BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

SECTION 1.

Chapter 3 of Title 31 of the Official Code of Georgia Annotated, relating to county boards of health, is amended by revising Code Section 31-3-11, relating to appointments of director and staff and supervision, as follows:

"31-3-11.

~~(a) The county board of health shall appoint as its chief executive officer a director who shall be a physician licensed to practice medicine under Chapter 34 of Title 43 and who otherwise meets the requirements of the rules of the State Personnel Board. The director, subject to the approval of the county board of health, shall designate aides and assistants pursuant to the budget adopted by the county board of health in accordance with Code Section 31-3-14.~~

~~(b)~~ Each employee of a county board of health whose duties include enforcing those environmental health laws of this state or environmental health regulations of that board of health relating to septic tanks or individual sewage management systems shall be subject to the direction and supervision of the district director of environmental health, although the hiring and termination from employment of such employee shall be subject to the director of that county board of health. The employment activities of such employee with regard to environmental health shall be reported to the director of environmental health through the district director of environmental health at least quarterly. The director of environmental health may recommend to that director of that county board of health personnel actions, including but not limited to termination, which the director of environmental health deems appropriate for such employee's failure or refusal to comply with the direction of the director of environmental health in the carrying out of the environmental health employment duties of such employee. As used in this subsection, the term 'director of environmental health' means the director of environmental health of the Department of Public Health."

SECTION 2.

Said chapter is further amended by revising Code Section 31-3-12, relating to duties of director, as follows:

"31-3-12.

(a) The commissioner shall appoint a district health director for each health district to serve as the chief executive officer of each local health department in that district. The county boards of health of the constituent counties shall, at the call of the commissioner, meet in joint session to approve, by a majority vote, the selection of a director appointed by the commissioner to serve such boards in common. A county board of health is authorized to appoint one of its members to represent the board at a joint meeting for this purpose.

(b) The district health director must meet the requirements and rules of the State Personnel Board and either be licensed to practice medicine under Chapter 34 of Title 43, or if not so licensed, at a minimum, have a master's degree in public health or another related field. If not licensed, the district health director shall select a physician who is licensed to practice medicine under Chapter 34 of Title 43 to serve as the chief medical officer overseeing the clinical programs within local health departments. The district health director may also serve as the chief medical officer if he or she is licensed to practice medicine under Chapter 34 of Title 43 and meets the requirements of the rules of the State Personnel Board. The district health director shall serve under the supervision of the commissioner and is subject to personnel action by the commissioner. The district health director shall designate such personnel necessary for the appropriate performance of duties and proper exercise of powers subject to the budget.

(d) Subject to the policies and directives of the county board of health and the policies and directives of the multiple county districts served, the director shall perform the functions and exercise the powers set forth in this chapter except the power to adopt bylaws and to adopt rules and regulations and may delegate the powers and authority conferred, or any part thereof, to one or more individuals as he or she may deem appropriate. The director shall devote his or her entire time to the service of the county board of health and to the multiple county districts, where created, and shall be vigilant in procuring compliance with its rules and regulations and with Georgia health laws and rules and regulations adopted thereunder that have application within the county and district. He or she shall make reports to the county board of health and the agency in charge of the multiple county district in such manner and form and with such frequency as required by it and shall also report to the department in such manner, detail, and form as the department may specify."

The director for mental health, developmental disabilities, and addictive diseases, or the service supervisor, shall not be required to be a physician and shall be a person other than the director of the county board of health appointed pursuant to Code Section ~~31-3-11~~ 31-3-12. Further, such director for mental health, developmental disabilities, and addictive diseases or such supervisor of the specific service shall report directly to the county board of health and shall have no formal reporting relationship with the director of the county board of health."

Any such public contractor who introduces hazardous chemicals into the workplace shall provide ~~material~~ safety data sheets for such chemicals to all employees using ~~them~~ such hazardous chemicals and instruction in handling, emergency procedures, and disposal prior to introducing such hazardous chemicals. This Code section shall not be construed to place responsibility on any person, firm, or corporation other than public contractors."

SECTION 17.

Said chapter is further amended by revising Code Section 45-22-7, relating to material safety data sheets, notice to employees, and rights of employees, as follows:

"45-22-7.

