 5,000 dollars – we raised it by 9,500 dollars!

This historic investment in our educators increased the starting salary for a Georgia teacher by almost 28 percent. You don't have to get an A in Math to know that's an impressive jump. Let's take a moment to thank all the hardworking Georgians who lead our classrooms, pour into our students, and help make our state a better place.

In addition to K-12, we have also made historic investments in our postsecondary education institutions and programs while reducing costs for students and families. Over the last several years, we have worked together to return the HOPE Scholarship to 100 percent of its promise, all while the Board of Regents has held tuition costs in check across the system so greater opportunity in Georgia can remain affordable.

Contrast that with other states that have again and again raised the cost of higher education, all while inflation reached 40-year highs under the prior administration. The University of California system, for instance, raised tuition by roughly 19 percent between 2019 and the current academic year. But here in Georgia, tuition has increased by just five percent in that same period, and your partnership in eliminating the special institutional fee helped us lessen the impact of those increases on hardworking families and students.

In fact, data from the National Center for Education Statistics shows that Georgia is one of the top states in the country for four-year public university affordability!

And while we've kept the cost of higher education in check and college within reach of Georgia families, we've also invested more in postsecondary education than ever before. We're now putting 2 billion additional dollars toward higher education in Georgia than when I first took office.

That includes 40.7 million dollars in this year's budget proposals, alone, for healthcare education facilities and medical workforce training programs. And since I first took office, we've spent over 26 million dollars for medical residency slots in our state, adding 897 positions for a grand total of 2,523 residency slots as of this fiscal year.

This year, my budget proposal adds another 2.1 million dollars to further this upward trend in such a critical workforce need.

Along with these unprecedented investments, Georgia is truly the national leader in merit-based aid for higher education between the HOPE Scholarship and Grant programs. But in this era of high prices and new challenges for those graduating from high school, we also recognize the advantage need-based financial assistance can give to those who would not otherwise be able to access higher education.

Like their peers who have the means to attend college, these students have great dreams for rewarding careers and impactful lives. But they do not always have hope that those dreams can become reality.

Dreams without the benefit of hope remain dreams deferred, perhaps for entire generations.

How much richer would their lives and those of their families be if they could attain the type of education that leads to a high-paying job with great benefits? And how much would communities across our state benefit from these young people getting a degree that opens a door or starts a rewarding career?

I believe we owe it to every child to ensure they start out on a level playing field, no matter their zip code. Therefore, my Amended budget proposal invests 325 million dollars in the University System of Georgia's DREAMS Scholarship program -- the first need-based scholarship of its kind in Georgia history!

In future years this one-time endowment will create opportunities for generational economic advancement for thousands of students, and down the road it will allow them to complete college and begin meaningful careers without the burden of crippling debt. The DREAMS Scholarship will build on the incredible, unmatched legacy of the HOPE Scholarship and leave no stone unturned when it comes to student achievement in our state. From now on, throughout the country Americans will know that HOPE and DREAMS are alive and well in Georgia!

This unprecedented initiative will also complement the Georgia MATCH program we launched in 2023. In just the first two years of MATCH, we've seen a 5.9 percent rise in USG enrollment and a 7.1 percent increase in TCSG enrollment. Meanwhile, other states around the country have seen decreases in public university enrollment and seventeen states are still well below pre-pandemic levels.

Not only is Georgia's workforce strong and growing, we'll continue to outpace our competitors for at least another generation in this regard. When you consider all of these measures together, it is clear to see that our commitment to those just beginning their careers in Georgia is unwavering.

But so, too, is our commitment to those preparing to finish careers of valued service to the people of our state -- men and women who face danger on a regular basis to protect our communities.

Marty, the girls, and I feel the weight and value of their service and daily sacrifices on a very real and personal level. We have seen firsthand the uncommon bravery they embody, and we have mourned with their families when their service has come to a tragic end. We have been reminded countless times of just how exceptional they are for answering the call to serve when law enforcement are under siege more than ever before.

That is why today I am proposing an enhanced retirement plan for state law enforcement officers. Under this new model, the state would provide a higher match to the 401(k) savings accounts of eligible public safety officers' through a steeper contribution schedule.

Not only will the state's match increase at a higher rate, we will also raise the maximum percentage cap from 9 percent under the current plan to 15. By year ten of an officer's service to the state -- three full years before they would reach the contribution cap under the current plan -- they will have already attained the new maximum match of 15 percent.

When you contrast that to the current system, we are effectively doubling the state's contribution for state law enforcement.

I believe this is well deserved, given the dangers they face in today's world, but this new model will also help us better recruit and retain brave and capable public safety officers and will put Georgia's law enforcement retirement plan well ahead of other states.

Those who are P.O.S.T. certified, who run toward danger, who help shield even the people who try to vilify them deserve a safe and assured retirement, and we're going to give it to them!

Our commitment to law enforcement in Georgia is matched only by our unrelenting determination to go after those who operate in the evil industry of human trafficking. Thanks to the tireless efforts of the best first lady in the country and the members of the GRACE Commission who are champions in this fight, you have overwhelmingly passed ten pieces of legislation that make Georgia a safe haven for victims and a hostile place for traffickers.

Those measures include the launch of the Human Trafficking Prosecution Unit within Attorney General Chris Carr's Office. Since its creation in 2019, that Unit has secured more than 70 convictions and rescued and assisted over 200 children!

