If for any reason any of the sums herein provided under any other provision of this Act are insufficient to make the required payments in full, then there shall be taken from other funds appropriated to the department, agency, or institution involved an amount sufficient to satisfy such deficiency in full, and the lease payment shall constitute a first charge on all such appropriations.

Section 56: Budgetary Control and Interpretation
The appropriations in this Act consist of the amount stated in the right-most column, for each line at the lowest level of detail for the fund source categories, "Total State Funds" and "Total Federal Funds," under a caption beginning with a program or special project number (regardless of whether program or special project number has a number higher or lower than 1000 after the decimal) and a program or special project name. In each case, such appropriation is associated with the immediately preceding program or special project name, number, and statement of program or special project purpose. The program or special project purpose is stated immediately below the program or special project name. The most specific level of detail for authorizations for general obligation debt in Section 51 shall be the authorizing paragraphs.

Amounts in the columns other than the right-most column are for informational purposes only. The summary and lowest level of detail for the fund source categories "Total Agency Funds" and "Total IntraState Governmental Transfers," are for informational purposes only. Sections 52, 53, 54 and 55 contain, constitute, or amend appropriations.

Section 57: Flex
Notwithstanding any other statement of purpose, the purpose of each appropriation of federal funds or other funds shall be the stated purpose or any other lawful purpose consistent with the fund source and the general law powers of the budget unit.

In the preceding sentence, "Federal Funds" means any federal funding source, whether specifically identified or not specifically identified; "Other

Funds" means all other fund sources except State Funds or Federal Funds, including without limitation Intra-State Government Transfers. This paragraph shall not permit an agency to include within its flex the appropriations for an agency attached to it for administrative purposes.

For purposes of the appropriations for the "Medicaid: Low-Income Medicaid," "Medicaid: Aged, Blind, and Disabled," and "PeachCare" programs of the Department of Community Health, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

For purposes of the appropriations for the "Capital Construction Projects," "Capital Maintenance Projects," and "Local Road Assistance Administration" programs of the Department of Transportation, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

For purposes of the appropriations for the "Airport Aid," "Ports and Waterways," and "Rail" programs of the Department of Transportation, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 20 percent (20%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the three programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

For purposes of the appropriations for the "HOPE Grant," "HOPE High School Equivalency Exam," "HOPE Scholarships – Private Schools," and "HOPE Scholarships – Public Schools" programs of the Georgia Student Finance Commission, the appropriation of a particular State fund source for each program shall be the amount stated, and each such program shall also be authorized up to an additional amount of 10 percent (10%) of the amount stated. However, if the additional authority is used, the appropriation of the same State fund source for the other programs to that agency shall be reduced in the same amount, such that the stated total in program appropriations from that State fund source for the four programs shall not be exceeded. However, the additional amount shall be from a State fund source which is lawfully available for the program to which it is added.

(ii) When a hearing is required, the hearing officer shall notify the office of the prosecuting attorney who initiated the prosecution of the crime in question at least 30 days prior to the hearing to allow the prosecuting attorney to object to a possible determination that the conviction would not be a bar for the grant or continuation of a license as contemplated by this Code section. If objections are made, the hearing officer shall take such objections into consideration.

(b) The requirements of this Code section are supplemental to any requirements for a license imposed by other applicable Code sections.

37-1-148.

(b)(1) A facility that has obtained an eligible determination on an owner, applicant, or employee in accordance with this article or confirmation that such owner, applicant, or employee has obtained a favorable final administrative review or appeal decision pursuant to Code Section 37-1-147, shall be immune from liability for claims of negligent hiring when such claims are based on the criminal record of such owner, applicant, or employee, even when the information contained in the criminal background check used by the department is later determined to have been incomplete or inaccurate; provided, however, that such immunity shall not preclude the liability of a facility concerning claims based on information beyond the scope of the criminal record and eligible determination about the owner, applicant, or employee of which the facility knew or should have known.

(2) When a facility has obtained an eligible determination on an owner, applicant, or employee, there shall be a rebuttable presumption of due care for claims of negligent hiring, negligent retention, or other similar claims to the extent the claims are based on an owner's, applicant's, or employee's criminal record.

(c) Nothing in this article shall require a facility to conduct any other type of criminal history check of an owner, applicant, or employee, and a facility shall not be held liable for claims of negligent hiring, negligent retention, or other similar claims based solely or in part on its failure to conduct other types of criminal history checks.

(d) Nothing in this article shall be construed to waive the sovereign immunity of the state, the department, or any other entity of the state.

37-1-149.

The department shall promulgate written rules and regulations related to the requirements and implementation of this article, including, but not limited to, establishing percentages