(a) The manufacturer, importer, or distributor of any hazardous chemical shall prepare a ~~material~~ safety data sheet which, to the best knowledge of the manufacturer, importer, or distributor, is current, accurate, and complete, based on information then reasonably available to the manufacturer, importer, or distributor, and provide a copy of the ~~material~~ safety data sheet to employers who purchase such hazardous chemicals ~~and an electronic copy to the department annually~~ in a written or electronic format. Such safety data sheet shall be maintained by the employer for a period of not less than three years.

(b) Any person who produces a mixture may, for the purposes of this Code section, prepare and use a mixture ~~material~~ safety data sheet, subject to the provisions of subsection (j) of this Code section.

(c) A manufacturer, importer, distributor, or employer may provide the information

required by this Code section on an entire mixture, instead of on each hazardous chemical in it, when all of the following conditions exist:

(1) Toxicity test information exists on the mixture itself or adequate information exists to form a valid judgment of the hazardous properties of the mixture itself and the ~~material~~ safety data sheet indicates that the information presented and the conclusions drawn are from some source other than direct test data on the mixture itself, and that a ~~material~~ safety data sheet on each constituent hazardous chemical identified on the ~~material~~ safety data sheet is available upon request;

(2) Provision of information on the mixture will be as effective in protecting employee health as information on the ingredients;

(3) The hazardous chemicals in the mixture are identified on the ~~material~~ safety data sheet unless it is unfeasible to describe all the ingredients in the mixture, provided that the reason why the hazardous chemicals in the mixture are not identified shall be stated on the ~~material~~ safety data sheet; and

(4) A single mixture ~~material~~ safety data sheet may be provided for more than one formulation of a product mixture if the information provided does not vary for the formulation.

(d) A manufacturer, importer, or distributor who is responsible for preparing and transmitting a ~~material~~ safety data sheet under the provisions of this Code section shall revise such ~~material~~ safety data sheet on a timely basis, as appropriate to the importance of any new information which would affect the contents of the existing ~~material~~ safety data sheet, and in any event within three months of such information becoming available to the manufacturer, importer, or distributor. Each such manufacturer, importer, or distributor shall provide a copy of the ~~material~~ safety data sheet to employers who have purchased such hazardous chemicals ~~and an electronic copy to the department~~ in a written or electronic format. Such safety data sheet shall be maintained by the employer for a period of not less than three years.

(e) Any person subject to the provisions of this Code section shall be relieved of the obligation to provide a direct purchaser of a hazardous chemical with a ~~material~~ safety data sheet if:

(1) He or she has a record of having provided the direct purchaser with the most recent version of the ~~material~~ safety data sheet;

(2) The chemical is labeled pursuant to:

(A) The federal Atomic Energy Act; or

(B) The federal Resource Conservation and Recovery Act; or

(3) The article is one sold at retail and is incidentally sold to an employer or the employer's employees in the same form, approximate amount, concentration, and manner as it is sold to consumers, and, to the seller's knowledge, employee exposure to the article is not significantly greater than the consumer exposure occurring during the principal consumer use of the article.

(f) If an employer is not supplied with a ~~material~~ safety data sheet by a manufacturer, importer, or distributor for a hazardous chemical subject to this Code section, such employer shall, within a reasonable amount of time after discovering that a ~~material~~

safety data sheet has not been supplied, use diligent efforts to obtain such ~~material~~ safety data sheet from the manufacturer, importer, or distributor. For purposes of this ~~subsection~~ Code section, 'diligent efforts' means a prompt inquiry by the employer to the manufacturer, importer, or distributor of the hazardous chemicals; provided, however, that an independent contractor or subcontractor shall be responsible for obtaining the ~~material~~ safety data sheet for his or her employees in the workplace of another.

~~(g)~~ If after having used diligent efforts, an employer still fails to obtain a ~~material~~ safety data sheet, such employer shall notify the department of the employer's inability to obtain such ~~material~~ safety data sheet.

(g) The department shall be authorized to punish any manufacturer, importer, or distributor of a hazardous chemical that violates this Code section by imposition of a monetary penalty not to exceed $1,000.00 for each day that such manufacturer, importer, or distributor of a hazardous chemical subject to this Code section has not provided the employer with the safety data sheet.