With your help in the legislature, we have also expanded this Unit with two new regional offices through funding in the Amended 2025 and 2026 budgets. I know that our first lady would want me to take this opportunity to thank all of you for your continued support in this fight over the years, whether through legislation or budgetary actions.

While we have made incredible strides in this area, and while Georgia is now the undisputed national leader in anti-human trafficking policy, the fight is not over.

That is why my team will introduce an eleventh bill in the coming days that will further protect children, expose abusers, and save lives by preventing the silence imposed on far too many victims. Modeled after Trey's Law passed in other states, it will be just the latest reminder that no child should be a victim of such evil acts.

As a mother of three beautiful daughters, as someone who spent time as an assistant Pre-K teacher and a middle school substitute teacher, as an unwavering supporter of those in our state's foster care system, and as a first lady who never fails to have a smile and a hug for the children she meets throughout Georgia, Marty has truly been the perfect person to lead this cause to make sure Georgia's sons and daughters are safe.

Her GRACE under fire, along with the work of those who have been in the trenches on this issue for decades, created a turning point in this state when it comes to identifying and stopping this crime that affects every county and hides in plain sight. Though our work here is now in its final year, the impact of her anti-human trafficking efforts -- and that of so many others in this room and beyond -- will be felt for whole generations. Will you join me in thanking her and all those who have fought this good fight?

Just as we have made historic progress in fighting human trafficking, we've also made monumental strides in going after violent gangs. If you'll recall just a few short years ago, members of the Atlanta media didn't think our state faced a gang problem.

They weren't listening to the sheriffs and prosecutors who were witnessing firsthand the rise of gang-related violent crime in their local community. But the members of this body and my administration were.

In 2019, my office worked with many of you to stand up and fund the Anti-Gang Taskforce within the GBI and then later the Gang Prosecution Unit within the Attorney General's office.

Since then, the GBI has investigated over 1,800 gang-related cases and arrested close to 2,500 offenders with a gang affiliation. They have also seized over 95 million dollars in drugs and other illegal items associated with those crimes. That's 95 million dollars' worth of illegal substances and dangerous weapons that are not in our schools… on our streets… or threatening our neighborhoods.

Complementing the GBI's good work, the Attorney General's Gang Prosecution Unit has also investigated and prosecuted cases in 19 counties, securing over 120 convictions across the state. We're also taking the fight to gang members and other dangerous criminals on the very streets where they operate through the Crime Suppression Unit, now in its fifth year.

With the combined resources and personnel of multiple state public safety agencies partnering with local law enforcement, the CSU has found and arrested 1,340 wanted persons, helped to take dangerous drugs off our streets by arresting 557 traffickers and carriers, recovered 1,179 stolen vehicles, and apprehended 49 murder suspects.

Here's a news flash to those who try to demonize law enforcement: this is what happens when you let them simply do their jobs!

Please join me in thanking the men and women of these units for their dedication to keeping our families and communities safe!

As you all know, this is my final time speaking to you in a State of the State address as your governor. Some of you may be more happy about that than others.

Please know that it has been an incredible honor for Marty, the girls, and me to serve as your First Family. We've done this together every step of the way, and I'd like to take a moment and ask if you'd join me in again recognizing Marty and the girls for their service over the last seven years.

I'd also like to thank my mom, my sister, and her family who are also here today!

Today, I've talked a lot about past accomplishments and some very important issues that I believe we must address in our final legislative session serving together.

Don't be fooled, there's more work to be done over the next 37 legislative days. And for those who may think I'm a lame duck, well, I still have a big red pen!

But seriously, as I was thinking about what to say to my last captive legislative audience, I was reminded of an old hymn, written in 1924 called "Little Is Much When God Is In It."

The first and second verse say the following:

"In the harvest field now ripened
There is a work for all to do
Hark, the Master's voice is calling
To the harvest, calling you.
Does the place you're called to labor
Seem so small and little known?
Well, it is great if God is in it
And He will not forsake His own."

In God's Word, we have so many examples of little acts of faith reaping more than one could imagine, often done by people of lesser means or lower standing in society but filled with God's power and guided by His design.

My family's service to this state will be a small footnote in the history books. Your service under this Gold Dome will likely be the same.

When compared to the heroes of our faith or the everyday actions of so many heroes across our state, our service pales in comparison. Our goal as elected leaders was to do the best we could for the people who sent us here to serve in this building. We worked together to make their communities safer, their dreams more achievable, their lives more prosperous, and their futures a little brighter.

When I put my hand on the Bible that Marty was holding in January of 2019, I didn't know what choices would face us. I didn't know what challenges would come. While the last seven years have seemed so big in our lives -- the many decisions and the outcomes -- the truth is that the budgets, new laws, pandemics, elections, legislative debates, political arguments, at the end of the day, they are small.

They're small when compared to the plan of the Master Builder, our Creator.

But my hope, my prayer, is that God would be in those small things of our service together. Because I believe He can take what we helped build for the people of our state and make it great.

The last verse and chorus of that hymn I mentioned says this:

"And when the conflict here has ended…
And our race on Earth is run
He will say, "If you've been faithful
Welcome home, My child, well done."
Little is much when God is in it
Labor not for wealth or fame
There's a crown, and you can win it
If you go in Jesus' name."

Let's go finish the race.

Like Nehemiah said, let's finish the "great work" we started.

Thank you, may God bless you, and may God continue to bless the great State of Georgia!