(h) An employer who has used diligent efforts and who has made a documented notification to the department pursuant to this Code section shall not be found in violation of this Code section with respect to the ~~material~~ safety data sheet which was not supplied by the manufacturer, importer, or distributor as required by this Code section.

(i) Every employer who manufactures, produces, uses, applies, or stores hazardous chemicals in the workplace shall post a notice ~~as prescribed by rule or regulation promulgated by the department~~ in a place where notices are normally posted, informing employees of their rights under this chapter.

(j) Every employer who manufactures, produces, uses, applies, or stores hazardous chemicals in the workplace shall maintain a ~~material~~ safety data sheet for each hazardous chemical which is present in such workplace. All ~~material~~ safety data sheets shall be readily available in the workplace in a written or electronic format; provided, however, that employers who maintain one or more work areas which are not fixed at specific geographic locations shall be authorized to maintain ~~material~~ safety data sheets for each hazardous chemical used in such work area at a central location.

(k)(1) A ~~material~~ safety data sheet may be kept in any form, including operations procedures, and may be designed to cover groups of hazardous chemicals in a work area where it may be appropriate to address the hazards of a process rather than individual hazardous chemicals. The employer shall ensure that in all cases the required information is provided for each hazardous chemical, and is readily accessible during each workshift to employees when they are in their work area; provided, however, that employers who maintain one or more work areas which are not fixed at specific geographic locations shall be authorized to maintain ~~material~~ safety data sheets for each hazardous chemical used in such work area at a central location.

(2) Any employee may request in writing and shall have the right to examine and obtain the ~~material~~ safety data sheets for the hazardous chemicals to which he or she is, has been, or may be exposed. The employer shall provide any ~~material~~ safety data sheet within its possession within five of the requesting employee's working days, subject to the provisions of subsection ~~(g)~~ (f) of this Code section. The employer may adopt

reasonable procedures for acting upon such requests to avoid interruption of normal work operations.

(3) An independent contractor or subcontractor working in the workplace of another employer may request in writing and shall have the right to examine the ~~material~~ safety data sheets for the hazardous chemicals to which such contractor, subcontractor, or employees thereof are, have been, or may be exposed. The employer shall provide any ~~material~~ safety data sheet within its possession within five of the requesting independent contractor's or subcontractor's working days, subject to the provisions of subsection ~~(g)~~ (f) of this Code section. The employer may adopt reasonable procedures for acting upon such requests to avoid interruption of normal work operations.

(4) If an employee who has requested a ~~material~~ safety data sheet pursuant to this chapter has not received such ~~material~~ safety data sheet within five of the requesting employee's working days, subject to the provisions of subsection ~~(g)~~ (f) of this Code section, that employee may refuse to work with the chemical for which he or she has requested the ~~material~~ safety data sheet until such ~~material~~ safety data sheet is provided by the employer; provided, however, that nothing contained in this paragraph shall be construed to permit any employee to refuse to perform essential services, as such term is defined by rule or regulation; provided, further, that nothing in this paragraph shall be construed to interfere with the right of the employer to transfer an employee who so refuses to work to other duties until such ~~material~~ safety data sheet is provided~~,~~ and such a transfer shall not ~~to~~ be considered ~~as~~ a discriminatory act under Code Section 45-22-10. No pay, position, seniority, or other benefits shall be lost for exercise of any right provided by this chapter as a result of such a transfer.

(l) No employer shall discharge or otherwise discriminate against an employee for the employee's assertion of the employee's rights under this chapter.

(m) For ~~the~~ purposes of this Code section, an employer, independent contractor, or subcontractor shall maintain ~~material~~ safety data sheets for their own workplaces only; provided, however, that employees of such independent contractor or subcontractor, insofar as they are exposed in the course of their employment to hazardous chemicals in other workplaces, shall have the right to examine ~~material~~ safety data sheets for those chemicals to which they are exposed from the workplace employer through a written request to their own employer as provided in paragraph (2) of subsection (k) of this Code section. Nothing contained in this chapter shall be construed to require an employer to conduct studies to develop new information."

SECTION 18.

Said chapter is further amended in Code Section 45-22-8, relating to information and training standards, by revising subsections (a) and (b) as follows:

"(a) Each employer shall be required to comply with the minimum information standards set forth in this subsection. Each employee shall be informed of:

(1) The requirements of this Code section;

(2) What a ~~material~~ safety data sheet is and the contents of the ~~material~~ safety data sheet for any hazardous chemical to which he or she is exposed, or equivalent

information, either in written form or through training programs;

(3) Any operations in his or her work area where hazardous chemicals are present;

(4) The location and availability of training programs;

(5) His or her right to receive information regarding hazardous chemicals to which he or she may be exposed;

(6) His or her right for his or her physician to receive information regarding hazardous chemicals to which the employee may be exposed; and

(7) His or her right against discharge or other discrimination due to the employee's exercise of the rights provided by this chapter.

(b) In addition to providing the information required by subsection (a) of this Code section, each employer shall be required to provide a training program for all employees who are exposed to hazardous chemicals in the normal course of their employment. When training employees who are exposed to hazardous chemicals, the employer shall explain any physical or health hazards associated with the use of the chemical or mixture; proper precautions for handling, necessary personal protective equipment, or other safety precautions necessary to prevent or minimize exposure to the hazardous chemical; methods of observation that may be used to detect the presence or release of a hazardous chemical in a work area, including, but not limited to, spot check monitoring, continuous monitoring, or methods of visual or olfactory detection; the labeling system and the ~~material~~ safety data sheet~~,~~ and how employees can obtain and use the appropriate hazard information; and emergency procedures for spills, fire, disposal, and first aid. This information may relate to an entire class of hazardous chemicals to the extent appropriate and related to the job. Whenever any employer receives a new or revised ~~material~~ safety data sheet, such information shall be provided to employees on a timely basis not to exceed 30 days after receipt, if the new information indicates significantly increased risks to or measures necessary to protect employee health as compared to those stated on a ~~material~~ safety data sheet previously provided."

SECTION 19.

Said chapter is further amended by revising Code Section 45-22-9, relating to publication by employers of list of hazardous chemicals in workplace, as follows:

"45-22-9.

Each employer shall publish, ~~On and after July 1, 1989, each employer shall publish in print or electronically~~ in January and July of each year, a list of hazardous chemicals that its employees use or are exposed to in the workplace. Such list shall be in written or electronic format and available for public inspection at the workplace office. A comprehensive list of all hazardous chemicals used by the employer shall also be available for public inspection at the employer's state headquarters."

(2) If a controller declines to take action regarding the consumer's request, then the controller shall inform the consumer without undue delay, but in all cases within 45 days of receipt of the request, of the justification for declining to take action and instructions for how to appeal the decision pursuant to subsection (c) of this Code section;

(2) Except as otherwise provided in this article, not process personal information for purposes that are beyond what is reasonably necessary to and compatible with the disclosed purposes for which the personal information is processed, as disclosed to the consumer, unless the controller obtains the consumer's consent;

(3) Establish, implement, and maintain reasonable administrative, technical, and physical data security practices, as described in Code Section 10-1-973, to protect the confidentiality, integrity, and accessibility of personal information. The data security practices shall be appropriate to the volume and nature of the personal information at issue;

(4) Not be required to delete information that it maintains or uses as aggregate or de-identified data, provided that such data in the possession of the business is not linked to a specific consumer;

(5) Not process personal information in violation of state and federal laws that prohibit unlawful discrimination against consumers. A controller shall not discriminate against a consumer for exercising the consumer rights contained in this article, including denying goods or services, charging different prices or rates for goods or services, or providing a different level of quality of goods and services to the consumer. However, this paragraph shall not require a controller to provide a product or service that requires the personal information of a consumer that the controller does not collect or maintain, or prohibit a controller from offering a different price, rate, level, quality, or selection of goods or services to a consumer, including offering goods or services for no fee, if the consumer has exercised the right to opt out pursuant to subparagraph (E) of paragraph (2) of subsection (a) of Code Section 10-1-963 or the offer is related to a consumer's voluntary participation in a bona fide loyalty, rewards, premium features, discounts, or club card program; and

(6) Not process sensitive data concerning a consumer without obtaining the consumer's consent, or, in the case of the processing of sensitive data concerning a known child, without processing the data in accordance with the federal Children's Online Privacy Protection Act, as amended, 15 U.S.C. Section 6501 et seq., and its implementing regulations.