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Code Section 15-6-2 of the Official Code of Georgia Annotated, relating to the number of judges of superior courts, is amended by revising paragraph (26) as follows:

"(26) Northeastern Circuit.....~~5~~ 6"

SECTION 2.

One additional judge of the superior courts is added to the Northeastern Judicial Circuit, thereby increasing to six the number of judges of said circuit.

SECTION 3.

Said additional judge shall be appointed by the Governor for a term beginning January 1, 2027, and continuing through December 31, 2028, and until his or her successor is elected and qualified. His or her successor shall be elected in the manner provided by law for the election of judges of the superior courts of this state at the nonpartisan judicial election in 2028 for a term of four years beginning on January 1, 2029, and until his or her successor is elected and qualified. Future successors shall be elected at the nonpartisan judicial election every four years thereafter for terms of four years and until their successors are elected and qualified. The newly elected and qualified judge shall take office on the first day of January following the date of the election.

SECTION 4.

The additional judge of the superior courts of the Northeastern Judicial Circuit shall have and may exercise all powers, duties, dignities, jurisdiction, privileges, and immunities of the present judges of the superior courts of this state. Any judge of the Northeastern Judicial Circuit may preside over any cause, whether in their own or in other circuits, and perform any official act as judge thereof, including sitting on appellate courts as provided by law.

SECTION 5.

The qualifications of such additional judge and his or her successors shall be the same as are now provided by law for all other superior court judges, and his or her compensation, salary, and expense allowance from the State of Georgia and from the counties comprising the Northeastern Judicial Circuit shall be the same as are now provided by law for the other superior court judges of such circuit. The provisions, if any, enacted for the supplementation by the counties of such circuit of the salary of the judges of the superior courts of the Northeastern Judicial Circuit shall also be applicable to the additional judge provided for by this Act.

SECTION 6.

All writs and processes in the superior courts of the Northeastern Judicial Circuit shall be returnable to the terms of such superior courts as they are now fixed and provided by law, or as they may hereafter be fixed or determined by law, and all terms of such courts shall be held in the same manner as though there were but one judge, it being the intent and purpose of this Act to provide six judges equal in jurisdiction and authority to attend and perform the functions, powers, and duties of the judges of such superior courts and to direct and conduct all hearings and trials in such courts.

SECTION 7.

Upon and after qualification of the additional judge of the superior courts of the Northeastern Judicial Circuit, the judges of such circuit may adopt, promulgate, amend, and enforce such rules of practice and procedure in consonance with the Constitution and laws of the State of Georgia as they deem suitable and proper for the effective transaction of the business of the court; and, in transacting the business of the court and in performing their duties and responsibilities, they shall share, divide, and allocate the work and duties to be performed by each. In the event of a disagreement among the judges in respect hereof, the decision of a majority shall control, or, in the absence of a majority, the decision of the chief judge shall be controlling. The judges of the superior courts of the Northeastern Judicial Circuit shall have and are clothed with full power, authority, and discretion to determine from time to time and term to term the manner of calling the dockets, fixing the calendars, and order of business in such courts. They may assign to one such judge the hearing of trials by jury for a term and the hearing of all other matters not requiring a trial by jury to the other judges, and they may rotate such order of business at the next term. They may conduct trials by jury at the same time in the same county or otherwise within such circuit, or they may hear chambers business and motion business at the same time at any place within such circuit. They may provide in all respects for holding the superior courts of such circuit so as to facilitate the hearing and determination of all the business of such courts at any time pending and ready for trial or hearing. In all such matters relating to the fixing, arranging for, and disposing of the business of such courts and making appointments as authorized by law where the judges thereof cannot agree or shall differ, the opinion or order of the chief judge as provided for in this Act shall control.

SECTION 8.

The drawing and impaneling of all jurors, whether grand, petit, or special, may be conducted by any of the judges of the superior courts of such circuit; and they, or any one such judge, shall have full power and authority to draw and impanel jurors for service in such courts so as to have jurors for the trial of cases before any such judges separately or before each of them at the same time.

SECTION 9.

The judges of the superior courts of the Northeastern Judicial Circuit shall be authorized and empowered to appoint an additional court reporter for such circuit, whose compensation shall be as now or hereafter provided by law.

SECTION 10.

All writs, processes, orders, subpoenas, and any other official paper issuing out of the superior courts of the Northeastern Judicial Circuit may bear teste in the name of any judge of the Northeastern Judicial Circuit and, when issued by and in the name of any judge of such circuit, shall be fully valid and may be heard and determined before the same or any other judge of such circuit. Any judge of such circuit may preside over any case therein and perform any official act as judge thereof.

SECTION 11.

Upon request of any judge of the circuit, the governing authorities of the counties comprising the Northeastern Judicial Circuit shall be authorized to furnish the judges of such circuit with suitable courtrooms and facilities, office space, telephones, furniture, office equipment, supplies, and such personnel as may be considered necessary by the court to the proper functioning of the court. All of the expenditures authorized in this Act are declared to be an expense of the court and payable out of the county treasury as such.

SECTION 12.

Except as expressly stated, nothing in this Act shall be construed to alter or repeal any provision of any local Act relating to the Northeastern Judicial Circuit. Nothing in this Act shall be deemed to limit or restrict the inherent powers, duties, and responsibilities of superior court judges provided by the Constitution and statutes of the State of Georgia.

SECTION 13.

This Act shall become effective for the purposes of appointing the additional judge upon its approval by the Governor or upon its becoming law without such approval, and for all other purposes on January 1, 2027.

SECTION 14.