(b) A provision of a contract or agreement that purports to waive or limit the consumer rights described in Code Section 10-1-963 is contrary to public policy and is void and unenforceable.

(c) A controller shall provide a reasonably accessible, clear, and meaningful privacy notice that includes:

(1) The categories of personal information processed by the controller;

(2) The purpose for processing personal information;

(3) How consumers may exercise their consumer rights pursuant to Code Section 10-

1-963, including how a consumer may appeal a controller's decision with regard to the consumer's request;

(4) The categories of personal information that the controller sells to third parties, if any; and

(5) The categories of third parties, if any, to whom the controller sells personal information.

(d) If a controller sells personal information to third parties or processes personal information for targeted advertising, then the controller shall clearly and conspicuously disclose the processing, as well as the manner in which a consumer may exercise the right to opt out of the processing.

(e)(1) A controller shall provide, and shall describe in a privacy notice, one or more secure and reliable means for a consumer to submit a request to exercise the consumer rights described in Code Section 10-1-963. Such means shall take into account the:

(A) Ways in which a consumer normally interacts with the controller;

(B) Need for secure and reliable communication of such requests; and

(C) Ability of a controller to authenticate the identity of the consumer making the request.

(2) A controller shall not require a consumer to create a new account in order to exercise the consumer rights described in Code Section 10-1-963, but may require a consumer to use an existing account.

10-1-965.

(a) A processor shall adhere to the instructions of a controller and shall assist the controller in meeting its obligations under this article. The assistance provided by the processor shall include:

(1) Taking into account the nature of processing and the information available to the processor, by appropriate technical and organizational measures, insofar as reasonably practicable, to fulfill the controller's obligation to respond to consumer rights requests pursuant to Code Section 10-1-963; and

(2) Providing necessary information to enable the controller to conduct and document data protection assessments pursuant to Code Section 10-1-966.

(b) A contract between a controller and a processor governs the processor's data processing procedures with respect to processing performed on behalf of the controller. The contract shall be binding and shall clearly set forth instructions for processing data, the nature and purpose of processing, the type of data subject to processing, the duration of processing, and the rights and obligations of both parties. The contract shall also include requirements that the processor shall:

(1) Ensure that each person processing personal information is subject to a duty of confidentiality with respect to the data;

(2) At the controller's direction, delete or return all personal information to the controller as requested at the end of the provision of services, unless retention of the personal information is required by law;

(d) Determining whether a person is acting as a controller or processor with respect to a specific processing of data is a fact based determination that depends upon the context in which personal information is to be processed. (b) Data protection assessments conducted pursuant to subsection (a) of this Code section shall identify and weigh the benefits that may flow, directly and indirectly, from the processing to the controller, the consumer, other stakeholders, and the public against the potential risks to the rights of the consumer associated with the processing, as mitigated by safeguards that can be employed by the controller to reduce the risks. The use of de-identified data and the reasonable expectations of consumers, as well as the context of

the processing and the relationship between the controller and the consumer whose personal information will be processed, shall be factored into this assessment by the controller.

(c) The Attorney General may request pursuant to a civil investigative demand that a controller disclose a data protection assessment that is relevant to an investigation conducted by the Attorney General, and the controller shall make the data protection assessment available to the Attorney General. The Attorney General shall evaluate the data protection assessment for compliance with the responsibilities set forth in Code Section 10-1-964. Such data protection assessments shall be confidential and shall not be open to public inspection and copying under Article 4 of Chapter 18 of Title 50, relating to open records.

(d) A single data protection assessment may address a comparable set of processing operations that include similar activities.

(3) Comply with an authenticated consumer rights request, pursuant to Code Section 10-1-963, if:

(A) The controller is not reasonably capable of associating the request with the personal information or it would be unreasonably burdensome for the controller to associate the request with the personal information;

(B) The controller does not use the personal information to recognize or respond to the specific consumer who is the subject of the personal information, or associate the personal information with other personal information about the same specific

consumer; and

(C) The controller does not sell the personal information to a third party or otherwise voluntarily disclose the personal information to a third party other than a processor, except as otherwise permitted in this Code section.