All laws and parts of laws in conflict with this Act are repealed.

A BILL to be entitled an Act to amend Article 1 of Chapter 34 of Title 43 of the Official Code of Georgia Annotated, relating to Georgia Composite Medical Board, so as to provide for the board to implement an automated credentialing system for healthcare providers in this state; to provide for requirements; to provide for related matters; to repeal conflicting laws; and for other purposes.

The following Committee substitute was read and adopted:

A BILL TO BE ENTITLED
AN ACT

To amend Article 1 of Chapter 34 of Title 43 of the Official Code of Georgia Annotated, relating to Georgia Composite Medical Board, so as to provide for the board to implement an automated licensing system for certain healthcare providers in this state; to provide for guidelines; to provide for a short title; to provide for legislative declarations and intent; to provide for contingent effectiveness and automatic repeal; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.
This Act shall be known and may be cited as "The Paul Brock Act."

SECTION 2.
The Georgia Composite Medical Board has recently implemented a new data management system used in the licensing of healthcare providers. It is the intent of the General Assembly that this new system be further modified to allow healthcare providers to input credentialing information specific to their facility with the outcome being that, once credentialed and licensed in Georgia, the healthcare provider would be available to all healthcare facilities without the need for additional credentialing.

SECTION 3.
Article 1 of Chapter 34 of Title 43 of the Official Code of Georgia Annotated, relating to Georgia Composite Medical Board, is amended in Code Section 43-34-6, relating to board as an independent agency, executive director, meetings and hearings, licenses, certificates, and permits, investigations, venue, credit to veterans, and annual report, by adding new subsections to read as follows:

"(k) No later than January 1, 2027, the board shall modify its data management software system to streamline and automate the licensing process for physicians, physician assistants, and anesthesiologist assistants. No later than January 1, 2027, such system shall be fully operational for other healthcare providers licensed by the board.

(l) The system provided for in subsection (k) of this Code section may:

(1) Organize, verify, and store the licenses of healthcare providers, allowing for a single verification process that results in authorization state wide, provided that a healthcare facility, licensee, or applicant inputs the credentialing information and agrees to such authorization;

(2) If available, be customizable so that a healthcare facility can add requirements to meet such facility's rules, regulations, or bylaws;

(3) Allow any healthcare facility to accept the information for licensing as acceptance for credentialing and any healthcare provider to add additional requirements for credentialing in their facility;
(4) Allow for administrative approval of licenses by the board to provide for physicians, physician assistants, and anesthesiologist assistants to be available for employment immediately upon meeting all requirements; and
(5) Perform any other functions the board deems necessary to improve licensing processes under this chapter."

SECTION 4.

This Act shall become effective only if funds are specifically appropriated for the purposes of such Act in an appropriations Act enacted by the General Assembly and shall stand repealed by operation of law on December 31, 2030, if no such funding becomes available before such date.

SECTION 5.

All laws and parts of laws in conflict with this Act are repealed.

A BILL TO BE ENTITLED
AN ACT

To amend Chapter 5 of Title 21 of the Official Code of Georgia Annotated, relating to government transparency and campaign finance, so as to revise the definition of "person" to include certain nonresidents of the state; to provide time periods for responding to civil actions brought by the Attorney General pursuant to this chapter; to provide for award of default judgments in such actions; to provide time periods for hearings on such actions; to provide the State Ethics Commission with supplementary investigatory powers related to persons, documents, or information located outside of the state; to revise venue provisions to address out-of-state persons; to provide for related matters; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 5 of Title 21 of the Official Code of Georgia Annotated, relating to government transparency and campaign finance, is amended in Code Section 21-5-3, relating to definitions, by revising paragraph (19) as follows:

"(19) 'Person' means an individual, partnership, committee, association, corporation, limited liability company, limited liability partnership, trust, professional corporation, or other business entity ~~recognized in the State of Georgia~~, labor organization, or any other organization or group of persons, and shall include a 'nonresident' as that term is defined in Code Section 9-10-90 who commits an act or omission or transacts business within the state which if performed by a resident of this state would be subject to this chapter."

SECTION 2.

Said chapter is further amended in Code Section 21-5-6, relating to powers and duties of the State Ethics Commission, by revising paragraph (14) of subsection (b) and adding a new subsection to read as follows:

"(14) To issue orders, after the completion of appropriate proceedings, directing compliance with this chapter or prohibiting the actual or threatened commission of any conduct constituting a violation. Such order may include a provision requiring the violator:

(A) To cease and desist from committing further violations;

(B) To make public complete statements, in corrected form, containing the information required by this chapter;

(C)(i) Except as provided in paragraph (2) of Code Section 21-5-7.1, to pay a civil penalty not to exceed $1,000.00 for each violation contained in any report required by this chapter or for each failure to comply with any other provision of this chapter or of any rule or regulation promulgated under this chapter; provided, however, that a civil penalty not to exceed $10,000.00 may be imposed for a second occurrence of a violation of the same provision and a civil penalty not to exceed $25,000.00 may be imposed for each third or subsequent occurrence of a violation of the same provision. In imposing a penalty or late filing fee under this chapter, the commission may waive or suspend such penalty or fee if the imposition of such penalty or fee would impose an undue hardship on the person required to pay such penalty or fee. The commission may also waive or suspend a penalty or fee in the case of failure to file or late filing of a report if there are no items to be included in the report. For the purposes of the penalties imposed by this division, the same error, act, omission, or inaccurate entry shall be considered a single violation if the error, act, omission, or inaccurate entry appears multiple times on the same report or causes further errors, omissions, or inaccurate entries in that report or in any future reports or further violations in that report or in any future reports.