(c) The consumer rights described in Code Sections 10-1-963 and 10-1-964 shall not apply to pseudonymous data in cases where the controller is able to demonstrate information necessary to identify the consumer is kept separately and is subject to effective technical and organizational controls that prevent the controller from accessing that information.

(6) To construct, erect, acquire, own, repair, remodel, maintain, add to, extend, improve, equip, operate, and manage projects, as hereinabove defined, to be located on property owned by or leased by the authority, the cost of any such project to be paid in whole or in part from the proceeds of revenue bonds of the authority or from such proceeds and any grant from the United States of America or any agency or instrumentality thereof;

(7) To accept loans, grants of money, or materials, or property of any kind from the United States of America or any agency, or instrumentality thereof upon such terms and conditions as the United States of America or such agency or instrumentality may impose.

(8) To borrow money for any of its corporate purposes and to issue negotiable revenue bonds payable solely from funds pledged for that purpose, and to provide for the payment of the same and for the rights of the holders thereof;

(9) To exercise any power usually possessed by private corporations performing similar functions, which is not in conflict with this charter, the Constitution, and laws of this state; and

(10) To do all things necessary or convenient to carry out the powers expressly given in this charter.

(f) The authority, or any authority or body which has or which may in the future succeed to the powers, duties, and liabilities vested in the authority created hereby, shall have power and is hereby authorized at one time, or from time to time, to provide by resolution for the issuance of negotiable revenue bonds, for the purpose of paying all or any part of the cost as defined of any one or more projects. The principal and interest of such revenue bonds shall be payable solely from the special fund in this section provided for such payment. The bonds of each issue shall be dated, shall bear interest at such rate or rates not exceeding the maximum limit prescribed in the Revenue Bond Law, Code Section 36-82-60 of the O.C.G.A. et seq., or any amendment thereto, shall be payable semiannually, shall mature at such time or times not exceeding 30 years from their date or dates, shall be payable in such medium of payment as to both principal and interest as may be determined by the authority, and may be made redeemable before maturity, at the option of the authority at such price or prices and under such terms and conditions as may be fixed by the authority in the resolution providing for the issuance of the bonds. Such revenue bonds or obligations shall be issued pursuant to and in conformity with the Revenue Bond Law, Code Section

36-82-60 of the O.C.G.A. et seq., and all procedures pertaining to such issuance and the conditions thereof shall be the same as those contained in said Revenue Bond Law and any amendments thereto.

(g) The authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest thereof which may be at any bank or trust company within or without the state. The bonds may be issued in coupon or registered form or both, as the authority may determine, and provision may be made for the registration of any coupon bond as to the principal alone and also as to both the principal and interest.

(h) In case any officer whose signature shall appear on any bonds or whose facsimile signature shall appear on any coupon shall cease to be an officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes the same as if or she had remained in office until such delivery. All such bonds shall be signed by the chairperson of the authority and attested by the secretary and treasurer of the authority and the official seal of the authority shall be affixed thereto and any coupons attached thereto shall bear the facsimile signatures of the chairperson and secretary and treasurer of the authority. Any bond may be signed, sealed, and attested on behalf of the authority by such persons as at the actual time of the execution of such bonds shall be duly authorized or hold the proper office, although at the date of delivery and payment of such bonds such persons may not have been so authorized or shall not have held such office.

(i) All revenue bonds issued under the provisions of this section shall be fully negotiable for all purposes and shall have and are hereby declared to have all of the qualifications of negotiable instruments under the laws of the state. Such bonds are declared to be issued for an essential public and governmental purpose and the said bonds and the income thereof shall be exempt from all taxation within the state.

(j) The authority may sell such bonds in such manner and for such price as it may determine to be for the best interest of the authority.

(k) The proceeds of such bonds shall be used solely for the payment of the cost of the project or projects, and unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture, additional bonds may in like manner be issued to provide the amount of any deficit, which unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose. If the proceeds of the bonds of any issue shall exceed the amount required for the purpose for which such bonds are issued, the surplus shall be paid into such funds as may be provided in the resolution authorizing the issuance of the bonds or in the trust indenture.

(l) Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts, interim certificates, or temporary bonds, with or without coupons exchangeable for definitive bonds upon the issuance of the latter.