(ii) A civil penalty shall not be assessed except after notice and hearing as provided by Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' The amount of any civil penalty finally assessed shall be recoverable by a civil action brought in the name of the commission. All moneys recovered pursuant to this Code section shall be deposited in the state treasury.

(iii) The Attorney General of this state shall, upon complaint by the commission, or may, upon the Attorney General's own initiative if after examination of the complaint and evidence the Attorney General believes a violation has occurred, bring an action in the superior court in the name of the commission for a temporary restraining order or other injunctive relief or for civil penalties for a violation of any provision of this chapter or any rule or regulation duly issued by the commission.

(iv) Any action brought by the Attorney General to enforce civil penalties for a violation of the provisions of this chapter or of any rule or regulation duly issued by the commission or any order issued by the commission ordering compliance or to cease and desist from further violations shall be brought in the superior court of the county of the residence of the party against whom relief is sought. Service of process shall lie in any jurisdiction within the state. In such actions, the superior court inquiry shall be limited to whether notice was given by the commission to the violator in compliance with the Constitution and the rules of procedure of Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act.' Upon satisfaction that notice was given and a hearing was held pursuant to Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act,' the superior court shall enforce the orders of the commission and the civil penalties assessed under this chapter and the superior court shall not make independent inquiry as to whether the violations have occurred. Notwithstanding any provision of Chapter 13 of Title 50, the 'Georgia Administrative Procedure Act,' to the contrary, in any such action if the party against whom relief is sought has not filed a response within 30 days of being served with process in such action, a default judgement shall be entered against the party against whom relief is sought. If the party against whom relief is sought files a response in such action within 30 days of being served with process in such action, the superior court shall fix a place and time for a hearing on the merits of such action which shall occur no later than 30 days after the date the party against whom relief is sought filed its response. Such court may fix additional hearings at such other times and places as are necessary to decide the action.

(v) In any action brought by the Attorney General to enforce any of the provisions of this chapter or of any rule or regulation issued by the commission, the judgment, if in favor of the commission, shall provide that the defendant pay to the commission the costs, including reasonable attorneys' fees, incurred by the commission in the prosecution of such action.

The commission shall make all such orders that were issued after January 9, 2006, publicly available for review and shall post these and all future orders on the commission's website, and the commission shall make all advisory orders that were issued prior to January 9, 2006, publicly available for review and shall post these orders

on the commission's website. Such orders shall serve as precedent for all future orders and opinions of the commission;"

"(c)(1) Supplemental to any investigatory or enforcement powers provided to the commission in this chapter, if a matter or person that the commission seeks to obtain documentation or information from is located outside the state, the commission may request the person with such documentation or information to make such documentation or information available to the commission or the commission representative to examine at the location where such person, documentation, or information is located.

(2) In the event that a person refuses to comply with a request made pursuant to paragraph (1) of this subsection, the commission may petition that such person be ordered by the superior court to provide the documentation or information sought by the commission. The court shall not order such compliance unless the commission has demonstrated to the satisfaction of the court that the documentation or information under request is pertinent or necessary to further the investigation or enforcement action authorized by this chapter."

SECTION 3.

Said chapter is further amended by revising Code Section 21-5-8, relating to venue, as follows:

"21-5-8.

Venue for prosecution of civil violations of this chapter or for any other action by or on behalf of the commission shall be in the county of the residence of the candidate or public officer at the time of the alleged violation or action, unless the person is not a Georgia resident, in which case venue is in Fulton County."

SECTION 4.

This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval.

A BILL TO BE ENTITLED
AN ACT

To amend Article 4 of Chapter 5 of Title 46 of the Official Code of Georgia Annotated, relating to telecommunications and competition development, so as to authorize certain Tier 2 local exchange companies to elect to become subject to rate of return regulation; to extend the period of time certain distributions can be made from the Universal Access Fund; to require certain information from local exchange companies seeking reimbursement from the fund; to require the total amount of distributions not to exceed $50 million in the aggregate during any single fund year; to provide annual monetary limitations on certain distributions; to require annual reports on the Universal Access Fund; to provide for contents of such report; to provide for a definition; to provide for related matters; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Article 4 of Chapter 5 of Title 46 of the Official Code of Georgia Annotated, relating to telecommunications and competition development, is amended by revising Code Section 46-5-165, relating to alternative regulation of rates, terms, and conditions, as follows:

"46-5-165.

(a) Any Tier 1 local exchange company may elect to have its rates, terms, and conditions for its services determined pursuant to the alternative regulation described in this article, in lieu of other forms of regulation, including, but not limited to, rate of return or rate base monitoring or regulation, upon the filing of notice with the commission and committing to provide basic local exchange services upon reasonable request and to invest $500 million per year for five years to improve and strengthen telecommunications services in ~~Georgia~~ this state; provided, however, that, after the expiration of three years of such investments, the commission shall determine, after notice and opportunity for a Tier 1 local exchange company or other interested parties to be heard, whether such investment commitment should be continued for the remaining two years or whether such commitment should be reduced.

(b) Any Tier 2 local exchange company may elect to have the rates, terms, and conditions for its services determined pursuant to the alternative regulation described in this article

upon the filing of notice with the commission and committing to provide basic local exchange services upon reasonable request.

(c) The alternative regulation under this article shall become effective on the date specified by the electing company but in no event sooner than 30 days after such notice is filed with the commission.

(d) On the date a telecommunications company elects the alternative regulation described in this article, all existing rates, terms, and conditions for the services provided by the electing company contained in the then existing tariffs and contracts ~~are~~ shall be deemed just and reasonable.

(e)(1) As used in this subsection, the term 'eligible Tier 2 local exchange company' means a Tier 2 local exchange company that:

(A) Is not affiliated, directly or indirectly, with any provider serving more than 50,000 access lines nation wide; and

(B) Is responsible for providing basic local exchange services upon reasonable request.

(2) Any eligible Tier 2 local exchange company that is an electing company may elect to become subject to rate of return regulation by certification to the commission of such election no later than August 1, 2026. An eligible Tier 2 local exchange company making such election shall be prohibited from making a subsequent election to have the rates, terms, and conditions for its services determined pursuant to the alternative regulation described in subsection (b) of this Code section prior to August 1, 2031.

(3) Nothing in this subsection shall be construed to limit any election to become subject to rate of return regulation made prior to July 1, 2026."

SECTION 2.

Said article is further amended in Code Section 46-5-166, relating to rates for switched access, by revising subsection (c) as follows:

"(c) Beginning January 1, 2011, and ending December 31, 2015, each Tier 2 local exchange company shall adjust in equal annual increments its intrastate switched access charges to parity with its similar interstate switched access rates. The commission shall have authority to govern the transition of Tier 2 local exchange company switched access rates to their corresponding interstate levels and the commission shall allow adjustment of basic local exchange services or universal access funds, as necessary to recover those revenues, based on calendar year 2008, lost through the concurrent reduction of the intrastate switched access rates. In the event that the rates for switched access cannot be negotiated in good faith between the parties, the commission shall determine the reasonable rates for switched access in accordance with the procedures provided in subsection (b) of this Code section. ~~Any Tier 2 local exchange company that is an electing company may elect to become subject to rate of return regulation by certification to the commission of this election no later than December 31, 2010. A Tier 2 local exchange company making this election is prohibited from making a subsequent election to have the rates, terms, and conditions for its services determined pursuant to the~~

~~alternative regulation described in subsection (b) of Code Section 46-5-165 prior to January 1, 2016.~~"

SECTION 3.

Said article is further amended in Code Section 46-5-167, relating to Universal Access Fund, by revising subparagraph (d)(2)(B) and subsection (e) and by adding new subsections to read as follows:

"(B) Except for those distributions to Tier 2 local exchange companies that have reduced intrastate switched access charges pursuant to subsection (c) of Code Section 46-5-166, distributions to a Tier 2 local exchange carrier subject to rate of return regulation shall also be reduced by the amount per access line, which if added to the carrier's basic local exchange service rate, in accordance with a schedule established by the commission, results in an amount that would be equal to 110 percent of the July 1, 2009, residential state-wide weighted average rate for basic local exchange services imputed across all access lines and adjusted annually for inflation measured by the change in GDP-PI. The commission shall determine any such distributions upon application, demonstration, and good cause shown that the reasonable actual costs to provide basic local exchange services exceed the maximum fixed price permitted for such basic local exchange services~~; any distributions pursuant to this subparagraph shall be limited to a period of no more than 20 years~~.

(e) The commission shall require any local exchange company seeking reimbursement from the fund pursuant to subparagraph (d)(2)(B) of this Code section to file the information reasonably necessary to determine the actual and reasonable costs of providing basic local exchange services. Such information shall include, but not be limited to, the most recent unredacted audited financial reports with any accompanying notes for each company and its parent company. No distribution pursuant to this subsection shall be made for any expense incurred after December 31, 2040."

"(h)(1) Beginning with distributions made for approved costs incurred on or after July 1, 2026, the total amount of distributions from the fund pursuant to this Code section shall not exceed $50 million in the aggregate during any single fund year; provided, however, that, if the total amount of distributions authorized by the commission exceeds the annual monetary limitation, the commission shall reduce distributions on a proportional, pro rata basis so that the total distributions do not exceed such monetary limitation.

(2) For purposes of this subsection, the annual monetary limitation on distributions shall apply only to distributions attributable to costs incurred during fund years beginning on or after July 1, 2026, regardless of the date such distributions are disbursed.

(3) The commission shall continue to administer, review, approve, and disburse distributions as reimbursements for eligible costs incurred prior to July 1, 2026, in accordance with this Code section, without regard to the limitation established in paragraph (1) of this subsection.

(4) Nothing in this subsection shall be construed to impair or delay the payment of any distributions lawfully approved for costs incurred prior to July 1, 2026.

(i) The commission shall submit a written report on December 31, 2026, and every other year thereafter, concerning the Universal Access Fund to the Governor, the Lieutenant Governor, and the Speaker of the House of Representatives. Such report shall be submitted no later than December 31 of every even-numbered year and shall include the following information for the most recently completed Universal Access Fund year:

(1) The total amount of contributions collected for the Universal Access Fund, including the percentage rate charged to consumers for such contributions and the remaining balance of the fund as of the end of the reporting period;

(2) The total amount of fund requests and disbursements made from the Universal Access Fund and notable findings from annual audits;

(3) The total number of access lines providing basic local exchange service in the State of Georgia;

(4) The total number of access lines receiving support from the Universal Access Fund;

(5) The number of eligible local exchange companies receiving distributions from the Universal Access Fund; and

(6) Any other information determined by the commission to be material to describing the financial condition and operation of the Universal Access Fund, so long as such information does not disclose any trade secret or proprietary information of any specific provider."