(m) The authority may also provide for the replacement of any bond which shall become mutilated or be destroyed or lost.

(n) Such revenue bonds may be issued without any other proceedings. In the discretion of the authority, revenue bonds of a single issue may be issued for the purpose of any particular project. Any resolution, providing for the issuance of revenue bonds upon the provisions hereof, shall become effective immediately upon its passage and need not be published or posted, and any such resolution may be passed at any regular or special or adjourned meeting of the authority by a majority of the quorum as provided in this chapter.
(o) Revenue bonds issued by the authority hereunder shall not be deemed to constitute a debt of the City of Dalton, Georgia, nor of any municipality, county, authority, or political subdivision of the State of Georgia or instrumentality of the United States government which may contract with such authority. No contracts entered into by the authority with any such municipality, county, authority, or political subdivision of the State of Georgia or instrumentality of the United States government shall create a debt of the respective municipalities, counties, authorities, or political subdivisions of the State of Georgia within the meaning of Article IX, Section V, Paragraph I of the Constitution of the State of Georgia, but any such municipality, county, authority, or political subdivision of the State of Georgia may obligate itself to pay the payments required under such contracts from monies received from taxes and from any other source without creating a debt within the meaning of Article IX, Section V, Paragraph I of the Constitution of the State of Georgia.
(p) In the discretion of the authority, any issue of such revenue bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the state. Such trust indenture may pledge or assign fees, tolls, revenues, and earnings to be received by the authority, including the proceeds derived from the sale from time to time of any surplus property of the authority, both real and personal. Either the resolution providing for the issuance of revenue bonds or such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the acquisition of property, the construction of the project, the maintenance, operation, repair and insurance of the property, and the custody, safeguarding, and application of all monies, including the proceeds derived from the sale of property of the authority, both real and personal, and may also provide that any project shall be constructed and paid for under the supervision and approval of consulting engineers, architects employed or designated by the authority, and satisfactory to the original purchasers of the bonds issued therefor and may also require that the security given by contractors and by any depository of the proceeds of the bonds, revenues, or other monies be satisfactory to such purchasers, and may also contain provisions concerning the conditions, if any, upon which additional revenue bonds may be issued. It shall be lawful for any bank or trust company incorporated under the laws of this state to act as such depository and to furnish such indemnifying bonds or pledge such securities as may be required by the authority. Such indenture may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action of bondholders as is customary in trust indentures securing bonds and debentures of corporations. In addition to the foregoing, such trust indenture may contain such other

provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation, and repair of the project affected by such indenture.

(q) The authority shall, in the resolution providing for the issuance of revenue bonds or in the trust indenture, provide for the payment of the proceeds of the sale of the bonds to any officer or person who or any agency, bank, or trust company which shall act as trustee of such funds and shall hold and apply the same to the purposes hereof, subject to such regulations as are herein provided and such regulations as may be provided in such resolution or trust indenture.

(r) The revenues, fees, tolls, and earnings derived from any particular project or projects, regardless of whether or not such fees, earnings, and revenues were produced by a particular project for which bonds have been issued and any monies derived from the sale of any properties, both real and personal of the authority, unless otherwise pledged and allocated, may be pledged and allocated by the authority to the payment of the principal and interest on revenue bonds of the authority as the resolution authorizing the issuance of the bonds or in the trust instrument may provide, and such funds so pledged from whatever source received, which said pledge may include funds received from one or more or all sources, shall be set aside at regular intervals as may be provided in the resolution or trust indenture, into a sinking fund which said sinking fund shall be pledged to and charged with the payments of:

(1) The interest upon such revenue bonds as such interest shall fall due;

(2) The principal of the bonds as the same shall fall due;

(3) The necessary charges of paying agent or agents for paying principal and interest; and

(4) Any premium upon bonds retired by call or purchase as hereinabove provided.

The use and disposition of such sinking fund shall be subject to such regulations as may be provided in the resolution authorizing the issuance of the revenue bonds or in the trust indenture, but, except as may otherwise be provided in such resolution or trust indenture, such sinking fund shall be a fund for the benefit of all revenue bonds without distinction or priority of one over another. Subject to the provisions of the resolution authorizing the issuance of the bonds or in the trust indenture surplus monies in the sinking fund may be applied to the purchase or redemption of bonds and any such bonds so purchased or redeemed shall forthwith be cancelled and shall not again be issued.