Governor's Floor Leader

Suite 109 State Capitol
Atlanta, GA 30334

The Honorable Bill Reilly
Clerk of the House
Suite 309 State Capitol
Atlanta, Georgia 30334

Clerk Reilly,

I am sending this letter to reflect my intentions regarding the vote for SB 195 on the House Floor on February 12th, 2026. I originally voted YES to SB 195. Upon reflection, I believe there is a lack of clarity surrounding parental consent requirements for individuals under the age of 18.

For that reason, my intention is to vote NO on SB 195, and I would like this intention reflected in the official record for Vote 511 of the 2025-2026 Legislative Session.

Thank you for your assistance!

Sincerely,

/s/ Will Wade
Representative Will Wade
District 9

Representative Gambill of the 15th asked unanimous consent that the Rules be temporarily suspended in order that a Bill of the House could be introduced, read the first time and referred to the Committee.

The motion prevailed.

Any member retiring with 16 years or more of creditable service shall receive a benefit equal to 66.66 percent, plus 1 percent for each year of creditable service over 16 years, of the member's salary; provided, however, that no member shall receive more than 24 years of creditable service. Any member retiring with less than 16 years of creditable service may retire at a reduced benefit pursuant to Code Section 47-23-103. Except as provided in subsection (c) of this Code section, normal retirement age under this retirement system shall be the date the member has reached 60 years of age, provided that he or she has at least ten years of creditable service. For purposes of Section 402(1) of the federal Internal Revenue Code regarding distributions from governmental plans for health and long-term care insurance for public safety officers, normal retirement age shall be the earliest date when the member has satisfied the requirements for a retirement under this retirement system.

(c) On the effective date of a member's retirement, as provided for in subsection (b) of Code Section 47-23-103, such member's monthly retirement benefit shall be calculated as follows:

(1) If a member is over the age of 65 years on his or her effective date of retirement, or has attained the age of 65 years after his or her effective date of retirement, such member shall receive the full amount of the benefit calculated pursuant to subsection (b) of this Code section; or

(2) If a member has not yet attained the age of 65 years on his or her effective date of retirement, the monthly retirement benefit shall be calculated pursuant to subsection (b) of this Code section using only the years of creditable service attributable to such member's service in any covered position except that of a superior court judge or district attorney.

(d) The board is authorized to provide by rule or regulation for the payment of benefits to members or beneficiaries of the retirement system at a time and under circumstances not provided for in this chapter to the extent that such payment is required to maintain the retirement system as a qualified retirement plan for the purposes of federal income tax laws and regulations."

SECTION 4.

Said chapter is further amended by revising Code Section 47-23-103, relating to retirement based on age and application to retire, as follows:

"47-23-103.

(a) In lieu of retirement at the benefit level provided by Code Section 47-23-102, ~~or~~ 47-23-102.1, or 47-23-102.2, a member may retire at any time after attaining the age of 60 years and after obtaining a minimum of ten years of creditable service. The monthly retirement benefit for such early retirement shall be a percentage of either the benefit under Code Section 47-23-102 if such member first became a member before July 1, 2025, ~~or~~ the benefit under subsection (c) of Code Section 47-23-102.1 if such member first became a member ~~on or after~~ between July 1, 2025, and June 30, 2026, or the benefit under subsection (c) of Code Section 47-23-102.2 if such member first became a member on or after July 1, 2026, and such percentage shall be the proportion which the number of years of creditable service the member has in the retirement system bears to 16.

(b) The effective date of retirement shall be the first day of the month in which the application is received by the board of trustees, provided that no retirement shall, in any case, be effective earlier than the first day of the month following the final month of the applicant's employment. Applications for retirement shall not be accepted more than 90 days in advance of the effective date of retirement."

SECTION 5.

Said chapter is further amended by revising Code Section 47-23-104, relating to disability, determination of benefits, and determining disability, as follows:

"47-23-104.

(a) After obtaining a minimum of four years of creditable service, any member who becomes totally and permanently disabled to the extent that he or she is unable to perform the duties of his or her office shall be entitled to receive a disability retirement benefit which shall be one-half of the maximum retirement benefits provided by Code Section 47-23-102, ~~or~~ 47-23-102.1, or 47-23-102.2 for 16 years of service, unless the member would otherwise qualify for a greater benefit under Code Section 47-23-102 if such member first became a member before July 1, 2025, Code Section 47-23-102.1 if such member first became a member ~~on or after~~ between July 1, 2025, and June 30, 2026, or Code Section 47-23-102.2 if such member first became a member on or after July 1, 2026, or Code Section 47-23-103, in which event the Code section providing the highest benefit would apply.

(b) After obtaining a minimum of ten years of actual service, any member who becomes totally and permanently disabled to the extent that he or she is unable to perform the duties of his or her office shall be entitled to receive a disability retirement benefit which shall be two-thirds of the maximum retirement benefits provided by Code Section 47-23-102 , ~~or~~ 47-23-102.1, or 47-23-102.2.

(c) The disability of any member applying for disability retirement benefits shall be determined by the board in the same manner and under the same procedure as disability of state employees is determined in accordance with the applicable provisions of the Employees' Retirement System of Georgia. Disability retirement benefits shall become effective on the first day of the month following the month the member resigns as a result of the disability."

SECTION 6.

Said chapter is further amended by revising Code Section 47-23-105.1, relating to modification of retirement allowance, as follows:

"47-23-105.1.

(a) The provisions of this Code section shall apply only to persons who become members of this retirement system on or after July 1, 2012.

(b) A member may make a one-time election to convert the retirement allowance otherwise payable to him or her into a modified retirement allowance of equivalent actuarial value and designate a natural person to receive a survivors benefit in accordance with one of the options set forth in paragraphs (1), (2), (3), or (4) of this subsection. Such retirement allowance shall be actuarially reduced in accordance to the designated survivor's projected life span. For any member whose benefit amount is calculated pursuant to Code Section 47-23-102.1 or 47-23-102.2, such actuarial adjustment shall account for any increase in the benefit amount accruing to such member when he or she attains the age of 65 years. Such actuarial adjustment shall be computed upon the basis of the mortality tables and rates of interest last adopted by the board of trustees. Such election may be made only after the member has become eligible to retire and before the first payment of his or her retirement allowance normally becomes due. Such election shall be irrevocable except as otherwise provided in this Code section. The options are:

(1) Option one, known as the 100 percent joint and survivor option, shall consist of a reduced retirement allowance which is payable during the life of the retired member and which, upon his or her death, shall be continued at the same rate throughout the life of and paid to the designated survivor.;

(2) Option two, known as the 66 2/3 percent joint and survivor option, shall consist of a reduced retirement allowance which is payable during the life of the retired member and which, upon his or her death, shall be continued at the rate of two-thirds the reduced retirement allowance throughout the life of and paid to the designated survivor.;

(3) Option three, known as the 50 percent joint and survivor option, shall consist of a reduced retirement allowance which is payable during the life of the retired member and which, upon his or her death, shall be continued at the rate of one-half the reduced retirement allowance throughout the life of and paid to the designated survivor.; and

(4) Option four, known as the pop-up option, shall be the election of options one, two, or three, with the added provision that in the event the designated survivor predeceases the retired member, the retirement allowance payable to the retired member after the death of the designated survivor shall be equal to the maximum retirement allowance which the retired member would have been entitled to receive under this chapter had such election not been made.

(c) In the event a member is not married at the time he or she retires and the retired member does not elect a survivor's option and such member subsequently marries, the retired member may elect to begin receiving an actuarially reduced benefit of equivalent value and establish on behalf of the newly acquired spouse an option under this Code section. Such election shall be made within six months after the marriage.

(d) In the event a retired member makes an election under subsection (b) of this Code section on behalf of a spouse and such spouse predeceases the retired member and the retired member subsequently remarries, the retired member may elect to begin receiving an actuarially reduced benefit of equivalent value and establish on behalf of a new designated survivor pursuant to an option under this Code section.

(e) In the event a retired member makes an election under subsection (b) of this Code section on behalf of a spouse and a final judgment of complete divorce from the spouse is entered, then:

(1) The retired member may elect to continue the optional allowance with the former spouse designated to receive all amounts and benefits upon the death of the retired member; or

(2) The retired member may revoke the appointment of such spouse as a beneficiary; provided, however, that in such event the retirement benefit received by the retired member shall not increase. Such revocation may be made at any time after the entry of the final judgment of divorce. If the retired member elects to revoke the election, the spouse shall be treated in the same manner as if he or she had predeceased the retired member under subsection (d) of this Code section.

(f) If an active vested member of this retirement system dies and is survived by a legal spouse, such spouse shall receive a benefit as if the member ~~has~~ had retired on the date of his or her death, had attained the age of 65, and had elected option three."

SECTION 7.

Said chapter is further amended by revising Code Section 47-23-106, relating to county supplement of salaries, as follows:

"47-23-106.

(a) Whenever any county within a judicial circuit supplements the state salary paid to active superior court judges or the district attorney of said circuit, the governing authority of such county shall be authorized, but not required, to supplement the benefit being paid pursuant to this chapter to any retired superior court judge or district attorney of said circuit who is receiving benefits pursuant to this chapter or to supplement the benefit being paid pursuant to this chapter to any beneficiary of any deceased superior court judge or district attorney.

(b) Whenever any county which has a state court supplements the salary of the judges or solicitors-general of such court, the governing authority of such county shall be authorized, but not required, to supplement the benefit being paid pursuant to this chapter to any retired state court judge of such court who is receiving benefits pursuant to this chapter or supplement the benefit being paid pursuant to this chapter to any beneficiary of any deceased state court judge.

(c) Notwithstanding the provisions of subsection (a) or (b) of this Code section, for any single county judicial circuit where the county site is located in an unincorporated area of the county and the county governing authority has constructed one or more permanent satellite courthouses within the county, said county shall supplement the benefit amount being paid pursuant to this chapter to any district attorney who retired from such circuit.

The amount of the supplement shall be determined by multiplying the benefit percentage he or she earned pursuant to Code Section 47-23-102 if such member first became a member before July 1, 2025, ~~or~~ Code Section 47-23-102.1 if such member first became a member ~~on or after~~ between July 1, 2025, and June 30, 2026, or Code Section 47-23-102.2 if such member first became a member on or after July 1, 2026, at retirement together with the aggregate county salary supplement being paid to the active district attorney on the date that he or she begins receiving a retirement benefit or the supplement paid to the retiring district attorney upon his or her last day of service as district attorney, whichever is greater. The supplement shall not be payable to a spouse or survivor pursuant to the provisions of Code Section 47-23-105."