(s) Any holder of revenue bonds issued under the provisions hereof or any of the coupons appertaining thereto, and the trustee under the trust indenture, if any, except to the extent the rights herein given may be restricted by resolution passed before the issuance of the bonds or by the trust indenture, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect, and enforce any and all rights under the laws of the State of Georgia or granted hereunder such resolution or trust indenture, and may enforce and compel performance of all duties required herein or by such resolution or trust indenture, to be performed by the authority, or any officer thereof, including the fixing, charging, and collecting of revenues, fees, tolls, and other charges for the use of the facilities and services

furnished.

(t) The authority is hereby authorized to provide by resolution for the issue of revenue bonds of the authority for the purpose of refunding any revenue bonds issued under the provisions hereof and then outstanding, together with accrued interest thereon. The issuance of such revenue refunding bonds, the maturities and all other details thereof, the rights of the holders thereof, and the duties of the authority in respect to the same, shall be governed by the foregoing provisions hereof insofar as the same may be applicable.

(u) Any action to protect, or enforce any rights under the provisions of this section or any suit or action against such authority shall be brought in the superior court of Whitfield County, Georgia, and any action pertaining to validation of any bonds issued under the provisions of this section shall likewise be brought in said court which shall have exclusive, original jurisdiction of such actions.

(v) Bonds of the authority shall be confirmed and validated in accordance with the procedure of the Revenue Bond Law, Code Section 36-82-60 of the O.C.G.A., et seq. The petition for validation shall also make party defendant to such action any municipality, county, authority, subdivision, or instrumentality of the State of Georgia or the United States government or any department or agency of the United States government, if subject to be sued, which has contracted with the authority for the services and facilities of the project for which bonds are to be issued and sought to be validated and such municipality, county, authority, subdivision, or instrumentality shall be required to show cause, if any, why such contract or contracts and the terms and conditions thereof should not be inquired into by the court and the validity of the terms thereof be determined and the contract or contracts adjudicated as security for the payment of any such bonds of the authority. The bonds when validated and the judgment of validation shall be final and conclusive with respect to such bonds, against the authority issuing the same, and any municipality, county, authority, subdivision, or instrumentality of the United States government, if a party to the validation proceedings, contracting with the said The City of Dalton Building Authority.

(w) While any of the bonds issued by the authority remain outstanding, the powers, duties, or existence of said authority or of its officers, employees, or agents shall not be diminished or impaired in any manner that will affect adversely the interest and rights of the holders of such bonds, and no other entity, department, agency, or authority will be created which will compete with the authority to such an extent as to affect adversely the interest and rights of the holders of such bonds, nor will the state itself so compete with the authority. The provisions of this section shall be for the benefit of the authority and the holders of any such bonds, and upon the issuance of bonds under the provisions hereof, shall constitute a contract with the holders of such bonds.

(x) All monies received pursuant to the authority hereof, whether as proceeds from the sale of revenue bonds, as grants, or other contributions, or as revenues, income, fees, and earnings shall be deemed to be trust funds to be held and applied solely as provided for herein.

(y) It is hereby declared that the authority will be performing an essential governmental function in the exercise of the power conferred upon it hereunder and that the authority shall be required to pay no taxes or assessments upon any of the property acquired by it or

under its jurisdiction, control, possession, or supervision, or upon its activities in the operation and maintenance of the buildings erected or acquired by it or any fees, rentals, or other charges for the use of such buildings, or other income received by the authority.
(z) The authority shall have the same immunity and exemption from liability for torts and negligence as the State of Georgia has and the officers, agents, and employees of the authority when in performance of the work of the authority shall have the same immunity and exemption from liability for torts and negligence as the officers, agents, and employees of the State of Georgia. The authority may be sued in the same manner as private corporations may be sued on any contractual obligation of the authority.
(aa) The property of the authority shall not be subject to levy and sale under legal process except such property, revenue, income, or funds as may be pledged, assigned, mortgaged, or conveyed to secure an obligation of the authority, and any such property, revenue, funds, or income may be sold under legal process or under any power granted by the authority to enforce payment of the obligation.
